BLUGLASS LIMITED BROADCAST

BLUGLASS LIMITED (BLG) provides the opportunity to listen to an audio broadcast with **CEO Mr. Giles Bourne**, in a presentation titled "**BluGlass wins \$4.96M govt backing for solar cell project – Mr. Giles Bourne, CEO**".

To listen, please visit the Boardroom Radio Website and search under the ASX Code: BLG

The presentation details are as follows:

- ***BluGlass wins \$4.96M govt backing for solar cell project - Mr Giles Bourne, CEO***
- ***Powered by Mr Giles Bourne, CEO***
- ***Mon, 26 Oct 2009 11:30AM AEST***

Boardroom Radio offers many free services, such as:

- Boardroom Radio Alerts
- Easy access to archived presentations on demand
- Podcast subscription with daily updates

About BluGlass: BluGlass Limited is an Australian green technology company developed to commercialise a breakthrough in the Semiconductor Industry. BluGlass has invented a new process using Remote Plasma Chemical Vapour Deposition (RPCVD) to grow semiconductor materials such as gallium nitride (GaN) and indium gallium nitride (InGaN), crucial to the production of high efficiency devices such as next generation lighting technology Light Emitting Diodes (LEDs) with significant low cost potential. BluGlass, through its subsidiary, BluSolar is now exploring the process' viability in photovoltaic (solar) applications. The BluGlass process is a low temperature and low cost technology with the potential for inherent scalability.
