DIRECTORS REPORT & FINANCIAL REPORT

FOR THE YEAR ENDED 30 JUNE 2014

CORPORATE INFORMATION

Directors

Chairman:	Ross Smyth-Kirk
Non-Executive Director:	Peter Alexander
Non-Executive Director:	Craig Carracher
Non-Executive Director:	Peter McAleer
Non-Executive Director:	Peter Warren (appointed 1 July 2014)

Company Secretary

Ross Coyle

Chief Executive Officer

Geoff Day (commences 8 September 2014)

Stock Exchange Listing

Kingsgate Consolidated Limited is a Company limited by shares, listed on the Australian Stock Exchange under the code KCN. The Company's shares also trade in the United States of America over-the-counter (OTC) as an American Depository Receipt (ADR) under the code OTC: KSKGY.

Registered Office and Principal Business Address

Kingsgate Consolidated Limited

Suite 801, Level 8, 14 Martin Place
Sydney, NSW 2000, Australia

DIRECTORS' REPORT

Your Directors present their report on the Group consisting of Kingsgate Consolidated Limited and the entities it controlled at the end of, or during the year ended 30 June 2014.

DIRECTORS

The following persons were Directors of Kingsgate Consolidated Limited during the whole of the financial year and up to the date of this report:

Ross Smyth-Kirk	Non-Executive Chairman
Peter Alexander	Non-Executive Director
Craig Carracher	Non-Executive Director
Peter McAleer	Non-Executive Director
Peter Warren	Non-Executive Director (appointed 1 July 2014)
Gavin Thomas	Executive Director (resigned 1 June 2014)

PRINCIPAL ACTIVITIES

The principal activities of Kingsgate Consolidated Limited are mining and mineral exploration in Australia, South East Asia and South America.

DIVIDENDS

Dividends paid to members during the financial year were as follows:

	2014 \$'000	2013 \$'000
No final dividend was declared for the year ended 30 June 2013	-	15,148
No interim dividend was declared for the year ended 30 June 2014	-	7,590
Total dividends	-	22,738

REVIEW OF OPERATIONS AND RESULTS

Operational Performance

Kingsgate is a gold mining, development and exploration company based in Sydney, Australia. Kingsgate owns and operates two gold mines; the world class Chatree Mine in Thailand and the underground Challenger Mine in South Australia. In addition, the Company has two advanced development projects; the Nueva Esperanza Silver / Gold Project, in the highly prospective Maricunga Gold / Silver Belt in Chile, and the Bowdens Silver Project in New South Wales, Australia.

Group gold production was 209,500 ounces, an increase of 5% on the previous corresponding year. The contribution from Chatree was 134,546 ounces with 74,954 ounces from Challenger.

Chatree gold production was 1% higher than the previous corresponding year mainly as a result of an increase in throughput from the combined Chatree process plants despite lower gold grade and recovery.

Challenger gold production was 13% higher than the previous corresponding year with higher gold grade and recovery more than offsetting lower throughput. During the year the transition to a new mine plan focusing primarily on the higher grade Challenger West ore body was completed.

The after tax loss of \$96.3 million for the year is primarily due to a non-cash impairment charge of \$84.6 million against the carrying value of the Bowdens Silver Project. The Board believes that the Bowdens Project remains an important asset in the Kingsgate development portfolio, however, in accordance with current accounting

standards Kingsgate is required to assess the carrying value of its operating and development projects within a set valuation framework (refer to Note 5 for further detail).

The development projects continued to advance during the year. At Nueva Esperanza, the Definitive Feasibility Study ("DFS") was completed for a project based on heap leach and on-site power generation. The results of the study support the technical viability and financial robustness of the project. At Bowdens, the feasibility work focused on mine planning, infrastructure and metallurgy and has confirmed the optimum process route. Work will now focus on completion and lodgement of the Environmental Impact Statement ("EIS") by the end of calendar year 2014.

Chatree continued as Kingsgate's primary production asset throughout the year, producing 134,546 ounces of gold and 992,255 ounces of silver. The process plant treated 6.2 million tonnes at a head grade of 0.86 grams per tonne ("g/t") with a recovery of 79.4%. The strong production performance was achieved despite poor equipment availability within the mining contractor's fleet, particularly with the RH90 excavators. This is being addressed by the implementation of a number of joint maintenance improvement projects between our contractor and their main maintenance supplier.

The process plant performed well during the year with total mill throughput of 6.2 million tonnes, 9.4% higher than 2013. The overall plant availability of 97.5% was slightly lower than the previous year's 98.1%. The operating throughput of the combined process plants of around 6.2 million tonnes per annum, is some 24% above the annual "nameplate" throughput rate of 5.0 million tonnes per annum and is expected to continue to operate at this rate.

Total cash costs for the year were US\$728 per ounce (US\$617 per ounce exclusive of Thai royalties). The average royalty paid to the Thai Government was \$US111 per ounce of gold. Total production costs after depreciation and amortisation were US\$979 per ounce of gold produced.

At year end, 9.7 million tonnes of ore was stockpiled with an average contained gold grade of 0.54 g/t representing 167,359 ounces of gold.

The Challenger Mine produced 74,964 ounces of gold for the year with an average grade processed of 4.78 g/t and a total cash cost of US\$1,310 per ounce.

Significant milestones were achieved at Challenger with the transition to the Challenger West mine plan and a change of underground mining services contractor. Both measures had a significant impact on reducing the operating cost per ounce of gold produced.

The mine head grade increased over the 2014 year following the move to 100% Challenger West ore by the end of the December quarter. However, higher than planned dilution in the production stopes resulted in mine head grades underperforming against the reserve grade.

The mining service contractor was changed to Byrncut on 1 August 2013. This had a positive impact on safety, cost and mine productivity. This has allowed production levels and development rates to remain at historic levels whilst reducing the underground workforce by around 33%.

The Nueva Esperanza Silver / Gold Project advanced during the year with the completion of a DFS to mine and process the Arqueros, Chimberos and Teterita deposits. The study confirmed that open pit mining and processing via heap leach is technically feasible and economically viable.

The key conclusions of the study were based on processing three million tonnes of ore by heap leach to produce 6.3 million ounces of silver and 17,900 ounces of gold per annum, on average, for over six years. The initial capital cost, based on contract mining, is estimated at US\$140 million with average operating costs of US\$27.65 per tonne or US\$9.55 per ounce of silver (including gold as a by-product credit).

The existing environmental approvals for Nueva Esperanza were granted in July 2013 for the original Arqueros project. A modification of the approval has been lodged to incorporate the heap leach process, on-site power generation and additional waste dumps and open cut mining for Chimberos and Teterita.

The Bowdens Project continued to advance during the year with field programs supporting the feasibility and environmental studies.

Major elements of the feasibility study have been completed encompassing detailed process design based on using the most recent metallurgical test results, capital and operating cost estimates, infrastructure requirements and mine optimisation. Work is continuing on two of the more detailed studies required for the Environmental Impact Statement ("EIS"), the proposed route for the 132kv transmission line and ground and surface water studies. Progress in these two key areas will underpin the work already undertaken in other EIS study areas such as, air, ecology, noise, soils and visual amenity.

The preparation for lodgement of an EIS to the NSW Department of Planning continues. Data for flora and fauna, surface water, groundwater, meteorology, ambient noise and dust levels are collected routinely. Further investigations of cultural heritage, social-economic impact, traffic impact, soil type and agricultural suitability have also been undertaken.

With the fall in metal prices in late 2013, work and expenditure on the DFS and EIS have been phased to coordinate the two programs with completion and lodgement of the EIS now expected by the end of calendar year 2014.

Exploration

The Group has a portfolio of exploration tenements and applications in Australia, Thailand, Chile and Lao PDR.

There was a significant reduction in exploration activity during the year with a re-focusing of priorities that matched corporate context and resources. Some encouraging results were recorded from gold exploration at the Sayabouly project in Lao PDR where initial and follow-up trenching has continued to identify high grade quartz veins with channel sample results including 5 metres at 6.7 grams per tonne gold, 4.0 metres at 7.5 grams per tonne gold.

FINANCIAL RESULTS

Kingsgate made an after tax loss of \$96.3 million for the full year to 30 June 2014 compared to an after tax loss of \$326.3 million for the previous corresponding year.

	2014	2013	2012	2011	2010
	\$'000	\$'000	\$'000	\$'000	\$'000
Net (loss) / profit after tax (\$'000)	(96,291)	(326,271)	75,006	20,879	73,066
Dividends paid (Cash & DRP) (\$'000)	-	22,739	22,026	33,647	29,082
Share price 30 June (\$)	0.86	1.27	4.85	8.00	9.47
Basic (loss) / earnings per share (Cents)	(55.9)	(215.0)	52.5	18.7	75.2
Diluted (loss) / earnings per share (Cents)	(55.9)	(215.0)	52.5	18.6	74.5

EBITDA before significant items

Before pre-tax significant items, the pre-tax loss of the Group was \$5.2 million. Pre-tax significant items are detailed below.

EBITDA before significant items was \$66.4 million down from \$118.6 million in the previous year.

CONSOLIDATED	2014	2013
	\$'000	Restated \$'000
Loss before tax	(93,405)	(342,775)
Significant items (pre-tax)		
Foreign exchange (gain) / loss	(2,595)	745
Write off of capitalised borrowing fees following loan refinancing	-	5,722
Realised gain on delivery against hedge contracts	(1,175)	-
Change in fair value of undesignated gold contracts held for trading	369	(1,414)
Change in fair value of available-for-sale financial assets	284	855
Share of loss in associate	413	1,353
Loss on sale of exploration assets (Quadrio Resources Limited)	-	16,709
Divestment transaction costs	4,246	1,111
Impairment of Challenger Gold Project	-	311,850
Impairment of Bowdens Silver Project	84,586	-
Impairment of capitalised exploration	2,112	20,421
Impairment of associate	-	537
(Loss) / Profit before tax and significant items	(5,165)	15,114
Borrowing costs	13,860	13,087
Depreciation and amortisation	57,741	90,377
EBITDA before significant items	66,436	118,578

EBITDA before significant items is a financial measure which is not prescribed by International Financial Reporting Standards ("IFRS") and represents the profit under IFRS adjusted for specific significant items. The table above summarises key items between statutory profit before tax and EBITDA before significant items. The EBITDA before significant items has not been subject to any specific auditor review procedures by our auditor but has been extracted from the accompanying audited financial statements.

Revenue

Gold revenue increased by 0.7% to \$305.2 million and silver revenue decreased by 11.9% to \$23.2 million. Total sales revenue for the Group was \$328.3 million for the year, down 0.3% from the previous year.

The increase in gold revenue reflects an increase in gold sold from both Chatree and Challenger offset by a lower gold price.

The average US\$ gold price received was US\$1,291/oz (2013: US\$1,588/oz). The decrease in silver revenue reflects a lower silver price received of US\$21/oz (2013: US\$28/oz).

Costs

The overall increase in cost of sales to \$301.9 million including royalties and depreciation and amortisation, largely reflects increased throughput and production from the Chatree Mine due to the expanded Chatree process plant. On a unit cost basis, total cash costs for the Group were US\$936/oz up from \$US888/oz in the previous year. The total unit cash costs for Challenger for the year were US\$1,310/oz (2013: US\$1,135/oz), with the increase due to expensing of direct mine development costs applicable to Challenger Mine. The total unit cash costs for Chatree for the year were US\$728/oz down from US\$767/oz in 2013.

Depreciation and amortisation

The decrease in depreciation and amortisation to \$57.7 million is mainly a result of the asset impairment of the Challenger assets in the 2013 financial year which resulted in a lower depreciation charge against the Challenger

asset. This lower charge offset the effect of a full year of depreciation for Chatree Plant #2 and amortisation of the capital cost of the Chatree Tailings Storage Facility #2.

Cash flow

Operating cash inflow was \$37.2 million. Net investing cash outflow was \$43.5 million. Net cash inflows from financing activities was \$30.9 million, including a drawdown of \$26.1 million of the convertible revolving credit loan facility net of transaction costs, repayment of \$51.6 million of the corporate loan facility and convertible revolving credit facility and proceeds from an equity raising of \$56.5 million net of costs.

MATERIAL BUSINESS RISKS

The Group uses a range of assumptions and forecasts in determining estimates of production and financial performance. There is uncertainty associated with these assumptions that could result in actual performance differing from expected outcomes.

The material business risks that may have an impact on the operating and financial prospects of the Group are:

Revenue

Revenue, and hence operating margins are exposed to fluctuations including currency in the gold price and to a degree in the silver price. Management continually monitors operating margins and responds to changes to commodity prices as necessary to address this risk, including reviewing mine plans and entering into forward gold sale contracts.

Changes in the gold and silver price also impact assessments of the feasibility of exploration and the Group's two development projects, Nueva Esperanza and Bowdens.

Mineral reserves and resources

Ore reserves and mineral resources are estimates. These estimates are substantially based on interpretations of geological data obtained from drill holes and other sampling techniques. Actual mineralisation or geological conditions may be different from those predicted and as a consequence, there is a risk that any part, or all of mineral resources will not be converted into reserves.

Market price fluctuations of gold and silver as well as increased production and capital costs, may render ore reserves unprofitable to develop at a particular site for periods of time.

Replacement of depleted reserves

The Group aims to continually replace reserves depleted by production to maintain production levels over the long term. Reserves can be replaced by expanding known ore bodies, locating new deposits or making acquisitions.

As a result, there is a risk that depletion of reserves will not be offset by discoveries or acquisitions. The mineral base may decline if reserves are mined without adequate replacement and as a consequence the Group may not be able to sustain production beyond the current mine lives, based on current production rates.

Mining risks and insurance risks

The mining industry is subject to significant risks and hazards, including environmental hazards, industrial accidents, unusual or unexpected geological conditions, unavailability of materials and unplanned equipment failures. These risks and hazards could result in significant costs or delays that could have a material adverse impact on the Group's financial performance and position.

The Group maintains insurance to cover some of these risks and hazards at levels that are believed to be appropriate for the circumstances surrounding each identified risk. However, there remains the possibility that the level of insurance may not provide sufficient coverage for losses related to specific loss events.

Production and cost estimates

The Group prepares estimates of future production, cash costs and capital costs of production for each operation though there is a risk that such estimates will not be achieved. Failure to achieve production, cost estimates or material increases in costs could have an adverse impact on future cash flows, profitability, results of operations and financial position.

Environmental, health and safety regulations

The Group's mining and processing operations and exploration activities are subject to extensive laws and regulations. Delays in obtaining, or failure to obtain government permits and approvals may adversely affect operations, including the ability to continue operations.

Community relations

The Group has established community relations functions that have developed a community engagement framework, including a set of principles, policies and procedures designed to provide a structured and consistent approach to community activities.

A failure to appropriately manage local community stakeholder expectations may lead to disruptions in production and exploration activities.

Risk management

The Group manage the risks listed above, and other day-to-day risks through an established management framework. The Group has policies in place to manage risk in the areas of health and safety, environment and equal employment opportunity.

Management and the Board regularly review the risk portfolio of the business and the effectiveness of the Group's management of those risks.

FINANCE

At the end of the year Kingsgate's drawn debt facilities consisted of:

Senior corporate facility

The balance of the senior corporate loan facility outstanding is \$35 million which consists of two tranches:

- Tranche A is an amortising loan facility with a balance of \$10 million to be repaid during the 2015 financial year.
- Tranche B is an \$25 million Akara Resources PCL ("Akara") Pre-IPO Bond with a maturity date of 31 July 2015. The current intention is for this tranche to be repaid from proceeds raised through the Akara IPO although at Kingsgate's election repayment can be made by Kingsgate either in cash or Kingsgate shares.

Multi-currency, syndicated loan facility

Kingsgate's Thai operating subsidiary, Akara Resources PCL ("Akara"), has an amortising multi-currency loan facility with 4.5 years remaining. It is currently drawn to the equivalent of \$111.2 million, following the commencement of quarterly repayments in November 2013. Akara also has an additional undrawn Thai Baht denominated working capital facility equivalent to \$16 million.

Hedging

As at 30 June 2014, the Group has 12,000 ounces of gold sold forward at an average price of approximately A\$1,406 per ounce. This is scheduled to be delivered over the September 2014 quarter as part of the mitigation of Australian gold price risk and is associated with forecast production from the Challenger Mine. In addition there is a residual forward sale from the Dominion merger with 2,500 ounces at A\$1,163 per ounce remaining. Since the end of the year a further 22,000 ounces of gold have been sold forward for delivery during the December 2014 half year at a price of A\$1,419 per ounce.

Significant change in the state of affairs

There were no significant changes in the state of affairs of the Group that occurred during the financial year not otherwise disclosed in this report or the consolidated financial statements.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

No other matter or circumstance has arisen since 30 June 2014 that has significantly affected, or may significantly affect:

- the Group's operations in future financial years;
- the results of those operations in future financial years; or
- the Group's state of affairs in future financial years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

The outlook for the Group in fiscal year 2015 is for gold production to be in the range of 195,000 to 215,000 ounces. At the Chatree Mine in Thailand, gold production is expected to be between 130,000 to 140,000 ounces. At the Challenger Mine in South Australia production for the year is expected to be in the range of 65,000 ounces to 75,000 ounces of gold.

Following completion of the DFS at Nueva Esperanza in Chile, additional environmental approvals were required to be submitted and the approvals are expected to take around six months. During this time optimisation work on mining, infrastructure and metallurgy will continue. In addition, exploration drilling of gold targets at Chimberos and three satellite prospects is scheduled to commence in early September.

The major elements of the DFS for the Bowdens Silver Project in New South Wales were completed during the year. The current work program at Bowdens is focused on the completion and lodgement of an EIS by the end of the 2014 calendar year.

Kingsgate has lodged a draft prospectus with Thai authorities for the listing of its Thai operating subsidiary, Akara Resources PCL, via an IPO on the Stock Exchange of Thailand. The Board of Kingsgate is fully committed to the IPO and following approval of the offer document, Kingsgate will have 12 months to initiate this. The actual timing of the listing will depend on market conditions and other factors following the approval of the offer document.

ENVIRONMENTAL REGULATION

The Group is subject to environmental regulation in respect to its gold mining operations and exploration activities in Australia, Thailand, Chile and Lao PDR. For the year ended 30 June 2014, the Group has operated within all environmental laws.

DIRECTORS' MEETINGS

The numbers of meetings of the Company's Board of Directors and of each Board Committee held during the year ended 30 June 2014, and the numbers of meetings attended by each Director were:

Director	Board Meetings		Audit Committee Meetings		Nomination Committee Meetings		Remuneration Committee Meetings	
	A	B	A	B	A	B	A	B
R Smyth-Kirk	15	15	3	3	1	1	4	4

B: Meetings attended

INFORMATION ON DIRECTORS

Ross Smyth-Kirk, B Com, CPA, F Fin

Chairman – Non-Executive

Ross Smyth-Kirk was a founding Director of the former leading investment management company, Clayton Robard Management Limited and has had extensive experience over a number of years in investment management including a close involvement with the minerals and mining sectors. He has been a Director of a number of companies over the past 34 years in Australia and the UK. Mr. Smyth-Kirk was previously Chairman of the Australian Jockey Club Limited and retired in May 2013 as a Director of Argent Minerals Limited.

Responsibilities:

Chairman of the Board, member of the Audit Committee and Chairman of the Remuneration Committee and Nomination Committee.

Peter McAleer, B Com (Hons), Barrister-at-Law (Kings Inns – Dublin, Ireland)

Non-Executive Director

Peter McAleer was until the end of May 2013, the Senior Independent Director and Chairman of the Audit Committee of Kenmare Resources PLC (Ireland). He is now a member of the Advisory Panel to the Board of Kenmare. Previously, he was Chairman of Latin Gold Limited, Director and Chief Executive Officer of Equatorial Mining Limited and was a Director of Minera El Tesoro (Chile).

Responsibilities:

Member of the Audit Committee, Remuneration Committee and Nomination Committee.

Craig Carracher, LLB (Sydney), BCL (Oxford)

Non-Executive Director

Craig Carracher graduated from Sydney University Law School with an LLB (First Class Honours) (1991) and the University Medal and also graduated on a Commonwealth Scholarship with a BCL Law Degree from Magdalen College, Oxford University (First Class Honours) (1993). He has considerable commercial experience in Asia and was managing partner of an international law firm based in Thailand for many years. Mr. Carracher has held numerous directorships of listed and private groups throughout Asia. He was previously Group General Counsel with Consolidated Press Holdings Limited, Managing Director of Asian private equity firm Arctic Capital based in Hong Kong, Special Advisor to the Chairman of the Australian Securities and Investment Commission and

Associate to the former Chief Justice of the Supreme Court of New South Wales. Mr Carracher is Managing Director of Telopea Capital Partners, an Asia focussed private equity group based in Sydney. Mr Carracher is also a Non-Executive Director of the ASX listed Sunland Group Limited.

Responsibilities:

Chairman of the Audit Committee, member of the Nomination and Remuneration Committees (resigned from each of these committees effective 1 July 2014).

Peter Alexander, Ass. Appl. Geol
Non-Executive Director

Peter Alexander has had 41 years' experience in the Australian and off-shore mining and exploration industry. He was Managing Director of Dominion Mining Limited for 10 years prior to his retirement in January 2008. Mr. Alexander was appointed a Non-Executive Director of Dominion Mining Limited in February 2008 and resigned on 21 February 2011. Mr. Alexander is Chairman of the ASX listed company Doray Minerals Limited, a Director of ASX listed companies Fortunis Resources Limited and Caravel Minerals Limited.

Responsibilities:

Member of the Remuneration Committee.

Peter Warren, B Com, CPA
Non-Executive Director (appointed 1 July 2014)

Peter Warren was the Chief Financial Officer and Company Secretary of Kingsgate Consolidated Limited for six years up until his retirement in 2011. He is a CPA of over 40 years standing, with an extensive involvement in the resources industry. He was Company Secretary and Chief Financial Officer of Equatorial Mining Limited and of the Australian subsidiaries of the Swiss based Aluisse Group and has held various financial and accounting positions for Peabody Resources and Hamersley Iron. Mr. Warren is a Director of Kingsgate's wholly owned subsidiary, Akara Resources Public Company Limited.

Responsibilities:

Chairman of the Audit Committee (appointed 1 July 2014), member of the Nomination and Remuneration Committees effective 1 July 2014.

Gavin Thomas, BSc FAusIMM
Managing Director (resigned 1 June 2014)

Gavin Thomas had a successful career in developing mining companies from the exploration phase into mid-tier gold and / or copper production entities. He had over 43 years of international experience in exploring for, evaluating, developing, operating and reclaiming mines in North America, South America, Australia, the Southwest Pacific, Asia and Europe. Amongst other things he was credited with the discovery of the Lihir gold deposit in Papua New Guinea, one of the largest gold deposits in the world. In particular he had extensive experience in Thailand, south-west Pacific and South America. Mr. Thomas was previously Chairman of the TSX listed company Mercator Minerals and Chairman of the formerly ASX listed company Laguna Resources NL.

Responsibilities:

Managing Director and Chief Executive Officer.

Ross Coyle BA, FCPA, FGIA
Company Secretary

Before joining Kingsgate Consolidated Limited Mr. Coyle was Finance Director and Company Secretary of Dominion Mining Limited.

REMUNERATION REPORT

Dear Shareholder

I am pleased to present our Remuneration Report for 2014.

During the 2014 financial year, the Company's remuneration practices have reflected the market conditions in which we operate. No salary increases or bonuses were paid at our Australian based operations and increases in Thailand were relatively modest compared with historical practice. As such, you will see that many remuneration arrangements remain unchanged from the 2013 financial year report.

For a majority of the period, Directors and senior management voluntarily reduced their salaries / fees by 10%. At the Challenger Mine in South Australia, all employees also voluntarily reduced their salaries by 10% from 1 February 2014 to the end of the financial year.

Benchmarking of salaries for all roles has been undertaken to ensure that we remain a competitive employer in the market while continuing to meet all legislative and regulatory requirements.

A specific review of the existing Long Term Incentive ("LTI") program for Key Management Personnel ("KMP") was externally commissioned, the recommendations and outcomes of which are detailed in this report.

We are confident our remuneration practices are sound, market competitive and demonstrate a clear link between executive and shareholder returns. Our discipline in this area has been combined with significant change management initiatives to ensure that cost reductions within our business have been in line with market conditions.

We will continue to consider your feedback as shareholders and review our remuneration policies and framework to meet future market changes.

Thank you for your interest in this report.

Ross Smyth-Kirk
Chairman
Remuneration Committee

INTRODUCTION

This Remuneration Report forms part of the Directors' Report. It outlines the Remuneration Policy and framework applied by the Company as well as details of the remuneration paid to Key Management Personnel ("KMP"). KMP are defined as those persons having the authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including Directors and members of Executive Management.

The information provided in this report has been prepared in accordance with s300A and audited as required by section 308 (3c) of the *Corporations Act 2001*.

The objective of the Company's remuneration philosophy is to ensure that Directors and senior staff are remunerated fairly and responsibly at a level that is competitive, reasonable and appropriate, in order to attract and retain suitably skilled and experienced people.

Voting and comments made at the Company's 2013 AGM

The table below provides a summary of the Board's action and / or comments in response to concerns raised by shareholders at the 2013 AGM in relation to remuneration.

Concern	Action or Comment
Key issues raised were: <ul style="list-style-type: none">a lack of understanding of the TSR Alpha™ concept recommended as the LTI performance assessment process.	The Remuneration Committee noted continuing confusion over the TSR Alpha™ concept as the methodology for assessment of Long Term Incentive ("LTI") performance measurement. As indicated, the Committee engaged an independent remuneration specialist to review the existing practices, the results are detailed later in this report.

REMUNERATION POLICY

The Remuneration Policy remains unchanged from last financial year and has been designed to align the interests of shareholders, Directors, and employees. This is achieved by setting a framework to:

- help ensure an applicable balance of fixed and at-risk remuneration, with the at-risk component linking incentive and performance measures to both Group and individual performance;
- provide an appropriate reward for Directors and Executive Management to manage and lead the business successfully and to drive strong, long-term growth in line with the Company's strategy and business objectives;
- encourage executives to strive for superior performance;
- facilitate transparency and fairness in executive remuneration policy and practices;
- be competitive and cost effective in the current employment market; and
- contribute to appropriate attraction and retention strategies for Directors and executives.

In consultation with external remuneration consultants, the Group has structured an executive remuneration framework that is market competitive and complimentary to the business strategy of the organisation.

The framework is intended to provide a mix of fixed and variable remuneration, with a blend of short and long-term incentives as appropriate. As executives gain seniority within the Group, the balance of this mix shifts to a higher proportion of "at risk" rewards (refer to chart – Reward Mix on page 14).

REMUNERATION GOVERNANCE

Role of the Remuneration Committee

The Remuneration Committee is a committee of the Board and has responsibility for setting policy for determining the nature and amount of emoluments of Board members and senior executives. The Committee makes recommendations to the Board concerning:

- Non-Executive Director fees;
- remuneration levels of Executive Directors and other Key Management Personnel;
- the executive remuneration framework and operation of the incentive plan;
- key performance indicators and performance hurdles for the executive team; and
- the engagement of specialist external consultants to design or validate methodology used by the Company to remunerate Directors and employees.

In forming its recommendations the Committee takes into consideration the Group's stage of development, remuneration in the industry and performance. The Corporate Governance Statement provides further information on the role of this committee.

Remuneration Consultants

The Group engages the services of independent and specialist remuneration consultants from time to time. Under the *Corporations Act 2001*, remuneration consultants must be engaged by the Non-Executive Directors and reporting of any remuneration recommendations must be made directly to the Remuneration Committee.

The Remuneration Committee engaged the services of the Godfrey Remuneration Group Pty Ltd during 2014 to review its remuneration practice revisions and to provide further validation in respect of both the executive short-term and long-term incentive plan design methodology and standards. These recommendations covered the remuneration of the Group's Non-Executive Directors and Key Management Personnel.

Under the terms of the engagement, the Godfrey Remuneration Group Pty Ltd provided remuneration recommendations as defined in section 9B of the *Corporations Act 2001* and was paid \$13,420 in financial year 2014 for these services. The Company did not pay Godfrey Remuneration Group Pty Ltd any further fees in relation to other services.

The Godfrey Remuneration Group Pty Ltd has confirmed that the above recommendations have been made free from undue influence by members of the Group's Key Management Personnel.

The following arrangements were implemented by the Remuneration Committee to ensure that the remuneration recommendations were free from undue influence:

- the Godfrey Remuneration Group Pty Ltd was engaged by, and reported directly to, the Chair of the Remuneration Committee. The agreement for the provision of remuneration consulting services was executed by the Chair of the Remuneration Committee under delegated authority on behalf of the Board; and
- any remuneration recommendations by the Godfrey Remuneration Group Pty Ltd were made directly to the Chair of the Remuneration Committee.

As a consequence, the Board is satisfied that the recommendations contained in this report were made free from undue influence from any members of the Group's Key Management Personnel.

EXECUTIVE DIRECTOR AND KEY MANAGEMENT PERSONNEL REMUNERATION

The executive pay and reward framework is comprised of three components:

- fixed remuneration including superannuation;
- short-term performance incentives; and
- long-term incentives through participation in the Executive Rights Plan.

Reward Mix

The below chart represent the remuneration reward mix for the various Key Management Personnel based on achievement of all stretch targets.

*The above reward mix remains unchanged from financial year 12/13 due to there being no increase in salaries or any STI's being paid to executives. Additionally the Total Fixed Remuneration shown and subsequent relativities are based on contracted base salary / superannuation payment rates. The actual paid base salary component was reduced by 10% for a majority of the financial year 13/14 for these executives.

Fixed remuneration

Total fixed remuneration ("TFR") is structured as a total employment cost package, including base pay and superannuation. Base pay may be delivered as a mix of cash, statutory and salary sacrificed superannuation, and prescribed non-financial benefits at the executive's discretion.

Executives are offered a competitive base pay. Base pay for senior executives is reviewed annually to ensure their pay is competitive with the market. An executive's pay is also reviewed on promotion. During the financial year 13/14 there were no executive promotions or any increases made to fixed remuneration.

Director's fees and senior management base salaries were reduced by 10% for a majority of the period.

The AON Hewitt / McDonald survey continues to be the primary benchmarking tool for assessment payment relativity for all roles throughout the business with the Godfrey Remuneration Group used to validate rates for specific roles as required.

With Director's fees reduced by 10%, overall Non-Executive Director Remuneration remains below the ASX 101-200 average and a majority of peer group companies.

The Board annually reviews and determines the fixed remuneration for the CEO / Managing Director. The CEO / Managing Director does the same for his direct reports. The Executive Management group reviews and recommends fixed remuneration for other senior management, for the CEO / Managing Director's approval. There are no guaranteed increases to fixed remuneration incorporated into any senior executives' agreements.

The following summarises the performance of the Group over the last five years:

	2010	2011	2012	2013	2014
Revenue ('000s)	175,480	172,356	357,372	329,282	328,326
Net profit / (loss) after income tax ('000s)	73,066	20,879	75,006	(326,271)	(96,291)
Share price at year end (\$ / share)	9.47	8.00	4.85	1.27	0.86
Dividends paid (cent / share)	35.0	15.0	20.0	5.0	Nil
KMP short term employee benefits	2,943	4,459	4,456	4,671	4,328

Short-Term Incentives

Linking current financial year earnings of executives to their performance and the performance of the Group is the key objective of our Short Term Incentive ("STI") plan. The Board set key performance measures and indicators for individual executives on an annual basis that reinforce the Group's business plan and targets for the year.

Key features of the STI Plan remain unchanged from financial year 12/13 and are outlined in the table on the following page.

Overview of the STI Plan

What is the STI plan and who participates?	The STI Plan is a potential annual reward for eligible executive key management personnel for achievement of predetermined individual key performance indicators (KPIs) aligned to the achievement of business objectives for the assessment period (financial year commencing 1 July).
How much can the executives earn under the STI Plan?	<p>Threshold - Represents the minimum acceptable level of performance that needs to be achieved before any Individual Award would be payable in relation to that Performance Measure.</p> <p>Managing Director / CEO - up to 15% of TFR. COO & CFO - up to 12.5% of TFR. Other Key Management Personnel - up to 10% of TFR.</p> <p>Target - Represents a challenging but achievable level of performance relative to past and otherwise expected achievements. It will normally be the budget level for financial and other quantitative performance objectives.</p> <p>Managing Director / CEO - up to 30% of TFR. COO & CFO - up to 25% of TFR. Other Key Management Personnel - up to 20% of TFR.</p> <p>Stretch (Maximum) - Represents a clearly outstanding level of performance which is evident to all as a very high level of achievement.</p> <p>Managing Director / CEO - up to 60% of TFR. COO & CFO - up to 50% of TFR. Other Key Management Personnel - up to 40% of TFR. ("TFR" - Total Fixed Remuneration)</p>
Is there Board discretion in the payment of an STI benefit?	Yes, the plan provides for Board discretion in the approval of STI outcomes.
What are the performance conditions?	For Key Management Personnel between 70% - 80% of potential STI weighting (dependent upon role) is assessed against specific predetermined KPIs by role with 20% - 30% being based on company performance indicators.
How are performance targets set and assessed?	<p>Individual performance targets are set by the identification of key achievements required by role in order to meet business objectives determined for the upcoming assessment period in advance. The criteria for Key Management Personnel are recommended by the Managing Director / CEO for sign off by the Remuneration Committee and in the case of the Managing Director / CEO, are recommended by the Chairman by sign off by the Remuneration Committee.</p> <p>The relative achievement at the end of the financial period is determined by the above authorities with final sign off by the Remuneration Committee after confirmation of financial results and individual / company performance against established criteria.</p> <p>The Remuneration Committee is responsible for assessing whether the KPIs are met. To assist in this assessment, the committee receives detailed reports on performance from management which are verified by independent remuneration consultants if required. The committee has the discretion to adjust STIs in light of unexpected or unintended circumstances.</p>
How is the STI delivered?	STIs are paid in cash after the conclusion of the assessment period and confirmation of financial results / individual performance and subject to tax in accordance with prevailing Australian tax laws.
What happens in the event of cessation of employment?	Executives are required to be employed for the full 12 months of the assessment period before they are eligible to be considered to receive benefits from the STI plan.

Long-term incentives

The Kingsgate Long Term Incentive ("LTI") plan is also referred to as the Executive Rights Plan. The objectives of the LTI Plan are to retain key executives and to align an at-risk component of certain executives' remuneration with shareholder returns.

Key features of the LTI Plan are outlined in the table as follows:

Overview of the LTI Plan

What is the LTI Plan and who participates?	Kingsgate executives can be granted Kingsgate Consolidated Limited rights each year, although an award of rights does not confer any entitlement to receive any subsequent awards. In awarding rights the Board takes into account such matters as the position of the eligible person, the role they play in the Company, their current level of fixed remuneration, the nature of the terms of employment and the contribution they make to the Group. Currently only members of the Executive Management group and key site based operational senior management are eligible to participate in the LTI plan.
What is awarded under the LTI Plan?	Two types of rights are offered under the LTI Plan: Deferred Rights and Performance Rights.
How much can the executives earn under the LTI Plan?	Managing Director / CEO - up to 45% of TFR as Performance Rights only. COO / CFO / Executive Management - up to 12.5% of TFR as Deferred Rights and additionally, up to 12.5% of TFR as Performance Rights.
What are the performance and vesting conditions?	Deferred Rights - vesting is time based (3 years after the granting of the deferred right). Performance Rights - refer to Vesting Schedule for Performance Rights later in this report.
Is there a cost to participate?	The rights are issued for nil consideration and are granted in accordance with performance guidelines established by the Remuneration Committee and approved by the Board.
What are the specific performance / vesting criteria?	Deferred Rights are subject to three year vesting periods. There are no performance conditions attached to the Deferred Rights. Performance Rights are subject to a three year performance measurement period from 1 July in the year when the grant occurs.
How does the LTI vest?	Performance Rights vest subject to the achievement of a hurdle based on total shareholder return. Further information on the vesting scale is below.
Is the LTI subject to retesting?	There is no retesting of either the Deferred Rights or Performance Rights.
What criteria are used for assessment and who assesses performance?	Performance is assessed against a TSR Alpha™ measure prescribed in the Vesting Schedule for Performance Rights later in this report. The Remuneration Committee signs off performance assessment based on recommendations by the Managing Director / CEO with advice from Godfrey Remuneration Group Pty Ltd in terms of TSR Alpha™ relative performance.
Is this criteria intended to be used for future years?	No, the Board has endorsed the application of TSR Alpha™ for financial year 12/13 and 13/14 executive performance rights but has approved a shift to financial year 14/15 performance rights being measured against the S&P/ASX All Ordinaries Gold (AUD) index (gold production only and to include dividends paid), resulting from a review of recommendations by the Godfrey Remuneration Group.
How is the LTI delivered?	On vesting the first \$1,000 value of each of the Deferred Rights and Performance Rights awards is paid in cash, e.g. if both Deferred and Performance Rights vested at the same time then the participant would receive two x \$1,000 with the remaining value of the award received as shares in the Company as per below. Number of shares = (number of vested rights x share price on vesting date – \$2,000) ÷ share price on vesting date.
What happens in the event of bonus shares, rights issues or other capital reconstructions?	If between the grant date and the date of conversion of vested rights into cash and restricted shares there are bonus shares, rights issues or other capital reconstructions that affect the value of Kingsgate Consolidated shares, the Board may subject to the ASX Listing Rules make adjustments to the number of Rights and / or the vesting entitlements to ensure that holders of rights are neither advantaged or disadvantaged by those changes.
Takeover or Scheme of Arrangement?	Unvested rights vest in the proportion that the share price has increased since the beginning of the vesting period. All vested rights need to be exercised within three months of the takeover.
What happens in the event of cessation of employment?	Unvested rights are forfeited on dismissal for cause. In all other termination circumstances any unvested rights granted in the year of the cessation of employment are forfeited in the proportion that the remainder of the year bears to a full year. Unvested rights that are not forfeited are retained by the participant and are subsequently tested for vesting at the end of the vesting period.

Vesting schedule for performance rights to be issued for financial year 14/15

Following a review by the Remuneration Committee of recommendations by the Godfrey Remuneration Group, the Board has approved the assessment of relative Total Shareholder Return "TSR" of Kingsgate against S&P / ASX All Ordinaries Gold (AUD) index of companies, as represented in Diagram 1. The Board chose to replace the TSR Alpha™ measurement with this new measure to:

- provide a genuine measure of performance by senior management against companies operating in the same market segment;
- retain the key values of the previous TSR Alpha™ measure which is to only reward senior management for over performance;
- retain a focus on performance from an investors perspective albeit within a defined market segment; and
- create a simple and easy system to interpret for management and shareholders alike.

Vesting schedule for Performance Rights issued for financial year 12/13 and financial year 13/14

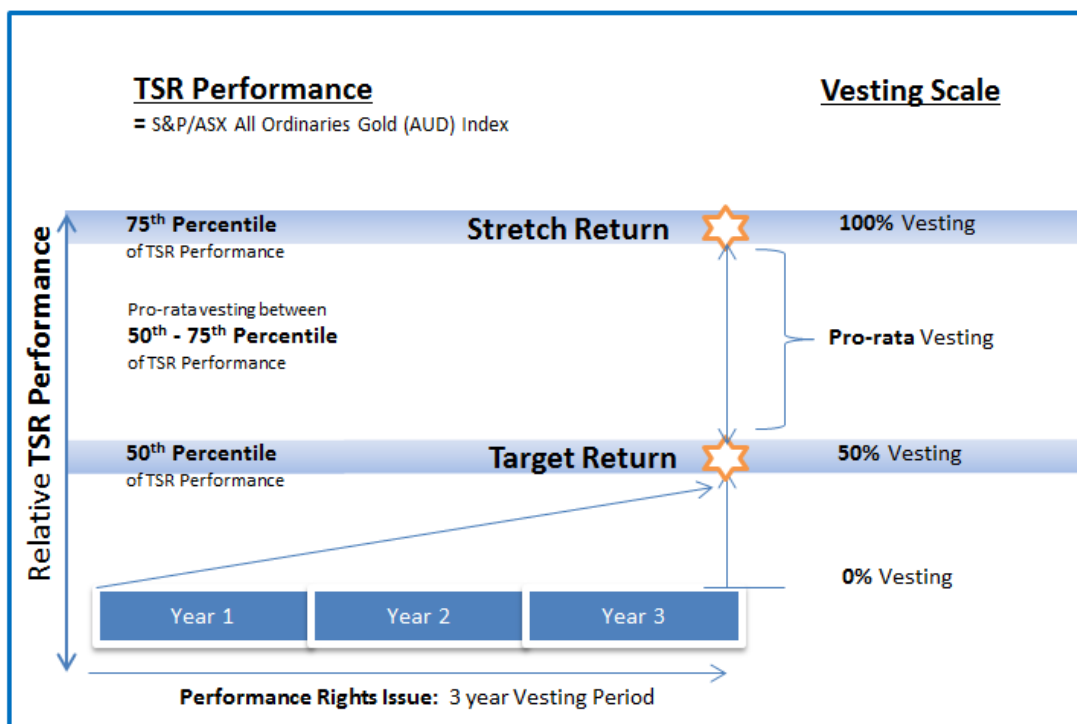

These Performance Rights continue to be subject to a hurdle that is derived for the three year vesting period using the external performance measuring metric, TSR Alpha™.

Total Shareholder Return measures the percentage return received by a shareholder from investing in a company's shares over a period of time. Broadly, it is share price growth plus dividends over the period. TSR Alpha™ takes into account market movement over the vesting period and the additional return (risk premium) that shareholders expect from the share market performance over the vesting period. In essence it measures whether shareholders have received a return over the period that is consistent with their expectations (TSR Alpha™ of zero) or more or less.

Executive Performance Rights Vesting Scale for financial year 14/15

The following diagram provides an overview of the Performance Rights Vesting Scale to be applied to financial year 14/15 performance rights issue.

Diagram 1

Directors and Key Management Personnel details

Except where noted, the named persons held their current positions for the whole of the year and up to the date of this report.

Non-executive Directors

Ross Smyth-Kirk	Non-Executive Chairman
Peter McAleer	Non-Executive Director
Craig Carracher	Non-Executive Director
Peter Alexander	Non-Executive Director
Peter Warren	Non-Executive Director (appointed 1 July 2014)

Executive Director

Gavin Thomas	Managing Director and Chief Executive Officer (resigned 1 June 2014)
--------------	--

Senior Executives

Tim Benfield	Chief Operating Officer
Duane Woodbury	Chief Financial Officer (resigned 2 July 2014)
Ron James	General Manager Exploration and Resource Development
Ross Coyle	General Manager Finance and Administration and Company Secretary
Joel Forwood	General Manager Corporate and Markets
Brett Dunstone	General Manager Human Resources
Michael Monaghan	Chief Operating Officer and General Manager - Akara Resources PCL

Changes since the end of the reporting period

Peter Warren was appointed to the position of Non-Executive Director effective 1 July 2014. Duane Woodbury resigned from the position of Chief Financial Officer effective 2 July 2014.

Contract terms of the Executive Directors and Key Management Personnel

Remuneration and other key terms of employment for the Executive Director and Senior Executives are summarised on the following page.

Name	Term of Agreement	Fixed Annual Remuneration including Superannuation		Notice Period by Executive	Notice Period by the Company
		Financial year 2014	Financial year 2013		
Gavin Thomas ¹	Open	² \$919,185	\$1,080,000	3 months	12 months
Tim Benfield ¹	Open	\$463,833	\$500,000	3 months	6 months
Duane Woodbury ¹	Open	\$463,833	\$500,000	3 months	6 months
Ron James ¹	Open	\$371,000	\$400,000	3 months	6 months
Ross Coyle ¹	Open	\$362,083	\$390,000	3 months	6 months
Joel Forwood ¹	Open	\$306,583	\$330,000	3 months	6 months
Brett Dunstone ¹	Open	\$285,308	\$307,000	3 months	6 months
Michael Monaghan	Open	³ \$531,525	³ \$531,522	3 months	6 months

¹ Amount shown includes a voluntary 10% reduction in fixed remuneration effective for the period from 1 October 2013.

² Amount shown is for the period to the date of resignation being 1 June 2014.

³ Paid in US Dollars and based on the exchange rate as at 30 June 2014 of 0.9.

Fixed annual remuneration, inclusive of the required superannuation contribution amount is reviewed annually by the Board following the end of the financial year. The amounts set out above are the Executives' total fixed remuneration as at 30 June 2014.

In the event of the completion of a takeover (relevant interest exceeds 50%) the executive will receive a lump sum gross payment equal to between six to 12 months of the Total Remuneration Package (all executives are entitled to 12 months except Ross Coyle, Joel Forwood and Ron James who are entitled to six months). If within six months after the completion of the takeover the executive elects to terminate his employment or his employment is terminated by the Company the executive will not be entitled to any notice of termination or payment in lieu of notice.

NON-EXECUTIVE DIRECTORS FEES

Non-Executive Directors, including the Chairman, are paid fixed fees for their services to the Company plus statutory superannuation contributions the Company is required by law to make on their behalf. Those fees are inclusive of any salary-sacrificed contribution to superannuation that a Non-Executive Director wishes to make.

The level of Non-Executive Directors fees is set so as to attract the best candidates for the Board while maintaining a level commensurate with boards of similar size and type. The Board may also seek the advice of independent remuneration consultants, including survey data, to ensure Non-Executive Directors' fees and payments are consistent with the current market.

Non-Executive Directors' base fees inclusive of committee membership but not including statutory superannuation are outlined as follows. Note that from the period 1 October 2013, all Non-Executive Directors fees were voluntarily reduced by 10%:

	Financial year ended 30 June 2014 ⁽ⁱ⁾ \$	Financial year ended 30 June 2013 ⁽ⁱ⁾ \$
Chairman	148,000	160,000
Directors	277,500	300,000
	425,500	460,000

⁽ⁱ⁾ Excludes Director fees paid by subsidiary.

The aggregate remuneration of Non-Executive Directors is set by shareholders in general meeting in accordance with the Constitution of the Company, with individual Non-Executive Directors remuneration determined by the Board within the aggregate total. The aggregate amount of Non-Executive Directors' fees approved by shareholders on 13 November 2008 is \$1,000,000.

Non-Executive Directors do not receive any additional fees for serving on committees of the Company.

There are no retirement allowances for Non-Executive Directors.

ADDITIONAL STATUTORY DISCLOSURES

Details of remuneration

Details of the nature and amount of each major element of the remuneration of the Directors and the Group executive managers are set out in the following tables:

Year Ended 30 June 2014	Short-term benefits			Post-employment benefits		Share-based payment	Total
	Cash salary and fees ⁶	Cash bonus	Non- monetary ¹ benefits	Super- annuation	Termination benefits ⁵	Amortised value of rights ² (Accounting Expense)

TOTAL	4,148,216	90,967	89,029	201,325	2,095,468	217,284	6,842,289

¹ Non-monetary benefits relate to car parking, travel and life insurance.

² Amortised value of rights comprises the fair value of performance and deferred rights expensed during the year. This is an accounting expense and does not reflect the value to the executive of rights that vested in the financial year. Refer to the table on page 26 for the value of rights that have vested.

³ Consulting Fees of \$92,500 were paid or payable to Norwest Mining Consultants Ltd, of which Peter McAleer is an officer and director.

⁴ Amortised value is net of write-back of expense incurred in prior periods relating to unvested rights that were forfeited during the year.

⁵ Benefits paid were in accordance with employment contract.

⁶ Fees paid by subsidiary relate to director fees paid by Akara Resources PCL.

⁷ Includes payment of accrued annual leave and long service leave of \$539,633.

⁸ Includes accrued annual leave of \$42,836.

Year Ended 30 June 2013	Short-term benefits			Post- employment benefits	Share-based payment	Total
	Cash salary and fees	Cash bonus	Non- monetary benefits ¹			
Name				Superannuation	Amortised value of rights ² (Accounting Expense)	
		\$	\$	\$	\$	\$
Non-Executive Directors

Executive Director						
Gavin Thomas	1,055,000	-	68,587	25,000	410,974	1,559,561
Other KMPs						
Tim Benfield	483,524	-	-	16,476	21,029	521,029
Duane Woodbury	475,000	-	6,157	26,398	136,367	643,922
Ron James	400,000	-	2,478	-	109,093	511,571
Ross Coyle	365,000	-	13,189	25,000	106,366	509,555
Joel Forwood	305,000	-	11,928	25,000	38,132	380,060
Brett Dunstone	168,355	-	43,591	9,611	-	221,557
Phil MacIntyre (retired 30 June 2013)	781,245	-	29,205	-	-	810,450
Sub-total Executive Director and other KMP Compensation	4,033,124	-	175,135	127,485	821,961	5,157,705
TOTAL	4,483,624	-	187,393	169,385	821,961	5,662,363

¹ Non-monetary benefits relate to car parking, travel, life insurance, relocation, and accommodation allowance provided by the Company. Relocation and accommodation allowance is applicable to interstate recruitment of relevant personnel.

² Amortised value of rights comprises the fair value of performance and deferred rights expensed during the year. This was the first year rights were issued. This is an accounting expense and does not reflect the value to the executive of rights that vested in the financial year.

³ Consulting Fees of \$100,000 were paid or payable to Norwest Mining Consultants Ltd, of which Peter McAleer is an officer and director.

The relative proportions of remuneration that are linked to performance and those that are fixed are as follows:

Name	Fixed remuneration 2014	At risk – STI 2014	At risk – LTI * 2014
Executive Director			
Gavin Thomas	106%	-	-6%
Other KMPs			
Tim Benfield	88%	-	12%
Duane Woodbury	98%	-	2%
Ron James	81%	-	19%
Ross Coyle	82%	-	18%
Joel Forwood	80%	-	20%
Brett Dunstone	94%	-	6%
Mike Monaghan	82%	14%	4%

* Since the long-term incentives are provided by way of deferred rights and performance rights, the percentages disclosed reflect the value of remuneration consisting of deferred rights and performance rights, based on the value of deferred rights and performance rights expensed during the year. Where applicable, the expenses include negative amounts for expenses reversed during the year due to resignation.

Share Rights Held by Key Management Personnel

Details of each grant of share rights included in the Key Management Personnel remuneration tables above are noted in the following tables.

The percentage of rights granted to Key Management Personnel on issue that have vested and the percentage that was forfeited because the person did not meet the service criteria is set out below:

Share Rights							
Name	Financial year granted	Number granted	Vested %	Vested number	Forfeited %	Forfeited number	Financial year that rights may vest
G Thomas							
<i>Deferred</i>	2013	52,181	100	52,181	-	-	2014
<i>Deferred</i>	2013	53,901	-	-	100	53,901	2015
<i>Performance</i>	2013	222,955	-	-	100	222,955	2016

- ¹ The minimum value of the rights yet to vest is nil, as the rights will be forfeited if the Key Management Personnel fails to meet a vesting condition.
- ² The maximum value of the share rights yet to vest has been determined as the fair value of the rights at the grant date that is yet to be expensed.
- ³ The value at vesting date (30 June 2014) is the number of rights vesting multiplied by the Company's share price on the vesting date. As rights convert to ordinary shares on the vesting date, this date is also the exercise date. No payment by the holder of the right is required on vesting of the right.
- ⁴ The value at lapse date is the number of rights lapsing multiplied by the Company's share price at the close of business on that day.
- ⁵ The fair value of the performance rights was estimated using Monte Carlo simulation; taking into account the terms and conditions upon which the awards were granted (refer to Note 24 of the Financial Statements).

Movement in LTI Rights for the year ended 30 June 2014

Performance rights

The number of performance rights held during the financial year by each Director of Kingsgate and each of the specified executives of the Group, including their personally-related entities, are set out as follows:

2014	Balance at start of year	Granted during the year	Converted during the year	Other changes during the year	Balance at year end	Vested and exercisable at year end
Directors

Brett Dunstone	-	-	-	-
Mike Monaghan	-	-	-	-

*Gavin Thomas resigned 1 June 2014 and at the time of his resignation he held 765,448 shares.

Loan to Director

There were no new loans made to Directors or other Key Management Personnel at any time during the year.

2014	Balance at start of year	Loan repayments for the year	**Interest paid and payable for the year	Interest not charged	Balance at end of year	Highest indebtedness during the year
Name	\$	\$	\$	\$	\$	\$
G Thomas	160,000	* (160,000)	4,436	-	-	160,000

* This loan was repaid in full in August 2013.

* Interest payable at annual interest rate of 11%.

Insurance of officers

During the financial year, the Group paid premiums to insure Directors and Officers of the Group. The contracts include a prohibition on disclosure of the premium paid and nature of the liabilities covered under the policy.

Directors' interest in contracts

No material contracts involving Directors' interests were entered into since the end of the previous financial year or existed at the end of the financial year other than the transactions detailed in the note to the accounts.

Non-audit services

Details of amounts paid or payable to the auditor for non-audit services provided during the year are detailed in Note 30: Auditors Remuneration. The Directors are satisfied that the provision of non-audit services during the period by the auditor is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*.

The Directors are of the opinion that the services disclosed in Note 30: Auditors Remuneration to the financial statements do not compromise the external auditor's independence, based on the Auditor's representations and advice received from the Audit Committee, for the following reasons:

- all non-audit services have been reviewed to ensure they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the Company, acting as advocate for the Company or jointly sharing economic risks and rewards.

A copy of the auditors' independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 31.

ROUNDING OF AMOUNTS

The Group is of a kind referred to in Class Order 98/100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the Directors' Report. Amounts in the Directors' Report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

AUDITORS

PricewaterhouseCoopers continues in office in accordance with section 327 of the *Corporations Act 2001*.

This report is made in accordance with a resolution of Directors.

Ross Smyth-Kirk
Director

Sydney
5 September 2014

Auditor's Independence Declaration

As lead auditor for the audit of Kingsgate Consolidated Limited for the year ended 30 June 2014, I declare that to the best of my knowledge and belief, there have been:

- a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Kingsgate Consolidated Limited and the entities it controlled during the period.

A handwritten signature in blue ink, appearing to read 'B Entwistle', is written over a light blue horizontal line.

Brett Entwistle
Partner
PricewaterhouseCoopers

NOTES TO THE FINANCIAL STATEMENTS

The Financial Report of Kingsgate Consolidated Limited (Kingsgate or the “Company”) for the year ended 30 June 2014 was authorised for issue in accordance with a resolution of Directors on 5 September 2014.

Kingsgate is a Company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange using the ASX code KCN. The consolidated financial statements of the Company as at and for the year ended 30 June 2014 comprise the Company and its subsidiaries (together referred to as the “Group” and individually as “Group entities”). A description of the nature of the Group’s operations and its principal activities is included in the Directors’ Report.

1. BASIS OF PREPARATION

The general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the *Corporations Act 2001*. The Company is a for-profit entity for the purpose of preparing the financial statements.

Compliance with IFRS

The financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

Historical cost convention

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of available-for-sale financial assets and financial instruments (including derivative instruments) at fair value through profit or loss.

Functional and presentation currency

The financial statements of the Group entities are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The consolidated financial statements are presented in Australian dollars, which is the Company’s functional currency and presentation currency.

Rounding of amounts

The Company is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with that Class Order, all financial information presented in Australian dollars has been rounded to

the nearest thousand, or in certain cases, the nearest dollar.

Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

2. SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented.

a. Principles of consolidation

(i) Business combinations

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control is the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, the Group takes into consideration potential voting rights that currently are exercisable.

The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred does not include amounts related to the settlement of a pre-existing relationship. Such amounts are generally recognised in profit or loss.

Costs related to the acquisition other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred. Any contingent consideration payable is recognised at fair value at the acquisition date.

Acquisitions of non-controlling interests are accounted for as transactions with owners in their capacity as owners and therefore no goodwill is recognised as a result of such transactions. The non-controlling interest in the acquiree is based on the fair value of the acquiree’s net identifiable assets. The adjustments to non-controlling interests are

NOTES TO THE FINANCIAL STATEMENTS

based on the proportionate amount of the net assets of the subsidiary.

The acquisition of an asset or group of assets that is not a business is accounted for by allocating the cost of the transaction to the net identifiable assets and liabilities acquired based on their fair values.

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

Intra-group balances and transactions, and any unrealised gains arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred.

b. Foreign currency translation

(i) Transactions and balances

Foreign currency transactions are translated into the respective functional currencies of the Group entities at exchange rates on the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss; except when they are deferred in equity as qualifying cash flow hedges and qualifying net investment hedges or, are attributable to part of the net investment in a foreign operation.

Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary assets are included in the fair value reserve in equity.

Exchange gains and losses which arise on balances between Group entities are taken to the foreign currency translation reserve where the intra-group balances are in substance part of the Group's net investment. Where as a result of a change in circumstances, a previously designated intra-group balance is intended to be settled in the foreseeable future, the intra-group balance is no longer regarded as part of net investment. The exchange differences for such balance previously taken directly to the foreign currency translation reserves are recognised in the profit or loss.

(ii) Foreign operations

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- the assets and liabilities of the foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated at the year-end exchange rate;
- the income and expenses of foreign operations are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rate prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- foreign currency differences are recognised in other comprehensive income, and presented in the foreign currency translation reserve.

c. Revenue

Revenue is measured at the fair value of the consideration received or receivable. Sales revenue represents the net proceeds receivable from the buyer.

Gold and silver sales

Gold and silver revenue is recognised when the refinery process has been finalised at which point the sale transaction to a third party is also completed. Transportation and refinery costs are expensed when incurred.

d. Income tax

Income tax expense comprises current and deferred tax. Current tax and deferred tax is recognised in profit or loss except to the extent that it relates to a

NOTES TO THE FINANCIAL STATEMENTS

business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. Deferred tax is provided using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised for unused tax losses, tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries where the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets and, they relate to income taxes levied by the same tax authority on the same taxable entity.

Additional income tax expenses that arise from the distribution of cash dividends are recognised at the same time that the liability to pay the related dividend is recognised.

Tax consolidation

The Company and its wholly-owned Australian resident entities formed a tax-consolidation group with effect from 1 July 2003 and are therefore taxed as a single entity from that date. The head entity within the tax-consolidation group is Kingsgate Consolidated Limited.

Current tax expense or benefit, deferred tax assets and deferred tax liabilities arising from temporary differences of the members of the tax-consolidation group are recognised in the separate financial statements of the members of the tax-consolidation group using the “stand alone taxpayer” approach by reference to the carrying amounts in the separate financial statements of each entity and the tax values applying under tax consolidation.

Current tax assets or liabilities and deferred tax assets arising from unused tax losses assumed by the head entity from the subsidiaries in the tax-consolidation group, are recognised as amounts receivable or payable to other entities in the tax-consolidation group in conjunction with any tax funding agreement amounts.

The Company recognises deferred tax assets arising from unused tax losses of the tax-consolidation group to the extent that it is probable that future taxable profits of the tax-consolidation group will be available against which the asset can be utilised.

Tax funding and sharing agreements

The members of the tax-consolidation group have entered into a funding agreement that sets out the funding obligations of members of the tax-consolidation group in respect of tax amounts. The tax funding arrangements require payments; to or from, the head entity equal to the current tax liability or asset assumed by the head entity and any deferred tax asset assumed by the head entity, resulting in the head entity recognising an intra-group receivable or payable in the separate financial statements of the members of the tax-consolidation group equal in amount to the tax liability or asset assumed. The intra-group receivables or payables are at call.

The head entity recognises the assumed current tax amounts as current tax liabilities or assets adding to its own current tax amounts, since they are also due to or from the same taxation authority. The current tax liabilities or assets are equivalent to the tax

NOTES TO THE FINANCIAL STATEMENTS

balances generated by external transactions entered into by the tax-consolidation group.

The amounts receivable or payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments.

The members of the tax-consolidation group have also entered into a tax sharing agreement. The tax sharing agreement provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations. No amounts have been recognised in the consolidated financial statements in respect of this agreement as payment of any amounts under the tax sharing agreement is considered remote.

e. Leases

Leases of property, plant and equipment where the Group as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other short-term and long-term payables. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The property, plant and equipment acquired under finance leases is depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the profit or loss on a straight-line basis over the period of the lease.

f. Divestment transaction costs

Transaction costs directly relating to the partial divestment of an interest in a subsidiary are expensed as incurred in the years prior to the disposal where control is retained.

g. Impairment of assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

h. Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

i. Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Receivables are due for settlement no more than 90 days from the date of recognition.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default

NOTES TO THE FINANCIAL STATEMENTS

or delinquency in payments more than 60 days overdue are considered indicators that the trade and other receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in the income statement within other expenses. When a trade and other receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the income statement.

j. Inventories

Raw materials and stores, work in progress and finished goods (including gold bullion), are stated at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Costs are assigned to individual items of inventory on the basis of weighted average costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Stockpiles represent ore that has been extracted and is available for further processing. If there is significant uncertainty as to whether the stockpiled ore will be processed it is expensed as incurred. Where the future processing of this ore can be predicted with confidence, e.g. because it exceeds the mine's cut-off grade, it is valued at the lower of cost and net realisable value. If the ore will not be processed within the 12 months after the reporting date, it is included within non-current assets. Work in progress inventory includes ore stockpiles and other partly processed material. Quantities are assessed primarily through surveys and assays, and truck counts.

k. Non-derivative financial assets

Classification and recognition

The Group classifies its investments and other financial assets in the following categories: financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. The Group determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at each reporting date.

The Group initially recognises loans and receivables and deposits on the date that they are originated. All other financial assets (including assets designated at fair value through profit or loss) are recognised initially on the trade date at which the Group becomes a party to the contractual provisions of the instrument.

The Group derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial assets are transferred.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading if acquired principally for the purpose of selling in the short term. Derivatives are also categorised as held for trading unless they are designated as hedges.

Attributable transaction costs are recognised in the profit or loss when incurred. Assets in this category are classified as current assets if they are expected to be settled within 12 months, otherwise they are classified as non-current.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are

NOTES TO THE FINANCIAL STATEMENTS

not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets.

Loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses.

(iii) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivative financial assets that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the reporting date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

Subsequent to initial recognition, available-for-sale financial assets are measured at fair value and changes therein, other than impairment losses, are recognised as a separate component of equity net of attributable tax. When an asset is derecognised the cumulative gain or loss in equity is transferred to the income statement.

Impairment

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, is removed from equity and recognised in the income statement. Impairment losses recognised in the profit or loss on equity instruments classified as available-for-sale are not reversed through the income statement.

If there is evidence of impairment for any of the Group's financial assets carried at amortised cost, the loss is measured as the difference between the asset's carrying amount and the present value of

estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in the income statement.

l. Derivative financial instruments

Derivative financial instruments are used by the Group to protect against the Group's Australian dollar gold price risk exposures. The Group does not apply hedge accounting and accordingly all fair value movements on derivative financial instruments are recognised in the profit or loss.

Derivative financial instruments are stated at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in the income statement immediately.

m. Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the income statement during the reporting period in which they are incurred.

Depreciation

Depreciation and amortisation of mine buildings, plant, machinery and equipment is provided over the assessed life of the relevant mine or asset, whichever is the shorter.

Depreciation and amortisation is determined on a units-of-production basis over the estimated recoverable reserves from the related area. In some circumstances, where conversion of resources into reserves is expected, some elements of resources may be included. For mine plant, machinery and equipment, which have an expected economic life

NOTES TO THE FINANCIAL STATEMENTS

shorter than the life of the mine, a straight line basis is adopted.

The expected useful lives are as follows:

- mine buildings – the shorter of applicable mine life and 25 years;
- plant, machinery and equipment – the shorter of applicable mine life and 3 - 15 years depending on the nature of the asset.

The estimated recoverable reserves and life of each mine and the remaining useful life of each class of asset are reassessed at least annually. Where there is a change in the reserves during the period, depreciation and amortisation rates are adjusted prospectively from the beginning of the reporting period.

Major spares purchased specifically for a particular plant are capitalised and depreciated on the same basis as the plant to which they relate.

Impairment

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2g).

Derecognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the profit or loss in the period the item is derecognised.

n. Deferred stripping costs

As part of its mining operations, the Group incurs stripping (waste removal) costs both during the development phase and production phase of its operations.

Stripping costs incurred during the production phase are generally considered to create two benefits, being either the production of inventory in the period or improved access to the ore to be mined in the future. Where the benefits are realised in the form of inventory produced in the period, the production stripping costs are accounted for as part

of the cost of producing those inventories. Where production stripping costs are incurred and the benefit is improved access to the ore to be mined in the future, the costs are recognised as a non-current asset, referred to as a "production stripping asset", if the following criteria are all met:

- Future economic benefits (being improved access to the ore body) associated with the stripping activity are probable;
- The component of the ore body for which access has been improved can be accurately identified; and
- The costs associated with the stripping activity associated with that component can be reliably measured.

The amount of stripping costs deferred is based on the ratio obtained by dividing the volume of waste mined by the volume of ore mined for each component of the mine. Stripping costs incurred in the period are deferred to the extent that the actual current period waste to ore ratio exceeds the life of component expected waste to ore ("life of component") ratio.

A component is defined as a specific volume of the ore body that is made more accessible by the stripping activity. An identified component of the ore body is typically a subset of the total ore body of the mine. It is considered that each mine may have several components, which are identified based on the mine plan. The mine plans and therefore the identification of specific components will vary between mines as a result of both the geological characteristics and location of the ore body. The financial considerations of the mining operations may also impact the identification and designation of a component.

The identification of components is necessary for both the measurement of costs at the initial recognition of the production stripping asset, and the subsequent depreciation of the production stripping asset.

The life of component ratio is a function of an individual mine's design and therefore changes to that design will generally result in changes to the ratio. Changes in other technical or economic parameters that impact reserves will also have an impact on the life of component ratio even if they do not affect the mine's design. Changes to the life of

NOTES TO THE FINANCIAL STATEMENTS

component ratio are accounted for prospectively from the date of change.

The production stripping asset is initially measured at cost, which is the accumulation of costs directly incurred to perform the stripping activity that improves access to the identified component of ore. If incidental operations are occurring at the same time as the production stripping activity, but are not necessary for the production stripping activity to continue as planned, these costs are not included in the cost of the stripping activity asset.

The production stripping asset is amortised over the expected useful life of the identified component of the ore body that is made more accessible by the activity, on a units of production basis. Economically recoverable reserves are used to determine the expected useful life of the identified component of the ore body. The production stripping asset is then carried at cost less accumulated amortisation and any impairment losses.

The production stripping asset is included in "Exploration, Evaluation and Development". These costs form part of the total investment in the relevant cash generating unit to which they relate, which is reviewed for impairment in accordance with the Group's impairment accounting policy (Note 2g).

o. Deferred mining services costs

Provisions to the group of mining services by its contractor do not systematically align with the billing made by the contractor employed for these services. When there is a material difference between the provisions of the mining services and the amount paid for these services, a portion of the billing is deferred on the statement of financial position. These amounts are subsequently recognised in the profit or loss. Mining services are recognised in the profit or loss on a systematic basis based on bank cubic metres mined by the contractor.

p. Exploration, evaluation and feasibility expenditure

Exploration and evaluation expenditure

Exploration and evaluation expenditure incurred by, or on behalf of the Group is accumulated separately for each area of interest. Such expenditure comprises direct costs and depreciation and does not include general overheads or administrative expenditure not having a specific nexus with a particular area of interest.

Exploration expenditure for each area of interest is carried forward as an asset provided the rights to tenure of the area of interest are current and one of the following conditions is met:

- the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively by its sale, or;
- exploration and evaluation activities in the area of interest have not at the reporting date reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, and active and significant operations in, or in relation to, the area of interest are continuing.

Exploration expenditure is written off when it fails to meet at least one of the conditions outlined above or an area of interest is abandoned. The carrying value of exploration and evaluation assets is assessed in accordance with AASB 6 *Exploration for and Evaluation of Mineral Resources* and the Group's impairment policy (Note 2g).

Feasibility expenditure

Feasibility expenditure represents costs related to the preparation and completion of a feasibility study to enable a development decision to be made in relation to an area of interest and capitalised as incurred.

At the commencement of production; all past exploration, evaluation and feasibility expenditure in respect of an area of interest that has been capitalised is transferred to mine properties where it is amortised over the life of the area of interest to which it relates on a unit-of-production basis.

q. Mine properties

Mine properties represents the accumulated exploration, evaluation, land and development expenditure incurred by or on behalf of the Group in relation to areas of interest in which mining of a mineral resource has commenced.

When further development expenditure is incurred in respect of a mine property after commencement of production, such expenditure is carried forward as part of the mine property only when substantial future economic benefits are thereby established. Otherwise, such expenditure is classified as part of the cost of production.

NOTES TO THE FINANCIAL STATEMENTS

Amortisation of costs is provided on the units-of-production method with separate calculations being made for each component. The units-of-production basis results in an amortisation charge proportional to the depletion of the estimated recoverable reserves. In some circumstances, where conversion of resources into reserves is expected, some elements of resources may be included. Development and land expenditure still to be incurred in relation to the current recoverable reserves are included in the amortisation calculation. Where the life of the assets is shorter than the mine life, their costs are amortised based on the useful life of the assets.

The estimated recoverable reserves and life of each mine and the remaining useful life of each class of asset are reassessed at least annually. Where there is a change in the reserves during a six month period, depreciation and amortisation rates are adjusted prospectively from the beginning of that reporting period.

r. Investment in associates

The Group's investment in an associate is accounted for using the equity method. An associate is an entity in which the Group has significant influence.

Under the equity method, the investment in the associate is carried on the statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate.

The income statement reflects the Group's share of the results of operations of the associate. The Group recognises its share of any changes and discloses this when applicable, in the statement of changes of equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The Group's share of profit of an associate is included in the income statement. This is the profit attributable to equity holders of the associate and therefore, is profit after tax and non-controlling interests in the subsidiaries of the associate. After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on its investment in its associate. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is

the case, the Group calculates the amount of the impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the income statement.

Upon loss of significant influence over the associate, the Group measures and recognises any remaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

s. Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

t. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised and amortised over the period of the facility to which it relates.

Preference shares which are mandatorily redeemable on a specific date are classified as liabilities. The dividends on these preference shares are recognised in the profit or loss as finance costs.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or finance costs.

NOTES TO THE FINANCIAL STATEMENTS

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

u. Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Where the funds used to finance a qualifying asset form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to the relevant borrowings during the period. Where funds borrowed are directly attributable to a qualifying asset, the amount capitalised represents the borrowing costs specific to those borrowings.

All other borrowing costs are recognised as expenses in the period in which they are incurred.

v. Provisions

Provisions for legal claims and service warranties are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as finance costs.

w. Restoration and rehabilitation provision

The estimated costs of decommissioning and removing an asset and restoring the site are included in the cost of the asset as at the date the obligation first arises and to the extent that it is first recognised as a provision. This restoration asset is subsequently amortised on a units-of-production basis.

The corresponding provision of an amount equivalent to the restoration asset created is reviewed at the end of each reporting period. The provision is measured at the best estimate of the present value amount required to settle the present obligation at the end of the reporting period based on current legal and other requirements and technology, discounted where material using national government bond rates at the reporting date with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

Where there is a change in the expected restoration, rehabilitation or decommissioning costs, an adjustment is recorded against the carrying value of the provision and any related restoration asset, and the effects are recognised in the income statement on a prospective basis over the remaining life of the operation.

The unwinding of the effect of discounting on the rehabilitation provision is included within finance costs in the income statement.

Costs incurred that relate to an existing condition caused by past operations, but do not have a future economic benefit are expensed as incurred.

x. Employee benefits

(i) *Wages and salaries, annual leave and sick leave*
Liabilities for wages and salaries (including non-monetary benefits and annual leave) expected to be settled within 12 months of the reporting date are recognised in provisions for employee benefits in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

(ii) *Long service leave and severance pay*

The liability for long service leave and severance pay is recognised in the provision for employee benefits

NOTES TO THE FINANCIAL STATEMENTS

and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to the expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) Cash bonuses

Cash bonuses are expensed in the income statement at reporting date.

A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the Directors or employees and the obligation can be estimated reliably.

(iv) Retirement benefit obligations

Contributions to defined contribution superannuation plans are recognised as an expense in the income statement as they become payable.

(v) Share-based payment transactions

The Group provides benefits to employees (including Directors) in the form of share-based payments, whereby employees render services in exchange for shares or rights over shares ("equity settled transactions").

The fair value of these equity settled transactions is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled.

The fair value at grant date is determined using pricing model that takes into account the exercise price, the term, the share price at the grant date, the expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate.

Upon the exercise of the equity settled reward, the related balance of the share-based payments reserve is transferred to share capital.

y. Dividends

Dividends are recognised as a liability in the period in which they are declared.

z. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares; and
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

aa. Contributed equity

Issued ordinary share capital is classified as equity and is recognised at the fair value of the consideration received by the Group. Incremental costs directly attributable to the issue of shares and share options are recognised as a deduction, net of tax from the proceeds.

bb. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from or payable to, the taxation authority is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of the cash flows arising from investing or financing activities which are recoverable from, or

NOTES TO THE FINANCIAL STATEMENTS

payable to the taxation authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

cc. Operating segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

Segment results that are reported to the Board of Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. The operating segments are disclosed in Note 4.

dd. New accounting standards and interpretations

(i) New and amended standards adopted by the Group

Except for the adoption of Interpretation 20 – *Stripping Costs in the Production Phase of a Surface Mine* and Recoverable Amount Disclosures for Non-Financial Assets (Amendments to IAS36) (refer to Note 34), the Group did not adopt any new or revised accounting standards, amendments or interpretations from 1 July 2013 which had a material effect on the financial position or performance of the Group.

(ii) New accounting standards and interpretations not yet adopted

The Group has not elected to early adopt any new standards, amendments or interpretations that are issued but are not yet effective. Certain new accounting standards and interpretations have been published that are not mandatory for 30 June 2014 reporting periods and have not yet been applied in the financial statements. The Group's assessment of the impact of these new standards and interpretations is set out below:

- AASB 2012-3 Amendments to Australian Accounting Standards - *Offsetting Financial Assets and Financial Liabilities*. Effective 1 July 2014 AASB 2012-3 adds application guidance to AASB 132 *Financial Instruments: Presentation* to address inconsistencies identified in applying

some of the offsetting criteria of AASB 132, including clarifying the meaning of “currently has a legally enforceable right to set-off” and that some gross settlement systems may be considered equivalent to net settlement.

- AASB9 *Financial Instruments*. AASB 9 includes requirements for the classification and measurement of financial assets. It was further amended by AASB 2010-7 to reflect amendments to the accounting financial liabilities.

The revised IFRS 9 will eventually replace AASB 139 and all previous versions of IFRS 9. The revised standard includes changes to the:

- classification and measurement of financial assets and financial liabilities
- expected credit loss impairment model
- hedge accounting.

Financial assets are measured at amortised cost, fair value through profit or loss, or fair value through other comprehensive income, based on both the entity's business model for managing the financial assets and the financial asset's contractual cash flow characteristics.

Apart from the 'own credit risk' requirements, classification and measurement of financial liabilities is unchanged from existing requirements.

When adopted, the standard will affect in particular the Group's accounting for its available-for-sale financial assets, since AASB 9 only permits the recognition of fair value gains and losses in other comprehensive income if they relate to equity investments that are not held for trading.

There will be no impact on the Group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Group does not have any such liabilities.

The application date for the Group is 1 July 2018.

- *Annual Improvements to IFRSs 2010-2012 Cycle* (effective 1 July 2014). This standard sets out amendments to International Financial Reporting Standards (IFRS) and the related bases for

NOTES TO THE FINANCIAL STATEMENTS

conclusions and guidance made during the International Accounting Standards Board's Annual Improvements process. These amendments have not yet been adopted by the AASB.

The following items are addressed by this standard:

- IFRS 2 – Clarifies the definition of “vesting conditions” and “market condition” and introduces the definition of “performance condition” and “service condition”.
 - IFRS 3 – Clarifies the classification requirements for contingent consideration in a business combination by removing all references to IAS 37.
 - IFRS 8 – Requires entities to disclose factors used to identify the entity's reportable segments when operating segments have been aggregated. An entity is also required to provide a reconciliation of total reportable segments' asset to the entity's total assets.
 - IAS 16 & IAS 38 – Clarifies that the determination of accumulated depreciation does not depend on the selection of the valuation technique and that it is calculated as the difference between the gross and net carrying amounts.
- Amendments to AASB 116 and AASB 138. *Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to AASB 116 and AASB 138, effective 1 July 2016)*. AASB 116 and AASB 138 both establish the principle for the basis of depreciation and amortisation as being the expected pattern of consumption of the future economic benefits on an asset.

The IASB has clarified that the use of revenue-based methods to calculate the depreciation of an asset is not appropriate because revenue generated by an activity that includes the use of an asset generally reflects factors other than the consumption of the economic benefits embodied in the asset.

The IASB also clarified that revenue is generally presumed to be an inappropriate basis for measuring the consumption of the economic benefits embodied in an intangible asset. This

presumption, however, can be rebutted in certain limited circumstances.

- *IFRS 15 Revenue from Contracts with Customers* (effective from 1 July 2017). IFRS 15 establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers.

IFRS 15 supersedes:

- (a) IAS 11 Construction Contracts
- (b) IAS 18 Revenue

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

- (a) Step 1: Identify the contract(s) with a customer.
- (b) Step 2: Identify the performance obligations in the contract.
- (c) Step 3: Determine the transaction price.
- (d) Step 4: Allocate the transaction price to the performance obligations in the contract.
- (e) Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

The Group does not expect the adoption of this standard to have a significant impact as gold and silver sales are only made with reputable institutions using a market price and on relatively short trading terms.

ee. Parent entity financial information

The financial information for the parent entity Kingsgate Consolidated Limited, disclosed in Note 32 has been prepared on the same basis as the consolidated financial statements except as set out below:

Investments in subsidiaries

Investments in subsidiaries are accounted for at cost in the financial statements of Kingsgate.

Share-based payments

The issue by the Company of equity instruments to extinguish liabilities of a subsidiary undertaking in

NOTES TO THE FINANCIAL STATEMENTS

the Group is treated as a capital contribution to that subsidiary undertaking.

3. CRITICAL ACCOUNTING ESTIMATES, ASSUMPTIONS AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. The Group makes estimates and assumptions concerning the future. Actual results may differ from these estimates under different assumptions and conditions. The estimates and assumptions that could materially affect the financial position and results are discussed below:

(i) Mineral resources and ore reserves estimates

The Group determines and reports ore reserves under the Australian Code for Reporting of Mineral Resources and Ore Reserves December 2012, known as the JORC Code. The information on mineral resources and ore reserves was prepared by or under the supervision of Competent Persons as defined in the JORC Code.

There are numerous uncertainties inherent in estimating mineral resources and reserves and assumptions that are valid at the time of estimation may change significantly when new information becomes available.

Changes in reported ore reserves may affect the Group's financial position and results, including asset carrying value, depreciation and amortisation expenses using units-of-production method, provision for restoration and rehabilitation and deferred stripping costs if the life of component ratios are revised.

(ii) Exploration and evaluation assets

Exploration and evaluation expenditure for each area of interest is carried forward as an asset provided certain conditions are met (Note 2p). Exploration and evaluation assets are assessed for impairment when facts and circumstances suggest that the carrying amount of an exploration and evaluation asset may exceed its recoverable amount. These calculations and reviews require the use of assumptions and judgement. The related carrying amounts are disclosed in Note 13.

(iii) Production stripping

The Group defers mining costs incurred during the production stage of its operations which are calculated in accordance with accounting policy Note 2n. Changes in an individual mine's design will generally result in changes to the life of component waste to ore (life of component) ratio. Changes in other technical or economic parameters that impact reserves will also have an impact on the life of component ratio even if they do not affect the mine's design. Changes to deferred stripping resulting from a change in life of component ratios are accounted for prospectively.

(iv) Impairment of assets

The Group assesses each cash-generating unit half-yearly, to determine whether there is an indication of impairment. Where an indicator of impairment exists, a formal estimate of the recoverable amount is made, which is deemed as being the higher of the fair value less cost to sell and value in use calculated in accordance with accounting policy Note 2g.

In the current period fair value less cost to sell has been used in respect of development projects and value in use for operating projects. These assumptions require the use of estimates and assumptions such as discount rates (2014 : post tax real rates of 8.3% to 10.3%), exchange rates (2014 : balance date spot rate), commodity prices (2014 : balance date spot price), future operating development and sustaining capital requirements, mineral resources and reserves and operating performance (including the magnitude and time of related cash flows). For details of impairment assessment for the current year, refer to Note 5j.

(v) Restoration and rehabilitation provision

Significant judgement is required in determining the restoration and rehabilitation provision as there are many transactions and factors that will affect the ultimate liability payable to rehabilitate the mine site. Factors that will affect this liability include change in mineral resources and reserves estimates, changes in technology, commodity price changes and changes in interest rates.

A change in any, or a combination of, the key assumptions used to determine the provisions could have a material impact on the carrying value of the provisions (see Note 17). The provision recognised for each site is reviewed at each reporting date and updated based on the facts and circumstances

NOTES TO THE FINANCIAL STATEMENTS

available at the time. Changes to the estimated future costs for operating sites are recognised in the statement of financial position by adjusting both the restoration and rehabilitation asset and provision.

(vi) Units-of-production method of depreciation

The Group applies the units-of-production method for depreciation and amortisation of its mine properties, mine buildings, plant and equipment. These calculations require the use of estimates and assumptions and significant judgement is required in assessing the estimated recoverable reserves used in the determination of the depreciation and amortisation charges. Factors that must be considered in determining estimated recoverable reserves (which includes both reserves and resources) and production capacity are the history of converting resources to reserves and the relevant time frames, anticipated mining method and costs, the complexity of metallurgy, markets, and future developments.

Revision of estimated recoverable reserves and resource

Estimated recoverable reserves and resource are used as a basis for depreciating assets on a unit of production basis. During the year the estimated recoverable reserves and resource at Chatree were revised. The net effect of this change in the current financial year was an increase in depreciation expense of \$1,520,000. Assuming no subsequent change to estimated recoverable reserves and resource it is estimated that future depreciation expense would increase by between \$2,500,000 and \$3,500,000 per annum until the end of the mine life.

(vii) Share-based payments

The Group measures share-based payments at fair value at the grant date. The fair value is determined by an external valuer using a Monte Carlo simulation model or other valuation technique appropriate for the instrument being valued.

(viii) Deferred tax balances

Deferred tax assets in respect of tax losses for the Kingsgate tax-consolidation group (Note 6) are not recognised in the financial statements as management considers that it is currently not probable that future taxable profits will be available to utilise those tax losses. Management reviews on a regular basis the future profitability of the entities included in the tax-consolidation group to consider if

tax losses should be recognised and to ensure that any tax losses recognised will be utilised.

Deferred tax balances for temporary differences in respect of Akara Resources Public Company Limited are measured based on their expected rate of reversal which is different for the two Royal Thai Board of Investment (“BOI”) activities (Note 6).

4. SEGMENT INFORMATION

The Group’s operating segments are based on the internal management reports that are reviewed and used by the Board of Directors (chief operating decision maker). The operating segments represent the Group’s operating mines and projects and include the following:

- Chatree Mine, Thailand;
- Challenger Mine, South Australia, Australia;
- Bowdens Silver Project, New South Wales, Australia;
- Nueva Esperanza Silver / Gold Project, Chile; and
- Exploration, South East Asia.

Information regarding the results of each reportable segment is included as follows:

Total significant items (pre-tax)	88,240	357,889

Impairment – Bowdens Silver Project

In accordance with AASB 136 - *Impairment of Assets* an impairment charge has been made against the carrying value of the Bowdens Silver Project (“Bowdens”) as a result of the significant and sustained decline in the silver price.

An impairment is recognised when the carrying amount exceeds the recoverable amount. The recoverable amount for Bowdens has been determined on its fair value less transaction costs (“FV”) using peer group analysis.

While Bowdens is expected to generate positive cash flows, the estimated fair value no longer supports the full recovery of the carrying value. As a result of this assessment, the Group has recorded an impairment charge of \$84,586,000 pre-tax related to the carrying value of the Bowdens acquisition, exploration, evaluation and development costs.

The fair value estimates are derived from observable trading valuations of a comparable peer group in active markets. Given the advanced stage of the project and the level of technical work completed on the Environmental Impact Statement, it was considered appropriate to compare Bowdens with a subset of the peer group with more advanced projects which had either completed a preliminary economic assessment or a feasibility study.

The key criteria for the selection of the peer group were as follows:

- Public company listed on a major exchange;
- Assets must contain silver as a primary commodity, although many are polymetallic;
- Assets must be pre-production;
- Resource must be of significant size to generate a meaningful valuation; and
- All other metals are converted to silver equivalent.

The fair value of Bowdens Silver Project is assessed as being equal to its carrying amount of \$30,030,000 after impairment as at 30 June 2014. The fair value has been assessed by calculating the enterprise value per ounce resource of equivalent silver of the peer group and applying the median of these values (\$0.17) to the Bowdens silver equivalent resource (detailed in the previously published 2013 Ore Reserves and Mineral Resources Statement) less estimated transaction costs.

NOTES TO THE FINANCIAL STATEMENTS

REVENUE AND EXPENSES (CONTINUED)

The assessment of other Group projects was based on either value in use or fair value. These assessments demonstrated that the recoverable amount exceeded the carrying amount and therefore impairments were not required.

6. INCOME TAX

NOTES TO THE FINANCIAL STATEMENTS

INCOME TAX (CONTINUED)

Akara Resources Public Company Limited (“Akara”), a controlled entity, has received approval from The Royal Thai Board of Investment (“BOI”) of the Office of the Prime Minister for promotion of the Chatree Mine. Subject to meeting the BOI conditions and based on an annual production limit of 178,416 ounces of gold and 583,733 ounces of silver, Akara’s Chatree Mine is entitled to:

- i) An eight year full corporate tax holiday commencing at first gold pour on metal sales. The full tax holiday expired in November 2009;
- ii) A further five years half tax holiday; and
- iii) Other benefits.

The start of the promotion period was 27 November 2001.

Akara also received on 18 June 2010 a BOI promotion for the Chatree North gold processing plant. Based on annual production limit from the new processing plant of 185,200 ounces of gold and 1,080,400 ounces of silver, Akara is entitled to:

- i) An eight year tax holiday on income derived from the new processing plant with tax savings limited to the capital cost of the new treatment plant;
- ii) 25% investment allowance on the capital cost of certain assets of the new processing plant; and
- iii) Other benefits.

The start of the promotion period was 1 November 2012.

c) *Tax recognised in other comprehensive income*

	2014 \$'000	2013 \$'000
Available-for-sale investment revaluation reserve	-	(39)
Foreign exchange losses recognised directly in foreign currency translation reserves	-	566
Total tax recognised in other comprehensive income	-	527

d) *Deferred tax liabilities offset*

Deferred tax liabilities amounting to \$298,000 (2013: \$853,000) have been offset against deferred tax asset.

e) *Unrecognised deferred tax assets*

	2014 \$'000	2013 \$'000
Tax losses – Australian entities	250,948	211,548
Tax losses – other entities	2,360	1,309
Temporary difference	112,983	130,113
Subtotal	366,291	342,970
Unrecognised deferred tax assets	109,651	102,760

f) *Tax consolidation group*

Kingsgate Consolidated Limited and its wholly-owned Australian subsidiary have implemented the tax consolidation legislation as of 1 July 2003. The accounting policy in relation to this legislation is set out in Note 2d.

NOTES TO THE FINANCIAL STATEMENTS

On adoption of the tax consolidation legislation, the entities in the tax-consolidation group entered into a tax sharing agreement which, in the opinion of the Directors, limits the joint and several liabilities of the wholly-owned entities in the case of default by the head entity, Kingsgate Consolidated Limited.

The entities have also entered into a tax funding agreement under which the wholly-owned entities fully compensate Kingsgate for any current tax payable assumed and are compensated for any current tax receivable and deferred assets relating to the unused tax losses or unused tax credits that are transferred to Kingsgate under the tax legislation. The funding amounts are determined by reference to the amounts recognised in the wholly-owned entities' financial statements.

The amount receivable / payable under the tax funding agreement are due upon receipt of the funding advice from the head entity, which is issued as soon as practicable after the end of each financial year. The head entity may also require payment of interim funding amounts to assist with its obligations to pay tax instalments.

NOTES TO THE FINANCIAL STATEMENTS

Restricted cash	5,489	5,474
Total restricted cash - non-current	5,489	5,474

Cash on hand

These are petty cash balances held by subsidiaries.

Deposits at call

The deposits at call are bearing floating interest rates and they may be accessed daily.

Restricted cash

Under the terms of the loan facilities (see Note 16), the Group is required to maintain a minimum cash balance of US\$5,000,000 in respect of Akara.

Risk exposure

The Group's exposure to interest rate risk and a sensitivity analysis for financial assets and liabilities are disclosed in Note 28.

8. RECEIVABLES

	2014 \$'000	2013 \$'000
Trade receivables	2,203	-
Other debtors	11,157	9,431
Total receivables	13,360	9,431

Trade receivables

Trade receivables represent gold sales at the end of the financial year, where payment was yet to be received. No trade receivables were past due or impaired as at 30 June 2014 (2013: nil).

Other debtors

Other debtors mainly relate to GST / VAT receivables and diesel fuel tax credits.

Risk exposure

The Group's exposure to credit and currency is disclosed in Note 28.

9. INVENTORIES

	2014 \$'000	2013 \$'000

Capitalised borrowing costs

Included in exploration evaluation and development is an amount of \$2,185,000 that represents borrowing costs capitalised during the year (\$4,963,000 during the year ended 30 June 2013). The capitalisation rate used to determine the amount of borrowing costs to be capitalised is the weighted average interest rate applicable to the entity's outstanding borrowings during the year, in this case 8.21% (2013: 10.7%).

14. INVESTMENT IN ASSOCIATE

a) Reconciliation of movement in investment accounted for using the equity method

	2014 \$'000	2013 \$'000
Investment in Caravel Minerals Limited		
At the beginning of the year	1,485	-
Acquisition	-	3,375
Share of associate's loss	(413)	(1,353)
Additional impairment in associate	-	(537)
At the end of the year	1,072	1,485

b) Summarised financial information of associate

The Group's share of the results of its associate and its aggregate assets and liabilities are as follows:

Group's share of:	Ownership Interest %	Assets \$'000	Liabilities \$'000	Revenue \$'000	Loss \$'000
Caravel Minerals Limited - 2014	27.04	1,839	146	108	413
Caravel Minerals Limited - 2013	35.54	3,007	384	199	1,353

c) Fair value of listed investment in associate

	2014 \$'000	2013 \$'000
Caravel Minerals Limited	1,485	1,485

d) Contingent liabilities

Caravel Minerals Limited had no material contingent liabilities.

15. PAYABLES

	2014 \$'000	2013 \$'000
Current		
Trade payables	15,318	25,620

Terms and debt repayment schedule

Terms and conditions of outstanding loans were as follows:

	Currency	Nominal interest	Financial year of maturity	Face value \$'000	Carrying amount \$'000
Corporate loan facility (Tranche A)	AUD	BBSY ¹ + margin	2015	10,000	10,000
Convertible loan facility (Tranche B)	AUD	BBSY ¹ + margin	2016	25,000	25,000
Multi-currency and Syndicated loan facilities	Thai Baht	THBFIX ² + margin	2018	47,059	47,059
	USD	LIBOR ³ + margin	2018	64,109	64,109
Less capitalised borrowing costs					(2,082)
Total					144,086

¹ BBSY means bank bill swap bid rate

² THBFIX means Thai Baht interest rate fixing

³ LIBOR means London interbank offered rate

Senior corporate facility

\$35,000,000 million under the Senior Corporate Loan Facility consisting of two tranches:

- Tranche A is an amortising loan facility with a balance of \$10,000,000 to be repaid during the 2015 financial year.
- Tranche B is an \$25,000,000 Akara Resources PCL ("Akara") Pre-IPO Bond with a maturity date of 31 July 2015. The current intention is for this tranche to be repaid from proceeds raised through the Akara IPO although at Kingsgate's election repayment can be made by Kingsgate either in cash or Kingsgate shares.

As security for the above facility the lender has a fixed and floating charge over Kingsgate including its shares in its material subsidiaries.

BORROWINGS (CONTINUED)

Multi-currency, syndicated loan facility

Kingsgate's Thai operating subsidiary, Akara, has an amortising multi-currency loan facility with 4.5 years remaining. It is currently drawn to the equivalent of \$111,168,000, following the commencement of quarterly repayments in November 2013. Akara also has an additional undrawn Thai Baht denominated working capital facility equivalent to \$16,000,000.

As security against the above facility the lender has a fixed and floating charge over the land, buildings and machinery in Thailand owned by Akara and its material subsidiaries.

Convertible revolving credit facility

The Group had a three year \$25,000,000 Convertible Revolving Credit Facility available during the year. This facility was replaced by the above facilities following the Group's corporate debt restructure in the second half of the 2014 financial year.

Restricted funds

Under the terms of the loan facilities, the Group is required to maintain a minimum cash balance of US\$5,000,000 (\$5,489,000 million) in respect of Akara.

Preference shares in controlled entity

Terms and repayment schedule

Terms and conditions of outstanding preference shares in controlled entity were as follows:

	Currency	Interest Rate	Financial year of maturity	Face value \$'000	Carrying amount \$'000

Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so as to maintain a strong capital base sufficient to continue future exploration and development of its projects. In order to maintain or adjust the capital structure, the Group may issue new shares or sell assets. The Group's focus has been to utilise surplus cash from operations and raise additional funds as required from debt or equity markets to fund capital investment, working capital and exploration and evaluation activities, including for the Nueva Esperanza Project in Chile and the Bowdens Silver Project in New South Wales, Australia.

At the end of the financial year	(4,380)	(4,380)

Foreign currency translation reserve

Exchange differences arising on translation of the foreign controlled entities are taken to the foreign currency translation reserve, as described in Note 2b.

Available-for-sale investment revaluation reserve

Changes in the fair value of investments classified as available-for-sale financial assets are taken to the available-for-sale investment revaluation reserve as described in Note 2k (iii).

Share-based payment reserve

The share-based payments reserve is used to recognise the fair value of options, deferred rights and performance rights issued but not exercised.

RESERVES AND ACCUMULATED LOSSES (CONTINUED)

General reserve

The general reserve represents changes in equity as a result of changes in non-controlling interests in prior periods.

(b) Accumulated losses

	2014	2013
	\$'000	Restated \$'000
(Accumulated losses) / retained profits at the beginning of the year	(159,705)	189,304
Net loss attributable to members of Kingsgate Consolidated Limited	(96,291)	(326,271)
Dividends paid	-	(22,738)
Accumulated losses	(255,996)	(159,705)

20. COMMITMENTS FOR EXPENDITURE

	2014	2013
	\$'000	\$'000
Capital commitments		
Within 1 year	-	1,475
Total capital commitments	-	1,475
Operating leases		
Within 1 year	553	1,064
Later than 1 year but not later than 5 years	110	553
Total operating leases	663	1,617
Exploration commitments		
Within 1 year	1,655	2,190
Later than 1 year but not later than 5 years	316	-
Total exploration commitments	1,971	2,190

Capital commitments

Commitments for the plant, equipment and mine properties contracted as at the reporting date but not recognised as liabilities.

Operating leases

Commitments for minimum lease payments are in relation to non-cancellable operating leases. Operating leases for the current year primarily relates to Challenger Mine's power generation operating leases.

Exploration commitments

In order to maintain current rights of tenure to exploration tenements, the Group has exploration expenditure requirements up until expiry of the leases. These obligations, which are subject to renegotiation upon expiry of the leases, are not provided for in the financial statements.

21. CONTROLLED ENTITIES

Entity	Country of Incorporation	Class of shares	Equity holding

22. DIVIDENDS

	2014 \$'000	2013 \$'000
No final dividend was declared for the year ended 30 June 2013	-	15,148
No interim dividend was declared for the year ended 30 June 2014	-	7,590
Total dividends	-	22,738

The Group's franking credit balance as at 30 June 2014 is \$880,548 (2013: \$880,548).

23. RELATED PARTIES

Transaction with related parties

Information on remuneration of Directors and Key Management Personnel is disclosed in Note 29 and the Remuneration Report.

Controlling entity

The ultimate parent entity of the Group is Kingsgate Consolidated Limited.

24. EMPLOYEE BENEFITS AND SHARE-BASED PAYMENTS

	2014 \$'000	2013 \$'000
Employee benefit and related on-costs liabilities		
Provision for employee benefits - current	3,115	3,797
Provision for employee benefits - non-current	5,267	5,416
Total employee provisions	8,382	9,213

Share-based payments

The following share-based payments were made during the year:

- performance and deferred rights issued to employees \$292,614 (2013: \$917,397);
- performance rights issued to consultants \$155,610 (2013: \$0); and
- shares issued as part consideration of a legal dispute \$0 (2013: \$1,512,000).

Superannuation

The Group makes contributions on behalf of employees to externally managed defined contribution superannuation funds. Contributions are based on percentages of employee's wages and salaries and include any salary-sacrifice amounts. Contributions to defined contribution plans for 2014 were \$1,744,000 (2013: \$1,663,000).

Kingsgate executive option plan

The terms of the options issued pursuant to the plan are as follows:

- each option will entitle the holder to subscribe for one ordinary share of the Company;
- options are granted under the plan for no consideration; and
- options granted under the plan carry no dividend or voting rights.

EXECUTIVE RIGHTS PLAN

On 1 July 2012, the Company introduced an Executive Rights Plan which involves the grant of two types of rights being performance rights and deferred rights. Subject to the satisfaction of the performance condition at the end of a three year measurement period in respect of performance rights and the service condition at the end of the

EMPLOYEE BENEFITS AND SHARE-BASED PAYMENTS (CONTINUED)

three year vesting period in respect of deferred rights, the rights will vest. The first \$1,000 of value per individual award is settled by cash with the balance settled by shares.

Performance rights

Kingsgate issued the following performance rights during the year:

Type	Grant date	Vesting date	Number
Performance rights	7/13 November 2013	1 July 2016	479,643
Performance rights	26 November 2013	1 July 2016	768,380

The Executives Rights Plan entitles participants to receive rights to fully paid ordinary shares in the Company (Performance Rights). The performance measures for the Performance Rights issued in the 2013 and 2014 financial years is subject to a hurdle derived from a 3 year vesting period using the internal performance measuring metric, TSR Alpha™. This measure is based on total shareholder return over that vesting period.

The fair value of the performance rights was estimated using Monte Carlo simulations, taking into account the terms and conditions upon which the awards were granted.

The following table lists the inputs to the model used for the performance rights granted for the year:

Number of rights issued	479,643	768,380
Grant date	7/13 November 2013	26 November 2013
Spot price (\$)	1.24	1.24
Risk-free rate (%)	2.9	2.9
Term (years)	2.6	2.6
Volatility (%)	60 – 65	60 – 65
Exercise price	-	-
Fair value (\$)	0.72 – 0.75	0.72 – 0.75

The volatility above was determined with reference to the historical volatility of the Company's share price from June 2008 to November 2013.

Deferred rights

Kingsgate issued the following deferred rights during the year:

Type	Grant date	Vesting date	Fair Value	Number
Deferred rights	7 November 2013	1 July 2016	\$1.47	215,874
Deferred rights	13 November 2013	1 July 2016	\$1.34	63,241
Deferred rights	4 November 2013	1 July 2016	\$1.39	49,407
Total				328,522

The fair value of the deferred rights was estimated based on the share price less the present value of projected dividends over the expected term of each deferred right.

The following table lists the inputs to the model used for the deferred rights granted for the year:

Number of rights issued	215,874	63,241	49,407
Grant date	7 November 2013	13 November 2013	4 November 2013
Spot price (\$)	\$1.47	\$1.34	\$1.39
Term (years)	2.6	2.6	2.6
Dividends (\$)	-	-	-

25. RECONCILIATION OF LOSS AFTER INCOME TAX TO NET CASH FLOW FROM OPERATING ACTIVITIES

	2014	2013
	\$'000	Restated \$'000
Loss for the year	(96,291)	(326,271)
Depreciation and amortisation	57,741	90,377
Share-based payments	448	917
Gain on disposal of property, plant and equipment	-	70
Impairment - Bowdens	84,586	-
Impairment - exploration	2,112	20,421
Impairment - Challenger Gold Project	-	311,850
Impairment in associate - Caravel Minerals	-	537
Unwind of discount rate for provision	1,137	1,017
Loss on sale of exploration assets	-	16,709
Amortisation of deferred borrowing costs	1,056	7,594
Unrealised (gains) / losses	(522)	(559)
Share of associate's loss	413	1,353
Net exchange differences	(670)	2,147
Change in operating assets and liabilities		
(Increase) / decrease in receivables	(4,321)	5,644
(Increase) / decrease in prepayments	2,900	(85)
(Increase) / decrease in inventories	1,583	(8,930)
Increase / (decrease) in current tax liabilities	930	(11,792)
Increase / (decrease) in creditors	(14,163)	(3,181)
Increase / (decrease) in provisions	43	1,143
Increase / (decrease) in deferred tax liabilities	181	(20,176)
Net cash inflow from operating activities	37,163	88,785

26. EVENTS OCCURRING AFTER REPORTING DATE

No matter or circumstance has arisen since 30 June 2014 that has significantly affected, or may significantly affect:

- the Group's operations in future financial years,
- the results of those operations in future financial years, or
- the Group's state of affairs in future financial years.

27. CONTINGENT LIABILITIES

The Group had contingent liabilities at 30 June 2014 in respect of guarantees. Bank guarantees have been given by Kingsgate's controlled entities to participating banks in the syndicated loan facility and corporate loan facility as described in Note 16 as part of the security package. These guarantees may give rise to liabilities in the parent entity if the controlled entities do not meet their obligations under the terms of the loans subject to guarantees. No material losses are anticipated in respect of the above contingent liabilities.

Included in non-current other asset is \$1,828,000 relating to restricted cash deposits against bank guarantees supporting the rehabilitation bond requirements against the Group's mining operations.

28. FINANCIAL RISK MANAGEMENT AND INSTRUMENTS

Financial risk management

The Group's activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk, fair value risk, and interest rate risk), credit risk and liquidity risk.

At this point, the Directors believe that it is in the interest of shareholders to expose the Group to foreign currency risk, price risk except in specific circumstances and interest rate risk. Therefore, the Group does not employ any derivative hedging of foreign currency or interest rate risks. The Group has entered into forward gold sale contracts to manage Australian gold price risk in respect of the forecast production from the Challenger Mine (refer "commodity price risk" section below). The Directors and management monitor these risks, in particular market forecasts of future movements in foreign currency and prices movements and if it is to be believed to be in the interests of shareholders will implement risk management strategies to minimise potential adverse effects on the financial performance of the Group.

Risk management is carried out by the senior executive team. The Board provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

The Group holds the following financial instruments:

	2014 \$'000	2013 \$'000
Financial assets		
Cash and cash equivalents	53,632	30,494
Receivables	13,360	9,431
Restricted cash	5,489	5,474
Available-for-sale financial assets	270	767
Other financial assets	9,059	10,301
Total financial assets	81,810	56,467
Financial liabilities		
Payables	(30,278)	(47,106)
Borrowings	(155,714)	(202,565)
Derivatives held for trading	(623)	(1,271)
Total financial liabilities	(186,615)	(250,942)

(a) Market risk

Foreign exchange risk

The Group operates internationally and is exposed to foreign exchange risk arising from currency exposures, primarily with respect to the US dollar and Thai Baht and as discussed earlier, no financial instruments are employed to mitigate the exposed risks. This is the Group's current policy and it is reviewed regularly including forecast movements in these currencies by management and the Board. Current year foreign exchange risks arise primarily from:

- the sale of gold, which is in US dollars;
- payables denominated in US dollars; and
- cash balances in US dollars.

The functional currency of the Thai subsidiaries is Thai Baht.

The Company's functional currency is Australian dollars.

FINANCIAL RISK MANAGEMENT AND INSTRUMENTS (CONTINUED)

The Group's exposure to US dollar foreign currency risk at the reporting date was as follows:

	2014 \$'000	2013 \$'000
Cash and cash equivalents	2,175	483
Restricted cash	5,489	5,474
Receivables	113	127
Payables	(451)	(1,016)
Total exposure to foreign currency risk	7,326	5,068

The Group's sale of gold produced from Chatree Gold Mine is in US dollars, however the functional currency of the subsidiary company that owns the Chatree Gold Mine is Thai Baht and therefore, the Group's profit is sensitive to movement in those currencies.

If the spot Australian dollar weakened / strengthened by one cent against the US dollar with all other variables held constant, the Group's revenue for the year would have been \$2,357,000 higher / \$2,357,000 lower (2013: \$2,510,000 higher / \$2,456,000 lower).

The Group's current exposure to other foreign exchange movements is not material.

Commodity price risk

At 30 June 2014 the Group's subsidiary, Challenger Gold Operations Pty Ltd, has forward sold 14,500 ounces of gold at an average price of \$1,364 per ounce. Subsequent to year-end the Group forward sold a further 22,000 ounces of gold over a 12 month period at an average price of \$1,419 per ounce to manage Australian gold price risk associated with forecast production from the Challenger Mine.

The following table sets out an aging of forward gold sale contracts in place at year end:

	Gold for physical delivery ounces	Contracted sales price A\$ / oz	Value of committed sales \$'000s
As at 30 June 2014			
Within one year	14,500	1,364	19,779
As at 30 June 2013			
Within one year	6,500	1,159	7,534

The following table displays fluctuations in the fair value of the Group's gold forward contracts due to movements in the spot price of gold with all other variables held constant. The 5% sensitivity is based on reasonable possible changes, over a financial year, using the observed range of actual historical prices.

	2014 \$'000	2013 \$'000
Mark to market movement of the fair value of gold forward contracts		
5% increase in the spot price of gold	(779)	(611)
5% decrease in the spot price of gold	1,240	(2,217)

FINANCIAL RISK MANAGEMENT AND INSTRUMENTS (CONTINUED)

Equity price risk

The Group is exposed to equity securities price risk, which arises from investments classified on the statement of financial position as available-for-sale financial assets.

A 10% increase / (decrease) of the share price for the equity securities at 30 June 2014 would have increased / (decreased) equity / profit by the amounts shown as follows:

	+10%		-10%	
	Profit \$'000	Equity \$'000	Profit \$'000	Equity \$'000
Available-for-sale financial asset - 2014	27	-	(27)	
Available-for-sale financial asset - 2013	-	77	(77)	-

Interest rate risk

The Group's exposure to interest rate risk for classes of financial assets and financial liabilities, at 30 June 2014 and 30 June 2013 are set out as follows:

2014	Floating interest rate \$'000	Fixed interest maturing in 1 year or less \$'000	Non-interest bearing \$'000	Total \$'000
Financial assets				
Cash and cash equivalents	53,614	-	18	53,632
Receivables	-	-	13,360	13,360
Restricted cash	5,489	-	-	5,489
Available-for-sale financial assets	-	-	270	270
Other financial assets	8,664	-	395	9,059
Total financial assets	67,767	-	14,043	81,810
Financial liabilities				
Payables	-	-	(30,278)	(30,278)
Borrowings	(146,168)	(9,546)	-	(155,714)
Derivatives held for trading	-	-	(623)	(623)
Total financial liabilities	(146,168)	(9,546)	(30,901)	(186,615)
Net financial (liabilities) / assets	(78,401)	(9,546)	(16,858)	(104,805)

FINANCIAL RISK MANAGEMENT AND INSTRUMENTS (CONTINUED)

2013	Floating interest rate \$'000	Fixed interest maturing in 1 year or less \$'000	Non-interest bearing \$'000	Total \$'000
Financial assets				
Cash and cash equivalents	30,476	-	18	30,494
Receivables	-	-	9,431	9,431
Restricted cash	5,474	-	-	5,474
Available-for-sale financial assets	-	-	767	767
Other financial assets	9,764	-	537	10,301
Total financial assets	45,714	-	10,753	56,467
Financial liabilities				
Payables	-	-	(47,106)	(47,106)
Borrowings	(191,995)	(10,570)	-	(202,565)
Derivatives held for trading	-	-	(1,271)	(1,271)
Total financial liabilities	(191,995)	(10,570)	(48,377)	(250,942)
Net financial (liabilities) / assets	(146,281)	(10,570)	(37,624)	(194,475)

The weighted average rate on floating rate borrowings was 4.86% for the year ended 30 June 2014 (2013: 5.87%).

A change of 100 basis points (“bps”) in interest rate at the reporting date would have increased (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign exchange rates, remain constant.

	100 bps increase Profit \$'000	100 bps decrease Profit \$'000
Variable rate instrument - 2014	1,462	(1,462)
Variable rate instrument - 2013	1,920	(1,920)

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as credit exposures to customers including, outstanding receivables and committed transactions.

The Group has no significant concentrations of credit risk. The sale of gold and other cash transactions are limited to counterparties with sound credit ratings.

The maximum exposure to credit risk is represented by the carrying value of the Group’s financial assets in the statement of financial position. The maximum exposure to credit risk at reporting date was:

FINANCIAL RISK MANAGEMENT AND INSTRUMENTS (CONTINUED)

	2014 \$'000	2013 \$'000
Cash and cash equivalents	53,632	30,494
Receivables	13,360	9,431
Restricted cash	5,489	5,474
Other financial assets	9,059	10,301
Total exposure to credit risk at year end	81,540	55,700

(c) Liquidity risk

The Group's liquidity requirements are based upon cash flow forecasts which are based upon forward production, operations, exploration and capital projections. Liquidity management, including debt / equity management, is carried out under policies approved by the Board and forecast material liquidity changes are discussed at Board meetings. The following table analyses the Company's financial assets and liabilities into relevant maturity groupings based on the remaining period at the reporting date. The amounts disclosed are the contractual undiscounted cash flows.

2014	Carrying amount \$'000	1 year or less \$'000	1 - 2 years \$'000	2 - 5 years \$'000	More than 5 years \$'000	Total \$'000
Payables	30,278	25,478	806	3,994	-	30,278
Borrowings	155,714	52,720	54,464	64,514	-	171,698
Derivatives held for trading	623	623	-	-	-	623
Total financial liabilities 2014	186,615	78,821	55,270	68,508	-	202,599

2013	Carrying amount \$'000	1 year or less \$'000	1 - 2 years \$'000	2 - 5 years \$'000	More than 5 years \$'000	Total \$'000
Payables	47,106	41,185	1,731	5,104	865	48,885
Borrowings	202,565	94,432	30,458	85,138	13,521	223,549
Derivatives held for trading	1,271	1,271	-	-	-	1,271
Total financial liabilities 2013	250,942	136,888	32,189	90,242	14,386	273,705

(d) Fair value measurements

The carrying values of financial assets and liabilities of the Group approximate their fair values. Fair values of financial assets and liabilities have been determined for measurement and / or disclosure purposes.

Fair value hierarchy

The Group classifies assets and liabilities carried at fair value using a fair value hierarchy that reflects the significance of the inputs used in determining that value. The table following analyses financial instruments carried at fair value, by the valuation method. The different levels in the hierarchy have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

FINANCIAL RISK MANAGEMENT AND INSTRUMENTS (CONTINUED)

	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000	Total \$'000
30 June 2014				
Available-for-sale financial assets	270	-	-	270

31. LOSS PER SHARE

	2014 Cents	2013 Restated Cents
Basic loss per share	(55.9)	(215.0)
Diluted loss per share	(55.9)	(215.0)
	\$'000	\$'000
Net loss used to calculate basic and diluted earnings per share	(96,291)	(326,271)
Weighted average number of shares used as the denominator	Number	Number
Weighted average number of ordinary shares used as the denominator in calculating basic earnings per share	172,237,245	151,766,220
Adjustment for calculation of diluted earnings per share: options	-	-
Weighted average number of ordinary shares and potential ordinary shares used as the denominator in calculating diluted earnings per share	172,237,245	151,766,220

Diluted loss per share

As the Group made a loss for the year, diluted loss per share is the same as basic loss per share as the impact of dilution would be to reduce the loss per share.

32. PARENT ENTITY FINANCIAL INFORMATION

As at, and throughout the financial year ending 30 June 2014, the parent entity of the Group was Kingsgate.

Summary of financial information

	2014 \$'000	2013 \$'000
Results of parent entity		
Loss for the year	(114,554)	(385,898)
Other comprehensive loss	-	(91)
Total comprehensive loss	(114,960)	(385,989)
Financial position of parent entity at year end		
Current assets	142,681	170,816
Total assets	209,627	290,509
Current liabilities	71,021	132,736
Total liabilities	95,849	133,743
Total equity of the parent entity comprising of:		
Issued capital	677,109	605,504
Reserve	8,298	8,337
Accumulated losses	(571,629)	(457,075)
Total financial equity	113,778	156,766

Contingent liabilities of the parent entity

Bank guarantees have been given by Kingsgate's controlled entities to participating banks in the syndicated loan facility and revolving loan facility as described in Note 16 as part of the security package.

PARENT ENTITY FINANCIAL INFORMATION (CONTINUED)

These guarantees may give rise to liabilities in the parent entity if the controlled entities do not meet their obligations under the terms of the loans subject to guarantees. No material losses are anticipated in respect of the above contingent liabilities.

33. DEED OF CROSS GUARANTEE

Pursuant to ASIC Class Order 98/1418 (as amended) dated 13 August 1998, the wholly-owned subsidiaries listed below are relieved from the *Corporations Act 2001* requirements for preparation, audit and lodgement of financial reports, and Directors' Reports.

It is a condition of the Class Order that the Company and each of the subsidiaries enter into a Deed of Cross Guarantee ("Deed"). The effect of the Deed is that the Company guarantees to each creditor payment in full of any debt in the event of the winding up of any of the subsidiaries under certain provisions of the *Corporations Act 2001*. If a winding up occurs under other provisions of the *Corporations Act 2001*, the Company will only be liable in the event that after six months any creditor has not been paid in full. The subsidiaries have also given similar guarantees in the event that the Company is wound up.

The subsidiaries subject to the Deed are:

- Dominion Mining Limited;
- Dominion Gold Operations Pty Ltd; and
- Gawler Gold Mining Pty Ltd.

The above companies represent a 'closed group' for the purpose of the Class Order, and as there are no other parties to the Deed of Cross Guarantee that are controlled by Kingsgate Consolidated Limited, they also represent the 'extended closed group'.

A consolidated income statement and other comprehensive income, a summary of movements in consolidated accumulated losses, and consolidated statement of financial position, comprising the Company and controlled entities which are a party to the Deed, after eliminating all transactions between parties to the Deed of Cross Guarantee, is set out as follows:

INCOME STATEMENT AND OTHER COMPREHENSIVE INCOME

34. IMPACT OF ADOPTING INTERPRETATION 20 AND VOLUNTARY CHANGE IN ACCOUNTING POLICY FOR DEFERRED COST OF DIVESTMENT

Impact of Adopting Interpretation 20

The Group has adopted Interpretation 20 - *Stripping Costs in the Production Phase of a Surface Mine* as of 1 July 2013.

In open pit mining operations, it is necessary to remove overburden and other waste materials in order to access ore from which minerals can be extracted economically. The process of removing overburden and waste materials is referred to as stripping. The Group capitalises pre-production stripping costs incurred during the development of a mine (or pit) as part of the investment in construction of the mine. These costs are subsequently amortised over the life of the mine (or pit) on a units of production basis. This accounting treatment is unchanged by the implementation of Interpretation 20 which specifies the accounting for production stripping only.

The Group's accounting policy for production stripping costs for the financial year ended 30 June 2013 and previous financial reporting periods, was to defer costs where this was the most appropriate basis for matching the costs against the related economic benefits and where the effect was material. The amount of stripping costs deferred was based on the ratio obtained by dividing the amount of waste tonnes mined by the quantity of ore for the life of mine (or pit/stage). Production stripping costs incurred in the period were deferred to the extent that the current period actual waste ore ratio exceeded the average life of mine (or pit/stage) expected ratio. Such deferred costs were then charged to profit or loss to the extent that, in subsequent periods, the current period actual ratio fell below the average life of mine (or pit/stage) expected ratio until those deferred costs were fully depleted. No production stripping liabilities were recognised. The life of mine (or pit/stage) ratio was based on economically recoverable reserves of the mine.

Interpretation 20 now provides specific guidance on how to account for production stripping costs. It requires such costs to be capitalised as an asset (referred to as the "production stripping asset") when the recognition criteria set out in Interpretation 20 are met. Interpretation 20 differs from the life of mine average waste tonnes mined to ore ratio approach in a number of ways – these include:

- i) the level at which production stripping costs are to be assessed, which includes the recognition of an asset at a component level rather than a life of mine level and;
- ii) the way in which the production stripping asset is to be depreciated.

Identification of Components

Interpretation 20 requires the identification of different components of the ore body. Interpretation 20 defines a component as a specific volume of the ore body that is made more accessible by the stripping activity. An identified component of the ore body is generally a subset of the total ore body of the mine. It is considered that each mine may have several components, which are to be identified based on the mine plan. The mine plans and therefore the identification of specific components will vary between mines as a result of both the geological characteristics and location of the ore body. The financial considerations of the mining operations may also impact the identification and designation of a component.

The identification of components is necessary for both the measurement of costs at the initial recognition of the asset and the subsequent depreciation of the asset.

IMPACT OF ADOPTING INTERPRETATION 20 AND VOLUNTARY CHANGE IN ACCOUNTING POLICY FOR DEFERRED COST OF DIVESTMENT (CONTINUED)

Depreciation Methodology

Interpretation 20 also changes the manner in which the production stripping asset is depreciated. Under the previous method, the production stripping asset was released to the profit or loss when the actual ratio fell below the average expected ratio. Under Interpretation 20, the production stripping asset is depreciated over the expected useful life of the identified component of the ore body that is made more accessible by the activity, on a units of production basis.

Transition

Interpretation 20 is not to be retrospectively applied; instead it is applied prospectively from the beginning of the earliest comparative period presented. Therefore, the impact of adoption for the Group is calculated as of 1 July 2012, being the beginning of the earliest comparative period presented in these financial statements. On implementation of Interpretation 20, production stripping costs which had been capitalised up to 30 June 2012 using the Group's previous policy, could only be carried forward if there remained an identifiable component of the ore body to which the opening carried forward balance could be associated. Given the way in which production stripping costs have been previously accumulated and capitalised, and the way in which the components of the mine have been identified under Interpretation 20, it was determined that no adjustment to the deferred stripping asset at 30 June 2012 was required. Prior to the adoption of Interpretation 20, the Group disclosed the production stripping assets as part of "Other Assets". On adoption, these assets were reclassified as "Exploration, Evaluation and Development".

Accounting Policy

The Group's accounting policy under Interpretation 20 has been revised and is included in note 2n.

Impact of Voluntary Change in Accounting Policy - Deferred Transaction Costs of Divestment

The Group has implemented a voluntary change in accounting policy in respect of deferral of transaction costs relating to the partial divestment of its interest in its subsidiary, Akara Resources PCL ("Akara"), without losing control. This change is effective 1 July 2013.

The Group has been implementing a strategy to list Akara on the Thai Stock Exchange ("SET") since 2011 and lodged a prospectus with the SET and the Thai Securities Exchange Commission ("SEC") in September 2013. The approval process is continuing and Kingsgate expect the prospectus to be approved before the end of 2014. Once approval is received the Group has 12 months to complete the listing process. A new prospectus would need to be lodged for approval if the listing is not completed within this timeframe.

The timing of the listing has been longer than expected due to:

- Time taken to resolve a dispute with the previous Akara preference shareholder, which was achieved in August 2011.
- Longer than expected approval process with the SEC and SET.

The Group's accounting policy for divestment of transaction costs for the financial year ended 30 June 2013 and previous financial reporting periods was to defer such costs on the basis that:

- The Group was in the process of implementing its strategy to divest a non-controlling interest in Akara via an Initial Public Offering ("IPO") in Thailand and that the transaction would be completed in the near term.

IMPACT OF ADOPTING INTERPRETATION 20 AND VOLUNTARY CHANGE IN ACCOUNTING POLICY FOR DEFERRED COST OF DIVESTMENT (CONTINUED)

- The Group would retain control of Akara so there would be no impact on the Income Statement from these transaction costs, as these costs would be recognised in equity as a transaction cost with outside equity interests upon the successful listing of Akara.

The Group's accounting policy for transaction costs incurred prior to a partial divestment for the financial year ended 30 June 2013 and previous financial reporting periods was to defer such costs until the divestment took place. The new accounting policy is to expense as incurred transaction costs relating to the potential partial divestment of an interest in a subsidiary in the years prior to the disposal where control is retained. The Group believes the new accounting policy will provide more reliable and relevant information to the users of the financial report:

- Expensing costs as incurred is simpler and easier for readers of the financial statements to understand.
- Deferral of cost could be seen as judgmental and although KCN had applied its accounting policy correctly at each reporting period, an "expense as incurred" model would remove this estimate and provide for a more "prudent" and conservative approach and reflects the longer than expected timeframe taken to achieve this transaction.
- The divestment costs are disclosed separately within Note 5 "Revenue and Expenses" so the level of information available to readers of the financial statements has not been reduced from that under the previous policy.

Transition

This change in accounting policy has been applied retrospectively from the beginning of the earliest comparative period presented being 1 July 2012. On implementation of the revised policy, divestment costs deferred up to 30 June 2012 under the Group's previous policy have been expensed via opening retained earnings. This adjustment reduced opening retained earnings at 1 July 2012 by \$7,298,000. The 2013 Group income statement has been restated by \$1,111,000 to reflect the cost of divestment incurred in that year (refer Note 5c), this impacts closing retained earnings as well.

Accounting Policy

The Group's accounting policy in respect of deferred costs of divestment has been revised and is included in note 2f.

Financial Impacts

In accordance with the transitional provisions of Interpretation 20 and change in accounting policies for deferred cost of divestment, these policies have been applied prospectively from the start of the comparative period, being 1 July 2012. The impact of these changes in accounting requirements on the:

- Income Statement for the year ended 30 June 2013;
- Statement of Financial Position as at 30 June 2013;
- Statement of Financial Position as at 1 July 2012;
- Statement of Cash Flows for the year ended 30 June 2013; and
- Earnings per share for the year ended 30 June 2013.

is set out as follows:

IMPACT OF ADOPTING INTERPRETATION 20 AND VOLUNTARY CHANGE IN ACCOUNTING POLICY FOR DEFERRED COST OF DIVESTMENT (CONTINUED)

a) Group Income Statement – year ended 30 June 2013

	As reported year to 30 June 2013 \$'000	Interpretation 20 Restatement \$'000	Deferred Cost of Divestment Restatement \$'000	As restated year to 30 June 2013 \$'000
Sales revenue	329,282	-	-	329,282
Cost of sales	(280,452)	(2,049)	-	(282,501)
Gross profit	48,830	(2,049)	-	46,781
Exploration expenses	(675)	-	-	(675)
Corporate and administration expenses	(21,152)	-	(1,111)	(22,263)
Other income and expenses	(15,490)	-	-	(15,490)
Foreign exchange loss	(745)	-	-	(745)
Share of loss in associate	(1,353)	-	-	(1,353)
Impairment losses	(332,271)	-	-	(332,271)
Impairment of investment in associate	(537)	-	-	(537)
Loss before finance costs and income tax	(323,393)	(2,049)	(1,111)	(326,553)
Finance income	2,587	-	-	2,587
Finance costs	(18,809)	-	-	(18,809)
Loss before income tax	(339,615)	(2,049)	(1,111)	(342,775)
Income tax benefit	15,889	615	-	16,504
Loss after income tax	(323,726)	(1,434)	(1,111)	(326,271)
Earnings per share (cents per share)				
Basic loss per share	(213.3)	(0.9)	(0.8)	(215.0)
Diluted loss per share	(213.3)	(0.9)	(0.8)	(215.0)

The Interpretation 20 restatement impact to loss after income tax reflects the net impact of the change in production stripping costs capitalised for the year, and the depreciation charged in the year.

The change in accounting policy for deferred cost of divestment impact to loss after income tax reflects divestment cost capitalised in the year under the previous accounting policy and now expensed.

IMPACT OF ADOPTING INTERPRETATION 20 AND VOLUNTARY CHANGE IN ACCOUNTING POLICY FOR DEFERRED COST OF DIVESTMENT (CONTINUED)

d) Group Statement of Cash Flows – for the year ended 30 June 2013

	As reported 12 months to 30 June 2013	Interpretation 20 Restatement	Deferred Cost of Divestment Restatement	As restated 12 months to 30 June 2013
	\$'000	\$'000	\$'000	\$'000
Net cash from operating activities	85,020	4,876	(1,111)	88,785
Net cash from investing activities	(141,326)	(4,876)	1,111	(145,091)
Net cash from financing activities	(1,691)	-	-	(1,691)
Net decrease in cash and cash equivalents	(57,997)	-	-	(57,997)

Prior to the adoption of Interpretation 20, all cash outflows associated with production stripping were disclosed as operating activities. On adoption of Interpretation 20, the cash outflows that were initially recognised as part of the stripping activity assets were reclassified to investing activities.

Prior to the change in accounting policy for deferred cost of divestment, all cash outflows relating to the deferred cost of divestment were disclosed as investing activities. Following the adoption of the revised accounting policy, all cash outflows relating to the cost of divestment have been reclassified to operating activities.

DIRECTORS' DECLARATION

In the Directors' opinion:

- a) the financial statements and notes that are set out on pages 33 to 95 and the Remuneration Report in the Directors' Report, are in accordance with the *Corporations Act 2001*, including:
 - i) giving a true and fair view of the Group's financial position as at 30 June 2014 and of its performance for the financial year ended on that date; and
 - ii) complying with Australian Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
- c) At the date of this declaration, there are reasonable grounds to believe that the members of the extended closed group identified in Note 33 will be able to meet any obligations or liabilities to which they are, or may become, subject by virtue of the deed of cross guarantee described in Note 33.

Note 1 confirms that the financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

The Directors have been given the declarations required by section 295A of the *Corporations Act 2001* from the Chief Executive Officer and Chief Financial Officer for the financial year ended 30 June 2014.

This declaration is made in accordance with a resolution of the Directors.

Ross Smyth-Kirk
Director

DATED at SYDNEY on 5 September 2014
On behalf of the Board

Independent auditor's report to the members of Kingsgate Consolidated Limited

Report on the financial report

We have audited the accompanying financial report of Kingsgate Consolidated Limited (the company), which comprises the consolidated statement of financial position as at 30 June 2014, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration for Kingsgate group (the consolidated entity). The consolidated entity comprises the company and the entities it controlled at year's end or from time to time during the financial year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the consolidated entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*.

Auditor's opinion

In our opinion:

- (a) the financial report of Kingsgate Consolidated Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.
- (b) the financial report and notes also comply with International Financial Reporting Standards as disclosed in Note 1.

Report on the Remuneration Report

We have audited the remuneration report included in pages 11 to 29 of the directors' report for the year ended 30 June 2014. The directors of the company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

Auditor's opinion

In our opinion, the remuneration report of Kingsgate Consolidated Limited for the year ended 30 June 2014 complies with section 300A of the *Corporations Act 2001*.
