### **INDUSTRIAL PARK CONSTRUCTION CONTRACTS**

#### **MAJOR TRANSACTIONS AND DISCLOSEABLE TRANSACTION**

##### **BACKGROUND INFORMATION**

The China Ting Industrial Park has been established by the Group since 2003 as its principal place of business and manufacturing base in the PRC, and it currently includes low-rise production buildings and warehouses and a seven-storey commercial building. Certain land parcels on which the China Ting Industrial Park is situated are under-utilised, particularly in light of the rapid urban development in the surrounding areas and the connection of highway/railway networks with other PRC cities.

## **REDEVELOPMENT PROPOSAL**

Upon completion of the tender process, the Industrial Park Construction Contracts have been entered into on 24 November 2021 solely for the land foundation and the concrete structure construction for the purpose of the Redevelopment Proposal. The Industrial Park Construction Contracts have been entered into with four different Industrial Park Construction Contractors, which are Independent Third Parties, and comprise the (a) Huzhou Construction Contracts with an aggregate contract sum of RMB375.0 million (equivalent to HK\$457.3 million); (b) Dongsheng Construction Contracts with an aggregate contract sum of RMB265.8 million (equivalent to HK\$324.1 million); (c) Yangfan Construction Contracts with an aggregate contract sum of RMB155.2 million (equivalent to HK\$189.3 million); and (d) Ziqiang Construction Contracts with an aggregate contract sum of RMB87.2 million (equivalent to HK\$106.3 million). The relevant contract sum under each of the Industrial Park Construction Contracts has been determined with reference to the bidding price submitted by the relevant contractor.

In addition, the Group has formulated detailed plans and schedules on other related works for the Redevelopment Proposal, such as installation of curtain walls, facade, lifts and elevators, fire prevention facilities, electrical and water works and facilities and gardening, and will implement as and when the concrete structure construction is about to complete. The Redevelopment Proposal will comprise the development of 12 new buildings for the Group's headquarters and offices, factories, warehouses and staff quarters as well as for leasing purpose with a total gross floor area of 587,246.71 sq.m. upon completion in 2027.

The Directors expect that the total investment for the Redevelopment Proposal would be approximately RMB1.6 billion (equivalent to HK\$2.0 billion) which would be financed by a combination of bank borrowings and internal financial resources. The Group will closely monitor the progress of the Redevelopment Proposal and comply with the applicable requirements under Chapter 14 of the Listing Rules in relation to subsequent transactions as and when appropriate.

## **IMPLICATIONS UNDER THE LISTING RULES**

The Directors confirm that each of the Industrial Park Construction Contracts is awarded to the relevant contractors through tendering process conducted in the PRC. Hence, the Directors (including the independent non-executive Directors) are of the view that all terms of each of the Industrial Park Construction Contracts (including the amount of consideration thereunder) are negotiated on an arm's length basis upon normal commercial terms and are fair and reasonable and in the interests of the Company and Shareholders as a whole.

Each of the Industrial Park Construction Contracts constitutes a notifiable transaction (as defined under the Listing Rules) for the Company. The individual contracts comprising each of the Huzhou Construction Contracts, Dongsheng Construction Contracts, Yangfan Construction Contracts and Ziqiang Construction Contracts should be aggregated pursuant to Rule 14.23(1) of the Listing Rules because all such individual contracts are entered into with the same counter-party. Pursuant to Rule 14.23A of the Listing Rules, the Industrial Park Construction Contracts are not aggregated as they are entered into with different counter-parties for different construction works in respect of the Redevelopment Proposal for the Group's own use in its ordinary and usual course of business.

**Major transactions in respect of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts**

Since one or more of the applicable percentage ratios (as defined under Rule 14.07 of the Listing Rules) in respect of each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts exceed 25% but all such percentage ratios are less than 100%, the transactions contemplated under each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts constitute a major transaction for the Company and are therefore subject to the notification, announcement and shareholders' approval requirements under Chapter 14 of the Listing Rules.

**Discloseable transaction in respect of the Ziqiang Construction Contracts**

As the applicable percentage ratios (as defined under Rule 14.07 of the Listing Rules) are more than 5% but less than 25%, the transactions contemplated under the Ziqiang Construction Contracts constitute a discloseable transaction for the Company and are therefore subject to the notification and announcement requirements under Chapter 14 the Listing Rules.

**No extraordinary general meeting to be held**

As (a) no Shareholder is required to abstain from voting if the Company were to convene an extraordinary general meeting for the respective approvals of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts and (b) Longerview which holds 71% of the total number of Shares in issue has given its written approval to each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts, an extraordinary general meeting of the Company for the approval of each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts could be dispensed with pursuant to Rule 14.44 of the Listing Rules.

A circular containing, among other matters, further information on the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts and other information as required under the Listing Rules is expected to be despatched to the Shareholders on or before 15 December 2021.

## **BACKGROUND INFORMATION**

## **5. Payment terms and basis of determining the contract sums**

The payment terms (other than the contract sum) of each of the Industrial Park Construction Contracts are identical. The payment terms of each of the Industrial Park Construction Contracts are set forth below:

- (a) monthly progress payment, equal to 75% of the value of work completed during that month, shall be made to the relevant contractor by the relevant principal;
- (b) an amount representing 85% of the contract sum less the aggregate amount already paid in (a) above shall be paid to the relevant contractor by the relevant principal within one month after the completion and the acceptance of the construction works;
- (c) an amount representing 90% of the audited contract sum less the aggregate amount already paid in (a) and (b) above shall be paid to the relevant contractor by the relevant principal within one month after the completion of the settlement audit of the construction works;
- (d) an amount representing 95% of the audited contract sum less the aggregate amount already paid in (a), (b) and (c) above shall be paid to the relevant contractor by the relevant principal after issuance of the property ownership certificate by relevant PRC government authorities with respect to the ownership rights of buildings; and
- (e) the remaining 5% of the audited contract sum shall be withheld as warranty payment, of which three annual instalments of 2%, 1% and 2%, respectively, shall be released to the relevant contractor by the relevant principal within three years after payment of the amount in (d) above.

All the contract sums under the Industrial Park Construction Contracts will be funded by the internal financial resources of the Group and bank borrowings.

## **6. Adjustment to the contract sum**

The contract sum under each of the Industrial Park Construction Contracts will be adjusted downward from a range of 13.0% to 18.0% as discounts by the relevant contractor. The contract sum under each of the Industrial Park Construction Contracts may be adjusted based on the occurrence of certain circumstances as stipulated in the Industrial Park Construction Contracts, including changes in the published prices of materials and labour in Hangzhou City, Zhejiang Province exceeding five percent. Any such adjustments shall be submitted by the relevant contractor to the relevant principal for approval. The Company does not expect any substantial upward adjustment. In any event, the Company will monitor the amount of any such adjustment and comply with the requirements under Chapter 14 of the Listing Rules as and when appropriate.

## **REASONS FOR AND BENEFITS OF ENTERING INTO OF THE INDUSTRIAL PARK CONSTRUCTION CONTRACTS**

The China Ting Industrial Park has been established by the Group since 2003 as its principal place of business and manufacturing base in the PRC, and it currently includes low-rise production buildings and warehouses and a seven-storey commercial building. Certain land parcels on which the China Ting Industrial Park is situated are under-utilised, particularly in light of the rapid urban development in the surrounding areas and the connection of highway/railway networks with other PRC cities. On 24 December 2020, due to the construction of a highway project in Hangzhou, certain land parcels within the China Ting Industrial Park were expropriated and certain production activities have been relocated. Further information on the land expropriation is set forth in the announcement of the Company dated 15 January 2021. After due consideration of the long operating history of the China Ting Industrial Park and the latest business developments and production requirements of the Group, as well as the Group's capability to diversify and outsource the production process to different production plants of the Group, the Directors consider that it is the appropriate time to undertake the Redevelopment Proposal. The Redevelopment Proposal will comprise the development of 12 new buildings for the Group's headquarters and offices, factories, warehouses and staff quarters as well as for leasing purpose with a total gross floor area of 587,246.71 sq.m. upon completion in 2027.

The Industrial Park Construction Contracts have been entered into solely for the land foundation and the concrete structure construction for the purpose of the Redevelopment Proposal. The Group has formulated detailed plans and schedules on other related works for the Redevelopment Proposal, such as installation of curtain walls, façade, lifts and elevators, fire prevention facilities, electrical and water works and facilities and gardening, and will implement as and when the concrete structure construction is about to complete. The Directors expect that the total investment for the Redevelopment Proposal would be approximately RMB1.6 billion (equivalent to HK\$2.0 billion) which would be financed by a combination of bank borrowings and internal financial resources. The Group will closely monitor the progress of the Redevelopment Proposal and comply with the applicable requirements under Chapter 14 of the Listing Rules in relation to subsequent transactions as and when appropriate.

## **IMPLICATIONS UNDER THE LISTING RULES**

The Directors confirm that each of the Industrial Park Construction Contracts is awarded to the relevant contractors through tendering process conducted in the PRC. Hence, the Directors (including the independent non-executive Directors) are of the view that all terms of each of the Industrial Park Construction Contracts (including the amount of consideration thereunder) are negotiated on an arm's length basis upon normal commercial terms and are fair and reasonable and in the interests of the Company and Shareholders as a whole.

Each of the Industrial Park Construction Contracts constitutes a notifiable transaction (as defined under the Listing Rules) for the Company. The individual contracts comprising each of the Huzhou Construction Contracts, Dongsheng Construction Contracts, Yangfan Construction Contracts and Ziqiang Construction Contracts should be aggregated pursuant to Rule 14.23(1) of the Listing Rules because all such individual contracts are entered into with the same counter-party. Pursuant to Rule 14.23A of the Listing Rules, the Industrial Park Construction Contracts are not aggregated as they are entered into with different counter-parties for different construction works in respect of the Redevelopment Proposal for the Group's own use in its ordinary and usual course of business.

### **Major transactions for the Company — Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts**

The total contract sums under the Huzhou Construction Contracts amount to RMB375.0 million (equivalent to HK\$457.3 million). The total contract sums under the Dongsheng Construction Contracts amount to RMB265.8 million (equivalent to HK\$324.1 million). The total contract sums under the Yangfan Construction Contracts amount to RMB155.2 million (equivalent to HK\$189.3 million).

Since one or more of the applicable percentage ratios (as defined under Rule 14.07 of the Listing Rules) in respect of each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts exceed 25% but all such percentage ratios are less than 100%, the transactions contemplated under each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts constitute a major transaction for the Company and are therefore subject to the notification, announcement and shareholders' approval requirements under Chapter 14 of the Listing Rules.

### **Discloseable transaction for the Company — Ziqiang Construction Contracts**

The total contract sums under the Ziqiang Construction Contracts amount to RMB87.2 million (equivalent to HK\$106.3 million). As the applicable percentage ratios (as defined under Rule 14.07 of the Listing Rules) are more than 5% but less than 25%, the transactions contemplated under the Ziqiang Construction Contracts constitute a discloseable transaction for the Company and are therefore subject to the notification and announcement requirements under Chapter 14 of the Listing Rules.

## **No extraordinary general meeting to be held**

As (a) no Shareholder is required to abstain from voting if the Company were to convene an extraordinary general meeting for the respective approvals of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts and (b) Longerview which holds 71% of the total number of Shares in issue has given its written approval to each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts, an extraordinary general meeting of the Company for the approval of each of the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts could be dispensed with pursuant to Rule 14.44 of the Listing Rules.

A circular containing, among other matters, further information on the Huzhou Construction Contracts, Dongsheng Construction Contracts and Yangfan Construction Contracts and other information as required under the Listing Rules is expected to be despatched to the Shareholders on or before 15 December 2021.
