

Guilin Branch of Guangxi Power Generation Company Signs Cooperation Framework Agreement on Energy Substitution

Recently, Guilin Branch of Guangxi Power Generation Company signed the *Cooperation Framework Agreement on Energy Substitution for Guilin Zero Carbon Cold Chain Logistics Park* with Guilin Wanhe Agricultural Products Co., Ltd. (Guilin Wanhe).

Affiliated to Guilin Wanhe, Wanhe Cold Chain Logistics Park owns standard workshops with a floor area of about 40,000 m² and a number of short-distance transport vehicles, offering it a great potential for the development of comprehensive intelligent energy and green power transportation projects. Guilin Branch reached a strategic cooperation intention with Guilin Wanhe through multi-faceted coordination, to build the first "new energy+" project with green power transportation and integrated intelligent energy in Guilin city, thus taking an innovative step for the building of high-quality logistics park.

The signature of the agreement marks the "new progress" made by Guilin Branch in implementing Guilin integrated intelligent energy project. Next, Guilin Branch will carry out early research, demonstration and analysis in a fast and orderly manner, and promote the implementation of the project in phases and batches.
