(Incorporated in the Cayman Islands with limited liability)

(Stock Code: 3337)

Announcement

This announcement is made by Anton Oilfield Services Group (the “**Company**”) on a voluntary basis.

The board of directors of the Company (the “**Board**”) is pleased to announce that Anton Oilfield Services (Group) Limited (“**Anton Oil**”), a wholly-owned subsidiary of the Company, has been informed by its customer, Sinopec Corp., of a successful tender by Anton Oil to provide large-scale horizontal well multistage fracking tools and technical services to the blocks of Sinopec Corp. in the Erdos Basin. Accordingly, an agreement thereof will be entered into shortly.

The tender marks the third consecutive awarding of sizable contracts in multistage fracking services from the same customer this year and will generate 50 jobs, bringing the total number of jobs in multistage fracking services awarded by the same customer this year to 120. Most of the jobs acquired this time are expected to be completed in the first half of 2013, so they will help bolster the Company’s business development for next year and expectedly have a positive impact on the Company’s results for that period. The Company ranked first in this round of bidding, further proving that the Company’s brand name and service ability in horizontal well multistage fracking have been well recognized by the market and its customers. The future demand for multistage fracking services from this customer in this region shows an upward trend and the success in the tender will help consolidate the Company’s leadership position in such market.

As the project is still subject to uncertainties, shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company.

By order of the Board
Anton Oilfield Services Group
LUO Lin
Chairman

Hong Kong, 25 November 2012
