

Xinyuan Smart Storage – China's Second Largest and World's Fourth Largest Energy Storage Solutions Provider

Recently, the Electrical Energy Storage Alliance (EESA) hosted the 6th Energy Storage Carnival and the Launch Ceremony of the 2023 Global Shipment Ranking of China's Energy Storage Enterprises, and announced Xinyuan Smart Storage Energy Development (Beijing) Co., Ltd. (Xinyuan Smart Storage), with its project advantages and strong strength, as China's second largest and the world's fourth largest AC-side energy storage solutions provider and one of the 2024 China's Top 100 New Energy Storage Brands.

In the field of energy storage systems, Xinyuan Smart Storage, guided by market and customer needs, actively develops and designs new products, while doing a good job in the application and iterative design of existing products. It has gradually completed the development, testing and certification of 1.725 MW series PCS grid-connected and on- and off-grid technologies and SmartSwitch intelligent full-control solid-state HV box upgrade iteration. It provides customers with modular combination, mobile deployment and intelligent management of the entire process of energy storage solutions. It has won widespread recognition and trust in the energy storage market, and its shipment volume is among the top.
