Turnover

2Q2015

The Group turnover decreased by 62% from approximately US\$4.5 million in 2Q14 to US\$1.7 million in 2Q15, reflecting the poor dry bulk market and low freight rate. The Baltic Dry Index (the "BDI") remained low and was at the 600 level during most of 2Q15.

1H2015

The Group turnover decreased by 70% from approximately US\$9.8 million in the six months ended 30 June 2014 to approximately US\$3 million in the six months ended 30 June 2015. The dry bulk market was under intense pressure and the BDI was at the 500 - 700 level during 1H2015.

Profitability

2Q2015

The Group's cost of sales decreased by 41% from approximately US\$5.4 million in 2Q14 to approximately US\$3.2 million in 2Q15. It was mainly due to less variable cost consumed with less fleet utilisation. The Group recorded a gross loss of US\$1.4 million in 2Q15 compared to a gross loss of US\$0.9 million in 2Q14.

Other income consists of interest income from banks and certificate of deposit, sundry income, and other one-off income. The Group recorded other income of US\$150,000 in 2Q15, a decrease of 6% compared to 2Q14. This was mainly due to less interest income from bank deposits.

Other gains and losses consist of changes in fair value of investment property, changes in fair value of held-for-trading investments, gains and losses on the disposal of fixed assets and exchange gains and losses. The Group recorded other losses of approximately US\$1.4 million in 2Q15 due to the disposal loss of MV Cape Pioneer. The Group recorded other gains of approximately US\$1.5 million in 2Q14 due to the disposal gain of MV Cape Warrior.

Administrative expenses decreased by 12% from approximately US\$0.7 million in 2Q14 to approximately US\$0.6 million in 2Q15 as the Group had less legal and professional expenses during the quarter.

The Group conducted a review of the Group's vessels and other receivables and determined that a number of those assets were impaired. The Group recorded other expenses of approximately US\$11.1 million in 2Q15 as there were further impairment loss on deposits paid in connection with an earlier co-trading arrangement entered into by the Group (following which such deposits have been fully provided for) and impairment loss in respect of the vessels in light of decrease in revenue, utilisation rate, and market value of the vessels and scrap materials. The recoverable amount of the vessels has been determined on the basis of their value in use. The Group recorded other expenses of US\$0.5 million in 2Q14 due to the impairment loss on deposits paid in connection with an earlier co-trading arrangement entered into by the Group and discount effect on the long-term loan advanced.

The Group recorded finance costs of approximately US\$0.3 million in 2Q15 compared to US\$0.4 million in 2Q14 mainly due to the bank borrowings.

The Group's subsidiaries recorded an income tax credit of US\$43,000 during 2Q15 compared to approximately US\$23,000 in 2Q14. It was due mainly to the over-provision of the deferred tax liability in the previous year.

The Group recorded a gain on revaluation of owner-occupied property for approximately US\$0.3 million in 2Q15 compared to a gain of US\$0.2 million in 2Q14.

The Group recorded a deferred tax charge on revaluation of leasehold land and building for approximately US\$43,000 in 2Q15 compared to a deferred tax charge of approximately US\$17,000 in 2Q14.

Overall, the Group recorded a higher net loss of approximately US\$14.4 million in 2Q15 due to lower turnover with lower freight rate, disposal loss of MV Cape Pioneer, and the impairment loss of the Group's vessels' value in use and deposits paid in connection with an earlier co-trading arrangement entered into by the Group.

1H2015

The Group's cost of sales decreased by 44% from approximately US\$10.8 million in 1H14 to approximately US\$6 million in 1H15. It was mainly due to less variable cost consumed with less fleet utilisation. The Group recorded a gross loss of US\$3.1 million in 1H15 compared to a gross loss of US\$0.9 million in 1H14.

Other income consists of interest income from banks and certificate of deposit, sundry income, and other one-off income. The Group recorded other income of US\$0.2 million in 1H15, an increase of 8% compared to 1H14. This was largely due to a one-off interest income received in 1H15.

Other gains and losses consist of changes in fair value of investment property, changes in fair value of held-for-trading investments, gains and losses on the disposal of fixed assets and exchange gains and losses. The Group recorded other losses of approximately US\$1.4 million in 1H15 due to the disposal loss of MV Cape Pioneer. The Group recorded other gains of approximately US\$1.4 million in 1H14 due to the disposal gain of MV Cape Warrior.

Administrative expenses decreased by 16% from approximately US\$1.4 million in 1H14 to approximately US\$1.1 million in 1H15 as the Group had less legal and professional expenses during the period.

The Group conducted a review of the Group's vessels and other receivables and determined that a number of those assets were impaired. The Group recorded other expenses of approximately US\$11.1 million in 1H15 as there were impairment loss on deposits paid in connection with an earlier co-trading arrangement entered into by the Group (following which such deposits have been fully provided for) and impairment loss in respect of the vessels in light of decrease in revenue, utilisation rate, and market value of the vessels and scrap materials. The recoverable amount of the vessels has been determined on the basis of their value in use. The Group recorded other expenses of US\$0.5 million in 1H14 due to the further impairment loss on deposits paid in connection with an earlier co-trading arrangement entered into by the Group and discount effect on the long-term loan advanced to a joint venture.

The Group recorded finance costs of approximately US\$0.6 million in 1H15 compared to US\$0.7 million in 1H14 mainly due to the bank borrowings.

The Group recorded a gain on revaluation of owner-occupied property for approximately US\$0.3 million in 1H15 compared to a gain of US\$0.2 million in 1H14 following a re-valuation by an independent valuer who was appropriate qualification and relevant experience in the valuation of similar property in the relevant location.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Group's financial performance for 1H2015 was in line with the Group's commentary in the financial results announcement of the Group for FY2014 dated 27 February 2015, as updated in the Group's profit guidance announcement dated 6 August 2015.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.

The dry bulk market remains poor during the recent months. The BDI, which has a close correlation to freight rates, was around the 500 - 700 level during the first half of 2015. Low demand of commodities in the Greater China Region, and over-supply of vessels led to more pressure on the freight rates of the dry bulk market. Although the BDI climbs up gradually to 1,200 level in July and August, the Group remains cautious on the outlook for the next 12 months.

During 2Q15, the Group had disposed a Capesize vessel and recorded a loss on disposal of approximately US\$1.4 million subject to the finalisation of such amount pursuant to audit of FY2015. The updated tonnage of the Group's fleet is approximately 186,000 dwt. Fleet utilisation is expected to remain low for the rest of the year. Due to poor operating environment, the Group will continue to explore various options for reducing costs, including operating costs.

In view of the foregoing, the financial performance of the Group for 2015 will continue to be adversely affected by the current challenging economic conditions.
