

Asia FinTech Market Temperature

September 2010

Welcome to the first edition of Talent 2's Asia FinTech Market Temperature report!

As part of our continuing effort to provide our key clients with up to date information on hiring activities across the region, we will be publishing regular updates to the market temps, and providing the report to select hiring managers.

The data in the report is based on the information gathered through our existing network of clients, candidates and contacts within the financial services industry. While our network is extensive, it is not exhaustive, and there will likely be some bits of hiring that escape our radar.

The Temps are on a scale of 1 to 10 and intended to show the general level of demand we are seeing from financial services firms across Asia.

We welcome comments and suggestions for improving this report.
