

Agreement on Integrated Intelligent Energy Project Development between Changshu Power Generation Company and Qifeng Village

Changshu Power Generation Company seized the county's development and gained new progress. On May 13, 2021, Changshu Power Generation Company formally signed an agreement on integrated intelligent energy project development with a national forest village - Qifeng Village of Haiyu Town, Changshu City, Jiangsu Province.

Changshu Power Generation Company will build an integrated intelligent energy project covering PV power generation (ground, water, rooftop and carport), charging posts, energy storage system and straw biomass utilization, and the project will provide clean heat, electricity and cold energy for the village, help build an ecological and livable village and boost the construction of local "beautiful village".

Qifeng Village is located in the northwest corner of Changshu City, close to Zhangjiagang City. The village is a "National Forest Village", "Jiangsu Provincial Civilized Village", "Jiangsu Provincial Characteristic Field Village" and Suzhou City's "New Rural Construction Demonstration Village", with high demand for clean energy development and utilization.
