

He Xi meets with Zhang Zhixiang, Chairman of Jianlong Group

On November 26, 2021, Mr. He Xi, Chairman of CPID and Chief Engineer (New Energy) of SPIC, met with Mr. Zhang Zhixiang, Chairman of Jianlong Group in Beijing. The two sides made in-depth exchanges around key projects and reached consensus.

Mr. He Xi outlined the resource advantages of SPIC and CPID in new energy and related industries, and spoke highly of Jianlong Group's efforts in promoting the construction of Wuhai Low-Carbon Industrial Demonstration Park and building a world-class hydrogen metallurgy demonstration production line. After reviewing the cooperation history and achievements made by both sides in the short term, Mr. He expressed his wish that both sides would continue to combine their strengths to cooperate fully, clarify the mode of cooperation between the two sides, and accelerate the implementation of key projects such as Wuhai Low Carbon Industrial Demonstration Park to achieve win-win results.

Mr. Zhang Zhixiang first expressed his gratitude to CPID for its support in planning of the low-carbon demonstration park, spoke highly of the achievements made by two sides in cooperation with each other, and introduced in detail Jianlong Group's development strategy in building an energy ecological chain in west China. Jianlong Group was willing to cooperate with CPID to achieve win-win results, he added. He also hoped that CPID would provide more support to Jianlong Group.

The two sides also exchanged views on the application of energy storage battery technology and other technologies at the meeting.
