

China Wireless was Granted State Scientific and Technological Progress Award

(Hong Kong, 9 January 2008) China Wireless Technologies's wholly-owned subsidiary Yulong Computer Telecommunication Scientific (Shenzhen) Co. Ltd (「Yulong」) was granted 2007 State Scientific and Technological Progress Award by the State Council of China for its CDMA\GSM dual-mode dual-working terminal project on 8 January 2008. The award ceremony was held in Great Hall of the People in Beijing. State leaders Hu Jintao, Wen jiabao, Li Changchun, Xi Jinping and Li Keqiang attended the event.

This is the highest honor in People's Republic of China in science and technology. There are five awards, which respectively are State Highest Science and Technology Award, State Natural Science Award, State Technological Invention Award, State Scientific and Technological Progress Award and International Scientific and Technological Cooperation Award of PRC. State Scientific and Technological Progress Award is to be granted to citizens and organizations that have made remarkable contributions to scientific and technological progress and popularization of scientific and technological application. The awarded CDMA\GSM dual-mode dual-working terminal project was completed by Yulong in 2005.

Talking about this award, Mr. Guo Deying, Chairman of China Wireless said, "It is the best award from the state for the remarkable contributions of our company to China's telecommunication technology; it is also a great achievement of our R&D team. We will keep enlarge our input in technology R & D to maintain the industry leader position, and we will also seek more resource to co-operation with other strong companies."
