**CHINA WIRELESS TECHNOLOGIES’ “COOLPAD”
NAMED ONE OF “21ST CENTURY TOP LUXURY BRANDS”
THE ONLY TELECOMMUNICATION PRODUCT BRAND TO MAKE THE LIST**

(Hong Kong, 9 May 2007) – China Wireless Technologies Limited (“China Wireless Technologies” or the “Company”) (stock code: 2369), a leading provider of integrated wireless data solutions and smartphones in China, announced that its flagship brand “Coolpad”, which is put out by the Company’s wholly-owned subsidiary Yulong Computer Telecommunication Scientific (Shenzhen) Co., Ltd. (“Yulong”), has been named as a “21st Century Top Luxury Brand”. The “Coolpad” brand is the only electronic and telecommunication product brand to make into the list, reflecting its leadership as a high-end mobile phone brand in China.

Organized by the global consultancy company Gallup Organization and *21st Century Business Herald*, a financial press in China, the “21st Century Top Luxury Brands” seeks to ascertain the ranking of global luxury brands in China. Brands including Rolex, BMW, Mont Blanc and Louis Vuitton were named as the “Global Top Brands” and “Coolpad”, as the only electronic and telecommunication product brand in the list, was named as one of the “Top Brands in China”.

Based on a luxury brand influence index developed by Gallup Organization, the ranking also took into consideration the positioning of the different brands as well as the consumption behaviors in China market. Respondents to the survey which covered several hundreds of domestic and foreign brands included business executives who each earns more than RMB500,000 a year as well as the general consumers.

China Wireless Technologies’ “Coolpad” has established leadership in the middle and high-end markets for CDMA cell phones and dual mode smartphones. The Company also markets custom-made smartphones as the anchor products. It is currently among the three largest players with the biggest market shares (in terms of sales volume) in the markets for smartphones and ordinary cell phones in CDMA mode. It is also the number one brand among all domestic CDMA and dual-mode mobile handset brands. Supported by the strongest smartphone R&D team in the country, Coolpad even surpasses international brands in certain technology areas.

-more-

Through application of advanced high-end product technology and the offering of customer-targeted services, the Company has built "Coolpad" into a well-known luxury brand in China. The Company led the industry in launching the world's first dual-mode smartphone, the "Coolpad 728", in 2005. This has not only won for the Company volume orders for high-end cell phones from China Unicom, but has also opened a new segment in the high-end market for the Company. In 2006, China Wireless Technologies developed and launched "Coolpad 728B". Product using next generation dual-mode smartphone technology, "Coolpad 728B", is the most advanced among high-end dual mode handsets in the market. Apart from business application functions such as Office word processing and emailing and Bluetooth connectivity, "Coolpad 728B" also possesses unique innovative features including "Dual Invisibility", which offers double protection of file secrecy, anti-theft function and "Wireless Secretary", which is a long-distant information updating function. Moreover, China Wireless Technologies is the first company to offer high-end handset users the "VIP on-site service" in China. A "Customer Caring" function has also been built into the handset by the Company to give users access to fast support services including answering enquiries on how to operate the handset and receiving complaints, etc.

Mr. Guo Deying, Chairman of China Wireless Technologies, said, "Being ranked among the "Top brands in China" is a proof that the R&D efforts we put into perfecting Coolpad have been recognized by the market as well as the industry. The luxury goods market in China has been expanding quickly in recent years and many researches concluded that the size of the luxury goods market in China would surpass that of Japan in the next decade to become the second largest in the world. It is set to become a new stage for luxury goods from around the world to show their charms. With outstanding brands and advanced technology to ride on, the Company will strive to seize opportunities in the high-end market."
