ASX ANNOUNCEMENT

Change of Directors' Interest Notice

Sydney, Australia & Auckland, New Zealand – 28 July 2022 – Living Cell Technologies (ASX: LCT) wishes to advise pursuant to the Renounceable Rights Offer first announced to the market on 15 November 2021, that directors Professor Bernie Tuch and Dr Andrew Kelly participated in the retail component of the offer, but due to an administrative oversight, the attached updated Appendix 3Ys were not lodged within the required time frame.

The Company has reviewed its processes in this regard in order to prevent a reoccurrence.

This announcement is authorised for release by Mark Licciardo, Company Secretary.

About NTCELL

NTCELL is an alginate coated capsule containing clusters of neonatal porcine choroid plexus cells that are sourced from a unique herd of designated pathogen-free pigs bred from stock originally discovered in the remote sub-Antarctic Auckland Islands. Choroid plexus cells are naturally occurring 'support' cells for the brain and secrete cerebrospinal fluid (CSF), which contains a range of factors that support nerve cell functions and protective enzymes that are crucial for nerve growth and healthy functioning. In NTCELL, the porcine choroid plexus cells are coated with alginate to protect them from attack by the immune system. Therefore, no immunosuppressive regimen needs to be administered to recipients.

About Living Cell Technologies

Living Cell Technologies Limited (ASX:LCT) is an Australasian biotechnology company that is focused on discovering and developing novel treatments for debilitating conditions such as diabetes and Parkinson's disease.

LCT is listed on the Australian (ASX:LCT) and US (OTCQB:LVCLY) stock exchanges. The Company is incorporated in Australia, with its operations based in Australia and New Zealand.

Forward-looking statements

This document may contain certain forward-looking statements, relating to LCT's business, which can be identified by the use of forward-looking terminology such as "promising," "probable", "plans," "anticipated," "will," "project," "believe," "forecast," "expected," "estimated," "targeting," "aiming," "set to," "potential," "seeking to," "goal," "could provide," "intends," "is being developed," "could be," "on track," or similar expressions, or by express or implied discussions regarding potential filings or marketing approvals, or potential future sales of product candidates. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to be materially different from any future results, performance or achievements expressed or implied by such statements. There can be no assurance that any existing or future regulatory filings will satisfy the FDA's and other health authorities' requirements regarding any one or more product candidates, nor can there be any assurance that such product candidates will be approved by any health authorities for sale in any market or that they will reach any particular level of sales. In particular, management's expectations regarding the approval and commercialisation of the product candidates could be affected by, among other things, unexpected clinical trial results, including additional analysis of existing clinical data, and new clinical data; unexpected regulatory actions or delays, or government regulation generally; our ability to obtain or maintain patent or other proprietary intellectual property protection; competition in general; government, industry, and general public pricing pressures; and additional factors that involve significant risks and uncertainties about our products, product candidates, financial results and business prospects. Should one or more of these risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein as anticipated, believed, estimated or expected. LCT is providing this information and does not assume any obligation to update any forward-looking statements contained in this document as a result of new information, future events or developments or otherwise.
