## **REASONS FOR AND BENEFITS OF ISSUE OF THE CONVERTIBLE NOTES**

Subscription 1 and Subscription 2 are effected to setoff in full against the equivalent amount of indebtedness owing by the Company to the Subscribers at Completion. The Directors have considered various means available to raise funds in the capital market or obtaining loans and other general banking facilities from the banks and financial institutions to repay the indebtedness but are of the view that the issue of the Convertible Notes is an appropriate means, since (i) it will not have an immediate dilution effect on the shareholding of the existing Shareholders; (ii) the interest rate payable on the Convertible Notes is fair and reasonable as compared with the prevailing interest rates generally offered by banks and financial institutions for similar loan facilities; (iii) if the conversion rights attaching to the Convertible Notes are exercised, the financial position of the Group will be strengthened with the conversion of debt into further equity capital; and (iv) it will provide flexibility to the Company to manage its liquidity and the pressure from the cash flows and the repayment of the short-term debts of the Group can be alleviated.

The Directors (including the independent non-executive Directors) therefore are of the view that the terms of the Subscription Agreements and the Convertible Notes are on normal commercial terms, fair and reasonable and in the interests of the Company and the Shareholders as a whole.
