It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Turnover

3Q2011

The group turnover decreased by 33% in 3Q11 to approximately US\$5.7 million from US\$8.5 million in 3Q10, reflecting the poor market condition in dry bulk rates, as well as the low fleet utilisation given the lower demand from commodity trading, compared to high fleet utilisation at around 87% in 3Q10. The BDI is currently around the 1,800 level compared to 2,500 in 3Q10.

9M2011

The Group turnover decreased by 56% to approximately US\$15.8 million from US\$37.6 million in 9M10 due to the lower fleet utilisation and lower dry bulk rates. The Group's low fleet utilisation was the result of low demand in the Asian area and the general slow down of the global economy.

Profitability

3Q2011

Despite the decrease in turnover by 33%, the Group's cost of sales increased by 2% to approximately US\$7.8 million from US\$7.6 million in 3Q10 due to the consumption of the fixed cost, including the insurance, crews fee and depreciation. As such, the Group recorded a gross loss of approximately US\$2.1 million compared to gross profit of US\$0.8 million in 3Q10.

Other income consists of interest income from bank and certificate of deposit, insurance claims and sundry income. The Group recorded other income of \$60,000 in 3Q11, a decrease of 59% compared to 3Q10. This was due to less interest income from certificate of deposit and less sundry income.

Other gains and losses consist of change in fair value of investment property, change in fair value of held-for-trading investments, gains and losses on disposal of fixed assets and exchange gains and losses. The group recorded losses of approximately US\$0.4 million due to lower market value of the held-for-trading investment, and loss on disposal of MV Heroic in August 2011.

Administrative expenses increased by 4% to approximately US\$714,000 from US\$684,000 in 3Q10 which was due to the increase of legal and professional fees.

The Group recorded a finance cost of an approximately US\$8,000 in 3Q11 compared to US\$29,000 in 3Q10 due mainly to the reduced balance of outstanding bank borrowings.

The Group's subsidiaries recorded an income tax expense of US\$4,000 during 3Q11.

The Group recorded a net loss of approximately US\$3.4 million in 3Q11 due mainly to lower freight rate and fleet utilisation.

9M2011

Despite the decrease in turnover by 58%, the Group's cost of sales decreased by only 10% to approximately US\$25 million from US\$27.6 million in 9M10 due to the consumption of the fixed cost, including insurance, crews fee and depreciation expenses. As such, the Group recorded a gross loss of approximately US\$9.2 million compared to gross profit of US\$10 million in 9M10.

Other income mainly includes rental income, interest income from banks and certificate of deposit, insurance claims and sundry income. The Group recorded other income for approximately US\$0.5 million in 9M11, an increase of 6% compared to 9M10. This was mainly attributable to an one-off insurance claim received.

Other gains and losses consist of change in fair value of investment property, change in fair value of held-for-trading investments, gains and losses on disposal of fixed assets and exchange gains and losses. The group recorded losses of approximately US\$0.3 million due to lower market value of the held-for-trading investment, and loss on disposal of MV Heroic in August 2011.

Administrative expenses mainly comprise salary and bonus, directors' remuneration, office rental, legal and professional fees and travelling. The Group recorded an approximately 7% increase for the administrative expenses in the 9M11 compared to 9M10 due mainly to the increase of legal and professional fees.

Other expenses for the 9M11 was approximately US\$2.1 million, where the Group did not have such other expenses for 9M10. This amount was mainly attributable to the professional fees and other expenses relating to the Group's Hong Kong listing exercise. The shares of the Company were successfully listed on the Main Board of HKSE on 24 June 2011.

The Group recorded a finance cost of approximately US\$39,000 in 9M11 compared to US\$96,000 in 9M10 due mainly to the reduced balance of outstanding bank borrowings as a result of the repayment of part of the bank loan. The Group had repaid all outstanding loan by the end of September 2011.

The Group's subsidiaries recorded an income tax expense of approximately US\$20,000 during 9M11, compared to US\$25,000 in 9M10.

The Group recorded an approximately 58% decrease in revenue due to the decrease in Baltic Dry Index which adversely affected our freight rates during the 9M11. However, the Group's cost of services for the 9M11 had a relatively less decrease mainly due to certain fixed cost items including crew agency fees, maintenance fees, insurance and depreciation expenses coupled with the increase in per tonne market bunker price, despite the decrease in the Group's vessels' utilisation rate during such period. In addition, the Group incurred approximately US\$2.1million other expenses (attributable to the professional fees and other expenses relating to the Hong Kong listing exercises), which is non-recurring in nature, during the period. As a result, the Group recorded a net loss of approximately US\$13.3 million for the 9M11 as compared to the Group's net profit of approximately US\$9 million for the 9M10.

The Group recorded other comprehensive income of approximately US\$0.8 million for the 9M11 due to the surplus on revaluation of the Group's leasehold and building.

Cashflow

There was a net decrease in cash and cash equivalents of approximately US\$15.3 million in 9M11 arising from the repayment of the bank borrowings, and dividend paid of approximately US\$7.5 million for the period. However, the Group remains in a net cash position, with cash and bank balances of approximately US\$14.7 million as at 30 September 2011.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not Applicable

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The global economy has been unstable in the past few months. The Baltic Dry Index ("BDI"), which has a close correlation to freight rates, has rebounded from 1,200 points in August 2011 to about 2,000 in October. The Group remains cautious on the outlook for this year and the first half of next year.

The Group had disposed two Handymax size vessels, MV Heroic and MV Zorina in August and October, respectively. On the other hand, the Group entered into a Memorandum of Agreement on October with a Chinese shipyard to purchase the Group's first new built Supermax size vessel. The consideration of this new Supermax vessel is US\$26.6 million and is expected to be delivered in early January 2012. The Group will continue to look for other new-builts or second hand vessels to enhance our fleet.

The Group expects the financial performance for the rest of 2011 and first half of 2012 to be adversely affected by the challenging economic conditions and uncertain outlook. However, the Group will maintain its cost-effective structure and focus on keeping its fleet well-deployed and running efficiently.
