# China Comservice Has Stayed at the 4th Place in "China Software 100" for Three Consecutive Years

*25 Oct 2023*

China Electronic Information Industry Federation has recently announced the "100 Most Competitive Software & IT Service Enterprises 2023" (the "China Software 100"), and China Communications Services Corporation Limited ("China Comservice" or "the Company") was once again awarded the 4th place. The Company has ranked the top four in "China Software 100" for the third consecutive year, which fully affirmed the Company's outstanding performance in software and information technology.

"China Software 100" is one of the most authoritative and influential awards in software and information industry in China. Based on enterprises' operational data in 2022, a comprehensive assessment was conducted by considering a number of indicators, such as scale, R&D and innovation, market development and social responsibility, so as to reflect the operational performance and competitiveness of the software and IT service enterprises, and promote the high-quality development of software and IT service industry.

As a leading service provider in the informatization sector in China, China Comservice leverages its positioning as a "New Generation Integrated Smart Service Provider", and provides integrated comprehensive smart solutions for informatization and digitalization sectors. The Company has always persisted in technological innovation to drive its development, continuously transformed and upgraded itself while strengthening its core capabilities, to support its expansion into the strategic emerging industries, as well as building a technology-based enterprise. Since 2018, the Company's ranking in "China Software 100" has been elevated and among the top four for three consecutive years since 2021.
