

## Changshu Power Generation Company Awarded Suzhou Labor Security AA Grade Creditable Unit

Recently, Changshu Power Generation Company, a subsidiary of CPID, received the honorary certificate of "2019-2020 Suzhou Labor Security AA Grade Creditable Unit" from Suzhou Human Resources and Social Security Bureau. This is the first time that the company has been awarded this title.

All along, the company has insisted on standardizing labor management, actively fulfilling social responsibilities and effectively protecting the legal rights and interests of employees by carrying out the management work in a standardized, systematic and scientific manner. During the normal epidemic prevention and control period, the company coordinated the epidemic prevention and control work with the employees' occupational health checkups and occupational disease hazards testing and other health work, arranged for one occupational disease checkup and one health checkup every year, distributed epidemic prevention materials to employees, and attached great importance to and safeguarded their physical and mental health. Moreover, the company upheld the "strivers-oriented" talent concept, valued the important role of employees in the development of the enterprise, cared about the growth of employees, promoted the career development of employees by improving the talent incentive system, and strengthened the building of a harmonious corporate culture. At present, the company has successfully carried out two phases of "Challenger Program", and has trained a number of outstanding young talents.
