**8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.**

#### Turnover

##### 4Q2011

The Group turnover decreased by 34% in 4Q11 to approximately US\$ 5.9 million from US\$8.9 million in 4Q10, reflecting the poor market conditions in dry bulk rates, as well as the low fleet utilisation given the lower demand from commodity trading.

##### FY2011

The Group's revenue decreased by approximately 53% from approximately US\$46.5 million in FY10 to approximately US\$21.7 million in FY11 because of decrease in freight rates and utilisation rate of the fleet. The vessel chartering services of the Group heavily rely on spot charter contracts. The decrease in revenue was mainly due to the political instability in the Middle East leading to concerns about global oil supply and substantial increase in bunker price, being one of the major variable costs, which discouraged the Group from taking orders with lower freight rates. The over-supply of vessels within the Asian region led to the decrease in the demand for the Group's chartering services since March. The above led to a decrease in the overall utilisation rate of the Group's vessels. There was also a significant decrease in the Baltic Dry Index from the average of approximately 2,500 points for the year of 2010 to the average of approximately 1,500 points for the year of 2011.

#### Profitability

##### 4Q2011

Despite the decrease in turnover by 34%, the cost of sales increased by 1% to approximately US\$7.6 million from US\$7.5 million in 4Q10 due to the consumption of the fixed cost, including the insurance, crews fee and depreciation. As such, the Group recorded a gross loss of approximately US\$1.7million compared to gross profit of US\$1.4 million in 4Q10.

Other income consists of interest income from bank and certificate of deposit, insurance claims and sundry income. The Group recorded other income of approximately US\$33,000 in 4Q11, while recorded a loss of US\$57,000 in 4Q10.

Other gains and losses consist of change in fair value of investment property, changes in fair value of held-for-trading investments, gains and losses on disposal of fixed assets and exchange gains and losses. The Group recorded losses of approximately US\$3.2 million due to the disposal of an aged vessel, namely MV Zorina in October 2011.

Administrative expenses decreased by 12% to approximately US\$1.3 million in 4Q11 due mainly to the decrease in year-end bonus for staff and executive directors.

The Group recorded listing expenses of approximately US\$0.2 million in 4Q11 and did not record such expenses in 4Q10.

The Group conducted a review of the Group's vessels and determined that a number of those assets were impaired, due to decrease in utilisation rate and corresponding fall in revenue. Accordingly, impairment losses of US\$9.5 million have been recognised in respect of the vessels. The recoverable amount of the vessels has been determined on the basis of their fair value. The Group did not record such losses in 4Q10.

The Group recorded a finance cost of approximately US\$0.4 million in 4Q11 which was due mainly to the upfront fee for obtaining the bank borrowing for the acquisition of the two new vessels. The Group recorded finance cost of approximately US\$23,000 in 4Q10.

The Group's subsidiaries recorded an income tax expense of approximately US\$96,000 in 4Q11 compared to approximately US\$46,000 in 4Q10.

The Group recorded a deficit on revaluation of the property of approximately US\$177,000 in 4Q11, compared to a surplus of approximately US\$152,000 in 4Q10.

Overall, the Group recorded a net loss of approximately US\$16.3 million for 4Q11 due to lower freight rate, low fleet utilisation, impairment loss and disposal of fixed assets.

## FY2011

Despite the decrease in revenue by 53%, the Group's cost of sales decreased by only 7% to approximately US\$32.6 million in FY11 from US\$35.2 million in FY10 due to the consumption of the fixed cost, including insurance, crews fee and depreciation expenses. As such, the Group recorded a gross loss of approximately US\$10.9 million in FY11 compared to gross profit of US\$11.3 million in FY10.

Other income mainly includes rental income, interest income from banks and certificate of deposit, insurance claims and sundry income. The Group recorded other income for US\$0.5 million in FY11, an increase of 30% compared to FY10. This was mainly attributed to an one-off insurance claim received.

Other gains and losses mainly include change in fair value of investment property, changes in fair value of held-for-trading investments, gains or loss in disposal of fixed assets and exchange gain or loss. For the year of 2011, the Group recorded other losses for approximately US\$3.5 million due to the loss on disposal of two vessels, namely MV Heroic and MV Zorina. During the year of 2010, the Group disposed a Capesize vessel, MV Cape Ore, and recorded a gain on disposal.

The administrative expenses mainly comprised salary and bonus, directors' remuneration, office rent, legal and professional fees and travelling. The Group recorded an approximate 1% decrease for the administrative expenses in FY11 compared to FY10.

The Group recorded listing expenses of approximately US\$2.2 million which was attributable to the professional fees and other expenses relating to the Group's Hong Kong listing exercise. The shares of the Company were successfully listed on the Main Board of HKEx on 24 June 2011. The Group did not have such expenses for the year of 2010.

The Group conducted a review of the Group's vessels and determined that a number of those assets were impaired, due to decrease in utilisation rate and corresponding fall in revenue. Accordingly, impairment losses of US\$9.5 million have been recognised in respect of the vessels. The recoverable amount of the vessels has been determined on the basis of their fair value. The Group did not record such losses for the year of 2010.

The Group recorded a finance cost of approximately US\$0.4 million for the year of 2011 compared to US\$0.1 million for the year of 2010. The increase was mainly due to the upfront fee for obtaining the bank borrowings for the acquisitions of the two new vessels.

The Group's subsidiaries recorded an income tax expense of US\$116,000 during the year of 2011, compared to US\$71,000 for the year of 2010.

The Group recorded other comprehensive income of approximately US\$0.7 million for the year of 2011 due to the surplus on revaluation of the Group's leasehold and building. The Group recorded such income of approximately US\$0.2 million for the year of 2010.

The Group recorded an approximately 53% decrease in revenue due to the approximately 50% decrease in Baltic Dry Index which adversely affected our freight rates during the year of 2011. However, the Group's cost of services for the year of 2011 had a relatively less decrease mainly due to certain fixed cost items including crew agency fees, maintenance fees, insurance and depreciation expenses coupled with the increase in per tonne market bunker price, despite the decrease in the Group's vessels' utilisation rate during such period.

In addition, the Group incurred approximately US\$3.5 million losses on disposal of two aged vessels, impairment losses of vessels of approximately US\$9.5 million, and approximately US\$2.2 million listing expenses (which attributable to the professional fees and other expenses relating to the Hong Kong listing exercises), which was non-recurring in nature, during the period. As a result, the Group recorded a net loss of approximately US\$29.6 million for the year of 2011 as compared to the Group's net profit of approximately US\$9 million for the year of 2010.

## Cashflow

There was a net decrease in cash and cash equivalents of approximately US\$13.3 million in FY11 arising from the repayment of the bank borrowings, dividend paid of approximately US\$7.5 million and the deposit and down payment for the two newly acquired vessels during the period. However, the Group remains in a net cash position, with cash and bank balances of approximately US\$16.7 million as at 31 December 2011.

**9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results**

Not Applicable

**10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The dry bulk market was unstable in the past few months. The BDI, which has a close correlation to freight rates, dropped sharply below 1,000 in the beginning of 2012.

As the Group took delivery of two new supermax vessels, MV Zorina and MV Heroic on December 2011 and February 2012, and disposed an aged Handysize vessel, MV Raffles, the updated tonnage of the fleet is about 460,000 dwt. With the replacement of the vessels, the Group is well placed to have higher efficiency in the event the dry bulk market recovers in full.

The Group expects the financial performance for 2012 to be adversely affected by the continuing challenging economic conditions and uncertain outlook. However, the Group will maintain its cost-effective structure and focus on keeping its fleet well-deployed and running efficiently.
