Third Quarterly Report

* For identification purposes only

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (THE “GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of Link Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive; and there are no other matters the omission of which would make any statement in this report misleading.

For nine months ended 30 September 2017, diluted earnings per share assumed the conversion of the Company's outstanding convertible bonds since its conversion would result in a decrease in earnings per share (nine months ended 30 September 2016: diluted earnings per share are the same as basic earnings per share as the computation of diluted earnings per share does not assume the conversion of the Company's outstanding convertible bonds since their exercise would result in an increase in earnings per share).
