Chairman's letter

Dear Brockman Shareholder,

On behalf of the directors of Wah Nam International, I am pleased to present you with an offer by Wah Nam Australia to acquire all of your shares in Brockman.

Wah Nam Australia is offering:

- A\$1.50 cash; and
- 18 Wah Nam International Shares,

per Brockman Share held.

The Implied Value of the Offer represents an attractive premium of 34% to Brockman's closing price on 9 December 2011. Wah Nam International believes that the Offer represents a compelling opportunity for you to realise value from your Brockman Shares.

As a result of the Previous Brockman Bid, Wah Nam Australia currently owns 55.33% of Brockman. Since the close of the Previous Brockman Bid, Wah Nam International has carefully reviewed its investment in Brockman and has decided to seek to acquire 100% ownership.

The Independent Brockman Directors recommended that you accept the Offer in the absence of a Superior Proposal and subject to the Independent Expert concluding that the Offer is fair and reasonable.

The Independent Brockman Directors have also indicated that, in the absence of a Superior Proposal and subject only to the Independent Expert concluding that the Offer is fair and reasonable, they intend to accept the Offer for their shareholdings no later than 2 days after the Conditions set out in paragraphs 13.9(a), (b), (c) and (d) are satisfied.

Section 1 of this Bidders Statement outlines various reasons for accepting the Offer. Wah Nam International encourages you to read Section 1 along with the rest of this Bidder's Statement.

If you have any questions about the Offer, please contact the Shareholder Information Line on 1300 582 820 (toll free for callers in Australia) or +61 3 9415 4811 (for callers outside Australia), Monday to Friday, 6:00am to 2:00pm (WST).

Yours sincerely,

Luk Kin Peter Joseph
Chairman
Wah Nam International Holdings Limited

1. Why you should ACCEPT the Offer

Wah Nam International believes you should ACCEPT the Offer for the following key reasons:

- You are being offered a substantial premium of 34% based on the closing price of Wah Nam International Shares on the HKEx on 9 December 2011.
- The Independent Brockman Directors unanimously recommend you accept the Offer in the absence of a Superior Proposal and subject only to the Independent Expert concluding that the Offer is fair and reasonable.
- Brockman's position, with a controlling shareholder whose main asset is its holding in Brockman, is not optimal. A consolidation of 100% of Brockman will allow Wah Nam International to accelerate development of the Marillana Project within one entity.
- As a Brockman Shareholder, you have the opportunity to obtain some liquidity for your Brockman Shares by receiving A\$1.50 cash per Brockman Share held as well as participating in the success of the Marillana Project as a Wah Nam Shareholder.
- No alternative proposal has emerged, or is likely to emerge, as Wah Nam International already has control of Brockman.
- In the absence of the Offer, Brockman's Share price is unlikely to reach the Implied Value in the foreseeable future.
- No brokerage or stamp duty will be payable by you on the transfer of your Brockman Shares under the Offer.

There are risks associated with investing in Wah Nam International. Before deciding whether to accept the Offer, Brockman Shareholders should read this Bidder's Statement in its entirety, including Section 7 which provides information on the key risks.

1.1 You are being offered a substantial and attractive premium

Wah Nam Australia is offering A\$1.50 cash and 18 Wah Nam International Shares for each Brockman Share held.

Based on the closing price of a Wah Nam International Share on the HKEx on the day prior to the Announcement Date, the Offer values your Brockman Shares at A\$3.03 per Brockman Share (**Implied Value**).

The Implied Value represents a substantial 34% premium to the Pre-Announcement Price immediately prior to the Announcement Date. The Offer also represents a significant premium to the recent trading history of your Brockman Shares, namely:

- ~A\$3.15, based on the 90 calendar day VWAP¹ of Wah Nam International Shares to 9 December 2011, representing a premium of ~A\$1.17 per

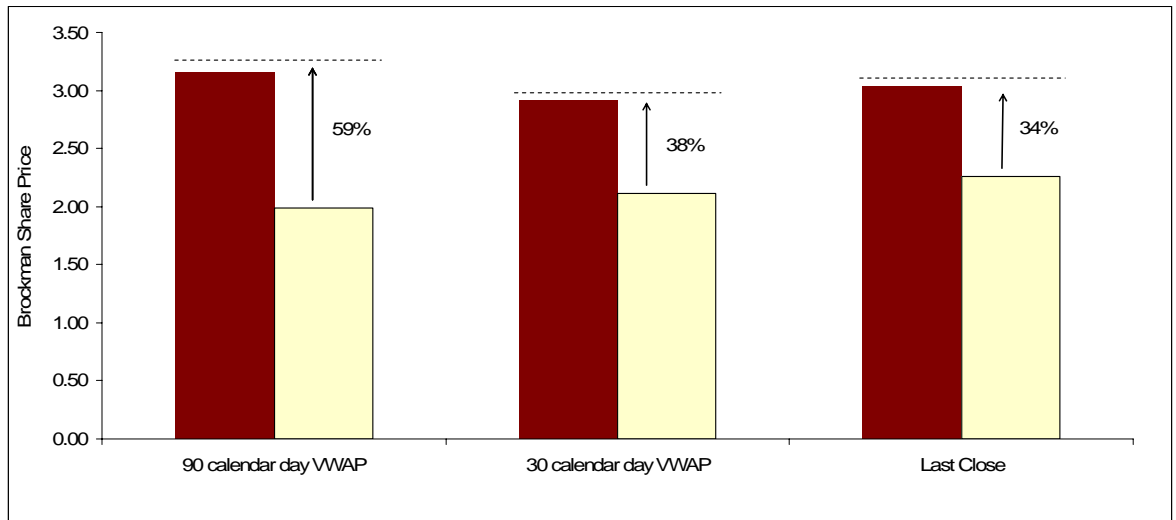

¹ VWAP calculated by converting the daily value of Wah Nam International Shares traded to A\$ using the respective daily A\$:HK\$ exchange rate

Brockman Share or ~ 59% when compared to the 90 calendar day VWAP of Brockman's Shares to 9 December 2011.

- ~A\$2.92, based on the 30 calendar day VWAP² of Wah Nam International Shares to 9 December 2011, representing a premium of ~A\$0.80 per Brockman Share or ~38% when compared to the 30 calendar day VWAP of Brockman's Shares to 9 December 2011.
- ~A\$3.03³, based on the last closing price of Wah Nam International Shares on 9 December 2011, representing a premium of ~A\$0.77 per Brockman Share or ~34% when compared to the last closing price of Brockman's Shares on 9 December 2011.

Figure 1 demonstrates the attractive premiums the Implied Value represents to recent trading prices of Brockman Shares.

Figure 1: Implied Value premiums

The value of the Offer will change from time to time based on movements in the Wah Nam International Share price and the A\$/HK\$ exchange rate.

1.2 Board recommendation

The Independent Brockman Directors recommend that Brockman Shareholders accept the Offer, in the absence of a Superior Proposal and subject to the Independent Expert concluding that the Offer is fair and reasonable.

Each Independent Brockman Director advises that, in the absence of a Superior Proposal and subject to the Independent Expert concluding that the Offer is fair and reasonable, they intend to accept the Offer in regard to any Brockman Shares they own or control no later than 2 days after the Conditions set out in paragraphs 13.9(a), (b), (c) and (d) are satisfied.

² VWAP calculated by converting the daily value of Wah Nam International Shares traded to A\$ using the respective daily A\$:HK\$ exchange rate

³ Calculated based on Wah Nam International closing share price of HK\$0.67 on 9 December 2011, converted to A\$ using A\$:HK\$ exchange rate of 7.8825 as at 9 December 2011

1.3 Brockman's position is not optimal

Based on the information available to Wah Nam International, it has become apparent that significant additional investment of resources is required to complete the development of the Marillana Project.

Wah Nam International's largest asset is its investment in Brockman. Since taking control of Brockman, Wah Nam International has sought to accelerate the development of the Marillana Project for the benefit of all Brockman Shareholders, this has included instigating a number of changes, such as:

- the appointment of new directors with experience in project management, construction, iron ore operations in the Pilbara as well as corporate and financing experience;
- the commencement of a strategic review of Brockman's business to oversee Brockman's transition to an iron ore producer;
- the appointment of an operations general manager with over 30 years experience developing, operating and managing mines in Australia and overseas; and
- an executive search for a permanent CEO.

Wah Nam International has determined that it should move to take full ownership of Brockman, in order to justify assuming the risks associated with this further investment.

Wah Nam International's decision is based on its belief that a move to 100% ownership will:

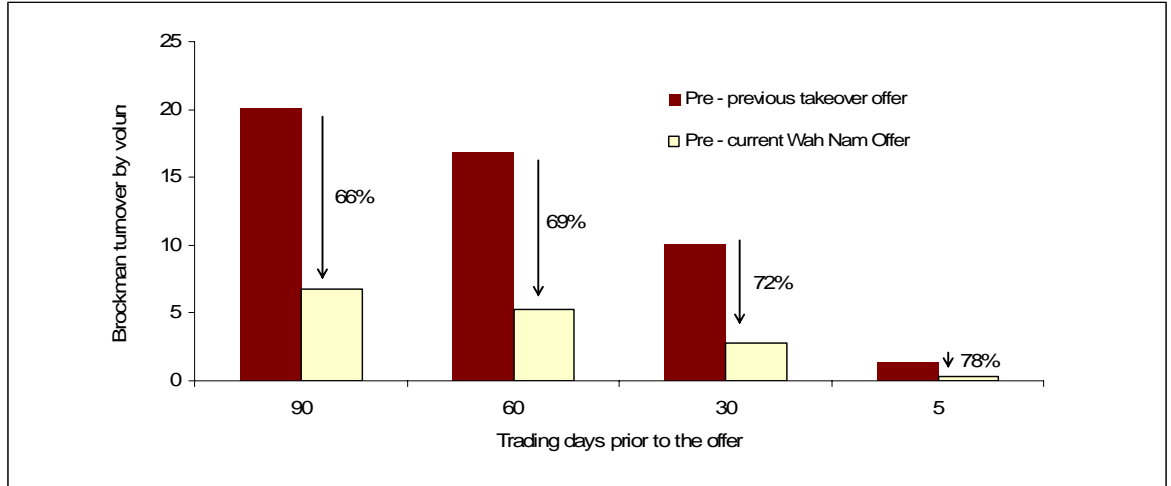

- aid in the future financing and development decisions that will need to be made;
- simplify the shareholding structure of Brockman and consolidate ownership into one entity; and
- provide investors with one vehicle in which they can invest in the future success of the Marillana Project.

1.4 Liquidity and participation in future success

The Offer is an opportunity for Brockman Shareholders to realise their investment in Brockman at an attractive premium.

The volume of Brockman Shares traded in the ASX has reduced significantly since the Previous Brockman Bid, as illustrated in the table below.

Figure 2: Brockman liquidity

The relatively low liquidity in the public market for Brockman Shares is partly due to Wah Nam Australia's 55.33% interest. Accordingly, if the Offer is not successful, the low level of liquidity for Brockman Shares is expected to continue.

The Offer provides Brockman Shareholders with the opportunity to realise their investment in Brockman through the receipt of A\$1.50 cash for each Brockman Share held within 14 days of the Offer going unconditional.

In addition to receiving cash, Brockman Shareholders will receive 18 Wah Nam International Shares for each Brockman Share held. Wah Nam International Shares are listed on the ASX and the HKEx.

Receipt of Wah Nam International Shares will allow Brockman Shareholders to continue to participate in any upside from the development of the Marillana Project within one consolidated entity.

1.5 No alternative proposal

Since the initial announcement on 10 November 2011 that Wah Nam International and Brockman were in preliminary discussions regarding a corporate transaction, speculation of a potential takeover transaction has been widely publicised and no alternative proposal has emerged.

Given the time elapsed since the initial announcement and the fact that Wah Nam Australia owns 55.33% of Brockman, Wah Nam International believes that an alternative Superior Proposal is unlikely to emerge.

1.6 Share price stagnation

The Offer is significantly above the trading price of Brockman Shares prior to the announcement of the Offer and the recent trading activity since Wah Nam International assumed control. Wah Nam International and the Independent Brockman Directors believe that the Brockman Share price will remain at these levels in the near future if the Offer is not successful.

1.7 No brokerage or stamp duty

You will not incur any brokerage or stamp duty on the transfer of your Brockman Shares to Wah Nam Australia pursuant to the Offer. Brokerage fees are otherwise payable if you choose to sell your Brockman Shares on the ASX.

1.8 Consequences of not Accepting

If you choose not to accept the Offer, there are certain risks of which you should be aware.

- Should Brockman Shares remain listed on the ASX, the market for your Brockman Shares may be less liquid or active. Therefore, it could be difficult for you to sell your Brockman Shares after the Offer Period ends, should you choose to do so.
- As stated before, if the Offer ends without being successful, Brockman Shares may revert towards pre-bid price levels in the absence of a Superior Proposal from another bidder. The emergence of another bidder is unlikely, particularly as Wah Nam Australia already has sufficient Brockman Shares to prevent another bidder from gaining effective control.
- If Wah Nam Australia is successful in gaining a 90% or more interest in Brockman through acceptances of the Offer, and if entitled to do so under the Corporations Act, Wah Nam Australia intends to proceed with the compulsory acquisition of any Brockman Shares not acquired under the Offer.
- If Wah Nam Australia is successful in gaining a 80% or more interest in Brockman through acceptances of the Offer then, unless Brockman has more than the required spread of shareholders under the ASX Listing Rules, it intends to make an application to remove Brockman from the official list of the ASX.

You should consult with your Broker or financial adviser to ascertain the impact of the risks outlined above on the value of your Brockman Shares.

Since taking control of Brockman, Wah Nam International has sought to accelerate the development of Brockman's key assets for the benefit of all Brockman Shareholders.

For more information on Brockman and its key projects, please refer to Section 5.

(b) **Exploration, processing and sales of Mineral Resources**

Through its 90% owned Subsidiary, Luchun Xingtai, Wah Nam International engages in the exploitation, processing and sales of copper, lead, zinc, arsenic, silver and other mineral resources.

Luchun Xingtai owns 100% of the Damajianshan Mine which is located in Qimaba Township, Luchun County of Yunnan Province in the PRC.

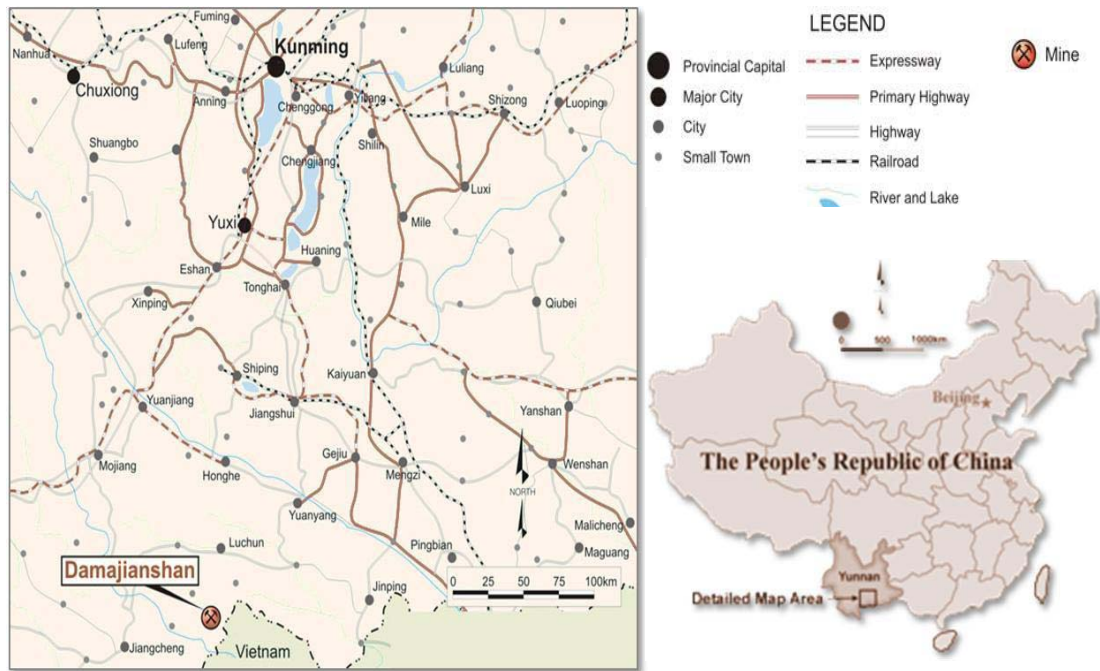

Figure 3: The Damajianshan Mine

The Damajianshan Mine right covers 3.67 square kilometres including approximately 7.6 million tonnes of Ore Reserves, with an average Cu grade of 1.46%, and Mineral Resources of approximately 15.2 million tonnes, with an average Cu grade of 1.68%.

The Damajianshan Mine operation has the potential to produce over 429,000 tonnes per annum for more than 18 years.

Figure 4: Location of Damajianshan Mine

In addition to development potential, the Damajianshan Mine has a history of production and operations. A summary of recent operations is set out below.

Since its acquisition of the Damajianshan Mine, Wah Nam International has invested significantly in its future including:

- new crushing and screening machines with better crushing strength to enhance production and reduce spoilage;

⁴ Tables 1, 2 and 3 are included in a Luchun Xingtai Damajianshan Mine Independent Geologist's Report prepared by Christopher Arndt, Consulting Geologist in collaboration with Xianping Zhu, Consulting Geophysicist, and Huairan Li, Consulting Geologist in accordance with the JORC Code dated 11 November 2011 (**Independent Geologist's Report**). The Independent Geologist's Report was prepared for Wah Nam International. Mr Arndt has consented to Tables 1, 2 and 3 being included in the Bidder's Statement.

- new drilling works and detailed prospecting and scoping plans to better define the lithology grade and assemblage with the mining lease;
- prospecting and tunneling work of 493.1m during the September quarter 2011; and
- continued geophysical survey work.

As at November 2011, the Damajianshan Mine had Ore Reserves of 7,554kt and Mineral Resources of 15,238.87kt.

The Damajianshan Mine right is due to expire in September 2012. The directors of Wah Nam International expect that Luchun Xingtai will be able to renew the mining right with the relevant government authority, at the appropriate time.

There has been limited mining activity at the Damajianshan Mine due to the following reasons:

- the power supply has not been stable for a number of years. This issue has now been rectified;
- the road is very narrow and in poor condition. This remains a major issue for the shipping of increasing volumes of concentrates;
- the water supply is not sufficient in the dry season and is not drinkable; and
- the tailing dam is too small to be used for production.

Wah Nam International will continue to develop the Damajianshan Mine through further exploration in order to delineate and upgrade the Mineral Resources and subsequently increase copper metal production of the mine.

(c) **Transport**

Wah Nam International owns 100% of the Perryville Group. The Perryville Group operates limousine rental and airport shuttle buses.

During the first half of 2011, the Perryville Group contributed disproportionately, 88.6%, to the overall revenue of the Wah Nam International Group as its iron ore and copper assets are in the development stage.

As Wah Nam International continues to develop its strategic mining assets the percentage of revenue from transport is expected to decline.

3.4 Strategy

Wah Nam International is focused on being a developer of strategic mining assets in politically stable, mineral resource-rich countries.

Wah Nam International's two largest investments are in iron ore, via Brockman, and copper, via Luchun Xingtai. Wah Nam International has made these investments as it believes that the outlook for both commodities is robust.

Wah Nam International will maximise its efforts to develop both its iron ore and copper assets for the benefit of Wah Nam International Shareholders.

Wah Nam International's planned move to 100% ownership of Brockman and the transformation of the Marillana Project from an exploration project to the implementation stage (and ultimately to production stage) represents a significant upside to Wah Nam International's overall performance.

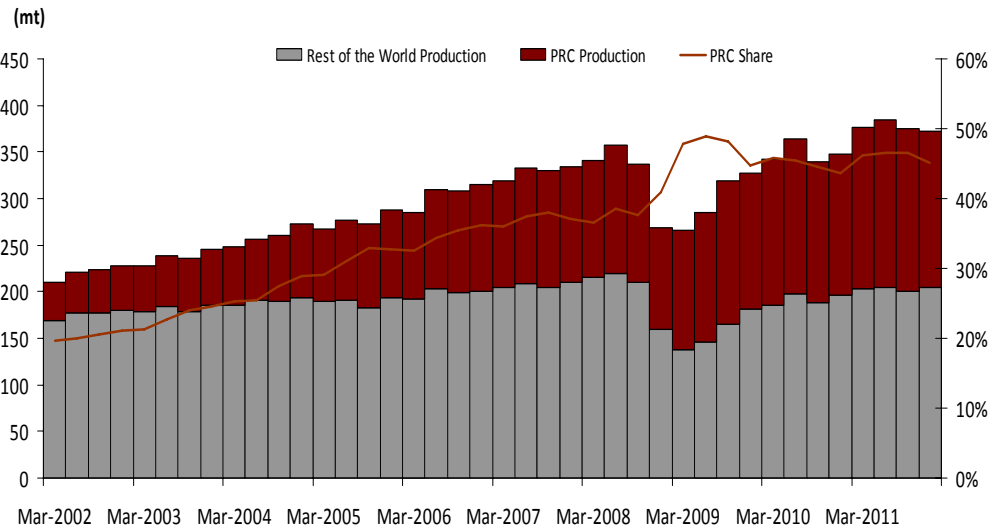

Wah Nam International directors will also pursue additional strategic acquisitions in order to acquire quality mining assets from around the world to create a globally recognised resources company.

Iron Ore

Iron ore is a key ingredient in the steel making process. Consistent with PRC steel production, PRC is the largest consumer of iron ore.

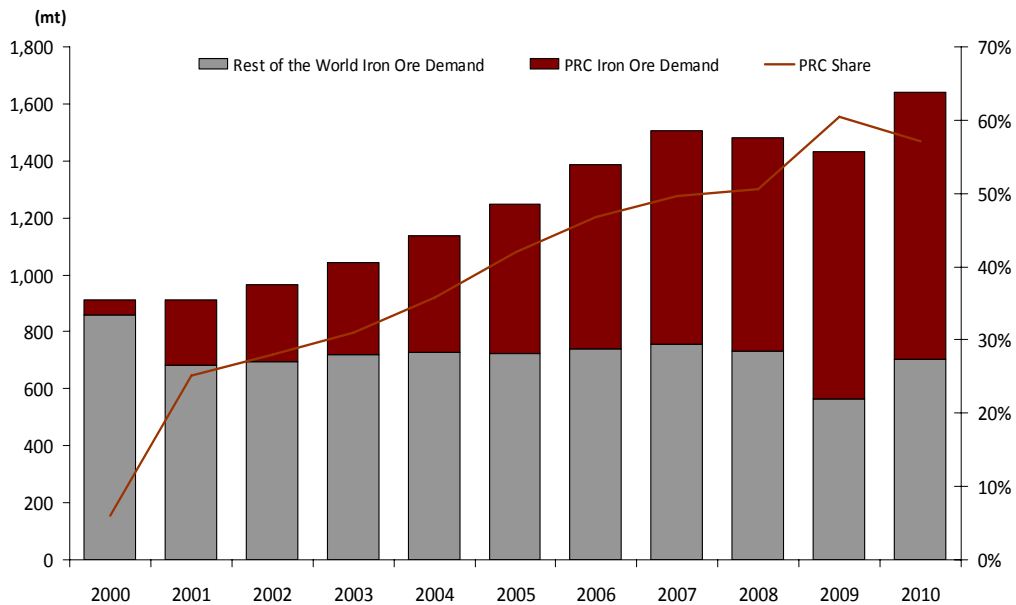

World production of steel has significantly recovered from low production levels in 2009 and is now on par with the pre global financial crisis peak reached during 2008 (Figure 5).

Figure 5: Global steel production

Iron ore demand has increased at a steady rate since 2002 driven by the PRC's increasing market leading share (Figure 6).

Figure 6: Iron ore demand

Australia is the largest exporter of iron ore, accounting for over one-third of global export supply (Figure 7). After rapid growth in the past decade, the main export market for Australia's iron ore is now the PRC (almost 70% of iron ore exports in 2010), with Japan and South Korea importing most of the balance (Figure 8).

Figure 7: Historical global iron ore exports

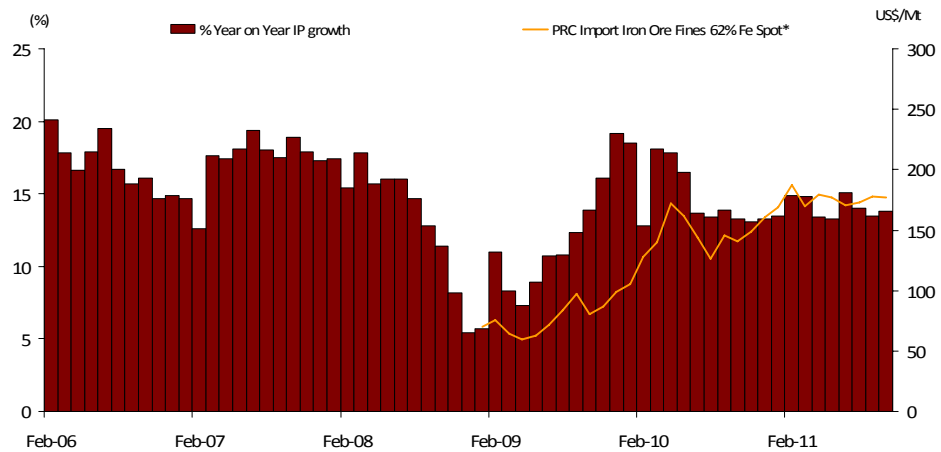

Figure 8: Australian iron ore exports by destination

PRC industrial production continues to expand strongly, with growth of 13.8% year-on-year for September 2011. Iron Ore prices have performed well since February 2009.

Figure 9: Iron ore prices and PRC industrial production growth

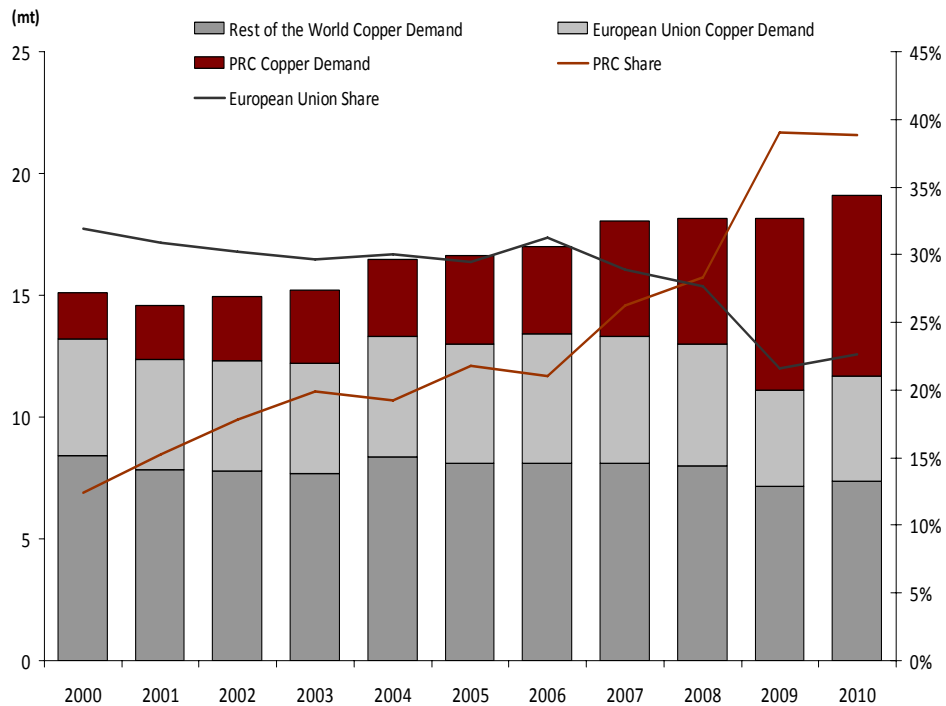

* PRC Import Iron Ore Fines 62% Fe spot price index is compiled by the Steel Index Ltd and commenced spot pricing on 21 November 2008.

Copper

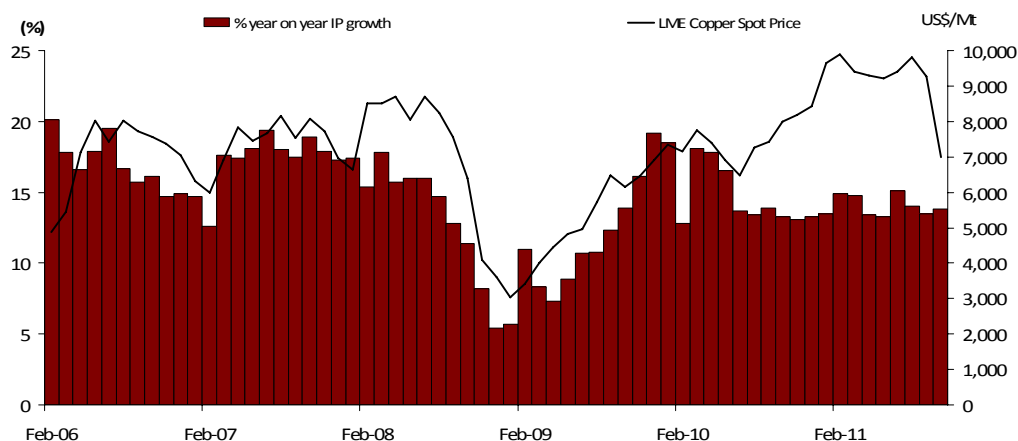

Copper demand is becoming less reliant on mature economy demand and increasingly reliant on demand emanating from emerging markets such as the PRC, which is currently the world's largest consumer of the metal and represents approximately 40% of global demand (Figure 10).

Figure 10: Copper demand

Copper prices and PRC industrial production growth rates have performed strongly since February 2009 (Figure 11).

3.12 Takeovers Code

Wah Nam International is not subject to Chapters 6, 6A, 6B and 6C of the Corporations Act dealing with the acquisition of shares (ie substantial holdings and takeovers) but rather the Takeovers Code and the ASX Listing Rules.

The Takeovers Code is regulated by the Securities and Futures Commission in Hong Kong pursuant to its functions under the Securities and Futures Commission Ordinance (SFC Ordinance). The Takeovers Code applies to takeovers and mergers affecting public companies in Hong Kong. Its purpose is to provide guidelines for companies and their advisers contemplating, or becoming involved in, takeovers and mergers affecting public companies in Hong Kong.

The aim of the Takeovers Code is to ensure fair treatment to every shareholder affected by merger or takeover transactions, subject to the Takeovers Code. The Takeovers Code is non-statutory and comprises rules administered by the Executive. The Takeovers Code is principle-based. The general principles and the spirit of the Takeovers Code will apply in areas or circumstances not explicitly covered by any rule in the Takeovers Code.

(a) **The general principles of the Takeovers Code**

The general principles of the Takeovers Code include the items set out below.

- All shareholders are to be treated even-handedly and all shareholders of the same class are to be treated similarly.
- If control of a company changes or is acquired or is consolidated, a general offer to all other shareholders is normally required. Where an acquisition is contemplated as a result of which a person may incur such an obligation, they must, before making the acquisition, ensure that they can and will continue to be able to implement such an offer.
- During the course of an offer, or when an offer is in contemplation, neither an offeror, nor the offeree company, nor any of their respective advisers may furnish information to some shareholders which is not made available to all shareholders. This principle does not apply to the furnishing of information in confidence by the offeree company to a bona fide potential offeror or vice versa.
- An offeror should announce an offer only after careful and responsible consideration. The same applies to making acquisitions which may lead to an obligation to make a general offer. In either case the offeror and its financial advisers should be satisfied that it can and will continue to be able to implement the offer in full.
- Shareholders should be given sufficient information, advice and time to reach an informed decision on an offer. No relevant information should be withheld. All documents must, as in the case with a prospectus, be prepared with the highest possible degree of care, responsibility and accuracy.
- All persons concerned with offers should make full and prompt disclosure of all relevant information and take every precaution to avoid the creation or continuance of a false market. Parties involved in offers must take care that statements are not made which may mislead shareholders or the market.
- Rights of control should be exercised in good faith and the oppression of minority or non-controlling shareholders is always unacceptable.
- Directors of an offeror and the offeree company must always, in advising their shareholders, act only in their capacity as directors and not have regard to their personal or family shareholdings or to their personal relationships with the companies. They should only consider the shareholder interests taken as a whole when they are giving advice to shareholders. Directors of the offeree company should give careful consideration before they enter into any commitment with an offeror (or anyone else) which would restrict their freedom to advise their shareholders. Such commitments may give rise to conflicts of interest or result in a breach of the directors' fiduciary duties.
- At no time after a bona fide offer has been communicated to the board of the offeree company, or after the board of the offeree company has reason to believe that a bona fide offer might be imminent, may the board of the offeree company take any action in relation to the affairs of the company without the approval of shareholders in general meeting, which could

effectively result in any bona fide offer being frustrated or in the shareholders being denied an opportunity to decide on its merits.

- All parties concerned with transactions subject to the Takeovers Code are required to co-operate to the fullest extent with the Executive, the Hong Kong Takeovers Panel and the Hong Kong Takeovers Appeal Committee, and to provide all relevant information.

In the case of an offer, the Takeovers Code applies not only to the offeror and the offeree company, but also to those persons "acting in concert" with the offeror or the offeree. Under the Takeovers Code, "persons acting in concert" are persons who "pursuant to an agreement or understanding, actively cooperate to obtain or consolidate control of a company through the acquisition by any of them of voting rights of the company". The Takeovers Code also describes classes of persons who are presumed to be acting in concert with others in the same class, eg among others:

- directors of a company;
- a holding company, its subsidiaries and associates; and
- financial advisers and financiers of the takeover bids.

(b) **Mandatory general offer obligations**

The Takeovers Code requires the making of a mandatory general offer to acquire all shares and other securities of the offeree company carrying rights to subscribe for, convert or exchange into shares of the offeree company, unless a waiver has been granted by the Executive, if a person or a group of persons acting in concert:

- acquires any voting rights in a Hong Kong public company which will lead to the voting rights held by the acquirer and its concert parties in the offeree company reaching 30% or more; or
- who's holding is between 30% and 50% of the voting rights of a Hong Kong public company, acquires more than 2% of the voting rights in the offeree company from the lowest percentage voting rights in the offeree company held by them in the 12 month period from the date of the relevant acquisition.

A mandatory offer must be in cash or accompanied by a cash alternative at not less than the highest price paid by the purchaser (or persons acting in concert with it) for shares of that class during the offer period and within 6 months prior to its commencement.

(c) **Voluntary offers**

An offer which is not a mandatory offer is a voluntary offer. It is a method by which a takeover offer can be launched subject to a number of conditions.

The consideration under a voluntary offer does not need to be in the form of cash or of a minimum value unless:

- where the shares of any class under offer have been purchased for cash by the offeror and any person acting in concert with it during the offer period and within 6 months prior to the commencement of the offer; and
- such shares carry 10% or more of the voting rights of that class,

then the offer for shares in the offeree company must be in cash or be accompanied by a cash alternative except with the consent of the Executive.

The consideration must not be less than the highest price (excluding stamp duty and commission) paid by the offeror or any persons acting in concert with it for shares of the same class during the offer period and within 6 months prior to the commencement of the offer.

If the offeror, or person acting in concert with it, has purchased shares in the offeree company within the 3 month period prior to commencement of the offer or during the period between the commencement of the offer period and the announcement of a firm intention to make an offer by the offeror, or person acting in concert with it, then the offer must not be on less favourable terms.

The Takeovers Code states that an offer must not normally be made subject to conditions which depend on subjective judgments or which are solely at the discretion of the offeror.

3.13 Connected Transactions

Wah Nam International is not subject to Chapter 2E of the Corporations Act dealing with related party transactions but rather the HKEx Listing Rules and the ASX Listing Rules.

Chapter 10 of the ASX Listing Rules deals with transactions with persons in a position of influence. The transactions covered by Chapter 10 of the ASX Listing Rules include acquiring and disposing of substantial assets by Wah Nam International and acquiring securities in Wah Nam International. The Chapter also deals with participation by directors (and persons associated) in employee incentive schemes and in underwriting dividend or distribution plans, payments to directors and termination benefits. The definition of a person of influence includes a Related Party.

Wah Nam International, being listed on the HKEx is also subject to the HKEx Listing Rules regarding "connected transactions". The aim of the HKEx Listing Rules is to provide certain safeguards against connected persons taking advantage of their positions.

Connected transactions of a HKEx listed company are governed by the connected transaction rules set out in Chapter 14A of HKEx Listing Rules. The connected transactions rules are intended to ensure that the interests of shareholders as a whole are taken into account by a listed company when the listed company enters into a connected transaction. Connected transactions mainly comprise transactions involving the listed company or any of its subsidiaries and connected persons of the listed company or its subsidiaries, including the listed company's and its subsidiaries' directors, chief executives and substantial shareholders (and their respective associates).

Connected transactions under the HKEx Listing Rules include, among other things:

- the acquisition or disposal of assets, including deemed disposals;
- any transaction involving a listed company writing, accepting, transferring, exercising or terminating an option to acquire or dispose of assets or to subscribe for securities;
- entering into or terminating finance leases;

- entering into or terminating operating leases or sub-leases;
- granting an indemnity or a guarantee or providing financial assistance (such as borrowings, lending and advance);
- entering into any arrangement or agreement involving the formation of a joint venture entity in any form;
- issuing of new securities;
- the provision of or receipt of services;
- sharing of services; and
- providing or acquiring raw materials, intermediate products and finished goods,

regardless of whether or not the transaction is of a revenue nature in the ordinary and usual course of business.

The HKEx Listing Rules require a company to enter into a written agreement regarding every connected transaction.

All connected transactions (or a series of connected transactions in aggregate) shall be subject to the requirements of the listed company informing the HKEx, issuing an announcement, obtaining approval of independent shareholders (where any shareholder with a material interest in the transaction will not be permitted to vote at the meeting on the resolution approving the transaction) at general meeting (unless there is a waiver granted by the HKEx) and reporting the transaction in the company's annual reports unless there are specific exemptions under the HKEx Listing Rules.

The HKEx Listing Rules provide that the following transactions are exempt from the reporting, announcement and independent shareholder approval requirements.

- Intra-group transactions between a listed company and a non whollyowned subsidiary or between its non wholly-owned subsidiaries where no connected persons of the listed company are entitled to exercise, or control, the exercise of 10% or more of the voting power at any general meeting of any of the subsidiaries connected and none of the subsidiaries is itself a connected person.
- A de minimis transaction (as determined by some prescribed tests in the HKEx Listing Rules) on normal commercial terms.
- An issue of new securities where a connected person receives a pro rata entitlement to the securities in its capacity as shareholder, or pursuant to the exercise of an option granted to a connected person pursuant to the listed company's share option scheme in compliance with the HKEx Listing Rules, or where a connected person is acting as underwriter or sub-underwriter of an issue of securities by the listed company in respect of the listed company's rights issue or open offer in compliance with the HKEx Listing Rules, or a top-up subscription in connection with a share placement of the listed company in compliance with the HKEx Listing Rules.
- Dealing of securities on a recognised stock exchange by a listed company.

- Any purchase by a listed company of its own securities from a connected person on the HKEx or a recognised stock exchange or under a general offer made in accordance with the Code on Share Repurchases in Hong Kong.
- A director's service contract.
- An acquisition as consumer or realisation in the ordinary and usual course of business of consumer goods or consumer services by a listed company from or to a connected person of the listed company on normal commercial terms in compliance with the HKEx Listing Rules.
- Sharing of administrative service between a listed company and a connected person on a cost basis in compliance with the HKEx Listing Rules.
- A connected transaction on normal commercial terms with a connected person of a subsidiary of a listed company where such person is a connected person of the listed company solely because of their relationship with such subsidiary and that the size of such subsidiary is relatively small as compared with the whole listed company's group, subject to certain tests stipulated in the HKEx Listing Rules, and that if such subsidiary is itself a party to the transaction, the transaction value is less than the prescribed threshold in the HKEx Listing Rules.
- A transaction with associates of a passive investor of the listed company of a revenue nature in the ordinary and usual course of the listed company's business and on normal commercial terms in compliance with HKEx Listing Rules.
- A financial assistance provided by a listed company for the benefit of a connected person in which the listed company is a shareholder, provided that the assistance being provided is in proportion to the listed company's equity interest in the connected person.
- A financial assistance provided by a connected person for the benefit of a listed company on normal commercial terms (or better to the listed company) where no securities over any assets of the listed company are granted in respect of the financial assistance.

The HKEx Listing Rules further provide that some connected transactions on normal commercial terms, where the transaction size is relatively small and subject to the tests prescribed under the HKEx Listing Rules, may be exempt from the independent shareholder approval requirements but are subject to the requirements of issuing an announcement and reporting the transaction in the listed company's annual report.

If a listed company is required to seek approval from its independent shareholders regarding a connected transaction, it will need to send a circular to all of its shareholders setting out details of the transaction and advice of an independent board committee and independent financial adviser to the independent shareholders, regarding the related connected transaction.

Wah Nam International will also lodge an application to the ASX for admission to quotation of the Consideration Shares being a date no later than 7 days after the start of the Bid Period. Quotation will not be automatic and will depend on the ASX exercising its discretion.

4.2 Trading on the ASX and the HKEx

When accepting the Offer, you can choose to have Wah Nam International Shares registered on the Australian Share Register or the Hong Kong Share Register.

Subject to the completion of the Offer and the quotation of the Consideration Shares on the HKEx and the ASX, holders of Wah Nam International Shares may shunt (or move) their Wah Nam International Shares between Wah Nam International's Australian Share Register and Hong Kong Share Register according to the following procedure:

- when a Wah Nam International Shareholder wishes to shunt shares from one of the 2 registers (**Home Register**) to the other register (**Destination Register**), the Wah Nam International Shareholder must provide the Home Register with a written direction to that effect. The Home Register will then remove the Wah Nam International Shares from their holding, and place those shares into the control of the Destination Register. A confirmation will then be sent to the Destination Register, which will place the shares into a holding in exactly the same name of the delivering Wah Nam International Shareholder; and
- periodically (usually at the time of each shunt (or removal)) the 2 registers will compare their respective control accounts to confirm that they are synchronised.

It is customary for the Hong Kong Registrar to charge shareholders (and prospective shareholders coming from the Australian Share Register) administrative fees for processing shunts (or removals).

The following table identifies the costs (correct at the time of going to print) for each of those administrative fees.

To/From	Australian Fee	Hong Kong Admin Fee	Hong Kong Certificate Cancellation / Creation Fee (per Certificate)
AU/HK	Nil	HK\$350.00	HK\$2.50 (Cancellation)
HK/AU	Nil	HK\$350.00	HK\$2.50 (Creation)

The ASX requires trades to be settled on a 'T+3' basis while the HKEx requires trades to be settled on a 'T+2' basis. The period of time required to shunt Wah Nam International Shares between the Australian Share Register and the Hong Kong Share Register may vary and there is no certainty of when shunted shares will be available for trading or settlement.

Wah Nam International Shares shunted from the Australian Share Register to the Hong Kong Share Register may not be allocated to CCASS as the HKEx requires a physical share certificate to be issued and then delivered to the appropriate CCASS Participant for transfer to CCASS. Wah Nam International Shares shunted from the Hong Kong Share Register can be sponsored by either Wah Nam International or CHESS, as per the request of the Wah Nam International Shareholder initiating the shunt. For further information, contact your nominated market (or CCASS) participant.

Brockman was originally listed on the ASX on 17 August 2004 as Yilgarn Mining Ltd and was renamed Brockman Resources Limited to reflect the company's strategic decision to position itself as an iron ore developer. Brockman's main focus is the development of the Marillana Project.

5.3 Overview of Brockman's projects

(a) Marillana Project

Background

The Marillana Project is Brockman's principal project and is located in the Hamersley Iron Province, 100 kilometres north west of Newman in Western Australia. The Marillana Project covers an area of 96 square kilometres and is held by a wholly-owned Subsidiary of Brockman.

Mining and metallurgy

Brockman has sourced sufficient ore from Bauer and other drilling programs which has been used to undertake a range of mining and metallurgy test work.

Details of the mining and metallurgy work undertaken by Brockman are available in its ASX announcements.

Brockman's most recent quarterly update included the following mining and metallurgy items:

- completion of a 150 tonne pilot plant beneficiation sample test;
- production of a full circuit concentrate;
- completion of rheology testwork; and
- dewatering testwork.

Port and rail infrastructure

The development and success of the Marillana Project is heavily dependent on access to rail and port infrastructure to economically transport the ore to future customers.

Brockman has worked closely with fellow NWI shareholders (Atlas and FerrAus) towards establishing viable options for the development of new port facilities in South West Creek. The takeover of FerrAus by Atlas during the third quarter of 2011 provided NWI with the opportunity to more efficiently align its goals to progress the development of the NWI South West Creek port solution.

In December 2010, Brockman announced to the market that it was in advanced negotiations with FMG for rail and port access. Brockman continues to progress negotiations with FMG for a haulage and port services agreement.

Development schedule

Brockman had previously advised that it intended to complete its process plant in the 2014 second quarter. As noted above, Brockman has commenced an optimisation study that is due to be completed in June 2012.

Based on the information available to Wah Nam International at the time of the Offer, Wah Nam International does not believe that the intended production timeline will be met.

Strategic review

A strategic review was commenced following the recent changes to the Brockman board. The review covers the Marillana Project and all facets of the Brockman business and was expected to conclude by December 2011. When concluded a revised timetable will be determined for key project milestones leading to production.

(b) Other iron ore projects

Brockman also owns the Duck Creek, West Hamersley, Mt Stuart and Ophthalmia iron ore projects in the West Pilbara region of Western Australia. Brockman has planned exploration programs for a number of these projects but to date has not delineated any Mineral Resources or Ore Reserves at these projects.

(c) Other projects

Irwin-Coglia Nickel-Cobalt Laterite Project

Brockman has a 40% interest in the Irwin–Coglia nickel-cobalt laterite joint venture located 150 kilometres south east of Laverton in Western Australia. The remaining 60% interest in the joint venture is held by Murrin Murrin Holdings Pty Ltd and Glenmurrin Pty Ltd. Since establishing the joint venture, the co-venturers have completed extensive drilling programs and reported an Indicated Mineral Resource at Irwin-Coglia of 16.8 million tonnes grading 1.07% Ni and 0.14% Co.

6. The Combined Group

6.1 Approach

This Section 6 provides an overview of the profile of the Combined Group following the Offer and the effect of the Offer on Wah Nam International.

6.2 Profile of Combined Group

Brockman Shareholders who accept the Offer will receive Wah Nam International Shares as part of the Offer Consideration. Therefore, on completion of the Offer, if Wah Nam Australia is successful, Brockman Shareholders who have validly accepted the Offer will be Wah Nam International Shareholders in the Combined Group.

The proposed combination of Wah Nam International and Brockman will consolidate 100% ownership of Brockman into one listed entity. It will also combine highly complementary asset portfolios, market positions, management teams and technical skill sets.

As a 100% owner of Brockman, Wah Nam International will make the investments required to fully develop the Marillana Project from within the Combined Group.

6.3 Effect of the acquisition on Wah Nam International

(a) General effect of the acquisition

Wah Nam International is a diversified company with investments in copper, zinc, lead, mineral exploration and transport. Wah Nam International is focussed on being a developer of strategic mining assets in politically stable, mineral resource-rich countries.

If successful, the Offer will consolidate 100% of Brockman within the Wah Nam International Group and may:

- aid Wah Nam International in making future financing and development decisions that will need to be made to bring the Marillana Project to production;
- simplify the shareholding structure of Brockman and consolidate ownership into one entity; and
- increase the attractiveness of Wah Nam International to investors through an anticipated increase in broker research coverage and investment in Wah Nam International by large offshore investment funds.

(b) Effect of the acquisition on Wah Nam International's capital structure

If the Offer is validly accepted by all Brockman Shareholders:

- based on the number of Wah Nam International Shares on issue as at the date of the Offer;
- the Subscription Shares to be issued under the Subscription;
- the Placement Shares to be issued under the Placement;

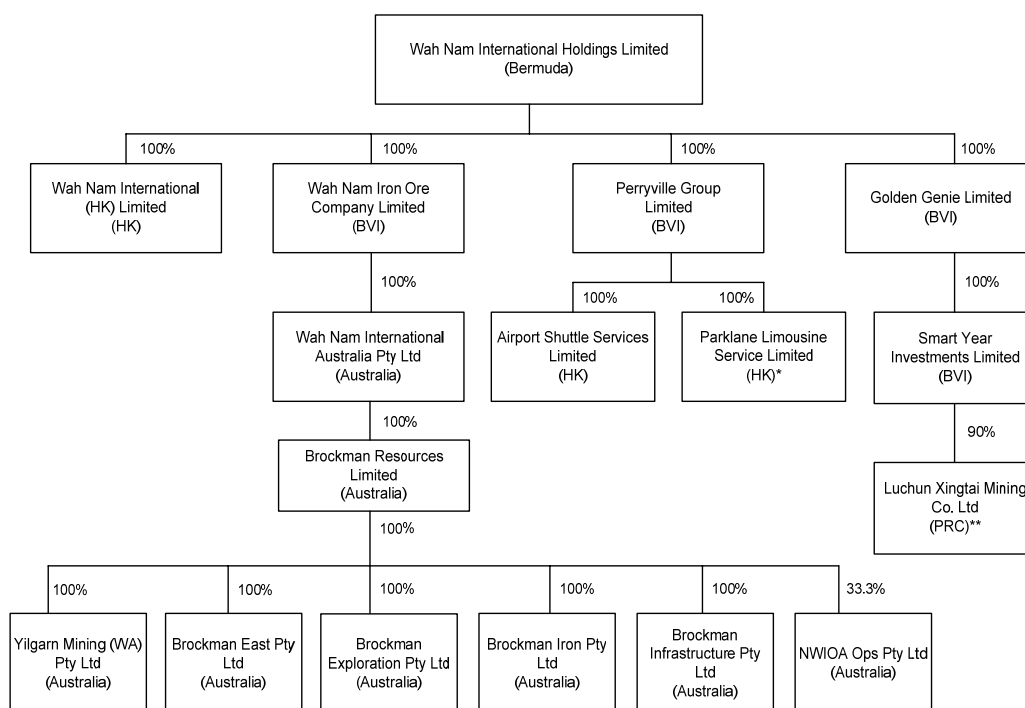

- the Wah Nam International Shares to be issued upon the conversion of the Convertible Bond; and
- the Brockman Shares on issue as at the date of the Offer,

Wah Nam International will have 7,498,694,327 Wah Nam International Shares on issue, of which 1,164,414,924 (representing approximately 15.5% of the total Wah Nam International Shares on issue following 100% acceptance of the Offer) will represent Wah Nam International Shares issued to accepting Brockman Shareholders.

Further, if all holders of the A\$1.25 Brockman Options, A\$1.30 Brockman Options and A\$3.00 Brockman Options were to exercise their options and subsequently accept the Offer for their Brockman Shares, Wah Nam International will have 7,540,994,327 fully paid ordinary shares on issue of which 1,206,714,924 (representing approximately 16.0% of the total fully paid ordinary shares on issue following 100% acceptance of the Offer) will represent shares issued to accepting Brockman Shareholders.

6.8 Pro-forma assumptions and adjustments

The pro-forma balance sheet post the issue of the securities contemplated by the Offer, the Subscription and the Placement is set out in Section 6.7. It has been prepared based on Brockman's audited financial statements and Wah Nam International's reviewed financial statements as at 30 June 2011 and the transaction events relating to the issue of Wah Nam International Shares pursuant to the Offer, the Subscription and the Placement and the issue of the Convertible Bond pursuant to the Subscription.

The following assumptions have been made in preparing the pro-forma balance sheets:

- an exchange rate of HK\$7.87 to A\$1.00 and an exchange rate of HK\$7.80 to US\$1.00. The exchange rate applicable for the translation of Brockman's audited financial statements as at 30 June 2011 was HK\$8.3599 to A\$1.00;
- the value of a Wah Nam International Share being HK\$0.67;
- the issue of A\$1.50 cash and 18 Wah Nam International Shares for each Brockman Share held (and based on 65,539,718 Brockman Shares) pursuant to the Offer;
- costs associated with the bid and issue of Wah Nam International Shares assuming Brockman becomes a wholly-owned subsidiary of Wah Nam International, of HK\$21,098,000;
- the issue of 555.1 million Wah Nam International Shares on the HKEx pursuant to the Subscription to raise HK\$333.06 million;
- the issue of the Convertible Bond with a value of HK\$174 million pursuant to the Subscription;
- the issue of 130 million Wah Nam International Shares on the HKEx pursuant to the Placement to raise HK\$78 million;
- the balance sheet of Brockman is based on the latest audited financial statements as at 30 June 2011. Consideration was given to any significant subsequent events obtained from publicly available information but no adjustments were made based on the information that was announced; and
- the estimated amount of Western Australian stamp duty of approximately HK\$114,902,000.

Western Australian stamp duty is assessed when the Company effectively acquires 90% or more of the shares in Brockman. However, the estimated amount of the stamp duty for the purpose of this pro forma financial information is based on a number of assumptions and understanding which is subject to change in the future. In the absence of a full assessment of the assets of Brockman as well as valuation materials, the Wah Nam International directors consider that it is difficult to accurately determine the stamp duty that would be payable, and it does not represent any agreement of the Wah Nam International directors that such amount is the actual tax payable in the future.

The pro-forma balance sheet of Brockman has not been updated from the 2011 September quarterly reports as these contain cash flow information only and have not been subject to audit or review.

Adjustment has also been made for the following subsequent events.

- The disposal of 40,934,400 shares in FerrAus held by Wah Nam Australia in exchange for 10,233,599 shares in Atlas pursuant to the acceptance of the takeover offer by Atlas. Based on the closing price of the shares of Atlas of A\$3.62 per share as well as the closing price of the shares of FerrAus of A\$0.89 on 20 September 2011 (ie the date of acceptance of the takeover offer by Atlas), a gain on disposal of HK\$4,921,000 is therefore recognised. Subsequently, the Atlas shares received under the acceptance of the offer were disposed of and a loss on disposal of HK\$37,182,000 was realised.
- The adjustment of deferred tax liability of HK\$4,025,000 represents the release of deferred tax liability recognised for the accumulated fair value gain on the available-for-sale investment in FerrAus (ie previous effective interest of 19.9% in FerrAus), at a tax rate of 30%.

Other than the above adjustments, no other adjustment has been made to reflect any trading result, or other transaction of the Wah Nam International Group (including the Brockman group) entered into subsequent to 30 June 2011.

6.9 Prospects of the Combined Group

Wah Nam International believes the Combined Group will be a large financially secure and growth focused company with an expanded multi-mine asset base. If the Offer is successful, the value of Wah Nam International Shares is likely to be positively re-rated by the equity capital markets as a consequence of:

- 100% ownership of its largest asset;
- recognition of the Combined Group's balance sheet, significant multi-mine asset base, cash and access to an expanded range of financing and growth options;
- enhanced global capital market and institutional investor awareness through an anticipated increase in broker research coverage and investment in Wah Nam International by large offshore investment funds; and
- increased market capitalisation, liquidity and market presence.

The combination of Wah Nam International's expertise in international capital markets and its debt and equity raising capabilities with that of Brockman's mining exploration, production and development expertise will enhance the likelihood of the Marillana Project commencing production as scheduled, if not sooner.

Limitation on prospects

If Wah Nam Australia does not acquire 100% Brockman, the Related Party provisions of the Corporations Act (and the ASX Listing Rules) will apply.

7. Risks

7.1 Introduction

The key risks that may have a material adverse impact upon the implementation of the Offer, the future performance of Wah Nam International, the Combined Group and the value of Wah Nam International Shares are described in this Bidder's Statement and include those risks set out in this Section 7. The risks identified in this Section 7 are not exhaustive.

Wah Nam Australia does not give any assurances or guarantees of future performance or profitability, or payment of dividends by, Wah Nam International. Additionally, Wah Nam Australia does not give any assurances or guarantees that the risks set out in this Bidder's Statement will not change. There may be other material risks which are not disclosed in this Bidder's Statement because they were not known by Wah Nam Australia, or were not considered to be material at the date of this Bidder's Statement. Many of the risks below arising from the Offer are also inherent within Brockman and Wah Nam International as separate entities.

The value of the Consideration Shares will depend upon the future performance of Wah Nam International and the value of Wah Nam International Shares. As a result, Brockman Shareholders should carefully consider both the risks affecting the Offer and those risks affecting the future performance of Wah Nam International and the value of Wah Nam International Shares.

Brockman Shareholders should be aware that an investment in Wah Nam International has risks which are associated with investing in listed securities. The future dividends, the value of Wah Nam International's assets and the market value or price of the Wah Nam International Shares quoted on the ASX and the HKEx may be influenced by these and other risk factors.

Many of these factors are common to those affecting the current performance of Wah Nam International and Brockman. Some of the risks may be mitigated by the use of safeguards and appropriate systems and controls. However, many risks that may affect Wah Nam International are outside the control of Wah Nam International.

This Section 7 does not take into account the investment objectives, financial circumstances or particular needs of individual Brockman Shareholders. It is important that Brockman Shareholders carefully read this Bidder's Statement in its entirety (particularly the risks set out in this Section 7), consider their personal circumstances (including financial and taxation issues) and seek independent professional advice before deciding whether to accept the Offer.

Set out below are some of the key risks that have been identified as potentially affecting the performance of Wah Nam International, the ability of Wah Nam International to pay dividends and the value of Wah Nam International Shares.

The past performance of Wah Nam International and Brockman is not necessarily representative of the future performance of Wah Nam International or the value of Wah Nam International Shares.

7.2 Risks relating to the Offer, Wah Nam International and the Combined Group

(a) Brockman information

In preparing this Bidder's Statement, Wah Nam Australia has relied on publicly available information released by Brockman. Any inaccuracy in this information could adversely affect the anticipated results of Wah Nam International. In addition, it is possible that additional risks may exist in relation to Brockman's business which are not known to Wah Nam Australia.

(b) Minority shareholding in Brockman

If you do not accept the Offer and the Offer becomes unconditional without Wah Nam Australia acquiring at least 90% of Brockman Shares, and therefore is not entitled to compulsorily acquire the remaining Brockman Shares and other securities, you will be part of a diminished minority shareholding in Brockman. In such case, the liquidity of the Brockman Shares may be materially reduced.

(c) Market fluctuation and exchange rate risks

Brockman Shareholders are being offered consideration under the Offer that consists in part of a specified number of Wah Nam International Shares, rather than a number of Wah Nam International Shares with a specified market price and at a specified exchange rate.

The market price of the consideration will fluctuate depending upon the market price of Wah Nam International Shares. There is an ongoing risk, as exists for all shares, that the price of Wah Nam International Shares (and therefore the value of the Offer Consideration received by accepting Brockman Shareholders) may fall in the future.

(d) Financing

Wah Nam International will need to raise additional debt or equity funds for the development of the Marillana Project or for other capital expenditure, further exploration or feasibility studies or otherwise in the Combined Group's operations.

Wah Nam International has not previously raised the amount that will be required for the development of the Marillana Project.

There is no assurance that Wah Nam International will be able to raise the amount when required, or that the terms associated with that funding will be acceptable to Wah Nam International. If such funding is not obtained, Wah Nam International will be unable to proceed with the Marillana Project, which would adversely affect its business, financial condition and operating results.

Further, any equity funding will have a dilutionary effect on Wah Nam International Shareholders' holdings.

(e) Uncertainty regarding the level of integration that may be achievable

Wah Nam International intends, to the extent possible, to seek to integrate Brockman's operations within Wah Nam International so as to maximise operational synergies as well as eliminating a range of duplicated effort and costs. The extent to which these synergistic benefits and cost savings are realisable depends upon a range of factors including the level of acceptances received under the Offer.

There is a risk that the synergies expected to arise from the combination of Wah Nam International and Brockman fail to materialise or take longer than expected to materialise. Wah Nam International may incur greater than anticipated implementation costs during the integration of the businesses of Wah Nam International and Brockman. This may affect the future earnings performance of the Combined Group.

(f) **The introduction of the Minerals Resource Rent Tax**

The Australian Commonwealth Government announced on 2 July 2010 that it intends to introduce a MRRT which would be applicable from 1 July 2012 at an effective rate of 22.5% on profits made from the exploitation of a limited number of Australia's non-renewable resources, including iron ore and coal. A Bill to implement the MRRT was introduced into the Parliament on 2 November 2011. The Bill recently passed through the House of Representatives, but is yet to be introduced into the Senate. Wah Nam International has not determined the full extent to which the MRRT may impact on it post the acquisition of Brockman.

(g) **Cash position**

Whilst the Combined Group is expected to have greater revenue than Brockman as a standalone entity, it will also have higher overall expenditure levels due to its increased scale, operations and development and exploration projects. There is no guarantee that the Combined Group will be able to maintain a sufficient cash balance following the acquisition of Brockman by Wah Nam Australia.

(h) **Accounting**

Australian dollars is the functional currency of Brockman, whilst the reporting currency of the Wah Nam International Group is HK\$. Any material fluctuations of the exchange rate of A\$ against HK\$ may affect the consolidated results and financial position of the Combined Group following the acquisition of Brockman by Wah Nam Australia.

(i) **Liquidity of Wah Nam International Shares on the ASX**

Wah Nam International Shares are thinly traded on the ASX.

If the Offer is successful, Wah Nam International will be required to issue up to 1,206,714,924 Wah Nam International Shares which will result in Wah Nam International having 6,565,994,327 Wah Nam International Shares on issue and in the event the Convertible Bond is exercised, Wah Nam International will be required to issue up to an additional 289,900,000 Wah Nam International Shares which will result in Wah Nam International having 6,855,894,327 Wah Nam International Shares on issue. A possible consequence will be that Wah Nam International's liquidity on the ASX will increase.

However, some Brockman Shareholders who accept the Offer may:

- choose to accept Wah Nam International Shares registered on the Hong Kong Share Register; or
- not wish to continue to hold Wah Nam International Shares which they receive and may sell them on the ASX or the HKEx.

If a significant number of existing Brockman Shareholders wish to hold their Wah Nam International Shares on the HKEx register or sell the Wah Nam International Shares

they acquire under the Offer or if there is a significant number of Ineligible Overseas Shareholders and Unmarketable Parcel Holders (resulting in a significant number of Wah Nam International Shares being sold by the Nominee), the liquidity of Wah Nam International Shares on the ASX may be adversely affected.

(j) **Uncertainty regarding the level of re-rating of Wah Nam International Shares**

If Wah Nam Australia acquires the balance of Brockman Shares, the value of Wah Nam International Shares is likely to be positively re-rated by the equity capital markets due to an enhanced market capitalisation, increased global market awareness and an expanded institutional investor base through the anticipated increase in broker research and investment in the Combined Group by large international funds.

There is a risk that the positive re-rating expected to arise from the combination of Wah Nam International and Brockman fails to materialise due to a number of reasons including:

- negative equity market sentiment in Hong Kong and Australia;
- negative outlook on the iron ore sector globally and in particular, Australia; and
- inability of Wah Nam International to progress the Marillana Project and the required infrastructure facilities.

(k) **Future acquisitions**

Following the Offer, Wah Nam International's directors intend to seek additional strategic acquisitions in order to realise their plan of being a developer of strategic mining assets in politically stable, mineral resource-rich countries. Any successful acquisition that is significant in size, may change the scale of Wah Nam International's business, and may expose Wah Nam International to new geographic, political, operating, financial and geological risks. Further, acquisitions may also dilute ownership of accepting Brockman Shareholders.

7.3 Mining industry risks

(a) **Metal prices**

The continuing success of the Damajianshan Mine and, accordingly, Wah Nam International's profitability will depend primarily on the future sales volumes and prices that Wah Nam International obtains for sales of copper. Similarly, the future profitability of the Combined Group will also be dependent on the price of iron ore.

Prices for copper and iron ore are subject to fluctuation and are affected by a number of factors which are beyond the control of Wah Nam International. Such factors include, but are not limited to, interest rates, exchange rates, inflation or deflation, global and regional supply and demand, increased supply from new projects, expansion of existing operations, or substitution with alternative products in downstream markets, technological advancements, competitors that supply copper and iron ore reducing their prices, and the political and economic conditions of major copper and iron ore-producing and consuming countries throughout the world.

(b) **Actual Ore Reserves and Mineral Resources may be lower than current estimates**

Wah Nam International and Brockman report Mineral Resources and Ore Reserves in accordance with the JORC Code. Mineral Resource and Ore Reserve estimates are subject to independent third party review on at least a one year cycle. The methodology for estimating Ore Reserves may be updated over time and is reliant on certain assumptions being made. Declared Mineral Resources and Ore Reserves are best estimates that may change as new information becomes available.

Consequently, Wah Nam International's and Brockman's Mineral Resources and Ore Reserves may be revised up or down. Actual Ore Reserves may not conform to geological, metallurgical or other expectations and the volume and grade of ore recovered may be below the estimated levels. Ore Reserve data is not indicative of the future results of operations. If Wah Nam International's actual Mineral Resources and Ore Reserves are less than current estimates, Wah Nam International's business, results of operations and financial condition may be materially and adversely affected.

(c) **The Marillana Project may not be completed as planned**

The business of the Combined Group will depend partly on the Marillana Project. The viability of a mineral deposit depends on a number of factors, including: the particular attributes of the deposit (such as size, grade and proximity to infrastructure), commodity prices (which are highly cyclical) and government regulations, including regulations relating to prices, taxes, royalties, land tenure, land use, importing and exporting of mineral resources and environmental protection.

The Marillana Project may not be developed as planned. If the Combined Group is unable to develop the Marillana Project into a commercially working mine, the business, financial condition and results of operations may be materially and adversely affected.

The Marillana Project is subject to technical risk in that it may not perform as projected. Increased development costs, lower output or higher operating costs may all combine to make the Marillana Project less profitable than expected at the time of the development decision, which would have a negative impact on the Combined Group's business and results of operations. No assurance can be given that the Combined Group will be adequately compensated by third party project design and construction companies (if not performed by the Combined Group directly) in the event that the Marillana Project did not meet their expected design specification.

As with all exploration projects, there is a risk that the Marillana Project cannot be converted to a commercially viable mine, in part because actual costs from capital projects may exceed the original budgets. As a result of delays, cost overruns, changes in market circumstances or other reasons, the Combined Group may not be able to achieve the intended economic benefits or demonstrate the commercial feasibility of the Marillana Project, which in turn may materially and adversely affect the Combined Group's business, results of operations and growth prospects.

(d) **Environment and other regulatory requirements**

The activities of operators in the copper and iron ore industries are subject to environmental regulations promulgated by government agencies from time to time. Environmental legislation generally provides for restrictions and prohibition on spills, releases or emissions of various substances produced in association with certain mining industry operations, which would result in environmental pollution. Exploration and mining activities generally require permits from various governmental authorities

and such operations are and will be governed by laws and regulations regarding prospecting, labour standards, occupational health, waste disposal, toxic substances, land use, environmental protection, safety and other matters.

There can be no assurance that compliance with these laws and regulations or changes thereto, or the cost of rehabilitation of site operations, or the failure to obtain necessary permits, approvals or prospecting or mining rights or successful challenges to the grant of such permits, approvals and rights, will not adversely affect the results of operations or the financial condition of Wah Nam International.

(e) **Health and safety**

The businesses of Wah Nam International and Brockman are subject to strict health and safety laws and regulations. The Combined Group may become liable for past and current conduct of Wah Nam International and Brockman, which violates such laws and regulations. Penalties for breaching health and safety laws can be significant and include criminal penalties. Victims of workplace accidents may also commence civil proceedings against Wah Nam International. These events might not be insured by Wah Nam International or may be uninsurable.

In addition, any changes in health and safety laws and regulations may increase compliance costs for Wah Nam International. Such an event would negatively impact the financial results of Wah Nam International.

(f) **Mining operations have a finite life**

The key risks for mine closure include the long-term management of permanent engineered structures and acid rock drainage, the achievement of environmental closure standards, the orderly retrenchment of employees and contractors and the relinquishment of the site with associated permanent structures and community development infrastructure and programs to new owners. The successful completion of these tasks is dependent on the ability to successfully implement negotiated agreements with the relevant government, community and employees. The consequences of a difficult closure, range from increased closure costs and handover delays to ongoing environmental impacts and damage to corporate reputation, which could materially and adversely affect Wah Nam International's business and results of operations.

(g) **Personnel**

Brockman is currently undertaking a search for a permanent CEO. There is a risk that Wah Nam International may not be able to successfully conclude this search.

There is also a risk that Wah Nam International may not be able to retain key technical and managerial personnel from Brockman following the Offer. An inability to recruit a permanent CEO and retain these key technical and managerial personnel may have an adverse impact on both the integration of the acquisition and the longer term performance of the Combined Group and especially Wah Nam International's ability to rapidly develop the Marillana Project as is currently intended.

(h) **Litigation**

Wah Nam International may be subject to litigation and other claims based on the conduct of Wah Nam International and Brockman that occurred prior to the Offer.

Wah Nam Australia is not aware of any current material litigation.

(i) **Insurance**

Wah Nam International will have various insurances covering its businesses. However, certain risks are not covered by insurance due to limitations or exclusions in insurance policies or because Wah Nam International has decided not to insure against certain risks because of high premiums or for other reasons. Mining accidents, cave-ins, business interruption, compensation claims, environmental effects, fires, floods, earthquakes and various other events may not be adequately covered by insurance. Such events, to the extent not covered by insurance, could significantly increase the costs of Wah Nam International's operations.

(j) **Competition**

Wah Nam International and the Combined Group may be subject to competition from other miners. Competitors include current miners and future entrants into the market. Other companies may have competitive advantages such as new technology and new production processes. Wah Nam International may be unable to successfully compete and may suffer material adverse consequences such as loss of market share and customers and reduction in revenue.

(k) **Counterparty risk**

There is a risk that contracts and other arrangements to which Wah Nam International or Brockman are party and obtain a benefit (such as concentrate sales, currency and metal price hedging agreements) will not be performed by the relevant counterparties if those counterparties become insolvent or are otherwise unable to perform their obligations.

(l) **Regulatory approval**

Wah Nam International's exploration and mining activities are dependent upon the timely granting of appropriate licenses, permits and regulatory consents which may be granted for a defined period of time, or may not be granted or may be withdrawn subject to a regulatory process, or may be subject to statutory restrictions. Wah Nam International will require numerous further licenses, permits and regulatory consent for the conduct of any new mining operations. There can be no assurance that such authorisations will be granted or renewed (as the case may be) or as to the terms of such grants or renewals.

The Department of Land and Resources of Yunnan Province issued the mining right certificate for the Damajianshan Mine to Luchun Xingtai in January 2005 which was renewed in 2007 for a period of 5 years. It will expire in September 2012. The directors of Wah Nam International expect that Luchun Xingtai will be able to renew the mining right with the relevant government authority at the appropriate time, however, renewal cannot be not guaranteed. Regulatory bodies in the PRC do not set down guidelines or offer guidance on the criteria for renewal and, therefore, there can be no certainty that the right will be renewed.

(m) **Risk regarding native title in Australia**

Australia recognises a form of native title which reflects the rights, interests and entitlements of indigenous inhabitants to their traditional lands in circumstances where such title has not been extinguished. In respect of a land where native title has been registered, the applicant for an exploration or mining tenement over such piece of land has to negotiate with the party holding the native title with a view to reaching an agreement in respect of the granting of the tenement. If no agreement is reached

within 6 months, any of the parties may apply to the National Native Title Tribunal for a determination as to whether the grant should be made, with or without conditions.

There is no assurance that Wah Nam International will be able to reach agreement with parties holding native titles (if any further agreements are required) in respect of the Marillana Project and the terms of these agreements may not be favourable to the Combined Group. In those circumstances, the prospects of the Combined Group may be adversely affected.

(n) **Operational risk**

Wah Nam International will face many operational risks, which include risks related to the geological structure of the mines and geological disasters that may occur during the mining process.

Additionally, Wah Nam International may have to face catastrophic events such as fires, earthquakes, floods or other natural disasters.

Any unpredictable severe weather conditions may require Wah Nam International to evacuate personnel or curtail activities due to natural disasters and may result in damage to its resources locations, which could result in temporary suspension of its operations. During periods of curtailed activity due to natural disasters or adverse weather conditions, Wah Nam International may continue to incur operating expenses. Any damage to its resource locations could materially and adversely affect its business and operating results.

(o) **Risks specific to the PRC**

In addition to exposure to the risks that are common to mining operators, Wah Nam International is also subject to the political and economic uncertainties associated with operating in the PRC. Whilst the mining regulatory environment is developing, it lacks clarity in a number of areas and is subject to interpretation, review and amendment.

7.4 Risks specific to the Damajianshan Mine

(a) **Current mining permit may provide lower Mineral Resources than current estimates**

Under the PRC laws, a mining permit has both horizontal limits and elevation limits. Luchun Xingtai holds a permit for a mining right of 3.6656 square kilometres with the elevation range for the mining permit from 680 metres to the current topographic surface.

A significant part of the currently defined Mineral Resources in the Damajianshan Mine is below the lower limit of the current mining permit. Luchun Xingtai has submitted applications to the relevant authorities in the PRC to adjust the lower limit of the mining permit to an elevation of 0 metres. This application has been approved at the local government and state levels, but not at the provincial level. The provincial approval is expected in December 2011.

Luchun Xingtai has obtained initial approval from the departments of land and resources at both Luchun County level and Honghe Prefecture level for the change of exploitation elevation from 680 metres to 350 metres. The change of exploitation elevation is subject to the final approval from Yunnan Provincial Department of Land and Resources.

(b) **Environmental risks in relation to tailings storage facility**

Luchun Xingtai's operations involve the management of lead and arsenic which are environmentally hazardous. Lead is difficult to separate from copper concentrate and is therefore inherent in Luchun Xingtai's copper concentrate. Arsenic waste or tailings need to be carefully managed.

Luchun Xingtai has obtained all the necessary permits required, including but not limited to the Temporary Permit for Discharge of Pollutants, the Permit for Occupation of Water and Soil Resources, the Processing Permit for Mineral Products and the Operating Permit for Mineral Products for its mine, processing plant and temporary tailing storage facility adjacent to the processing plant.

The current tailings dam is located to the north of the mine and is very close to the Zama River. It is too small for the current processing plant and is not able to be enlarged to meet the demand of the further expanded mine operation. The proposed tailings dam is far bigger than the existing tailing dam and is also suitable for further development, however detailed geotechnical and engineering studies must be completed at the proposed new site as part of the design work. This is especially important as the dam is in an earthquake zone.

(c) **Focus on further exploration while maintaining low production level**

Wah Nam International has adopted a strategy to conduct further exploration at the Damajianshan Mine. There is a risk, as is the case with all exploration, that the exploration may not be productive. As a result of the focus on exploration, Luchun Xingtai's production has been low compared to its capacity.

As a result of this emphasis on exploration, Luchun Xingtai may not be able to take advantage of the current favourable copper concentrate prices in the PRC. Alternatively, a promising result from the exploration may increase the value of Luchun Xingtai.

7.5 Risks specific to the limousine rental and airport shuttle bus services

The business of limousine rental and airport shuttle bus services is directly correlated with the tourism and travel industries in Hong Kong and the PRC which in turn is directly influenced by economic conditions in the Hong Kong and PRC region in particular, and globally in general.

Any deterioration in economic conditions in the region will impact the revenue generation and profitability of the business. As an example, during the 2008 global financial crisis, the business experienced a decline in the number of passengers due to the slowdown in the tourism and travel industries in Hong Kong and the PRC.

7.6 General risk factors

In addition to the specific business risks above, there are a number of general risks associated with holding Wah Nam International Shares including, but not limited to, the following risks which may impact on the world economy, the operations or financial performance of Wah Nam International, the market for its products or the price of Wah Nam International Shares:

- changes to government, legislation, regulations and policy; including taxation laws and policies, accounting laws, policies, standards and practices and fiscal, monetary and regulatory policies;

- the condition of the Australian and overseas economies; including the aggregate investment being undertaken and economic output occurring in those economies, inflation and interest rates and the prices of products which are inputs used in the operations of Wah Nam International;
- investor sentiment, local and international stock market conditions, adverse industry publicity and recommendations by brokers and analysts; and
- global geo-political events, hostilities and acts of terrorism.

8. Wah Nam Australia's and Wah Nam International's Intentions

8.1 Approach

This Section 8 sets out the intentions of Wah Nam Australia and Wah Nam International in relation to the following:

- the continuation of the business of Brockman;
- any major changes to be made to the business of Brockman, including any redeployment of fixed assets of Brockman; and
- the future employment of the present employees of Brockman,

on the basis of the facts and information concerning Brockman and the existing circumstances affecting the business of Brockman which are known to Wah Nam Australia at the time of preparation of this Bidder's Statement.

Final decisions on these matters will only be reached in light of all material facts known to Wah Nam Australia and Wah Nam International and the circumstances at the relevant time. Accordingly, any statements set out in the following sections are statements of the current intentions only which may vary as new information becomes available or circumstances change.

The intentions of Wah Nam Australia are the same as the intentions of Wah Nam International, and both are collectively referred to as Wah Nam International in this Section 8.

8.2 Intentions upon acquisition of 90% or more of Brockman

(a) Compulsory acquisition of Brockman Shares

If Wah Nam Australia is successful in gaining 90% or more interest in Brockman through acceptances of the Offer, and if entitled to do so, Wah Nam Australia intends to proceed with the compulsory acquisition of any Brockman Shares not acquired under the Offer in accordance with the Corporations Act.

(b) Directors and corporate structure

Wah Nam International intends to review the composition of the existing Brockman board with a view to ensuring the most appropriate management structure for the advancement of the Marillana Project.

(c) ASX Listing

As part of the compulsory acquisition process, Wah Nam International will arrange for Brockman to be removed from the official list of the ASX in accordance with the requirements of the ASX.

(d) Option

If it is required to do so under section 663A of the Corporations Act, Wah Nam Australia intends to give notices to Brockman Option holders offering to acquire all of their outstanding Brockman Options, in accordance with 663B of the Corporations Act.

(e) **Brockman's operations and assets**

Wah Nam International's current intention is to continue the operation of Brockman's existing business within one entity. In particular, 100% ownership of Brockman will allow Wah Nam International to justify the significant further investment required to accelerate:

- completion of the bankable feasibility study on the Marillana Project;
- the construction of the NWI port;
- a rail and port solution for the Marillana Project;
- funding of the capital expenditure required for the Marillana Project through debt, equity or joint venture partners; and
- exploration of Brockman's other iron ore projects.

(f) **Employees**

Wah Nam International does not intend to make significant changes to Brockman's management or operational activities. Employment decisions will be made in the context of the expected growth of the Combined Group, particularly to support the development of the Marillana Project.

(g) **Ongoing management**

Wah Nam International will, after the end of the Offer Period and in the ordinary course of managing Brockman's existing business, conduct a general review of the operations, assets, appropriate capital structure (including surplus cash) and employees.

Brockman is currently undertaking a search for a permanent CEO and Wah Nam International was instrumental in initiating this search and intends to continue to search for an appropriate CEO for Brockman.

8.3 Intentions upon ownership of less than 90% of Brockman but more than 80%

Set out below are Wah Nam International's intentions if Wah Nam Australia acquires at least 80% of Brockman Shares, declares the Offer to be free from all the other conditions in Section 13.9 and Wah Nam Australia does not acquire at least 90% of Brockman Shares, and is therefore not entitled to compulsorily acquire the remaining Brockman Shares and other securities. In this situation, Brockman Shareholders should be aware that, if they do not accept the Offer, they may become a "locked-in" minority at the expiration of the Offer Period.

Subject to the level of Wah Nam Australia's shareholding in Brockman, Wah Nam International intends to:

- acquire Brockman Shares over time so as to enable Wah Nam Australia to move to compulsory acquisition;
- unless Brockman has more than the required spread of shareholders under the ASX Listing Rules, make an application to remove Brockman from the official list of the ASX;

- review the extent of the integration intentions set out in Section 8.2 above, as are consistent with Brockman being a controlled entity of Wah Nam International but not a wholly-owned subsidiary.

8.4 Intentions upon ownership of less than 80% of Brockman

Set out below are Wah Nam International's intentions if Wah Nam Australia declares the Offer to be free from all the conditions in Section 13.9 and Wah Nam Australia does not acquire at least 80% of Brockman Shares.

Wah Nam International's current intention is to continue the operation of Brockman's existing business and in particular to accelerate the development of the Marillana Project for the benefit of all Brockman Shareholders. Wah Nam International intends to continue to progress:

- the strategic review of Brockman's business to oversee Brockman's transition to an iron ore producer; and
- the search for a permanent CEO of Brockman with experience in developing and financing a project of similar scale to the Marillana Project.

Whilst it holds less than 80% of Brockman, Wah Nam International does not currently intend to make an application to remove Brockman from the official list of the ASX.

Wah Nam International will review its corporate governance procedures and protocols between Wah Nam International and Brockman in order to ensure the protection of the interests of minority Brockman Shareholders.

8.5 Limitation on intentions

The implementation of Wah Nam International's intentions in the event of Wah Nam International controlling less than 100% of Brockman, will be subject to the Corporations Act, the ASX Listing Rules, Brockman's constitution and the obligations of Brockman's directors to act in the best interests of Brockman and all Brockman Shareholders.

In particular, if Wah Nam Australia does not obtain 90% of Brockman and therefore cannot compulsorily acquire the balance of Brockman Shares, the Related Party provisions of the Corporations Act (and the ASX Listing Rules) will apply.

Wah Nam International will only make a decision on its courses of action in these circumstances after it receives appropriate legal and financial advice on such matters, where required, including in relation to any requirements for Brockman Shareholder approval.

8.6 Other intentions

Other than as set out in this Section 8, it is the present intention of Wah Nam International to procure that Brockman will:

- generally continue the business of Brockman;
- not make any major changes to the business of Brockman nor redeploy any of the fixed assets of Brockman; and
- continue the employment of Brockman's present employees.

9. Sources of Consideration

9.1 Cash

(a) Consideration under the Offer

The Cash Consideration will be satisfied by payment in Australian dollars.

Based on:

- the number of Brockman Shares on issue;
- the number of A\$1.25 Brockman Options, A\$1.30 Brockman Options and A\$3.00 Brockman Options on issue; and
- the fact that Wah Nam Australia already has a relevant interest in 55.33% Brockman Shares,

as at the date of the Offer, and

- assuming all holders of A\$1.25 Brockman Options, A\$1.30 Brockman Options and A\$3.00 Brockman Options convert their Brockman Options,

then the maximum amount of cash consideration that would be payable by Wah Nam Australia under the Offer if acceptances were received for all Brockman Shares in which Wah Nam Australia does not already have a relevant interest is approximately A\$100.6 million, not including transaction costs.

Wah Nam Australia has reasonable grounds to expect the holders of the A\$3.21 Brockman Options and the A\$5.85 Brockman Options will not exercise their Brockman Options and accept the Offer. This view has been formed based on analysis of the historical volatility of Wah Nam International Shares over time periods equivalent to the Offer Period and the potential impact upon the Implied Value.

(b) Overview of Wah Nam Australia's funding arrangements

Wah Nam Australia will fund the cash consideration payable under the Offer using a combination of:

- existing cash resources;
- the proceeds from the issue of the Subscription Shares and the Convertible Bond pursuant to the Subscription Agreement; and
- the proceeds from the issue of the Placement Shares pursuant to the Underwriting Agreement.

Each of these sources of funds is discussed in more detail below.

The aggregate of the existing cash resources, the proceeds from the issue of the Subscription Shares and the Convertible Bond pursuant to the Subscription Agreement described in Sections 9.1(d) and the issue of the Placement Shares pursuant to the Underwriting Agreement described in 9.1(e) are in excess of the maximum amount payable under the Offer, together with the amounts required to cover all transaction costs associated with the Offer and the A\$/US\$ exchange rate reaching US\$1.10.

To limit its exposure to exchange rate variations, Wah Nam Australia has included as a condition of the Offer, the Condition set out in paragraph 13.9(h). If it hasn't already done so, Wah Nam International intends, at the first opportunity where the A\$/US\$ exchange rate does not exceed US\$1.10 during the 5 Trading Days after the satisfaction of the last of Conditions in 13.9(a), 13.9(b), 13.9(c), 13.9(d) or 13.9(e), to convert into Australian dollars the funds necessary to satisfy the Cash Consideration if all Brockman Shareholders were to accept the Offer, or where the full amount is not converted into Australian dollars, enter into a foreign currency hedging arrangement for the balance of the required funds.

Wah Nam Australia does not intend to waive the Condition set out in 13.9(h) before the funds necessary to satisfy the Cash Consideration are held in readily available Australian dollars or it has entered into a foreign currency hedging arrangement for the balance of the required funds.

(c) **Cash Resources**

Wah Nam International has set aside A\$33.7 million of its cash reserves to be available to fund the Offer.

(d) **Subscription Agreement**

On 12 December 2011 Wah Nam International and the Subscriber entered into the Subscription Agreement whereby the Subscriber agreed, subject to the Subscription Conditions Precedent, to subscribe for the Subscription Shares at an aggregate consideration of HK\$333,060,000 (A\$42,253,092) and subscribe for a Convertible Bond for a principle amount of HK\$173,940,000 (A\$22,066,603).

Upon execution of the Subscription Agreement the Subscriber paid Wah Nam International a deposit equivalent to the aggregate consideration for the Subscription Shares and the Convertible Bond. The deposit is refundable in the event that the Subscription Conditions Precedent have not been satisfied or waived by 6:00pm (WST) on 31 January 2012, or by such date and time as agreed between Wah Nam International and the Subscriber (**Long Stop Date**). On completion, Wah Nam International will apply the deposit as the subscription price for the Subscription Shares and the Convertible Bond.

The Subscription Conditions Precedent to completion are as follows:

- there being no material breach of Wah Nam International's warranties which are of a standard nature;
- Wah Nam International Shareholders in general meeting passing a resolution approving the Subscription Agreement, including the issue of the Subscription Shares and the Convertible Bond and the Wah Nam International Shares to be issued upon conversion of the Convertible Bond;
- the Listing Committee of the HKEx having granted the listing of, and permission to deal in, the Subscription Shares and the Wah Nam International Shares to be issued upon conversion of the Convertible Bond; and
- there being, since the date of the Subscription Agreement and up until the time immediately prior to the date of completion, no material adverse change in the financial position and trading prospects of the Wah Nam International Group and no event which has or could reasonably be

expected to have a material adverse effect on the Wah Nam International Group to the reasonable satisfaction of the Subscriber.

The transaction will complete on the second Business Day after the Subscription Conditions Precedent are satisfied or waived.

The Subscription Agreement will become null and void and have no further effect if the Subscription Conditions Precedent have not been satisfied or waived by the Long Stop Date.

Upon allotment of the Subscription Shares and the Wah Nam International Shares to be issued upon conversion of the Convertible Bond, Wah Nam International will apply for their permission for admission to quotation on the ASX.

In the event of:

- completion of the Placement and the Subscription; and
- 100% conversion of the Convertible Bond; and
- assuming all Brockman Shareholders accept the Offer; and
- all holders of A\$1.25 Brockman Options, A\$1.30 Brockman Options and A\$3.00 Brockman Options convert their Brockman Options and accept the Offer,

the Subscriber, who is an existing Wah Nam International Shareholder, would hold approximately 15.6% (inclusive of its existing shareholding) of the issued share capital of Wah Nam International and Brockman. However, the terms of the Convertible Bond prevent the Subscriber having an interest in Wah Nam International in excess of 14.9% without obtaining prior FIRB approval (see Section 12.3).

(e) **Underwriting**

On 12 December 2011 Wah Nam International and the Underwriter entered into the Underwriting Agreement whereby the Underwriter agreed, in consideration of receiving commission of 2.5% of the aggregate price of the Placement Shares, to procure, on a fully underwritten basis, places for the Placement Shares at an aggregate price of HK\$78,000,000 (A\$9,895,337), subject to the terms and conditions set out in the Underwriting Agreement.

The Placement Conditions Precedent to completion are as follows:

- there being no material breach of Wah Nam International's warranties which are of a standard nature;
- there being no material breach of the Underwriter's warranties which are of a standard nature;
- Wah Nam International Shareholders in general meeting passing a resolution approving the Underwriting Agreement and the issue of the Placement Shares;
- the Listing Committee of the HKEx having granted the listing of, and permission to deal in, the Placement Shares; and

- there being, since the date of the Underwriting Agreement and up till the time immediately prior to the Transaction Date, no material adverse change in the financial position and trading prospects of the Wah Nam International Group and no event which has or could reasonably be expected to have a material adverse effect on the Wah Nam International Group to the reasonable satisfaction of the Underwriter.

The Underwriting Agreement will become null and void and have no further effect if the Placement Conditions Precedent have not been satisfied or waived by 31 January 2012.

9.2 Shares

The scrip component of the Offer Consideration will be satisfied by Wah Nam International issuing Wah Nam International Shares.

The maximum number of Wah Nam International Shares which would be required to be issued under the Offer if acceptances are received in respect of all the Brockman Shares on issue as at the date of this Bidder's Statement is approximately 1,164,414,924 Wah Nam International Shares.

If all Brockman holders of A\$1.25 Brockman Options, A\$1.30 Brockman Options and A\$3.00 Brockman Options convert their options into Brockman Shares before the end of the Offer Period and accept the Offer, then 1,206,714,924 Wah Nam International Shares (being 23% of Wah Nam International's current share capital) will be required to be issued.

Wah Nam International has agreed with Wah Nam Australia that, subject to prior shareholder approval, it will issue sufficient Wah Nam International Shares to satisfy the Offer Consideration payable to Brockman Shareholders.

Wah Nam International has confirmed with Wah Nam Australia that it has the authorised share capital needed to issue the maximum number of Wah Nam International Shares which may be required to issue under the Offer.

10. Australian Taxation Considerations

10.1 Introduction

This section provides a general summary of the Australian income tax consequences for Australian tax resident shareholders who hold their Brockman Shares on capital account for income tax purposes, who become shareholders of Wah Nam International, as a result of accepting the Offer. This summary does not apply to non-resident Brockman Shareholders, Brockman Shareholders who hold their Brockman Shares as trading stock or revenue assets for income tax purposes or Brockman Shareholders who acquired their Brockman Shares under the Brockman Employee Share Option Plan. Non-resident Brockman Shareholders may be subject to tax in Australia on the disposal of their Brockman Shares in certain circumstances.

The summary set out below is based on existing law at the time of writing and does not take into account or anticipate changes in law (by legislation or judicial decision). In addition, the outline is not exhaustive of all income tax considerations that could apply in all circumstances of any given Brockman Shareholder.

The comments are intended as a general guide to the Australian tax implications only and do not take into account the objectives, financial situation, needs or circumstances of any individual Brockman Shareholder. All Brockman Shareholders are strongly advised to obtain their own professional advice on the tax implications of accepting the Offer, based on their own specific circumstances.

10.2 Australian resident shareholders

The transfer of Brockman Shares to Wah Nam International will be a CGT event for Brockman Shareholders. Brockman Shareholders will make a:

- capital gain to the extent the Implied Value of the Offer Consideration is greater than the CGT cost base of their Brockman Shares; or
- capital loss to the extent the Implied Value of the Offer Consideration is less than the CGT reduced cost base of their Brockman Shares.

The time of recognition of the disposal for CGT purposes is relevant to the:

- calculation of any capital gain or loss; and
- income year in which such a gain or loss must be recorded in an income tax return.

The time of recognition of the disposal depends upon when a Brockman Shareholder accepts the Offer and when the Offer becomes unconditional. If a Brockman Shareholder accepts the Offer:

- before the Offer becomes unconditional, the time of recognition of the disposal will be the date the Offer becomes unconditional; or
- on or after the Offer becoming unconditional, the time of recognition of the disposal will be the date the Brockman Shareholder accepts the Offer.

All capital gains and capital losses made by a Brockman Shareholder (including the gain or loss on the Brockman Shares) in an income year are aggregated to determine whether a net capital gain or net capital loss is made for that income year.

To the extent a net capital gain is derived in an income year by a Brockman Shareholder, that amount is included in their assessable income (subject to the comments below in relation to the availability of partial scrip-for-scrip rollover relief). If a Brockman Shareholder incurs a capital loss, it may be used to offset a capital gain made in the same income year or in a future income year (subject to certain rules relating to the recoupment of carried forward losses). A capital loss may not be used to offset ordinary assessable income.

Australia's tax regime provides relief from tax for capital gains made on the exchange of shares in one entity for shares in another entity, in limited circumstances. This is referred to as CGT scrip-for-scrip rollover relief. There are several conditions for CGT scrip-for-scrip rollover relief which need to be satisfied, and it is not possible to state at the time of writing and before the outcome of the Offer is known whether all of these conditions will be satisfied. Broadly, the conditions to be satisfied are:

- the Brockman Shareholder exchanges their Brockman Shares for Wah Nam International Shares as a consequence of a single arrangement;
- the single arrangement results in Wah Nam International becoming owners of at least 80% of the ordinary shares in Brockman. This 80% threshold may include Brockman Shares already held by Wah Nam International; and
- a capital gain would arise for the Brockman Shareholder as a result of the exchange.

If eligible, scrip-for-scrip rollover relief should permit Brockman Shareholders to choose to defer any capital gain on the transfer of Brockman Shares to the extent that capital gain relates to the acquisition of Wah Nam International Shares (as opposed to cash consideration). This means that where a Brockman Shareholder elects for scrip-for-scrip rollover relief, a taxable capital gain should only arise to the extent that the gain is referable to the part of the Offer Consideration that consists of cash.

Where scrip-for-scrip rollover relief is available and chosen by a Brockman Shareholder, the cost base of their Wah Nam International Shares received under the Offer is to be calculated by reasonably attributing to it the cost base of the original Brockman Shares exchanged for the new Wah Nam International Shares. Before that attribution, the cost base of the Brockman Share is to be reduced by so much of it as was included in the cost base of the Brockman Share in working out the capital gain on the receipt of the cash component of the Offer Consideration.

Brockman Shareholders' cost base of the Wah Nam International Shares will be relevant in working out any future Australian CGT liability on the subsequent disposal of the Wah Nam International Shares.

The following example illustrates how the cost base of Wah Nam International Shares received under the Offer is to be determined where scrip-for-scrip rollover relief is available and chosen.

Example

The figures in this example are for illustrative purposes only. They are not intended to reflect the actual values at which elements of the Offer will be undertaken.

The cost base of a Brockman Shareholder's Wah Nam International Shares acquired in exchange for their original Brockman Shares is based on the following formula (where CGT rollover relief is available and chosen):

Cost base of original (10,000) Brockman Shares = A\$18,000*

**Indicative Only*

Capital proceeds received = Cash Consideration (A\$1.50 per Brockman Share) + Scrip Consideration (market value of new Wah Nam International Shares)

= A\$15,000 + A\$14,400

= A\$29,400

Cost base of original Brockman Shares exchanged for the Cash Consideration

= A\$18,000 x (A\$15,000 / A\$29,400)

= A\$9,184

Therefore, the Brockman Shareholder would have a taxable gain on the cash component of A\$5,816.

Total cost base of new Wah Nam International Shares acquired	=	Cost base of original Brockman Shares	-	Cost base of original Brockman Shares exchanged for the Cash Consideration
A\$8,816	=	A\$18,000	-	A\$9,184

The choice to apply the rollover rules must be made before the Brockman Shareholder lodges the income tax return for the income tax year in which the Brockman Shares are disposed. A Brockman Shareholder does not need to document its choice to claim scrip-for-scrip rollover relief for Australian income tax purposes, other than by completing its income tax return in a manner that is consistent with that choice.

If the Brockman Shareholder chooses not to apply CGT scrip-for-scrip rollover relief or if CGT scrip-for-scrip rollover relief is unavailable, then a CGT discount may be available. Very broadly, a CGT discount is available if the Brockman Shareholder is an Australian resident individual, complying superannuation entity or trust and has held their Brockman Shares for more than 12 months. If available, in respect of individuals and trusts, the CGT discount will reduce the net capital gain by 50%. The net capital gain will be reduced by 33.3% for complying superannuation entities. The CGT discount is not available for companies.

If the Brockman Shareholder chooses not to apply CGT scrip-for-scrip rollover relief or if CGT scrip-for-scrip rollover relief is unavailable then the cost base of the acquired Wah Nam International Shares will be equal to the cash component received and the Wah Nam International Shares' market value at the time of recognition of the disposal of the relevant Brockman Shares.

If the Brockman Shareholder chooses to apply CGT scrip-for-scrip rollover relief, they will be taken to have acquired their Wah Nam International Shares at the time they

acquired their original Brockman Shares for the purposes of determining any entitlement to a discount on an otherwise assessable capital gain arising on a subsequent dealing in Wah Nam International Shares.

10.3 Dividends received from Wah Nam International

Though listed on the ASX (and HKEx), Wah Nam International is not an Australian resident company. Any dividends paid by Wah Nam International will not be franked for Australian income tax purposes. Generally this means that any dividends paid on the Wah Nam International Shares will be fully taxable to Brockman Shareholders with no franking tax offset available.

10.4 Stamp duty and GST

Brockman Shareholders who dispose of their Brockman Shares are not anticipated to incur Australian stamp duty in respect of the acquisition of Wah Nam International Shares.

Brockman Shareholders are not anticipated to be subject to GST in respect of their disposal.

Dear Sirs

INVESTIGATING ACCOUNTANT'S REPORT

1. Introduction

We have prepared this Investigating Accountant's Report ("**Report**") on historical financial information of Wah Nam International Holdings Limited ("**Wah Nam**") for inclusion in the Bidder's Statement for the purpose of illustrating the financial impact of the acquisition of the remaining 44.67% equity interest in Brockman Resources Limited ("**Brockman**") (the "**Acquisition**"), as if the Acquisition had taken place on 30 June 2011.

2. Basis of Preparation

This Report has been prepared to provide investors with information on the pro-forma consolidated balance sheet as noted in Section 6.7 of the Bidder's Statement.

This Report does not address the rights attaching to the Shares to be issued in accordance with the Bidder's Statement, nor the risks associated with the investment, and has been prepared based on the complete Offer being achieved. Neither BDO Corporate Finance (WA) Pty Ltd nor its related entities ("**BDO**") has been requested to consider the prospects for Wah Nam, the Shares on offer or related pricing issues, nor the merits and risks associated with becoming a shareholder and accordingly has not done so, and does not purport to do so. BDO accordingly takes no responsibility for these matters or for any matter or omission in the Bidder's Statement, other than responsibility for this Report. Risk factors are set out in the Bidder's Statement.

Expressions defined in the Bidder's Statement have the same meaning in this Report.

3. Background

Wah Nam is an investment holding company incorporated in Bermuda which has been listed on the Hong Kong Stock Exchange since 2002. Wah Nam is involved in a number of activities including

- The exploitation, processing and sales of mineral resources in the Peoples Republic of China (“PRC”);
- The provision of limousine rental and airport shuttle bus transportation services in Hong Kong and the PRC;
- The acquisition and exploration of mineral tenements in Australia; and
- Investments in equity securities.

4. Scope

You have requested BDO to prepare an Investigating Accountant's Report covering the following financial information:

- the historical consolidated balance sheet as at 30 June 2011 for Wah Nam;
- the pro-forma consolidated balance sheet as at 30 June 2011, reflecting the actual position as at that date, major transactions between that date and the date of our report and the proposed Acquisition under the Bidder's Statement; and
- the accounting policies applied by Wah Nam in preparing its financial statements, (the “Financial Information”).

The historical financial information set out in Section 6.7 has been extracted from the financial statements of Wah Nam for the half year ended 30 June 2011.

The Directors are responsible for the preparation of the historical financial information including determination of the adjustments.

We have conducted our review of the historical financial information in accordance with the Australian Auditing and Assurance Standard ASRE 2405 “Review of Historical Financial Information Other than a Financial Report”. We made such inquiries and performed such procedures as we, in our professional judgment, considered reasonable in the circumstances including:

- a review of work papers, accounting records and other documents pertaining to balances in existence at 30 June 2011;
- a review of the assumptions used to compile the pro-forma consolidated balance sheet;
- a review of the adjustments made to the pro-forma historical financial information;
- a comparison of consistency in application of the recognition and measurement principles in Accounting Standards and other mandatory professional reporting requirements in Australia, and the accounting policies adopted by Wah Nam as disclosed in their previous Annual Report (31 December 2010) and Interim Report (30 June 2011); and
- enquiry of Directors and others.

These procedures do not provide all the evidence that would be required in an audit, thus the level of assurance provided is less than given in an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Our review was limited primarily to an examination of the historical financial information, the pro-forma financial information, analytical review procedures and discussions with both management and directors. A review of this nature provides less assurance than an audit and, accordingly, this Report does not express an audit opinion on the historical information or pro-forma financial information included in this Report or elsewhere in the Bidder's Statement.

In relation to the information presented in this Report:-

- support by another person, corporation or an unrelated entity has not been assumed;
- the amounts shown in respect of assets do not purport to be the amounts that would have been realised if the assets were sold at the date of this Report; and
- the going concern basis of accounting has been adopted.

5. Conclusion

Statement on Historical Financial Information

Based on our review, which was not an audit, nothing has come to our attention which would cause us to believe the historical financial information as set out in Section 6.7 does not present fairly the financial position as at 30 June 2011 in accordance with the measurement and recognition requirements (but not all of the disclosure requirements) of applicable Accounting Standards and other mandatory professional reporting requirements in Australia.

Statement of Pro-forma Financial Information

Based on our review, which was not an audit, nothing has come to our attention which would cause us to believe the pro-forma financial information does not present fairly the financial position as at 30 June 2011 in accordance with the measurement and recognition requirements (but not all of the disclosure requirements) of applicable Accounting Standards and other mandatory professional reporting requirements in Australia as if the pro-forma transactions had occurred on that date.

6. Subsequent Events

The pro-forma balance sheet after Acquisition, as set out in section 6.7, reflects the events that have occurred subsequent to the period ended 30 June 2011, as set out in Section 6.8.

Apart from the matters dealt with in this Report, and having regard to the scope of our Report, to the best of our knowledge and belief, no other material transactions or events outside of the ordinary business of Wah Nam have come to our attention that would require comment on, or adjustment to, the information referred to in our Report or that would cause such information to be misleading or deceptive.

7. Assumptions Adopted in Compiling the Pro-forma Balance Sheet

The pro-forma balance sheet after Acquisition is set out in section 6.7. This has been prepared based on the reviewed financial statements as at 30 June 2011, the subsequent events set out in Section 6.8, and the pro-forma transactions and events relating to the Acquisition under this Bidder's Statement as set out in Section 6.8.

12. Other Material Information

12.1 Bid Implementation Agreement

Wah Nam International and Brockman have entered into the Bid Implementation Agreement in relation to the Offer. A summary of the key terms of the Bid Implementation Agreement are set out below.

(a) Making of the Bid

Wah Nam International agreed to make an offer on terms and conditions no less favourable than as set out in Section 13.

As Wah Nam Australia is making the Offer on Wah Nam International's behalf, Wah Nam International must procure that Wah Nam Australia performs its obligations under the Bid Implementation Agreement.

(b) Brockman's assessment of the Offer

Independent Brockman Directors' recommendation

Brockman agreed that in any public statements relating to the Offer, each Independent Brockman Director will recommend that Brockman Shareholders accept the Offer in the absence of a Superior Proposal for Brockman, subject only to the Independent Expert concluding that the Bid is fair and reasonable to Brockman Shareholders.

Maintenance of recommendation

Brockman agreed that the Independent Brockman Directors and the Independent Brockman Board will not make any public statement or take any other action that qualifies or contradicts their support of the Offer, or subsequently change, withdraw or modify their recommendation.

This restriction does not apply where the Independent Brockman Board determines (after Wah Nam International's right of last offer summarised under paragraph 12.1(d) have been exhausted) that a Competing Proposal constitutes a Superior Proposal, or where the Independent Expert gives a report that concludes that the Offer is not fair and reasonable or having originally given a report that the Offer is fair and reasonable changes its opinion to conclude that the Offer is not fair and reasonable, or where the Independent Brockman Board has determined in good faith after receiving expert advice that the Independent Brockman Directors' duties require them to change their recommendation.

Independent Brockman Directors' intentions

Brockman represented and warranted to Wah Nam International that each Independent Brockman Director has indicated their intention to accept the Offer in relation to any Brockman Shares that they own or control within 2 days after the Conditions set out in paragraphs 13.9(a), 13.9(b), 13.9(c) and 13.9(d) have been satisfied.

These intentions do not need to be proceeded with if the Independent Brockman Board determines (after complying with the obligations in relation to Wah Nam International's right of last offer) that a Competing Proposal constitutes a Superior

Proposal, or the Independent Expert gives a report that concludes that the Offer is not fair and reasonable or having originally given a report that the Offer is fair and reasonable changes its opinion to conclude that the Offer is not fair and reasonable.

(c) **Facilitating and promoting the Offer**

During the Offer Period, in the absence of a Superior Proposal (which the Independent Brockman Directors recommend to Brockman Shareholders after Brockman has complied with the obligations in relation to Wah Nam International's right of last offer) and subject only to the Independent Expert concluding that the Offer is fair and reasonable, Brockman has agreed to support and procure that the Independent Directors support the Offer, and use its reasonable endeavours to procure that Brockman's chief financial officer and company secretary, as reasonably requested by Wah Nam International, support the Offer.

Brockman has also agreed that it will, during the Offer Period, participate in efforts which are reasonably required by Wah Nam International to promote the merits of the Offer. This may include meeting with key Brockman Shareholders', analysts, management, customers, press and other parties mutually agreed with Wah Nam International.

Brockman will not be required to comply with the above obligations if the Independent Brockman Board has determined in good faith, after receiving external legal advice, that taking those actions would reasonably be likely to constitute a breach of the Independent Brockman Board's fiduciary or statutory obligations.

(d) **Exclusivity**

Brockman represented and warranted to Wah Nam International that neither Brockman nor any of its representatives were engaged in any negotiations or discussions with any entity or any person in relation to the possible making of a Competing Proposal nor had they received any communication indicating that Brockman will be approached to commence negotiations or discussions regarding a Competing Proposal.

Brockman also represented and warranted that it and its representatives had ceased any existing discussions or negotiations with any party which may reasonably be expected to lead to a Competing Proposal.

No shop

During the Exclusivity Period, Brockman will not, and will ensure that its representatives do not, except with Wah Nam International's prior written consent, directly or indirectly solicit or invite any Competing Proposal or expression of interest or offer which may lead to a Competing Proposal, or initiate discussions with any third party which may reasonably be expected to lead to a Competing Proposal.

No talk, no due diligence and no commitments

During the Exclusivity Period, Brockman agreed not to, and to ensure that its representatives do not, except with Wah Nam International's prior written consent:

- participate in any discussions or negotiations in relation to a Competing Proposal or which may reasonably be expected to lead to a Competing Proposal, or communicate any intention to do so;

- provide any information to any third party for the purposes of enabling that party to make a Competing Proposal, or communicate any intention to do so; or
- enter into any agreement, arrangement or understanding in relation to a Competing Proposal requiring Brockman to abandon, or otherwise fail to proceed with, the Offer.

The restrictions and obligations described above do not apply to the extent that they restrict Brockman from taking or not taking action in relation to a bona fide Competing Proposal (which was not encouraged, solicited or invited by Brockman or its representatives) provided that the Independent Brockman Board has determined in good faith that the proposal could reasonably be expected to lead to a Superior Proposal and, after receiving external legal advice, that failing to respond to the proposal would constitute or would be likely to constitute a breach of the Independent Brockman Board's fiduciary or statutory obligations.

Notice of unsolicited approach and right of last offer

During the Exclusivity Period, Brockman agreed that it would promptly notify Wah Nam International of any approach or attempt to initiate, resume or continue discussions or negotiations with Brockman or any of its representatives, which may reasonably be expected to lead to a Competing Proposal. Brockman also agreed to promptly notify Wah Nam International of any request for information relating to Brockman or the Brockman Group or any of their businesses or operations or any request for access to their books or records, other than requests occurring in the ordinary course of business.

If Brockman notifies Wah Nam International of a Competing Proposal and of its intention to enter into an agreement, commitment, arrangement or understanding in relation to that proposal, Wah Nam International has the right to make a counterproposal to Brockman within 3 Business Days after receiving the notice.

Brockman and the Independent Brockman Board will consider such a counterproposal in good faith and, if it considers that the counterproposal would provide a benefit to Brockman Shareholders at least equal to the Competing Proposal, Brockman and Wah Nam International have agreed to use reasonable endeavours to amend the Bid Implementation Agreement and implement the counterproposal as soon as reasonably practicable.

The restrictions and obligations described above do not apply if the Independent Brockman Board has determined in good faith, after receiving external legal advice, that taking these actions would be reasonably likely to constitute a breach of the Independent Brockman Board's fiduciary or statutory obligations.

(e) Options and Shareholder Loans

Wah Nam International represented and warranted that it will:

- make an offer for the A\$1.25 and the A\$1.30 Brockman Options; and
- ensure that the Bidder's Statement contains appropriate disclosure regarding the remittance of the Offer Consideration to Brockman in respect of any acceptances of the Offer by a borrower under a Brockman Employee Loan.

Brockman represented and warranted that it will use all reasonable endeavours and do everything reasonably practicable to:

- ensure that each borrower under a Brockman Employee Loan is able to accept the Offer; and
- seek the agreement of holders of A\$3.00 Brockman Options, A\$3.21 Brockman Options and A\$5.85 Brockman Options to the cancellation (subject to the Offer becoming unconditional) on arm's length terms, of their Brockman Options.

(f) **Reimbursement of legal costs**

Wah Nam International has agreed to pay Brockman a fee of up to a A\$1 million (including GST) for Brockman's reasonable legal costs and costs relating to the Independent Expert incurred and paid in relation to the Offer. This fee will be payable if any of the Conditions set out in paragraphs 13.9(a), 13.9(b), 13.9(c) or 13.9(d) have not been satisfied or waived by the end of the Offer Period. The fee will also be payable if Brockman terminates the Bid Implementation Agreement for any of the following reasons:

- if the meeting of Wah Nam International Shareholders is not held and concluded within 60 days after the Announcement Date;
- if the Subscription is not completed in accordance with its terms within 60 days after the Announcement Date;
- if the Placement is not completed in accordance with its terms within 60 days after the Announcement Date; or
- if Wah Nam International commits a material breach of the Bid Implementation Agreement and that material breach is not remedied within the prescribed time.

12.2 Confidentiality Agreement

Wah Nam International and Brockman have entered the Confidentiality Agreement in relation to the Offer. The Confidentiality Agreement contains terms and conditions which are standard for a document of this nature other than a term in relation to the exchange of information.

Wah Nam International agreed that it will give Brockman a reasonable opportunity to review Wah Nam International's application to FIRB for approval of the Offer in accordance with the Condition in Section 13.9(a) and correspondence or communications it proposes to send to FIRB in relation to this approval. Wah Nam International must consult in good faith with Brockman with respect to any comments Brockman may have in relation to the correspondence or communications it proposes to send to FIRB.

This obligation on Wah Nam International only applies to the extent practicable. It is also subject to any confidentiality restrictions or requirements imposed by FIRB. Wah Nam is also permitted to redact parts of the documents in relation to commercially sensitive matters.

12.3 Terms of the Convertible Bond

Set out below are the terms and conditions of the Convertible Bond.

- **Principal Amount:** HK\$173,940,000.
- **Maturity Date:** the second anniversary of the issue of the Convertible Bond.
- **Status and transferability:** the Convertible Bond may be assigned or transferred to any third party which is not a connected person (as that term is defined in the HKEx Listing Rules).
- **Interest:**
 - Interest is payable on redemption of the outstanding principal amount of the Convertible Bond on the Maturity Date, at a rate of 5%, in so far as the conversion rights have not been exercised prior to or on the Maturity Date.
 - Default interest is payable, at a rate of 20%, if the Convertible Bond becomes due and payable on the occurrence of any event of default (as described below) (**Default Interest**).
- **Conversion rights**
 - If the Subscriber's interest in Wah Nam International does not exceed 14.9% then the Convertible Bond automatically converts at the end of each month prior to the maturity date, to the extent that immediately upon the conversion of the relevant portion, the Subscriber's interest does not exceed 14.9%.
 - Wah Nam International may require the Bondholder to convert any outstanding amount of the Convertible Bond to the extent that upon the conversion, the interest of the Bondholder in Wah Nam International's share capital is not more than 14.9%.
 - Where the Bondholder has obtained approval from FIRB to obtain more than a 15% interest in Wah Nam International, the whole of the outstanding principal amount of the Convertible Bond automatically converts.
- **Conversion price:** the conversion price is HK\$0.60 per Wah Nam International Share, subject to any adjustments due to a reorganisation of the Wah Nam International Share Capital, provided that if HK\$0.60 is less than the nominal amount of a Wah Nam International Share, the conversion price is the nominal amount of a Wah Nam International Share.
- **Early Redemption:** if the Offer lapses, the Bondholder has the right to require Wah Nam International to redeem the whole, or part, of the Convertible Bond.
- **Events of Default:** the events of default include the following circumstances:
 - except where a takeover offer for Wah Nam International becomes unconditional, where the listing of the Wah Nam International Shares on the HKEx:

- ceases; or
- is suspended for a continuous period of 30 business days, on each of which the HKEx is generally open for trading, due to the default of Wah Nam International or any of its directors, officers or employees;
- Wah Nam International has or will become obliged to pay additional tax as a result of any change in the laws or regulations of Hong Kong or Bermuda. The event of default occurs when it is less than 90 days to when Wah Nam International would be obliged to pay the additional tax.

Except as set out below, the sole remedy for the Bondholder upon the occurrence of an event of default by Wah Nam International is to give notice to Wah Nam International that the Convertible Bond is due and payable at the principal amount then outstanding plus the Default Interest. If Wah Nam International fails to issue the Wah Nam International Shares upon conversion of the Convertible Bond, the Bondholder can bring an action against Wah Nam International for either specific performance or damages.

12.4 Brockman Employee Loan Holders

The Brockman board has advised that they intend to amend the terms of the Brockman Employee Loan Scheme so that Consideration Shares may be recorded as security for the Brockman Employee Loan.

Persons who hold Brockman Shares under the terms of the Brockman Employee Loan Scheme and who wish to accept the Offer should contact the Brockman Company Secretary to arrange for the Holding Lock on their Brockman Shares to be released and to receive a copy of the revised terms of the Brockman Employee Loan.

If you are a Brockman Employee Loan Holder you will receive a letter from the Brockman Company Secretary setting out in more detail what you need to do to accept the Offer. Please refer to that document.

12.5 Brockman Optionholders offers

Wah Nam Australia has also made offers to acquire all of the A\$1.25 Brockman Options and A\$1.30 Brockman Options which exist as at the Register Date.

Pursuant to clause 21 of the Brockman Employee Share Option Plan, the Brockman board has advised that it intends to approve the transfer of Brockman Options to Wah Nam Australia pursuant to the Options Offer.

The consideration being offered for the A\$1.25 Brockman Options and the A\$1.30 Brockman Options is as follows:

A\$1.30	11 November 2013	A\$0.20 plus 18 Wah Nam International Shares

Unless withdrawn, the Options Offer will remain open for the duration of the Offer Period.

Consideration to be issued to accepting Brockman Optionholders will be issued on or before 14 days after the end of the Offer Period.

The Options Offer and any contract that results from acceptance of the Options Offer is subject to:

- the requisite majority of Wah Nam International Independent Shareholders approving the acquisition by Wah Nam Australia of all of the A\$1.25 Brockman Options and the A\$1.30 Brockman Options and the transactions contemplated thereunder, including the allotment and issue of the Consideration Shares;
- the Offer being declared unconditional; and
- at the end of the Offer Period, Wah Nam Australia having a Relevant Interest in at least 90% of all Brockman Shares.

Wah Nam Australia may withdraw the Options Offer at any time.

No interest will be paid on the consideration payable under the Options Offer, regardless of any delay in paying the consideration or any extension of the Offer Period.

If you are a A\$1.25 Brockman Optionholder or a A\$1.30 Brockman Optionholder you would have received a separate offer for your Brockman Options. Please refer to that document for the full terms of the Options Offer.

In the Bid Implementation Agreement, Brockman represented and warranted that it will use all reasonable endeavours to seek the agreement of holders of A\$3.00 Brockman Options, A\$3.21 Brockman Options and A\$5.85 Brockman Options to the cancellation (subject to the Offer becoming unconditional) on arm's length terms, of their Brockman Options.

If you are a holder of A\$3.00 Brockman Options, A\$3.21 Brockman Options or a A\$5.85 Brockman Options you will receive further information from Brockman.

12.6 Interests and benefits of Wah Nam Australia's and Wah Nam International's directors

Other than as set out elsewhere in this Bidder's Statement, no Wah Nam Australia or Wah Nam International director or proposed director holds, at the time of lodgment of the Bidder's Statement with ASIC, or has held in the 2 years before lodgment of the Bidder's Statement with ASIC, an interest in:

- the formation or promotion of Wah Nam International or Wah Nam Australia;

12.7 Interests and fees of experts, advisers and other named persons

Each of the Conditions set out in each paragraph of Section 13.9 (other than the Conditions set out in paragraphs 13.9(a) and 13.9(b) which are conditions precedent)

is a condition subsequent that does not prevent, until the end of the Offer Period (or in the case of the Condition set out in clause 13.9(f) until 3 Business Days after the end of the Offer Period) a contract to sell your Brockman Shares forming as a result of your acceptance of the Offer, but any breach or non-fulfilment will entitle, Wah Nam Australia to rescind the contract that results from your acceptance of the Offer as if that contract had not been formed.

13.11 Effect of breach or non-fulfilment

Subject to Section 13.10 above, the breach or non-fulfilment of any of the Conditions does not, until the end of the Offer Period, prevent a contract arising to acquire your Brockman Shares resulting from your acceptance of the Offer, but if:

- (i) Wah Nam Australia has not declared the Offer to be free from the Conditions before the date applicable under section 650F(1) of the Corporations Act; and
- (ii) the Conditions have not been fulfilled at the end of the Offer Period (or in the case of the Condition set out in clause 13.9(f) until 3 Business Days after the end of the Offer Period),

If, at the end of the Offer Period (or if the Condition is the Condition set out in clause 13.9(f), 3 Business Days after the end of the Offer Period), the Conditions have not been fulfilled and Wah Nam Australia has not declared the Offer free from the Conditions, all contracts resulting from the acceptance of the Offer will be automatically void.

13.13 Benefit of the Conditions

Subject to the provisions of the Corporations Act only, Wah Nam Australia shall be entitled to the benefit of the Conditions in Section 13.9 and any non-fulfilment of such Conditions may be relied upon only by Wah Nam Australia.

- (ii) permission for admission to quotation of the Consideration Shares on the HKEx and the ASX is granted no later than 7 days after the end of the Bid Period.

The Offer will not be freed from this Statutory Condition.

If any part of the Statutory Condition set out above is not fulfilled, any contract that results from your acceptances of this Offer will be automatically void.

13.16 Benefit of improved Offer Consideration

If Wah Nam Australia improves the Offer Consideration, the Corporations Act contains conditions to ensure that any Brockman Shareholder who has already accepted the Offer receives the benefit of the improved Offer Consideration.

13.17 Withdrawal of Offer

Wah Nam Australia may withdraw the Offer at any time with the written consent of ASIC and subject to the conditions (if any) specified in such consent.

Subject to any conditions imposed by ASIC on its consent, where Wah Nam Australia withdraws this Offer:

- (i) this Offer, if not previously accepted, automatically becomes incapable of acceptance; and
- (ii) any contract resulting from an acceptance of this Offer before the withdrawal is automatically void.

13.18 Variation

Wah Nam Australia may vary this Offer in accordance with the Corporations Act.

Should the terms of the Offer be revised materially, Wah Nam International will issue further announcements to the ASX and the HKEx and will re-comply with the then applicable requirements of the HKEx Listing Rules (including seeking Wah Nam International Shareholder approval, if required).
