**New Windeyer Exploration Licence Application**

**24 August 2007**

**ASX Code : HEG, HEGO**

---

Hill End Gold wish to announce that the company has applied for an Exploration Licence (ELA3260) over the Windeyer historic goldfield area, which is adjacent to the Hargraves and Hill End Project areas in New South Wales, Australia.

Windeyer is located on a mineralised structure similar to the Hill End Anticline, which hosts the Hill End and Hargraves Projects.

Very little modern exploration has been done on the Windeyer area.
