

Guangxi Power Generation Company and Lingshan County People's Government Sign Letter of Intent on Clean Energy Investment Cooperation

Recently, Guangxi Power Generation Company and Lingshan County People's Government signed a letter of intent on investment in the clean energy base construction project in the urban-rural integration development pilot area in Qinzhou, Guangxi.

Guangxi Power Generation Company promoted communication and cooperation, and reached a consensus with the local government, in order to vigorously develop clean energy projects in Lingshan County, make full use of the wind, solar and other clean energy in the county, and turn resource advantages into economic advantages. This is a good start for the implementation of 14th Five-Year Plan.

Guangxi Power Generation Company expressed that it would actively fulfill its responsibilities and obligations as stipulated in the letter of intent and carry out all-round and in-depth cooperation with Lingshan County People's Government to build Lingshan County into a "clean energy demonstration county" and achieve complementary advantages and mutual benefits.
