

## Mr. He Xi Attends Signing Ceremony of Agreements on Cooperation Projects

On October 27, 2021, Mr. He Xi, Chairman of CPID and Chief Engineer (New Energy) of SPIC, attended the signing ceremony of the agreements on investment and cooperation projects in Chaoyang City, and witnessed the signing of the *Agreement on Joint Construction of Low Carbon Model City and Operation of 300 Electric Buses* together with Ms. Zhang Shuping, Secretary of Chaoyang Municipal Party Committee, and Mr. Xie Weidong, Mayor of Chaoyang City. Mr. Zhao Yonggang, Vice President of CPID, and Mr. Song Zhen, Deputy Mayor of Chaoyang City, signed the agreement on behalf of both sides.

According to the agreement, CPID and Chaoyang Municipal Government will deepen the cooperation between enterprises directly under the Central Government and local enterprises. In addition to investment in smart wind power and energy storage projects in Chaoyang City, both sides have reached a consensus on the construction and operation of electric buses, charging stations and battery swap stations. Chaoyang Municipal Government expressed that it would set up a special team to accelerate the project planning, site selection and other preliminary work and promote the implementation of the projects as soon as possible.

Afterwards, Mr. He and his delegation visited the construction site of the integrated smart energy "model house" demonstration project in Chaoyang County. Mr. He emphasized that CPID had established a new mission of "Lower Carbon Empower Better Life", and the "model house" project should not only fully accomplish the low-carbon task, but also make every effort to create a national pilot project of "zero-carbon campus" and "zero-carbon government", and

CPID would further optimize the design scheme and build Chaoyang County into a green ecological and smart energy city.
