Interim Report 2020

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid- sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this interim report (the “Report”), make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of the Report.

The Report, for which the board of (the “Board”) directors (the “Directors”) of China Oil Gangran Energy Group Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in the Report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or the Report misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

FINANCIAL REVIEW

The unaudited revenue of the Company and its subsidiaries (collectively the “**Group**”) for the six months ended 30 September 2020 (the “**Interim Period**”) was approximately HK\$60.8 million, representing an increase of approximately 158.1% from approximately HK\$23.5 million for the corresponding period last year. Such increase was attributable to the introduction of new products, namely headsets for adults and kids and hospital room control hub, since the fourth quarter of the year ended 31 March 2020.

The Group’s unaudited loss attributable to the Company’s owners decrease to approximately HK\$7.8 million from approximately HK\$14.4 million for the corresponding period last year. The decrease was mainly due to the decrease of directors’ emoluments and the decrease of share based payment expense as compared to the corresponding period last year.

The board (the “**Board**”) of the Directors does not recommend to pay dividend for the Interim Period.

DECONSOLIDATION OF SUBSIDIARIES LOST CONTROL

On 1 January 2019, the date when the Group lost control of 江西中油港燃能源科技有限责任公司 (transliterated as “Jiangxi China Oil Gangran Energy Technology Company Limited”), 舟山中油港燃石油化工有限公司 (transliterated as “Zhoushan China Oil Gangran Petroleum and Chemical Company Limited”), 江西港燃貿易有限公司 (transliterated as “Jiangxi Gangran Trading Company Limited”) and 吉林中油港燃能源開發有限公司 (transliterated as “Jilin China Oil Gangran Energy Development Company Limited”) (collectively the “**Deconsolidated Subsidiaries**”), which were the subsidiaries of the Company engaged in the refined oil retail business and trading of methyl tert-butyl ether. Hence, the Group no longer consolidated the financial position and performance of the Deconsolidated Subsidiaries since 1 January 2019.

BUSINESS REVIEW

During the Interim Period, the Group was principally engaged in the following businesses: (i) power and data cords business; (ii) trading of refined oil and chemicals business; and (iii) trading of commodities.

In terms of geographical market performance, the United States and PRC contributed to approximately 16.3% (2019: approximately 38.4%) and approximately 51.9% (2019: approximately 48.4%) of the Group’s total unaudited revenue respectively, while the remaining approximately 31.8% (2019: approximately 13.2%) came from its other markets, including Taiwan and Hong Kong.

POWER AND DATA CORDS BUSINESS

The three key product groups for power and data cords business were (i) power and data cords for mobile handsets and personal care products; (ii) medical control devices; and (iii) power cords and inlet sockets for household electric appliances. Each product group has its own types of products. During the Interim Period, the Group manufactured over 40 types of power and data cords for mobile handsets and personal care products, and over 450 types of power cords and inlet sockets for household electric appliances. The Group will also continue to involve in the assembly and sale of medical control devices, which are primarily used by patients in hospital wards and the related accessories.

(i) Power and data cords for mobile handsets and personal care products

Power and data cords for mobile handsets and personal care products consist of 2-pin cables and connectors and are generally used for power charging to mobile handset and personal care products. The diameters of stranded copper wires are ranged from 0.26 mm to 2.4 mm and carry low voltage electricity of up to three amperes. In accordance with its customers' specifications, the Group manufactures over 40 different types of power and data cord for mobile handsets and personal care products.

During the Interim Period, the Group's unaudited revenue from power and data cords for mobile phones increased by 180.2% to approximately HK\$31.1 million (2019: approximately HK\$11.1 million). The increase was due to the introduction of new products, headsets for adults and kids, since the forth quarter of the year ended 31 March 2020.

(ii) **Medical control devices**

Medical control device is a bedside multi-function device for patients in wards. The medical control device products of the Group consist of pillow speaker, bed control, bed cable and call cord. Pillow speaker could be produced with different specifications from simple version of 1-button pillow speaker capable for emergency communication and lighting control functions to advanced version of 26-button pillow speaker capable for emergency communication, television, and lighting temperature control in a ward. The pillow speakers sold by the Group are in the form of dismantled parts and components including all necessary components for a pillow speaker such as power cable, PCB and plastic body etc. for further assembly by customers after delivery. Materials used for the manufacturer of medical control device are sourced by the Group based on the requirements of, and have been approved by, its customer, which is a medical equipment manufacturer in the United States. Although the Group will occasionally provide advice and input, the design of the medical control device originates from the customer who will closely monitor and have overall control and the ultimate decision on matters relating to the design, use of materials and ultimate assembly of medical control devices. All parts and components of the medical control devices manufactured by the Group's medical control device products were exported to the customer for further assembly and processing into its final products for sales to hospitals and clinics. Testing will also be conducted by the customer to ensure the final products comply with the relevant US regulatory requirements.

During the Interim Period, the Group's unaudited revenue from medical control devices was approximately HK\$27.0 million (2019: approximately HK\$9.0 million), representing an increase of approximately 200%, which was due to the new products, hospital room control hub, introduced since the fourth quarter of the year ended 31 March 2020.

(iii) Power cords and inlet sockets for household electric appliances

Power cords for household electric appliances are generally non-halogen free and carry normal voltage electricity up to 250 voltage. Different countries have different safety, power voltage and environmental standards for household electric appliances and there are more than 10 types of sockets in widespread use around the world. Plugs with different number of prongs on power cords are used in different countries. For instance, the European Union standard plugs manufactured by the Group are mainly 250 voltage plugs with cylindrical prongs while the US standard plugs manufactured by the Group are 125 voltage plugs with strip-like prongs. Some of the Group's power cords and inlet sockets for household electric appliances with safety approvals and/or certificates such as CSA, VDE, PSE, ASTA, CCC bear the trademark "SUN FAIR". Some of the Group's products meet eleven types of international safety standards including UL, CSA, VDE, NEMKO, SEMKO, FIMKO, SEV, DEMKO, OVE, KEMA, CCC, and ENEC.

During the Interim Period, the Group's unaudited revenue from power cords and inlet sockets for household electric appliances was approximately HK\$2.7 million (2019: approximately HK\$3.3 million), representing a decrease of approximately 18.2% due to fierce market competition in this sector.

TRADING OF COMMODITIES

The Group's trading of commodities mainly included the trading of mobile smart phones, glassed and other commodities.

The Group's unaudited revenue from the trading of commodities was nil (2019: approximately HK\$0.1 million) for the Interim Period.

TRADING OF REFINED OIL AND CHEMICALS BUSINESS

Due to the deconsolidation of the financial position and performance for the Deconsolidated Subsidiaries since 1 January 2019, no revenue was recorded during the Interim Period and the corresponding period last year.

The Group continued to explore opportunities in the clean energy segment. A legally binding consultancy contract has signed with a gas company in March 2020. The contract period is from March 2020 to March 2021 where the Group will provide strategic consultancy services regarding the plan and development of the customer's energy business. The estimated revenue and gross profit from this contract amounted to approximately HK\$2.2 million and HK\$2.2 million respectively. A legally binding liquefied natural gas supply contract has signed with an energy company in March 2020 which the Group will provide liquefied natural gas to the customer for the period from July 2020 to December 2020. However, due to the COVID-19 outbreak, the plan has delayed and expected to start in January 2021 instead. Total contracted supply will be 20,000 tonnes during the contract period and the Group will charge the energy company with addition of RMB200/tonne from supplier.

OUTLOOK

During the Interim Period, the global economic environment is still deeply fluctuating. The medium-to-long-term economic growth of United States has slowed down. Falling commodity price, the declining global industrial output and depressed trading added to the uncertainties. Despite the challenging macro-economic conditions, the Group recorded an 158.1% increase in unaudited revenue of sales of power and data cords and inlet sockets as compared to the corresponding period last year due to the introduction of new products since the fourth quarter of the year ended 31 March 2020. The Group will continue to look for business opportunities in order to increase the revenue and profit of existing products and will expand its business by introducing new products.

Despite the deconsolidation of financial position and performance of the Deconsolidated Subsidiaries since 1 January 2019, the Group currently intends to continue the operation of the trading of refined oil and chemicals business but will take a conservative approach with regards to any development and/or expansion plans for this business segment. After conducting a detailed review of the business operations and financial position of the Group for the purpose of developing a sustainable business plan or strategy for the Group, the Board considered that it would be in the interest of the Company and its shareholders to place its financial resources, as well as management and business focus on the power and data cords business, yet will continue to explore business opportunities in trading of refined oil and chemicals business.

EMPLOYEES' REMUNERATION POLICY

As at 30 September 2020, the Group employed 118 (31 March 2020: 112) full time employees mainly in the PRC and Hong Kong. The Group's remuneration policy is reviewed periodically and determined by reference to market terms, the Group's performance, and the individual's qualifications and performance. Employee benefits include the mandatory provident fund scheme for Hong Kong employees and central pension schemes operated by the local municipal governments for employees in the PRC. The Group also provides training programs for its employees to equip themselves with the requisite skills and knowledge and offers a share option scheme to recognize the employees who make significant contributions to the Group.

During the Interim Period, no share option (six months ended 30 September 2019: 35,700,000) was granted to eligible participants under the share option scheme of the Company.

Total staff costs (including Directors' remuneration) for the Interim Period amounted to approximately HK\$5.4 million (six months ended 30 September 2019: approximately HK\$15.4 million).

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As at 30 September 2020, the aggregate carrying value of the Group's indebtedness was approximately HK\$139.8 million (31 March 2020: approximately HK\$138.6 million) which comprised promissory notes, borrowings and convertible notes. The Group had bank balances and cash of approximately HK\$21.8 million (31 March 2020: approximately HK\$10.1 million).

As at 30 September 2020, the Group's gearing ratio was approximately 345.8% (31 March 2020: approximately 311.6%). This was based on the division of the Group's total indebtedness by the aggregate amount of total indebtedness and total equity.

EXPOSURE TO FOREIGN EXCHANGE RISK

As the Group operates principally in Hong Kong and the PRC, its exposure to foreign currency risk is minimal as most of its business transactions, assets and liabilities are principally denominated in the functional currency of the group entities. In this respect, the only risk it is faced arose from exposures mainly to the renminbi ("RMB") and the United States dollar ("US\$"). These risks were mitigated as the Group held HK\$, US\$ and RMB bank accounts to finance transactions denominated in these currencies respectively. The Group has no foreign currency hedging policy for foreign currency transactions, assets and liabilities. During the Interim Period, the Group did not use any financial instruments for hedging purposes. The Group will continue to monitor its exposure to foreign exchange risks and will consider hedging such exposure, should such a risk arises.

PLEDGE OF ASSETS

As at 30 September 2020, the Group pledged its leasehold land and buildings with an aggregate carrying amount of approximately HK\$9,122,000 (31 March 2020: HK\$11,440,000).

In addition, the Group's 51% equity interests in Able One Investments Limited, a subsidiary of the Company, was pledged to an independent third party to secure an interest-bearing other loan.

SIGNIFICANT INVESTMENTS AND DISPOSALS

The Group had no significant investments and disposals, nor has it made any material acquisition or disposal of the Group's subsidiaries or affiliated companies during the Interim Period.

CONTINGENT LIABILITIES AND CAPITAL COMMITMENT

The Group had no significant contingent liabilities at 30 September 2020 (31 March 2020: Nil).

Details of capital commitments are set out in note 19 to the unaudited condensed consolidated interim financial statements.

SEGMENT INFORMATION

Details of the segment information are set out in note 3 to the unaudited condensed consolidated interim financial statements.

NOTES TO THE CONDENSED FINANCIAL STATEMENTS

For the six months ended 30 September 2020

1. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial statements of China Oil Gangran Energy Group Holdings Limited (the “**Company**”) and its subsidiaries (collectively, the “**Group**”) for the six months ended 30 September 2020 (the “**Interim Financial Report**”) have been prepared in accordance with Hong Kong Accounting Standard 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants (“**HKICPA**”) and the applicable disclosure requirements of the GEM Listing Rules of the Stock Exchange.

The Interim Financial Report does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual financial statements for the year ended 31 March 2020 (the “**2020 Annual Financial Statements**”).

The Interim Financial Report has been prepared in accordance with the same accounting policies adopted in the 2020 Annual Financial Statements, except for the adoption of the new, amended or revised Hong Kong Financial Reporting Standards (“**HKFRSs**”) (which collectively include all applicable individual Hong Kong Financial Reporting Standard (“**HKFRS**”), Hong Kong Accounting Standard (“**HKAS**”) and Interpretation issued by the HKICPA) as disclosed in Note 2 to the Interim Financial Report.

The unaudited condensed consolidated interim financial statements have not been audited by the Company’s auditors, but have been reviewed by the audit committee of the Company.

2. ADOPTION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS

In the current period, the Group has adopted all the new and revised HKFRSs issued by the HKICPA that are relevant to its operations and effective for its accounting year beginning on 1 April 2020. HKFRSs comprise HKFRS, HKAS; and Interpretations. The adoption of these new and revised HKFRSs did not result in significant changes to the Group's accounting policies, presentation of the Group's financial statements and amounts reported for the current period and prior years.

The Group has not applied the new HKFRSs that have been issued but are not yet effective. The Group has already commenced an assessment of the impact of these new HKFRSs but is not yet in a position to state whether these new HKFRSs would have a material impact on its results of operations and financial position.

3. SEGMENT INFORMATION

The Group's reportable segments are determined as follows:

1. Trading of refined oil and chemicals – engaged in trading of refined oil and chemicals.
2. Digital application business – engaged in activities relating to the provision of programming services, web services, mobile marketing solutions and development of mobile phone games.
3. Power and data cords and general trading business – engaged in sales and manufacture of power cords and inlet sockets for household electric appliances and power and data cords for mobile handsets and medical control devices and raw cables and general trading business.

The Group's reportable segments are strategic business units that offer different products and services. They are managed separately because each business requires different technology and marketing strategies.

The accounting policies of the operating segments are the same as those described in the Group's financial statements.

18. SHARE-BASED PAYMENTS

EQUITY-SETTLED SHARE OPTION SCHEME

The Company operates a share option scheme (the “**Scheme**”) for the purpose to attract, retain and motivate the eligible participants who contribute to the success of the Group’s operations. Eligible participants include the full-time and part-time employees, executives, officers, directors, business consultants, agents, legal and financial advisers of the Company and the Company’s subsidiaries. The Scheme became effective on 27 April 2011 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at the time the Scheme was adopted. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of shares options in excess of this limit is subject to shareholders’ approval in a general meeting.

Share options granted to a director, chief executive, business consultants or substantial shareholder of the Company (the “**Shareholders**”), or to any of their associates, are subject to approval in advance by the Independent Non-Executive directors. In addition, any share options granted to a substantial shareholder or an Independent Non-Executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the closing price of the Company’s shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to the Shareholders’ approval in advance in a general meeting.

18. SHARE-BASED PAYMENTS *(Continued)***EQUITY-SETTLED SHARE OPTION SCHEME** *(Continued)*

The offer of a grant of share options may be accepted within 28 days from the date of the offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determinable by the directors, and commences after a certain vesting period and ends on a date which is not later than five years from the date of the offer of the share options or the expiry date of the Scheme, if earlier.

The exercise price of the share options is determinable by the board of directors, but may not be less than the highest of (i) the Stock Exchange closing price of the Company's shares on the date of the offer of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of the offer; and (iii) the nominal value of the Company's shares on the date of the offer.

Share options do not confer rights on the holder to dividends or to vote at the Shareholders' meetings.

Details of the share options outstanding during the period are as follows:

	30 September 2020		30 September 2019	
	Number of share options	Weighted average exercise price HK\$	Number of share options	Weighted average exercise price HK\$

OTHER INFORMATION PROVIDED IN ACCORDANCE WITH THE GEM LISTING RULES

CORPORATE GOVERNANCE PRACTICES

The Company is committed to achieving high standards of corporate governance to safeguard the interests of its Shareholders and enhance its corporate value. The Company's corporate governance practices are based on the principles, code provisions and certain recommended best practices as set out in the Corporate Governance Code and Corporate Governance Report in Appendix 15 to the GEM Listing Rules (the "CG Code"). During the Interim Period, the Company has complied with all the code provisions in the CG Code with the exception of the following:

Under Code Provision C.2.5 of the CG Code, the Group should have an internal audit function. The Group conducted an annual review on the need for setting up an internal audit department. Given the Group's simple operating structure, instead of setting up an internal audit department, the annual review on the risk management and internal control systems of the Group has been conducted by a professional third party and reported to the members of the Audit Committee. The review covered material controls, including financial, operational and compliance controls and risk management functions of the Group. The Board is of the view that appropriate measures have been put in place to manage the risks and all issues raised for improvement were rectified.

Under Code Provision A.1.8 of the CG Code, the Group should arrange appropriate insurance cover in respect of legal action against its directors. Due to the suspension of trading in shares of the Company on the Stock Exchange since 2 July 2019, the Company is not able to neither extend the insurance cover which was expired on 31 March 2020 nor source a new insurance cover. The Company is working closely with its professional advisers towards the resumption of trading in the Company's shares as soon as possible and will procure a new insurance cover upon successful resumption.

The Board will continue to monitor and review the Company's corporate governance practices to ensure compliance with the Code.

The Board has maintained a balance of skills and experiences appropriate for the requirements of the businesses of the Group. Its composition represents a mixture of management, accounts and finance, legal, marketing, manufacturing and procurement with comprehensive experience in and exposure to diversified businesses. It is the opinion of the Directors that the Board has the necessary skills and experience appropriate for discharging their duties as Directors in the best interest of the Company.

CHANGES IN DIRECTORS AND SUPERVISORS

RESIGNATION OF EXECUTIVE DIRECTOR

On 5 October 2020, Ms. Hui Sai Ha (“**Ms. Hui**”) resigned as an executive Director. Ms. Hui has confirmed that she has no disagreement with the Board and there is no other matter that needs to be brought to the attention of the shareholders of the Company or the Stock Exchange in relation to her resignation.

DIRECTORS’ SECURITIES TRANSACTIONS

The Company has adopted a code of conduct regarding securities transactions by Directors (the “**Model Code**”) on terms no less exacting than the required standard of dealings set out in Rules 5.48 to 5.67 of the GEM Listing Rules. Upon the specific enquiry made to all the Directors, the Company was not aware of any non-compliance with the Model Code regarding securities transactions by Directors during the six months ended 30 September 2020.

SHARE OPTION SCHEME

The Company has a share option scheme (the “**Scheme**”) which was adopted pursuant to a resolution of the sole Shareholder passed on 27 April 2011. The purpose of the Scheme is to attract, retain and motivate talented Participants (as defined below), to strive for future developments and expansion of the Group. The Scheme shall be an incentive to encourage the Participants to perform their best in achieving the goals of the Group and allow the Participants to enjoy the results of the Group attained through their efforts and contributions.

The Scheme became effective on 27 April 2011 and, unless otherwise cancelled or amended, will remain in force for 10 years from the adoption of the Scheme. The terms of the Scheme are in compliance with the provisions of Chapter 23 of the GEM Listing Rules.

Eligible participants (the “**Participants**”) of the Scheme include the following:

- a) any executive or non-executive Director including any independent non-executive Director or any employee (whether full-time or part-time) of any member of the Group;
- b) any adviser or consultant (in the areas of legal, technical, financial or corporate managerial) to the Group;
- c) any provider of goods and/or services to the Group;
- d) any other person who the Board considers, in its sole discretion, has contributed to the Group; and
- e) any trustee of a trust (whether family, discretionary or otherwise) whose beneficiaries or objects include any of those of (a), (b), (c) and (d) above.
