New Capacity Allocation under Port Hedland Development Plan

Brockman Mining Limited (“**Brockman**”) is pleased to advise that on 1 February 2022 Mineral Resources Limited (“**MRL**”) has announced that the Government of Western Australia has granted a port capacity allocation to MRL and Hancock Prospecting Pty Limited (“**Hancock**”). The allocation is for a new iron ore export facility at Stanley Point Berth 3 (“**SP3**”) in South West Creek within the inner harbour at the Port of Port Hedland. The new iron ore export facility at SP3 remains subject to various relevant approvals and agreements to develop and operate, along with a positive final investment decision by MRL and Hancock. If SP3 is developed, MRL is aiming to ship at least 20 million tonnes of iron ore per annum from this facility.

Under the joint venture agreement between Brockman and MRL over the Marillana and Ophthalmia Projects (“**Marillana & Ophthalmia**”), MRL is to provide a logistics system to transport the ore from the mine to the ship for export from Port of Port Hedland. Brockman is delighted with this progress which clears the path to unlock the significant value contained within the high quality ores at Marillana & Ophthalmia.

DEFINITIONS

“Marillana Project”	The iron ore project of the Company located in the Hamersley Iron Province within the Pilbara region of Western Australia
“Ophthalmia Project”	The iron ore project of the Company located within the East Pilbara region of Western Australia

By order of the Board
Brockman Mining Limited
