# Investor Half Day <br> Net Interest Margin (NIM) <br> Sustainability of Dividend 

Marten Touw

Group Treasurer

19 October 2004

## Disclaimer

The material that follows is a presentation of general background information about the Bank's activities current at the date of the presentation, 19 October 2004. It is information given in summary form and does not purport to be complete. It is not financial product advice and is not intended to be relied upon as advice to investors or potential investors. It does not take into account the investment objectives, financial situation or needs of any particular investor.

## Net Interest Margin

## Half on Half Group NIM

## NIM Drivers

1. Non Lending Interest Earning Assets
2. Wholesale Funding
3. Lending Mix
4. Capital Transactions
> hybrid issuance
> share issuance
> share buyback
5. The Yield Curve
> cash: bills
> change in replicating effect
6. Asset Prices
> housing
> personal
> business
7. Deposit Prices
> at call deposits
> term deposits

## Non Lending Interest Earning Assets

| Deposit Prices (change in deposit product margin) | $0.01 \%$ | $-0.01 \%$ |
| Required Change in Group NIE (\$m) | $\$ 22 \mathrm{~m}$ | $-\$ 22 \mathrm{~m}$ |

## Sustainability of Dividend

## Sustainability of Dividend

Sustainability of the Dividend Payout Ratio (DPR) is related to:

- Cash Profit
- Current and expected rates of business growth and the mix of business
- Capital needs to support economic, regulatory and credit ratings requirements
- The rate of return on assets
- Investments and/or divestments to support business development

Subject to current market conditions continuing:

- Over the three years 2004-2006 we expect to deliver increases in DPS each year

## Generation and Use of Capital

## Dividend and Buy-Back History

- Increases in DPS each year
- Buy-backs regularly used to enhance EPS and increase ROE
- \$4.3bn of shares bought back since privatisation

## ACE and the Dividend Payout Ratio

- ACE is sensitive to the rate of business growth and business mix
- DPR represents total annual dividends as a proportion of cash profit less preference share dividends

| RWA Growth <br> Scenarios | Maximum FY05 DPR to <br> maintain 4.5\% ACE ratio |  |
| :---: | :---: | :---: |
|  | Assuming 0\% <br> Cash NPAT <br> growth | Assuming 5\% <br> Cash NPAT <br> growth |
|  | $95 \%$ | $95 \%$ |
| $8 \%$ | $89 \%$ | $89 \%$ |
| $10 \%$ | $83 \%$ | $84 \%$ |
| $12 \%$ | $77 \%$ | $78 \%$ |
| $15 \%$ | $68 \%$ | $70 \%$ |

1. Relates to Colonial merger.
2. FY04 Dividend Payout Ratio of $89.1 \%$ is based on Cash Profit (i.e. after Which New Bank costs). FY04 DPR is $73.9 \%$ based on Cash Profit with WnB costs added back.
