

## CPID Signs Strategic Cooperation Agreement with Easyhome and Sungrow

September 25, 2021, Mr. He Xi, Chairman of CPID and Chief Engineer (New Energy) of SPIC, met with Mr. Wang Linpeng, Chairman and CEO of Easyhome, and Mr. Zhang Xucheng, President of Sungrow in Easyhome Tower, and attended the signing ceremony of the strategic cooperation agreement among the three parties. Mr. Zhao Yonggang, Vice President of CPID, Mr. Sun Yongzheng, Director of Engineering and Property of Easyhome, and Mr. Li Shigui, GM of Distributed Energy Resources Department of Sungrow signed the agreement on behalf of the three parties respectively.

According to the cooperation agreement, the three parties will, based on Easyhome's stores layout across China, work together to apply the state-of-the-art PV power technology and latest achievements of Sungrow as well as give full play to the investment experience and management advantages of CPID in the field of new energy, in order to jointly build rooftop PV power pilot projects and integrated energy utilization cases, promote the home building materials industry to practice the concept of green development, achieve clean energy use, build a new green development mode, and create a green low-carbon development demonstration in the home building materials industry, hence achieving win-win cooperation.
