MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

Vital Innovations Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") are primarily engaged in the provision of products and services including mobile phones, smartphones and related business which encompassed research and development, design, engineering, material sourcing, supply chain management, logistic, and the services activities to the target markets. The Group's main business is to service its diverse number of wholesalers and resellers by using its extensive understanding of telecommunication technology, a large network of technological and service provider partners.

In 2020, the main business of the Group was adversely affected by two factors. One is the Sino-American trade war. Another is the global pandemic due to outbreak of COVID-19. The business environment for international trade continued to face huge pressure. In 2020, global smartphone shipments continued to slip quickly. According to the data released by Canalys on 10 March 2021, the global smartphone shipments in 2020 was 1,265 million units, representing a year-on-year decrease of 7%, the third consecutive year of decline. The decrease was partially due to the problem of supply chain of the accessories affected by the outbreak of the COVID-19 pandemic and the weakening demand of smartphone stemmed from the poor economy.

In the second half of 2020, the Group strove hard to maintain its customer base through innovation and efficiency. The management team continued to adjust the higher margin policy to high volume, lower gross margin in getting more sales revenue. The sales revenue for the second half of 2020 was RMB525.5 million , representing an increase of 112% increase as comparing with the first half of 2020. Even the overall market was still tough, however, the Group was still able to deliver approximately 95% of last year shipments. The Group continues to control all operating expenses tightly in order to minimize the operating losses.

The artificial intelligence ("AI") equipment trading business suffered from a huge loss during the year 2020 due to the sudden worsening pandemic situation and all the business activities were shut down at that period. Driven by prudence strategy, the management team acted in all means to reduce the negative effect of the pandemic but a loss had occurred due to the extreme situation. The Group has suspended the trading business for AI equipment and the Group is currently carefully and cautiously reviewing the continuation of the business. Whilst the overall market was difficult during the year 2020, the Group managed to maintain the majority of the overall business revenue even in a tough environment. The management team delivered to keep the core business healthy as well as to keep searching for new business opportunities.

MANAGEMENT DISCUSSION AND ANALYSIS

In 2020, China was the only major economy that sustained positive growth in the world. The outbreak of COVID-19 in 2020 challenged the Group in all aspects. It was a year of examination. The planning on taking strategic detour in sharpening the competitiveness and repositioning was once hit but the management team did not give up. Over the year of 2020, the pursuit to strike a balance on optimal business model and organizational structure did not stop under the backdrop of the pandemic. By unfailing efforts of the management team, the Group successfully delivered by showing the ability to continue the operation in extreme environment.

The vaccines of COVID-19 have been taking into wide usage for different major countries and the Group believes that the extreme environment would be relieved and the business environment would be improved if the situation of pandemic is eased as the circulation of business travel and transportation of goods resume normal.

BUSINESS OUTLOOK

The second wave of COVID-19 has taken a huge toll, but unlike the first wave, the industry was braced for impact. Smartphones purchases increased during the year 2020 as customers were prepared to equip better to assist with working-from-home and remote learning. The introduction of COVID-19 vaccines is also boosting business confidence for 2021. Going forwards, there will be obvious economic ripple effects as government stimulus fades, and there are ongoing concerns around new virus strains. Overall though, sentiment in the industry is positive, and 2021 will see the smartphone market rebound after a 7% decline in 2020. According to Gartner's forecast on 5 February 2021, smartphone sales to grow 11.4% in 2021, 5G to reach 35% shares. The smartphone world will return to growth in 2021. The researcher projects an 11.4% increase in sales over 2020, that would see more than 1.5 billion units of smartphones will be shipped.

The Group remains prudently optimistic for 2021 due to the expectation of relieving pandemic all over the world. International trade and business activities would resume normal in a large extent. The Group is working with the above trend in mind and believes smartphone manufactures will seek to form their own and new brand matrix in 2021 to please users especially 5G products and related AIoT. The Group will introduce more Chinese brands of smartphones, AIoT to new customers and focus on the new market such as Middle Asia and South Asia for sales expansion. The Group believes that it can work well along with this strategy as the Group has its own infrastructure to support the growth. The sales volume for 2021 is anticipated to be increased significantly.

MANAGEMENT DISCUSSION AND ANALYSIS

The business direction would go with the same way under the strategic direction of China. With China entering mid-income group with GDP per capita over ten thousand USD. The consumption in raising the living standard would continue to be the key driver for the growth of China and it is believed that it will continue for the coming decades as China is not only a country of production but also a country of consumption.

The intensity of geopolitics and containment from USA would not be able to limit the rise of China as the system of China has been tested during the global pandemic and China delivered a successful result that is historical and heroic. It is expected that the global business environment would continue to be highly volatile and uncertain due to the almost unlimited quantitative easing for the major central banks for the developed countries. Major financial instability would be the result of these self-interest moves. Among the major economies, China's fiscal and monetary policies would be the healthiest. The national strategy to develop in technological advancement and consumption would be the opportunities for the Group.

It is expected that the 2021 would be a rebounding year for growth of China and development of the Group. Overcoming the 2020, the Group would actively enlarge the devotion in main business by grabbing the rebound of the world's economies. The suppressed demand is expected to release over the coming year. The Group would focus in providing more customer values in increasing the efficiency and cost saving aspects for customers. The Group would adopt a cost strategy to gain larger market share and exposure. Combined with the varieties of product solution, ecosystem of electronic products would be mapped and provided to customers in the world.

The dual circulation strategy of China would also be a direction for the Group to explore opportunities. Apart from the international trade, the domestic trade market in China would possibly be the target of the Group by leveraging the Group's reputation and experiences in the field. The target, depth and structure of trade could be expanded and bring in commercial values to the Group. In other words, by focusing in smartphone as single product, the Group suggests that is not enough in such difficult business environment to provide customer values. Instead, an ecosystem for personal electronic solutions would be provided.

The Company also would like to explore for the chance to make investment in technological advancement projects which is within the expertise and experience of the management team to enhance the competitiveness of the Group and to diversify for the Group to bring in financial and commercial values. The management team consists of IT professionals with more than 20 years' experiences and long-term reputation in the Chinese market. This could easily be transformed into competitive advantages that could be long lasting as they could provide insightful judgement in different technological advancement projects.

FINANCIAL REVIEW

Revenue

An increase in turnover from approximately RMB816 million for 2019 to approximately RMB881 million for 2020. Although the revenue of mobile telecommunication devices decreased due to the relatively less active market and strong price competition, with benefit of new business – AI and other equipment, the total revenue increased compared with 2019.

	For the year ended 31 December	
	2020	2019
	RMB'000	RMB'000
Mobile telecommunication devices	**773,421**	815,940
AI and other equipment	**107,716**	–
	881,137	815,940

Gross profit (loss) and gross profit margin

	For the year ended 31 December			
	2020		2019	
	RMB'000	**%**	RMB'000	%
Mobile telecommunication devices	**4,691**	**0.6**	7,681	0.9
AI and other equipment	**(84,259)**	**–**	–	–

The gross profit of mobile telecommunication devices decreased from RMB7,681,000 or 0.9% to RMB4,691,000 or 0.6% was mainly attributable to the adverse price competition.

The loss in AI and other equipment was due to worldwide pandemic, the worsening trading environment and deteriorating trade war between China and the USA which had adversely impacted the market demand in the Group's AI and other equipment trading business and its profitability.

Other income

Other income mainly represented no interest income of the bank deposits for 2020 and RMB4.8 million for 2019. The decrease was mainly due to the matured bank deposits in May 2019 were not renewed.

d) **Maximum entitlement of each participant**

The total number of shares of the Company issued and to be issued upon exercise of the options granted to each participant (including those exercised, outstanding and cancelled options) in any 12-month period must not exceed 1% of the total number of shares of the Company in issue, unless approved by the shareholders of the Company in the manner as stipulated in the Scheme.

e) **Time of exercise of options**

An option may be exercised in accordance with the terms of the Scheme at any time during a period to be determined and notified by the Directors to each option grantee, which period may commence on the day on which the option offer is made but shall end in any event not later than 10 years from the offer date subject to the provisions for early termination thereof. Unless the Directors otherwise determined and stated in the option offer to a participant of the Scheme, no minimum period for which the option granted under the Scheme must be held before it can be exercised.

f) **Subscription price per share**

The subscription price per share of the Company in respect of any particular option shall be such price as determined by the Board in its absolute discretion at the time of the making of the option offer but in any case the subscription price shall not be lower than the highest of:

i. the closing price of the shares of the Company as stated in the daily quotation sheets issued by the Stock Exchange on the option offer date, which must be a trading day;

ii. the average closing price of the shares of the Company as stated in the daily quotation sheets issued by the Stock Exchange for the five trading days immediately preceding the offer date; and

iii. the nominal value of a share of the Company.

g) **Payment on acceptance of option**

A non-refundable sum of HK$1.00 by way of consideration for the grant of an option is required to be paid by each of the grantee upon acceptance of the option.

h) **Remaining life of the Scheme**

Subject to the provisions for early termination of the Scheme, the Scheme will remain in force for a period of 10 years commencing on 9 June 2015 up to 8 June 2025 (both days inclusive).

As at the date of this report, no option had been granted by the Company pursuant to the Scheme.

RESTRICTED SHARE UNIT SCHEME

The Company has adopted a restricted share unit ("RSU") scheme (the "RSU Scheme") on 9 June 2015. Details of the RSU Scheme are set out in the section headed "Statutory and General Information – D. RSU Scheme" in Appendix IV to the prospectus of the Company dated 16 June 2015. On 2 November 2016, the Company granted 32,300,000 RSUs to certain grantees pursuant to the RSU Scheme and all the RSUs granted had been unlocked up to the year ended 31 December 2018. Details of the above grant of RSUs are set out in the announcement of the Company dated 2 November 2016.

DISTRIBUTABLE RESERVES

At 31 December 2020, the Company's reserves available for distribution calculated in accordance with the provisions of the Companies Law of the Cayman Islands amounted to approximately RMB562.2 million.

MAJOR CUSTOMERS AND SUPPLIERS

During the year ended 31 December 2020, the Group's top five largest customers accounted for 91.37% (2019: 81.5%) of our revenues and the single largest customer accounted for 79.78% (2019: 54.1%) of our revenues. The Group's top five suppliers accounted for 93.83% (2019: 79.4%) of our cost of revenue and the single largest supplier accounted for 47.04% (2019: 34.5%) of our cost of revenue.

None of the Directors, their associates or any shareholder of the Company (which to the knowledge of the Directors owns more than 5% of the Company's share capital) has any interest in the Group's five largest customers and suppliers during the year ended 31 December 2020.

RELATED PARTY TRANSACTIONS

The Group entered into certain transactions with parties regarded as "related parties" under applicable accounting principles. These mainly relate to contracts entered into by the Group in the ordinary course of business, which contracts were negotiated on normal commercial terms and on an arm's length basis.

Further details are set out in note 31 to the consolidated financial statements. Save for the continuing connected transactions as set forth in the paragraphs headed "Continuing Connected Transactions" below, none of the related party transactions of the Company fall under the definition of "connected transaction" or "continuing connected transaction" in Chapter 14A of the Listing Rules and the Company has complied with or is exempt from the disclosure requirements under Chapter 14A of the Listing Rules.

CONTINUING CONNECTED TRANSACTIONS

During the year ended 31 December 2020, the Group entered into the following transactions with entities which are regarded as connected persons of the Company under Chapter 14A of the Listing Rules:

Pursuant to the Lease Agreement dated 22 July 2017 which expired on 21 July 2020 made between 北京天宇朗通通信設備股份有限公司 (Beijing Tianyu Communication Equipment Co. Ltd.*) ("Tianyu"), a company controlled by Ms. Rong Xiuli, chairperson and executive director of the Company, and Benywave Wireless, Tianyu has let the premises situated at Zone A, 4th Floor, No. 55, Jiachuang Second Road, Zhongguancun Science Park, OPTO-Merchatronics Industrial Park, Tongzhou District, Beijing, China to Benywave Wireless for carrying on its business. For the year ended 31 December 2020, the lease payment incurred by Benywave Wireless amounted to RMB447,000.

Pursuant to an equipment lease agreement dated 22 July 2017 and renewed on 22 July 2020 made between Benywave Technology, a company controlled by Ms. Rong Xiuli, chairperson and executive director of the Company, and Benywave Wireless, an indirect wholly-owned subsidiary of the Company, Benywave Technology has let certain equipment and facilities to Benywave Wireless for handset testing purpose. For the year ended 31 December 2020, the equipment lease payment incurred by Benywave Wireless amounted to RMB43,000.

As all of the applicable percentage ratios under Rule 14.07 of the Listing Rules and the annual consideration of the respective transactions contemplated under each of the Lease Agreements and the Equipment Lease Agreement are less than 5% and are less than HK$3.0 million, respectively, the respective transactions contemplated under each of the Lease Agreements and the Equipment Lease Agreement fall below the de minimis threshold under Rule 14A.76(1)(c) of the Listing Rules and are fully exempt from shareholders' approval, annual review and all disclosure requirements under Chapter 14A of the Listing Rules.

NON-COMPETITION UNDERTAKING

Each of Ms. Rong Xiuli, Mr. Ni Gang, Winmate Limited, Benywave Technology and Tianyu (collectively the "Covenantors"), has entered into a deed of non-competition and undertaking dated 9 June 2015 (the "Deed of Non-Competition") in favor of the Company (for itself and on behalf of its subsidiaries from time to time), pursuant to which each of the Covenantors irrevocably and unconditionally undertakes to and covenants with the Company that each of them will not and procure that none of their respective associates and subsidiary (for a Covenantor which is a company) other than any member of the Group shall:

i. whether as principal or agent and whether undertaken directly or indirectly in his/her/its/their own account or in conjunction with or on behalf of or through any person, firm, body corporate, partnership, joint venture or other contractual arrangement and whether for profit or otherwise, carry on, participate in, acquire, or hold (whether as a shareholder, partner, agent or otherwise) any right or interest or otherwise be interested, involved or engaged in or concerned with, directly or indirectly, any business which competes or may compete with the business of developing, designing, production management and selling of mobile telecommunication devices on original design manufacturer ("ODM") basis and its related components and accessories, targeting global markets excluding the PRC (the "Overseas Business") in any part of the world including but not limited to undertaking the manufacture of mobile telecommunication devices on ODM basis;

ii. sell or distribute or cause or allow the sale or distribution of the own-branded mobile telecommunication devices of Benywave Technology and Tianyu and their subsidiaries or any of them (collectively the "Excluded Group") to any territory outside the PRC and, in connection therewith, the Covenantors shall procure that in all distribution agreements between any member of Excluded Group and its distributors a clause restricting the sale or distribution of such own-branded mobile telecommunication devices outside PRC shall be incorporated; and

iii. alone or jointly with or on behalf of any person,

    a) induce or attempt to induce any director, employee or consultant of the Group to terminate his/her/its employment or consultancy (as appropriate) with the Group, whether or not such act of that person would constitute a breach of that person's contract of employment or consultancy with the Group (as appropriate);

    b) canvass or solicit or attempt to canvass or solicit any order for business which competes or may compete with the Overseas Business; and

    c) persuade any person who has dealt with the Group or who is in the process of negotiating with the Group in relation to the Overseas Business to cease to deal with the Group, or reduce the amount of business which that person would normally do with the Group or seek to improve their terms of trade with any member of the Group.

Details of the Deed of Non-Competition are set out in the section headed "Relationship with Controlling Shareholders" of the prospectus of the Company dated 16 June 2015.

The Company confirms that each of the Covenantors have complied with the Deed of Non-Competition for the year ended 31 December 2020. In order to ensure the Covenantors have complied with the Deed of Non-Competition, the following actions have been taken:

i. the Company has required each of the Covenantors to give written confirmation to the Company on an annual basis as to whether he/she/it has complied with the Deed of Non-Competition for the year ended 31 December 2020;

ii. each of the Covenantors has provided to the Company such written confirmation (a) in respect of his/her/its compliance with the Deed of Non-Competition for the year ended 31 December 2020; and (b) stating that he/she/it has not been offered or becomes aware of any investment or commercial opportunity directly or indirectly relating to the Overseas Business in any part of the world including but not limited to supply of mobile telecommunications devices on ODM basis in the PRC; and

iii. the independent non-executive Directors have reviewed the written confirmation made by each of the Covenantors in compliance with the undertakings in the Deed of Non-Competition and have also reviewed the status of the compliance by each of the Covenantors with the undertakings in the Deed of Non-Competition and have confirmed that, as far as they can ascertain, there is no breach by any of the Covenantors of the undertakings in the Deed of Non-Competition given by them.

On behalf of the Board

Rong Xiuli
Chairperson

Hong Kong, 31 March 2021

CORPORATE GOVERNANCE PRACTICES

The Board is committed to maintaining a solid, transparent and sensible framework of corporate governance for the Company and its subsidiaries and will continue to review its effectiveness.

The Company has adopted the code provisions ("Code Provisions") as stated in the Corporate Governance Code and Corporate Governance Report ("CG Code") contained in Appendix 14 to the Listing Rules as the corporate governance code of the Company. The Board is committed to complying with the Code Provisions as stated in the CG Code to the extent that the Directors of the Company consider it is applicable and practical to the Company.

During the year under review, the Company has complied with the Code Provisions in the CG Code.

DIRECTORS' SECURITIES TRANSACTIONS

The Company has adopted the Model Code as its own code of conduct regarding directors' securities transactions. Having made specific enquiry of all Directors, the Directors of the Company confirmed that they had complied with the required standard set out in the Model Code during the year ended 31 December 2020.

BOARD OF DIRECTORS

At the date of this report, the Board comprises four executive Directors and three independent non-executive Directors. The Directors were:

Executive Directors
Ms. Rong Xiuli *(Chairperson)*
Mr. Rong Shengli *(Chief executive officer)*
Mr. Yin Xuquan *(President)*
Mr. Wong Ho Chun

Independent Non-executive Directors
Mr. Han Xiaojing
Mr. Wong Pong Chun James
Mr. Leung Man Fai

The Board possesses a balanced mix of skills and expertise which supports the continuing development of the Company. The executive Directors have accumulated sufficient and valuable experience to hold their positions in order to ensure that their fiduciary duties have been carried out in an efficient and effective manner. The Board is responsible for setting the Group's strategic direction and overseeing the business performance of the Group while business operations are delegated to qualified management under the supervision of the executive Directors. The Board also monitors the financial performance and the internal controls of the Group's business operations. The senior management is responsible for the day-to-day operations of the Group.

Biographical details of the Directors are set out in the section of "Biographical Details of Directors and Senior Management" on pages 10 to 12 of this annual report. To the best knowledge of the Company, there is no other financial, business, family or other material/relevant relationship among the Directors.

Chairperson and Chief Executive Officer

According to Code Provision A.2.1 of the CG Code, the roles of the chairperson of the Company (the "Chairperson"), Ms. Rong Xiuli and the chief executive officer of the Company (the "CEO"), Mr. Rong Shengli are segregated in order to reinforce their independence and accountability.

There are clear demarcations of responsibility and authority between the Chairperson and the CEO which ensure an appropriate balance of power, increased accountability and greater capacity of the Board for independent decision-making. Ms. Rong Xiuli is mainly responsible for providing guidance and supervision regarding the business and operations of the Company while Mr. Rong Shengli is responsible for the overall management of the Company's business operations.

Board Diversity

The Company has recognised the importance of board diversity to corporate governance and the board effectiveness in terms of examination and evaluation of corporate issues from different perspectives.

Pursuant to the Board Diversity Policy ("Diversity Policy"), the effective implementation of the Diversity Policy requires that shareholders of the Company are able to judge for themselves whether the Board as constituted is a reflection of diversity, or a gradual move to increased diversity, on a scale and at a speed which they support.

The Board will also take into account the below aspects: -

➢ articulate the benefits of diversity, including gender diversity, and the importance of being able to attract, retain and motivate employees from the widest possible pool of available talent;

➢ to diversify at all levels, including gender, age, cultural and educational background, or professional experience;

➢ assess annually on the diversity profile including gender balance of the directors and senior management and its progress in achieving its diversity objectives;

➢ ensure that recruitment and selection practices at all levels (from the Board downwards) are appropriately structured so that a diverse range of candidates are considered; and

➢ has identified and implemented programs that will assist in the development of a broader and more diverse pool of skilled and experienced employees and that, in time, their skills will prepare them for senior management and board positions.

Having reviewed the Diversity Policy and the Board's composition, the nomination committee of the Company (the "Nomination Committee") considered that the requirements set out in the Diversity Policy had been met.

Nomination Policy

The Group adopted a nomination policy (the "Nomination Policy") in December 2018. A summary of this policy is disclosed as below.

1. *Objective*

   The Nomination Committee shall nominate suitable candidates to the Board for it to consider and make recommendations to shareholders for election as directors of the Company at general meetings or appoint as Directors to fill casual vacancies or as an addition to the existing Board.

2. *Selection Criteria*

   The factors listed below would be used as reference by the Nomination Committee in assessing the suitability of a proposed candidate.

   - Reputation for integrity
   - Accomplishment and experience
   - Compliance with legal and regulatory requirements
   - Commitment in respect of available time and relevant interest
   - Diversity in all its aspects, including but not limited to gender, age (18 years or above), cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service

3. *Nomination Procedures*

   The secretary of the Nomination Committee shall call a meeting of the Nomination Committee, and invite nominations of candidates from Board members if any, for consideration by the Nomination Committee prior to its meeting. The Nomination Committee may also put forward candidates who are not nominated by Board members.

   For filling a casual vacancy, the Nomination Committee shall make recommendations for the Board's consideration and approval. For proposing candidates to stand for election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation.

Dividend Policy

The Company has adopted a dividend policy ("Dividend Policy"), pursuant to which the Company may declare and distribute dividends to the shareholders of the Company (the "Shareholders") to allow Shareholders to share the Company's profits and for the Company to retain adequate reserves for future growth.

General power to declare dividends

Subject to the Cayman Companies Law, the Company may from time to time in general meeting declare dividends in any currency to be paid to the Shareholders but no dividend shall be declared in excess of the amount recommended by the Board.

Board's power to pay interim dividends

The Board may also, without convening a general meeting, from time to time declare interim dividends as appear to the Board to be justified by the profits of the Company, and, in particular (but without prejudice to the generality of the foregoing), if at any time the share capital of the Company is divided into different classes, the Board may pay such interim dividends in respect of those shares in the capital of the Company which confer on the holders thereof deferred or non-preferential rights as well as in respect of those shares which confer on the holders thereof preferential rights with regard to dividend.

The Board may also pay half-yearly or at other intervals to be selected by it any dividend which may be payable at a fixed rate if the Board is of the opinion that the profits available for distribution justify the payment.

Board's power to declare and pay special dividends

The Board may in addition from time to time declare and pay special dividends on shares of any class of such amounts and on such dates as they think fit.

Dividends to be paid out of profits or reserves

No dividend shall be declared or payable except out of the profits and reserves of the Company lawfully available for distribution, including share premium. No dividend shall carry interest against the Company.

The Board may, before recommending any dividend, set aside out of the profits of the Company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for meeting claims on or liabilities of the Company or contingencies or for paying off any loan capital or for equalising dividends or for any other purpose to which the profits of the Company may be properly applied, and pending such application may, at the like discretion, either be employed in the business of the Company or be invested in such investments as the Board may from time to time think fit, and so that it shall not be necessary to keep any reserves separate or distinct from any other investments of the Company.

The Board may also without placing the same to reserve carry forward any profits which it may think prudent not to distribute by way of dividend.

Scrip dividends

Whenever the Board or the Company in general meeting has resolved that a dividend be paid or declared on the share capital of the Company, the Board may further resolve that such dividend be satisfied wholly or in part in the form of an allotment of shares credited as fully paid up, provided that the Shareholders entitled thereto will be entitled to elect to receive such dividend (or part thereof) in cash in lieu of such allotment. In case of the Board elects to pay the dividend in shares, the Company shall abide by the provisions of the articles of association of the Company on scrip dividends.

The Board will continually review the Dividend Policy and reserves the right in its sole and absolute discretion to update, amend and/or modify the Dividend Policy at any time, and the Dividend Policy shall in no way constitute a legally binding commitment by the Company that dividends will be paid in any particular amount and/or in no way obligate the Company to declare a dividend at any time or from time to time.

Independent Non-executive Directors

Independent Non-executive Directors are responsible to scrutinise the Company's performance in achieving agreed corporate goals and objectives; and ensuring that the exercise of the Board authority is within the powers conferred to the Board under the Company's articles of association, applicable laws, rules and regulations.

Pursuant to Rules 3.10 and 3.10A of the Listing Rules, every board of directors of a listed issuer must include at least three independent non-executive directors and at least one of the independent non-executive directors must have appropriate professional qualifications or accounting or related financial management expertise, and the independent non-executive directors must represent at least one-third of the board of directors. Pursuant to Rule 3.21 of the Listing Rules, the audit committee of a listed issuer must be comprising of non-executive directors only with a minimum of three members and at least one of whom is an independent non-executive director with appropriate professional qualifications or accounting or related financial management expertise.

Upon the resignations of Mr. Lam Yiu Kin and Mr. Hon Kwok Ping, Lawrence on 31 October 2020 and prior to the appointments of Mr. Wong Pong Chun James and Mr. Leung Man Fai on 31 December 2020, the Board comprised of five members with four executive Directors and one independent non-executive Director. As a result, the then number of independent non-executive Directors fall below the minimum number required by the Listing Rules. The Board then also lacked at least one independent non-executive Director with appropriate professional qualifications or accounting or related financial management expertise under Rule 3.10 of the Listing Rules. In addition, the then number of members of the audit committee was once reduced to one which was below the minimum number prescribed under Rule 3.21 of the Listing Rules. In addition, following the resignations of Mr. Lam Yiu Kin and Mr. Hon Kwok Ping, Lawrence on 31 October 2020 and prior to the appointments of Mr. Wong Pong Chun James and Mr. Leung Man Fai on 31 December 2020, the Company did not meet the composition requirements for the remuneration committee and nomination committee as required under Rule 3.25 of the Listing Rules and code provision A.5.1 of the CG Code and the terms of reference of the respective committees, as appropriate.

Upon the appointments of Mr. Wong Pong Chun James and Mr. Leung Man Fai on 31 December 2020, the aforesaid requirements have been re-complied. Save as otherwise, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three Independent Non-executive Directors with one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

Confirmation of Independence

The Board considers that all of the independent non-executive Directors to be independent. All of the independent non-executive Directors have signed their respective confirmation letter to the Company confirming their independence as set out in Rule 3.13 of the Listing Rules.

ROLES AND FUNCTIONS OF THE BOARD AND THE MANAGEMENT

The Board assumes responsibility for leadership and control of the Company; and is collectively responsible for directing and supervising the Company's affairs. The Board is fully responsible for the formulation of business policies and strategies in relation to the business operation of the Group, dividend policy and risk management strategies. The management are delegated the authorities and responsibilities by the Board for the day-to-day management and operation of the Group.

APPOINTMENTS, RE-ELECTION AND REMOVAL OF DIRECTORS

Pursuant to articles 84(1) and 84(2) of the Company's articles of association, one-third of the Directors for the time being shall retire by rotation at each annual general meeting of the Company at least once every three years. All retiring Director shall be eligible for re-election.

Article 83(3) of the Company's articles of association provides that (1) any director appointed by the Board to fill a casual vacancy shall hold office only until the first general meeting of the Company after his/her appointment and be subject to re-election at such meeting; and (2) any director appointed by the Board as an addition to the existing Board shall hold office only until the next following annual general meeting of the Company and shall then be eligible for re-election.

Code Provisions A.4.2 of CG Code also states that every director, including those appointed for a specific term, shall be subject to retirement by rotation and re-election at least once every three years at the annual general meeting of the Company. Each of the Directors of the Company has been appointed for a specific term of 3 years and is subject to retirement by rotation once every three years. Their appointments would be reviewed when they were due for re-election.

BOARD MEETINGS

The Board holds at least four regular meetings a year which are normally scheduled at the beginning of the year. Directors may approve various matters by way of passing written resolutions. The Board may also meet on other occasions when a board-level decision on a particular matter is required. In addition, at least 14 days' notice of a regular Board meeting shall be given and the Company aims at sending the agenda and the accompanying board papers to Directors at a reasonable time before the intended date of Board meeting.

AUDITOR'S REMUNERATION

Following the resignation of BDO Limited as the Company's external auditor on 29 January 2021, SHINEWING (HK) CPA Limited was appointed as the new external auditor of the Company on even date to fill the casual vacancy and to hold office until the conclusion of the 2021 annual general meeting of the Company. The responsibilities of the auditor with respect to the financial reporting are set out in the Independent Auditor's Report on pages 47 to 53 of this annual report. The independence of the external auditor is monitored by the Audit Committee which is primarily responsible for making recommendations to the Board on the appointment of the external auditor as well as approving their terms of engagement and remuneration.

For the year ended 31 December 2020, the total remuneration in respect of the audit services provided by the external auditor of the Company were as follows:

Services rendered for the Company	HK$'000
Audit services for the year	2,200

ACCOUNTABILITY AND AUDIT

The Directors are responsible for the preparation of the financial statements of the Group for the relevant accounting periods under applicable statutory and regulatory requirements which give a true and fair view of the state of affairs, the results of operations and cash flows of the Group. In preparing the financial statements for the six months ended 30 June 2020 and for the year ended 31 December 2020, the Directors have adopted suitable accounting policies and applied them consistently. The accounts for the reporting year have been prepared on a going concern basis.

The Directors acknowledge their responsibility to prepare the financial statements as set out on page 56. The statement of the external auditor about their reporting responsibilities on the consolidated financial statements is set out in the Independent Auditor's Report on pages 47 to 53 of this annual report.

RISK MANAGEMENT AND INTERNAL CONTROL

In order to comply with the applicable code provisions of the CG Code as set out in Appendix 14 to the Hong Kong Listing Rules, the Board has the responsibilities for evaluating and determining the nature and level of risk tolerance of the Company, establishing and maintaining sound and effective risk management and internal control systems, and overseeing and reviewing the design, implementation and monitoring of such risk management and internal control systems on an ongoing basis, so as to safeguard shareholders' interest and protect the Company's assets against unauthorized use or disposal. The Board is also responsible for ensuring maintenance of proper accounting records to provide reliable financial information and compliance with relevant laws and regulations.

The Group established the risk management and internal control systems with aims to manage rather than eliminate the risk of failure to achieve business objectives, and provide reasonable and not absolute assurance against material misstatements or losses caused by judgment in decision making process, human error, fraud or other irregularities.

During the year, through engaging Crowe (HK) Risk Advisory Limited and collaborating with risk management and internal control personnel, the Group has reviewed an internal audit charter to ensure it has defined the scope and duties and responsibilities of the internal audit function and its reporting protocol. The Group has also conducted an annual risk assessment for the year to identify respective strategic risks, operational risks, financial risks and compliance risks of its major business segments. Based on the outcome of the risk assessment and following a risk-oriented methodology audit approach, the Company has devised a three-year audit plan that prioritized the significance of the risks identified into annual audit project to assist the Board, the Audit Committee and the Risk Management Committee in assessing the efficacy of the Group's risk management and internal control systems. The Company has also formulated policies on handling and dissemination of inside information, which set out procedures in handling inside information in a secure and proper manner as well as those aimed to avoid mishandling of inside information of the Group.

The Board has discussed and reviewed its risk management and internal control systems with the review covered also the compliance with code provisions as set out in Appendix 14 to the Hong Kong Listing Rules and the validity of material controls (including financial, operational and compliance controls) at entity and operational levels. Based on the outcome of the review performed by the Company's Audit Committee, Risk Management Committee, administrative management, Internal Compliance Coordinators and the independent professional consultant, the Directors considered and were of the opinion that the Group has maintained adequate and effective risk management and internal control systems for the year ended 31 December 2020.

SHAREHOLDERS' RIGHTS

Right to convene extraordinary general meeting

Any one or more Shareholders holding at the date of deposit of the requisition not less than one-tenth of the paid up capital of the Company carrying the right of voting at general meetings of the Company shall at all times have the right, by written requisition to the Board or the Company Secretary, to require an extraordinary general meeting to be called by the Board for the transaction of any business specified in such requisition.

The written requisition must specify the objects of the meeting, signed by the requisitionists and deposit it with the Company Secretary at the Company's principal place of business in Hong Kong at Unit 1506, 15/F., Tai Tung Building, 8 Fleming Road, Wanchai, Hong Kong.

If within 21 days of such deposit the Board fails to proceed to convene such meeting, the requisitionists themselves may do so in the same manner, and all reasonable expenses incurred by the requisitionists as a result of the failure of the Board shall be reimbursed to the requisitionists by the Company.

Right to propose a person for election as a Director at general meeting

Pursuant to article 85 of the Company's articles of association, if a Shareholder wishes to propose a person other than a retiring director of the Company for election as a director of the Company at any general meeting, he/she should give a written notice of nomination to the Company. Details for the relevant requirements and procedures can be found on the Corporate Governance section of the Company's website.

Procedures for directing shareholders' enquiries to the Board

TO THE SHAREHOLDERS OF VITAL INNOVATIONS HOLDINGS LIMITED
(incorporated in the Cayman Islands with limited liability)

Opinion

We have audited the consolidated financial statements of Vital Innovations Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 54 to 133, which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2020, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") issued by International Accounting Standard Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

Refer to note 5 to the consolidated financial statements.

The key audit matter

For the year ended 31 December 2020, the Group has recognised revenue from trading of artificial intelligence ("AI") and other equipments of approximately RMB107,716,000.

Revenue from sales of goods is recognised when control of the goods has transferred, being when the goods are delivered and accepted by the customers. The customers have full discretion over the goods, and there is no unfulfilled obligation that could affect the customers' acceptance of the goods.

We identified the revenue recognition of AI and other equipments as a key audit matter as gross loss is recorded from sales of AI and other equipments with new customers.

How the matter was addressed in our audit

Our procedures in relation to the revenue recognition were designed to test controls over the revenue cycle, examine on a sampling basis, underlying documents including sales orders, invoices, delivery notes or goods receipt notes and bank-in slips in respect of such sales transactions for the year and perform background searches, site visit and interviews with these new customers having sales transactions resulting in gross loss with the Group.

We also obtained direct external confirmations from these new customers.

Valuation of prepayments

Refer to note 20 to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
As at 31 December 2020, the carrying amount of prepayments to suppliers amounted to approximately RMB618,769,000. It was prepaid to major suppliers for purchase of mobile telecommunication devices and AI and other equipments. The impairment assessment on the prepayments is based on evaluation of the recoverability of the prepayments by considering market demand, expected volume of transactions with the suppliers and ability of the suppliers to settle the prepayments. No impairment has been recognised in relation to the prepayments to these major suppliers. We identified the valuation of prepayments as a key audit matter since the carrying amount of prepayments was significant to the current assets and the significant degree of judgements and estimates made by the management in assessing the recoverability of the prepayments.	Our procedures in relation to the carrying amount of prepayments were designed to review the judgements and estimates made by the management on the recoverability of the prepayments to the suppliers as at 31 December 2020. We have assessed the reasonableness of the assessment on impairment of prepayments performed by the management with reference to market demand, expected volume of transactions with the suppliers and the ability of the suppliers to settle the prepayments. Also, we have received confirmation from suppliers and confirmed the prepayment balance and checked the subsequent utilisation and subsequent refund of prepayments to the supporting documents.

Estimated allowance of inventories

Refer to note 18 to the consolidated financial statements.

The key audit matter	How the matter was addressed in our audit
As at 31 December 2020, the carrying amount of the inventories was approximately RMB27,100,000. The impairment loss on inventories are reviewed by the management periodically, which involves significant degree of judgements and estimates on the net realisable value. We have identified the carrying amount of the inventories as a key audit matter since the carrying amount of inventories was significant to the current assets and the assessment on the allowance for inventories involves significant judgements and estimates made by the management.	Our procedures in relation to the carrying amount of inventories were designed to review the judgements and estimates made by the management on the assessment on the allowance for inventories as at 31 December 2020. We have reviewed the subsequent selling prices of the inventories after 31 December 2020 and compared with their carrying amounts to consider whether the inventories were stated at lower of their costs or net realisable values. We also checked the supporting document of subsequent return of inventories to the supplier for refund.

Other Matter

The consolidated financial statements of the Group for the year ended 31 December 2019 were audited by another auditor who expressed an unmodified audit opinion on those statements on 30 June 2020.

Other Information

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Directors of the Company and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRSs issued by IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.

- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (Continued)

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Mr. Lee Shun Ming.

1. GENERAL INFORMATION

Vital Innovations Holdings Limited (the "Company") was established in the Cayman Islands as an exempted company with limited liability on 12 August 2014. The immediate and ultimate holding company of the Company is Winmate Limited ("Winmate") which is incorporated in the British Virgin Islands (the "BVI") and is 90% and 10% owned by Ms. Rong Xiuli ("Ms. Rong") and Mr. Ni Gang ("Mr. Ni"), the husband of Ms. Rong, respectively.

On 26 June 2015, the Company was listed on the main board of The Stock Exchange of Hong Kong Limited. The addresses of the registered office and principal place of business of the Company are disclosed in the corporate information section to the annual report. The Company is principally engaged in investment holding and the principal activities of its subsidiaries (together with the Company collectively referred to as the "Group") are set out in note 37.

The consolidated financial statements are presented in Renminbi ("RMB"), which is the same as the functional currency of the Company.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS(s)")

In the current year, the Group has applied, for the first time, the Amendments to References to the Conceptual Framework in IFRSs and the following amendments to IFRSs, which include IFRSs and International Accounting Standards ("IAS(s)"), issued by the International Accounting Standards Board (the "IASB") which are effective for the Group's financial year beginning on 1 January 2020.

Amendments to IFRS 3	Definition of a Business
Amendments to IAS 1 and IAS 8	Definition of Material
Amendments to IFRS 9, IAS 39 and IFRS 7	Interest Rate Benchmark Reform

The application of the Amendments to References to the Conceptual Framework in IFRSs and the amendments to IFRS, in the current year has had no material effects on the Group's financial performance and positions for the current and prior periods and/or on the disclosures set out in these consolidated financial statements.

2. APPLICATION OF NEW AND AMENDMENTS TO INTERNATIONAL FINANCIAL REPORTING STANDARDS ("IFRS(s)") (Continued)

New and amendments to IFRSs issued but not yet effective

The Group has not early applied the following new and amendments to IFRSs that have been issued but are not yet effective:

IFRS 17	Insurance Contracts and related Amendments[5]
Amendments to IFRS 3	Reference to Conceptual Framework[4]
Amendments to IFRS 16	COVID-19 Related Rent Concessions[1]
Amendments to IFRS 10 and IAS 28	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture[3]
Amendments to IAS 1	Classification of Liabilities as Current or Non-current[5]
Amendments to IAS 8	Definition of Accounting Estimates[5]
Amendments to IAS 16	Property, plant and equipment: Proceeds before Intended Use[4]
Amendments to IAS 37	Onerous Contracts – Cost of Fulfilling a Contract[4]
Amendments to IAS 1 and IFRS Practice Statement 2	Disclosure of Accounting Policies[5]
Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16	Interest rate Benchmark Reform – Phase 2[2]
Amendments to IFRSs	Annual improvements to IFRSs 2018 – 2020 cycle[4]

1 Effective for annual periods beginning on or after 1 June 2020.

2 Effective for annual periods beginning on or after 1 January 2021.

3 Effective for annual periods beginning on or after a date to be determined.

4 Effective for annual periods beginning on or after 1 January 2022.

5 Effective for annual periods beginning on or after 1 January 2023.

The directors of the Company anticipate that the application of new and amendments to IFRSs will have no material impact on the results and the financial position of the Group.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. In addition, the consolidated financial statements include the applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns.

The Group reassess whether it controls an investee if facts and circumstances indicate that there are changes to one or more of these elements of control stated above.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of consolidation (Continued)

Consolidation of a subsidiary begins when the Group obtains control of the subsidiary and cease when the Group loses control of the subsidiary.

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income of subsidiaries are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full on consolidation.

Revenue recognition

Revenue is recognised to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Group uses a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;

- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

- The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

Revenue is measured based on the consideration specified in a contract with a customer, excludes value-added taxes or other sales taxes and is after deduction of any trade discounts.

Contract liabilities

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration from the customer.

The Group recognised revenue from the following major sources:

- Sales of mobile phones and accessories

- Sales AI and other equipments

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Revenue recognition (Continued)

Sales of goods

Revenue from sales of mobile phones and accessories and AI and other equipments is recognised at a point in time when the control of the goods is transferred to the customers. Control of the goods is considered transferred to customers at the time of delivery and accepted by the customers according to the terms of contracts. There is generally only one performance obligation and the consideration include no variable amount. Customer generally are required to pay full amount before delivery. However, a 60-day credit period may be granted to some customers. There is no warranty and right of return clause in contracts with customers.

Leasing

Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

Lease liabilities

At the commencement date, the Group measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise fixed lease payments.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Leasing (Continued)

The Group as lessee (Continued)

Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. They are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 Impairment of Assets to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss.

When the Group obtains ownership of the underlying leased assets at the end of the lease term upon exercising purchase options, the cost of the relevant right-of-use assets and the related accumulated depreciation and impairment loss are transferred to equipment.

The Group as lessor

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

Sublease

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease, rather than by reference to the underlying asset. If the head lease is a short-term lease to which the group applies the exemption described above, the sublease shall be classified as an operating lease.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Borrowing costs

All borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Retirement benefits costs and termination benefits

Payments to defined contribution plans including included state-managed retirement benefit schemes and Mandatory Provident Fund Scheme (the "MPF Scheme") are recognised as an expense when employees have rendered service entitling them to the contributions.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation

Income tax represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before taxation as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Equipment

Equipment is stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to allocate the cost of items of equipment, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of equipment is derecognised upon disposal or when no future economic benefits is expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are calculated using weighted average method. Net realisable value ("NRV") represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cash and cash equivalents

Cash and cash equivalents in the consolidated statement of financial position comprise cash at banks and on hand and short-term time deposits with a maturity of three months or less.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

Investment in a subsidiary

Investment in a subsidiary is stated on the statement of financial position of the Company at cost less accumulated impairment loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at costs less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset are measured at the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss in the period when the asset is derecognised.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. The Group's financial assets are classified, at initial recognition, as subsequently measured at amortised cost.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Financial assets at amortised cost

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and

- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

Amortised cost and effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding the expected credit losses ("ECL"), through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset. If, in subsequent reporting periods, the credit risk on the credit-impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset.

Interest income is recognised in profit or loss and is included in the "other income" line item (note 7).

Impairment of financial assets

The Group recognises a loss allowance for ECL on investments in debt instruments that are measured at amortised cost. The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Group always recognises lifetime ECL for trade receivables. The ECL on these financial assets are estimated using a provision matrix based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there has a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular debtor, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor, or the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if (i) the financial instrument has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when the asset has external credit rating of "investment grade" in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of "performing". Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or

- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

Definition of default (Continued)

The Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event; or
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation.

Write-off policy

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over 3 years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

The ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate. For a lease receivable, the cash flows used for determining the ECL is consistent with the cash flows used in measuring the lease receivable in accordance with IFRS 16 Leases.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not 1) contingent consideration of an acquirer in a business combination, 2) held-for-trading, or 3) designated as at FVTPL, are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment losses on equipment, right-of-use assets and intangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its equipment, right-of-use assets and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit ("CGU") to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual CGU, or otherwise they are allocated to the smallest group of CGUs for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or a CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or the CGU) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a CGU, the Group compares the carrying amount of a group of CGUs, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of CGUs, with the recoverable amount of the group of CGUs. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of CGUs. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of CGUs. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the CGU) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the CGU) in prior years. A reversal of an impairment loss is recognised as income immediately.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payment arrangements

Equity-settled share-based payment transactions

Equity-settled share-based payments to directors and employees are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share-based payment reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share-based payment reserve (other reserve). For restricted share units that vest immediately at the date of grant, the fair value of the restricted share units granted is expensed immediately to profit or loss.

Fair value measurement

When measuring fair value for the purpose of impairment assessment, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follow:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.

Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.

Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors of the Company have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised and disclosures made in the consolidated financial statements.

Determination of functional currency

The Group measures foreign currency transactions in the respective functional currencies of the Company and its subsidiaries. The Company considers that its functional currency is RMB. In determining the functional currencies of the group entities, judgement is required to determine the currency that mainly influences sales prices for goods and services and of the country whose competitive forces and regulations mainly determines the sales prices of its goods and services and also the currency in which funds from financing activities and the currency in which receipts from operating activities are usually retained.

When the above indicators are mixed and the functional currency is not obvious, management uses its judgement to determine the functional currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. Once determined, the functional currency is not changed unless there is a change in those underlying transactions, events and conditions.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Critical judgements in applying accounting policies (Continued)

Determination of the accounting treatment for revenue

In determine whether the revenue from mobile telecommunication devices shall be recorded on a net basis or gross basis, the Group determines whether the nature of its promise is a performance obligation to provide the specific goods itself (i.e. the Group is a principal) or to arrange for those goods to be provided by the other party (i.e. the Group is an agent). Determining whether an entity is acting as a principal or as an agent requires judgement and consideration of all relevant facts and circumstances, and the Group considers it controls the goods before they are transferred to the customer by following:

- The Group is primarily responsible for fulfilling the promises to provide products to customers;
- The Group has price risk before the products has been transferred to the customer or offer transfer of control to the customer;
- The Group has inventory risk before products have been transferred to customers; and
- The Group has discretion in establishing the prices for the products.

The management considers that the Group is a principal satisfied a performance obligation and recognises revenue in the gross amount of consideration to which it expects to be entitled in exchange for the specified good transferred.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated allowance for inventories

The management performs review periodically on the NRV of inventories and makes allowance for inventories based on the review. The identification of slow moving and obsolete inventories requires the use of judgment and estimates on the conditions and saleability of the inventories. Allowances are applied to inventories where events or changes in circumstances indicate that the NRV is lower than the cost of inventories. In determining the NRV, the management considers the subsequent selling prices and the return of inventories. As at 31 December 2020, there was no write down of inventory.

4. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Estimated impairment on prepayments

Management assesses whether there is any impairment of prepayments for purchases of mobile telecommunication devices and AI and other equipment on an ongoing basis. The impairment assessment is based on evaluation of the recoverability of the prepayments by considering market demand, expected volume of transactions with the suppliers and ability of the suppliers to settle the prepayments. If market demand, expected volume of transactions with the suppliers or ability of the suppliers to settle the prepayments were to deteriorate, the actual recoverability of the prepayments may be lower than expected, an impairment may need to be recognised.

As at 31 December 2020, the carrying amount of prepayments is approximately RM618,769,000 (2019: RMB686,415,000).

Income tax

As at 31 December 2020, no deferred tax asset was recognised on the tax losses and deductible temporary differences of approximately RMB195,737,000 in aggregate (2019: RMB125,921,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In case where the actual future taxable profits generated are more than expected, or changes in facts and circumstances which result in revision of future taxable profits estimation, a material future recognition of deferred tax assets may arise, which would be recognised in profit or loss for the period in which such a future recognition takes place.

5. REVENUE AND SEGMENT INFORMATION

Revenue represents the amounts received and receivable for goods sold in the normal course of business, net of discounts.

	2020	2019
	RMB'000	RMB'000
Revenue from contracts with customers within the scope of IFRS 15 are recognised at a point in time as follows:		
Mobile telecommunication devices	**773,421**	815,940
AI and other equipments	**107,716**	–
	881,137	815,940

During the year ended 31 December 2019, the Group's chief operating decision maker ("CODM"), has been identified as the Chief Executive Officer, reviewed revenue analysis by major products and gross profit of the Group as a whole when making decisions about allocating resources and assessing performance of the Group. During the year ended 31 December 2020, the Group expanded its business into trading of AI and other equipments and two reportable segments were identified. Accordingly, the segment information reported for the prior period has been restated to reflect the two reportable segments. The segments are managed separately as each business offers different products and services and requires different business strategies. The following summary describes the operations in each of the Group's reportable segments:

– Trading of mobile telecommunication devices (including mobile telecommunication related components and accessories)

– Trading of AI and other equipments

No operating segments identified by the CODM have been aggregated in arriving at the reportable segments of the Group.

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Segment profit (loss) represents the profit (loss) earned by each segment without allocation of other gains, net, other income, administrative expenses and finance costs. This is the measure reported to the CODM of the Group for the purposes of resource allocation and performance assessment.

There were no inter-segment sales in both periods.

10. INCOME TAX

No provision for Hong Kong Profits Tax and Enterprise Income Tax was made as the Group did not have any assessable profits generated for the years ended 31 December 2020 and 2019.

The Company's subsidiaries incorporated in Hong Kong is subject to the Hong Kong Profits Tax at 16.5% (2019: 16.5%).

Under the Law of the PRC and Enterprise Income tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of PRC subsidiaries are 25% from 1 January 2008 onwards. For the years ended 31 December 2020 and 2019, a PRC subsidiary, Beijing Benywave Wireless Communication Co., Ltd ("Benywave Wireless")* 北京百納威爾無線通訊設備有限公司, was recognised as "New and High Technology Enterprises" and is entitled to apply a preferential tax rate of 15%.

The income tax for the year can be reconciled to the loss before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

Financial risk management objectives and policies

The Group's financial instruments include trade and other receivables, pledged bank deposits, cash and bank balances, trade payables, other payables and bank loans. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (mainly currency risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

Currency risk

The Group undertakes certain operating transactions in foreign currencies, which expose the Group to foreign currency risk. The Group does not use any derivative contracts to hedge against its exposure to currency risk. The management manages its currency risk by closely monitoring the movement of the foreign currency rates and considering hedging significant foreign currency exposure should the need arise.

The carrying amounts of the Group's foreign currency denominated monetary assets (trade and other receivables, cash and bank balances and pledged bank deposits) and liabilities (trade payables and bank loans) at the end of each reporting periods are as follows:

	Assets		Liabilities

Sensitivity analysis

The following tables detail the Group's sensitivity to a 5% increase and decrease in RMB against USD and HK$. 5% represents management's assessment of the reasonably possible change in the foreign exchange rate. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation to USD at each period end for a 5% change in the foreign currency rate. A positive number below indicates a decrease in post-tax loss where RMB strengthen 5% (2019: 5%) against the relevant currency. For a 5% (2019: 5%) weakening of RMB against the relevant currency, there would be an equal and opposite impact on the loss for the year, and the amounts below would be negative.

	RMB'000	RMB'000
USD	**1,068**	(269)
HK$	**1**	(299)
EUR	**(3)**	(3)

Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to bank deposits and bank loans with variable interest rate (note 24).

The Group manages its interest rate exposure based on the interest rate level and outlook as well as potential impact on the Group's financial position arising from volatility of the interest rate. The Group currently does not have interest rate hedging policy. However, the management will consider hedging significant interest rate exposure should the need arise.

Interest rate risk (Continued)

The following table details the interest rate profile of the Group's bank deposits and bank loans at the end of the reporting period.

	2020		2019

Bank deposits and bank loans				
Pledged bank deposits	**0.15 to 0.35**	**3,305**	0.30 to 1.65	3,504
Cash and bank balances	**Nil to 0.30**	**54,369**	Nil to 0.30	51,207
		57,674		54,711
Bank loans	**3.43**	**(20,395)**	4.48	(20,874)
		37,279		33,837

Sensitivity analysis

At 31 December 2020, it is estimated that a general increase of 100 basis points in interest rates, with all other variables held constant, would decrease (2019: decrease) the Group's loss (2019: loss) for the year by approximately RMB323,000 (2019: RMB338,000).

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of reporting period and had been applied to the exposure to interest rate risk for the bank deposits and bank loans in existence at that date. The 100 basis point increase represents management's assessment of a reasonably possible change in interest rates over the period until the next annual reporting date.

Credit risk

The Group's credit risk is primarily attributable to its trade and other receivables, finance lease receivable, pledged bank deposits, bank deposits and cash and bank balances. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

In respect of trade receivables and finance lease receivable, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. Individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customers as well as pertaining to the economic environment in which the customers operate. Trade receivables are due within 90 days from the date of billing. Debtors with balances that are more than 3 months past due are requested to settle all outstanding balances before any further credit is granted.

The Group measures the loss allowances for trade receivables and finance lease receivable at an amount equal to lifetime ECLs.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

32. FINANCIAL INSTRUMENTS (Continued)

Financial risk management objectives and policies (Continued)

Credit risk (Continued)

The Group recognised lifetime ECL for trade receivables based on individually significant customer as follows:

	Expected loss rate (%)	**Gross Carrying Amount RMB'000**	**Loss allowance RMB'000**
As at 31 December 2020			
More than 90 days past due (note)	–	–	–
		–	–

	Expected loss rate (%)	Gross Carrying Amount RMB'000	Loss allowance RMB'000
As at 31 December 2019			
More than 90 days past due (note)	100%	15,048	15,048
		15,048	15,048

Expected loss rates are based on historical loss experience. These rates are adjusted to reflect differences between economic conditions during the period over which the historic data has been collected, current conditions and the group's view of economic conditions over the expected lives of the receivables.

Note: As at 31 December 2019, debtors who were credit-impaired with gross carrying amount of approximately RMB15,048,000 were assessed individually.

The movement in the allowance for impairment of trade receivables is set out below:

	2020	2019
	RMB'000	RMB'000
At 1 January	**15,048**	15,074
Impairment losses reversed	**–**	(26)
Amount written off as uncollectible	**(15,048)**	–
At 31 December	**–**	15,048

The Group writes off trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or when the trade receivables are over 3 years past due, whichever occurs earlier. As at 31 December 2020, trade receivables of approximately RMB15,048,000 (2019: nil) was written off.

For other receivables, the Group made periodic individual assessment on the recoverability of other receivables based on historical settlement records, past experience, and also quantitative and qualitative information that is reasonable and supportive forward-looking information. The Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

The movement in the allowance for impairment of other receivables is set out below:

	2020	2019
	RMB'000	RMB'000
At 1 January	**279**	322
Impairment losses reversed	**(251)**	(43)
At 31 December	**28**	279

Credit risk (Continued)

In order to minimise credit risk in respect of pledged bank deposits, bank deposits and cash and cash balances, the management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. Credit evaluations of its deposits and cash balances and condition are performed on each and every bank periodically. These evaluations focus on the credit ratings of its bank, and take into account information specific to the bank as well as pertaining to the economic environment in which the bank operates.

In respect of bank deposits, the Group has significant amount of bank deposits with banks in the PRC which have moderate credit ratings.

The Group has based on 12-month ECL as to whether there is significant increase in credit risk since initial recognition for measurement of ECL of pledged bank deposits, bank deposits and cash and bank balances.

The movement in the allowance for impairment of pledged bank deposits, bank deposits and cash and bank balances is set out below:

	2020 **RMB'000**	2019 RMB'000
