1(d)(ii) Details of any changes in the company's share capital arising from rights issue, bonus issue, share buy-backs, exercise of share options or warrants, conversion of other issues of equity securities, issue of shares or cash or as consideration for acquisition or for any other purpose since the end of the previous period reported on. State also the number of shares that may be issued on conversion of all the outstanding convertibles, as well as the number of shares held as treasury shares, if any, against the total number of issued shares excluding treasury shares of the issuer as at the end of the current financial period reported on and as at the end of the corresponding period of the immediately preceding financial year

There has been no change in the Company's share capital since the end of the previous period reported on.

The Company does not have any outstanding convertibles as at 31 December 2012 and 31 December 2011.

1 (d)(iii) To show the total number of issued shares excluding treasury shares as at the end of the current financial period and as at the end of the immediately preceding year

1 (d)(iv) A statement showing all sales, transfers, disposal, cancellation and/or use of treasury shares as at the end of the current financial period reported on

There were no shares being held as treasury shares by the Company.

2. Whether the figures have been audited, or reviewed and in accordance with which standard

The figures have not been audited or received.

3. Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter)

Not applicable.

4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied

The Group has adopted the same accounting policies and method of computation in the financial statements for the current period compared with the financial statements for the financial year ended 31 December 2011, except for the amendments to International Financial Reporting Standards stated in point 5 below.

5. If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change

In the current year, the Group has applied, the following amendments to International Financial Reporting Standards ("IFRSs").

Amendments to IFRS 7	Financial Instruments: Disclosures - Transfers of Financial Assets
Amendments to IAS 1	As part of the Annual Improvements to IFRSs 2009 - 2011 Cycle issued in 2012
Amendments to IAS 12	Deferred Tax: Recovery of Underlying Assets

Except as discussed below, the application of the amendments to IFRSs in the current year has had no material impact on the Group's financial performance and the Group's and the Company's financial positions for the current and prior years and/or on disclosures set out in these consolidated financial statements.

Amendments to IAS 12 "Deferred Tax: Recovery of Underlying Assets"

The application of the amendments to IAS 12 has resulted in the Group not recognising any deferred taxes on changes in fair value of the investment property as the Group is not subject to any income taxes on disposal of its investment property. Previously, the Group recognised deferred taxes on change in fair value of investment property on the basis that the entire carrying amount of the property would be recovered through use.

The amendments to IAS 12 have been applied retrospectively, resulting in the Group's deferred tax liabilities being decreased by US\$90,000 as at 31 December 2011, with the corresponding credit being recognised in retained profits. The application of the amendments to IAS 12 has no material impact on the results as at 1 January 2011 as the investment property of the Group was acquired in late 2010 that there was no material change in fair value on 31 December 2010.

In the current year, no deferred taxes have been provided for changes in fair value of the Group's investment property. The change in accounting policy has resulted in the Group's income tax expense for the years ended 31 December 2012 and 31 December 2011 being reduced by US\$49,000 and US\$90,000 respectively and hence resulted in the loss for the years ended 31 December 2012 and 31 December 2011 being decreased by US\$49,000 and US\$90,000 respectively.

Amendments to IAS 1 "Presentation of Financial Statements (as part of the Annual Improvements to IFRSs 2009-2011 Cycle issued in 2012)".

IAS 1 requires an entity that changes accounting policies retrospectively, or makes a retrospective restatement or reclassification to present a statement of financial position as at the beginning of the preceding period (third statement of financial position). The amendments to IAS 1 clarify that an entity is required to present a third statement of financial position only when the retrospective application, restatement or reclassification has a material effect on the information in the third statement of financial position and that related notes are not required to accompany the third statement of financial position.

In the current year, the Group has applied the amendments to IAS 12 "Deferred Tax: Recovery of Underlying Assets" for the first time, which has not resulted in a material effect on the information in the consolidated statement of financial position as at 1 January 2011. In accordance with the amendments to IAS 1, the Group has not presented a third statement of financial position and the related notes as at 1 January 2011.

6. Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends (a) based on the weighted average number of ordinary shares on issue; and (b) on a fully diluted basis (detailing any adjustments made to the earnings)

NOTES:

The earnings per ordinary share is calculated by dividing the consolidated profit attributable to the shareholders of the Company by the weighted average number of ordinary shares in issue during the financial period reported on.

The fully diluted earnings per ordinary share is the same as the earnings per ordinary share as there were no options granted or outstanding during the financial period.

7. Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the (a) current financial period reported on; and (b) immediately preceding financial year

8. A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following: (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

Turnover

4Q2012

The Group's turnover decreased by 10% from approximately US\$5.9 million in 4Q11 to US\$5.3 million in 4Q12, reflecting the poor market conditions in dry bulk rates as well as an over-supply of vessels in the market. The BDI was predominantly below the 1,000 level during 4Q12 and is currently around the 700 level.

FY2012

The Group's turnover decreased by 14% from approximately US\$21.7 million in FY2011 to approximately US\$18.8 million in FY2012. The dry bulk market is still poor. The demand for commodities, especially in the Greater China region, slowed down in 2012. These factors led to the low demand for trading and adversely affected the freight rates.

Profitability

4Q2012

Despite the decrease in turnover, the Group's cost of sales decreased by 48% from approximately US\$7.6 million in 4Q11 to approximately US\$4 million in 4Q12. This was mainly due to lower fixed costs, including insurance, crew fees and depreciation arising from the disposal of aged vessels during the past eighteen months. The Group recorded a gross profit of approximately US\$1.3 million in 4Q12 compared to a gross loss of US\$1.7 million in 4Q11.

Other income consists of interest income from banks and certificate of deposit, sundry income, and other one-off income. The Group recorded other income of US\$0.1 million in 4Q12, an increase of approximately 350% compared to 4Q11 due to the imputed interest attributable by the long-term receivable on the property investment.

Other gains and losses consist of changes in fair value of investment property, changes in fair value of held-for-trading investments, gains and losses on the disposal of fixed assets and exchange gains and losses. The Group recorded other gains of approximately US\$1.6 million in 4Q12 due to the reclassification of the amounts charged to impairment loss arising from the disposal of MV Panamax Leader in 3Q12

Administrative expenses increased by 16% from approximately US\$1.3 million to approximately US\$1.5 million in 4Q12 as the Group recorded more expenses on directors' fee and legal and professional fees.

The Group had recorded other expenses of approximately US\$1.1 million in 4Q12 compared to US\$0.2 million in 4Q11. It was due to the imputed interest income attributable to the interest-free long-term loan advanced by the Group in connection with a proposed property investment and a one-off claim against certain subsidiaries in relation to the termination of maintenance arrangements in 4Q12.

The Group conducted a review of the Group's vessels and determined that a number of those assets were impaired, due to the decrease in utilisation rates and the corresponding fall in revenue. Accordingly, the Group had recorded an impairment loss of approximately US\$1.5 million in 4Q12 and US\$9.5 million in 4Q11. The recoverable amount of the vessels had been determined on the basis of their value in use.

The Group recorded finance costs of approximately US\$0.3 million in 4Q12 compared to US\$0.4 million in 4Q11 mainly due to bank borrowings for the acquisition of the two Supermax vessels.

The Group's subsidiaries recorded a revision on income tax expense of US\$17,000 during 4Q12 compared to an income tax expense of approximately US\$96,000 in 4Q11.

The Group recorded other comprehensive income of approximately US\$0.1 million in 4Q12 due to the surplus on revaluation of the Group's leasehold and building. The Group recorded a loss of approximately US\$0.2 million in 4Q11 in respect of other comprehensive income.

Overall, the Group recorded a net loss of approximately US\$1.3 million in 4Q12 due to the other expenses comprising of the discount effect on the long-term loan advanced for the property investment and a one-off claim.

FY2012

Despite the decrease in turnover by 14%, the Group's cost of sales decreased by 43% from approximately US\$32.6 million in FY2011 to approximately US\$18.5 million in FY2012. It was mainly due to lower fixed costs, including insurance, crew fees and depreciation arising from the disposal of aged vessels during the past eighteen months. The Group recorded a gross profit of approximately US\$0.3 million in FY2012 compared to a gross loss of US\$11 million in FY2011.

Other income consists of interest income from banks and certificate of deposit, sundry income, and other one-off income. The Group recorded other income of US\$0.4 million in FY2012, a decrease of 32% compared to FY2011. This was largely due to a one-off insurance claim received in FY2011.

Other gains and losses consist of change in fair value of investment property, change in fair value of held-for-trading investments, gains and loss on the disposal of property, plant and equipment and exchange gains and loss. The Group recorded other losses of approximately US\$3.8 million in FY2012 due to the disposal losses of aged vessels, namely MV Raffles, MV Valour, MV Cape Warrior, MV Courage and MV Panamax Leader. The Group recorded other losses of approximately US\$3.5 million in FY2011 due to the loss on disposal of three vessels, namely MV Bravery, MV Heroic and MV Zorina.

Administrative expenses increased by 6% as the Group maintained a relatively stable administrative cost.

The Group recorded other expenses of approximately US\$1.1 million in FY2012 compared to approximately US\$2.2 million in FY2011. It was due to the imputed interest income attributable to the interest-free long-term loan advanced by the Group in connection with a proposed property investment and a one-off claim against certain subsidiaries in relation to the termination of maintenance arrangements in FY2012 while the Group recorded listing expenses in FY2011.

The Group conducted a review of the Group's vessels and determined that a number of those assets were impaired, due to the decrease in utilisation rate and the corresponding fall in revenue. Accordingly, the Group had recorded an impairment loss of approximately US\$1.7 million in FY2012 and US\$9.5 million in FY2011. The recoverable amount of the vessels has been determined on the basis of their value in use.

The Group recorded finance costs of approximately US\$1.1 million in FY2012 compared to US\$0.4 million in FY2011 mainly due to new bank borrowings for the acquisition of the two supermax vessels.

The Group's subsidiaries recorded an income tax expense of US\$6,000 during FY2012 compared to approximately US\$26,000 in FY2011.

The Group recorded other comprehensive income of approximately US\$0.5 million in FY2012 due to the surplus on revaluation of the Group's leasehold land and building. The Group recorded such income for approximately US\$0.7 million in FY2011.

Overall, due to the Group's recorded losses on disposal and impairment losses of vessels, the Group recorded a net loss of approximately US\$10.7 million in FY2012 compared to US\$29.5 million in FY2011.

Cashflow

There was a net increase in cash and cash equivalents of approximately US\$5.2 million in FY2012 due to the net proceeds from the disposal of vessels and new bank loan obtained. The Group was in a net cash position, with cash and bank balances of approximately US\$21.9 million as at 31 December 2012.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

Not Applicable

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The dry bulk market remains weak and the BDI, which has a close correlation to freight rates, is low at the current 700 level. Low demand for commodities in the Greater China Region, and the over-supply of vessels has led to pressure on the freight rates in the dry bulk market. The Group remains cautious on the outlook for 2013.

Subsequent to the year ended 2012, the Group acquired and took delivery of another second-hand capesize vessel for a cash consideration of US\$7.5 million. The updated tonnage of the Group's fleet is approximately 410,000 dwt. The Group also obtained a bank term loan for the aggregate principal amount of US\$4 million for working capital purposes. With the replacement of the vessels, the Group is well placed to have higher efficiency in the event the dry bulk market recovers in full.

The Group expects the financial performance for 2013 to be adversely affected by the current challenging economic conditions and uncertain outlook. However, the Group will maintain its cost-effective structure and focus on keeping its fleet well-deployed and running efficiently.
