

## Changshu Power Generation Company Recognized Again "Grade A Enterprise in Power Work Safety Standardization"

On October 12, 2021, Changshu Power Generation Company received the certificate of "Grade A Enterprise in Power Work Safety Standardization" issued by China Electricity Council. This is the second time that the company has won this award after it received the same certificate for the period of 2014-2019 for the first time.

The certificate represents the highest recognition in electric power enterprise work safety standardization review. In the review, Changshu Power Generation Company won a high score and was highly recognized by experts of the review panel. They commented that Changshu Power Generation Company had long maintained a high level of work safety, and ranked top among enterprises of same type.
