

[FOR IMMEDIATE RELEASE]

**CHINA WIRELESS TECHNOLOGIES SIGNS
WORLDWIDE SMARTPHONE TECHNOLOGY LICENSING AGREEMENT WITH
QUALCOMM
UPGRADE HANDSETS TO MATCH 3G CDMA STANDARD**

(Hong Kong, 10 February 2006) – China Wireless Technologies Limited (“China Wireless Technologies” or the “Group”) (stock code: 2369), China’s leading developer and marketer of wireless system solutions and smartphones, announced that its wholly-owned subsidiary, Yulong Computer Telecommunications Scientific (Shenzhen) Co., Ltd. (“Yulong”), has signed a worldwide smartphone technology licensing agreement with QUALCOMM Incorporated (“QUALCOMM”) (NASDAQ: QCOM), the Nasdaq-listed digital wireless communications products and services developer and provider.

Pursuant to the multi-million US dollar, royalty bearing agreement, QUALCOMM will grant Yulong a worldwide license to use its patented CDMA portfolio to develop, manufacture and sell smartphones adopting 3G CDMA standards (such as CDMA2000® 1X/1xEV-DO, WCDMA/UMTS). The royalties payable by Yulong are at QUALCOMM’s standard rates, which will be the same regardless of the CDMA standard adopted. The amount of royalties will be calculated based on the number of 3G CDMA standard smartphones Yulong sold.

Mr. Guo Deying, Chairman of China Wireless Technologies, said, “This licensing agreement will enable China Wireless Technologies to develop and market competitive 3G products to meet the growing demand for enhanced wireless devices. We are actively preparing to tap the anticipated huge market demand in China for 3G technology-enabled communication products. We look forward to working with QUALCOMM, the leading developer and supplier of CDMA technology, to promote the adoption of 3G technology in China and worldwide. ”
