

Novogen Dr Stephen Palmer Speaks at Annual FSHD Research Meetings in Australia.

9 September 2014

The Novogen degenerative disease Program Director, **Dr Stephen Palmer** will speak at the **Annual FSHD Research Meeting** in Australia for Patients, Families, Clinicians & Researchers.

Those who are involved with **FSHD** will already know it stands for **facioscapulohumeral dystrophy**. **Dr Stephen Palmer** PhD. will be one of the speakers along with other leading FSHD researchers and clinicians, **Dr Stephen Tapscott**, MD, PhD, and **Dr Uli Schmidt (Genea Biocells)**, who will be presenting information on the latest advances in FSHD research and treatments, and will provide a clear road map for developing future therapies for FSHD and understanding the genetics and diagnosis of the disease.

The three dates and venues are as follows...

Monday 22 September, Mecure Hotel Brisbane, Brisbane – 7.00pm – 9.30pm

Tuesday 23 September, Parramatta Leagues Club, Sydney – 6.30pm – 9.30pm

Wednesday 24 September, Royal Children's Hospital, Melbourne – 7.00pm – 9.00pm
