Dear Sir/Madam,

**Business as Usual at Chatree Mine**

Reports of political demonstrations in Bangkok have no affect on the Chatree mine operations in central Thailand, 280 km north of Bangkok.

The Chatree mine has operated for over eight years since its opening and no stoppages have occurred due to any political changes.

The operation remains on track to deliver on its production forecast of 150,000 ounces gold for the calendar year Jan-Dec 2009.

We continue to review closely the political developments in Thailand.
