

## Deputy Minister of MIIT Visit China Wireless

Recently, Mr. Guo Deying (Chairman of the Group) together with the management including Vice President Jiang Chao and Li bin warmly received the visiting team of government officers with Lou Qinjian, the Deputy Minister of Ministry of Industry and Information Technology.

Mr. Lou (Mid) with Mr. Guo visited the Honor Hall of Yulong

The Deputy Minister Mr. Lou and other officers visited the Honor Exhibition Hall, the Innovation Design Center and other parts of the company. The management team introduced the company's achievements and developments covering the fields of technology, administration, marketing, and future plans. Mr. Lou highly praised the company's wholly-owned subsidiary Yulong Computer Telecommunication Scientific (Shenzhen) Co. Ltd (「Yulong」) being granted 2007 State Scientific and Technological Progress Award for its CDMA\GSM dual-mode dual-working terminal project. Mr. Lou also commended the company's great contribution on building up national brand of high-end wireless communications equipments. He said, "The development of TD has been a great challenge to the country. As one of the terminal provider of the industry chain, Yulong is stepping toward the right direction. I hope Yulong can maintain its superiority in technical innovation."

The support from the government strengthens China Wireless' faith in building up outstanding national brand.
