Global Mastermind Holdings Limited (the “**Company**”) and its subsidiaries (collectively, the “**Group**”) recorded a loss attributable to owners of the Company of HK\$29,147,000 for the nine months ended 30 September 2017 (for the nine months ended 30 September 2016: HK\$41,674,000), representing basic loss per share of HK0.77 cent (for the nine months ended 30 September 2016: HK1.98 cents). The decrease in loss attributable to owners of the Company was mainly contributed by the increase in interest income derived by money lending business; the absence of impairment loss on available-for-sale investments; and the net realized gain on securities investment during the nine months ended 30 September 2017.

Revenue and profitability

For the nine months ended 30 September 2017, the consolidated revenue of the Group amounted to HK\$35,699,000 (for the nine months ended 30 September 2016: HK\$29,761,000) comprised of (i) service income from provision of travel related products and services of HK\$23,949,000 (for the nine months ended 30 September 2016: HK\$27,412,000); (ii) interest income from money lending business of HK\$10,519,000 (for the nine months ended 30 September 2016: HK\$6,020,000); (iii) net realized gain on securities investment of HK\$1,219,000 (for the nine months ended 30 September 2016: net realized loss of HK\$3,671,000); and (iv) financial services income of HK\$12,000 (including brokerage commissions and interest income from margin financing) (for the nine months ended 30 September 2016: Nil), representing an increase of 20.0% as compared to the corresponding period of last year. The increase was mainly contributed by interest income derived by money lending business and the net realized gain on securities investment.

The revenue arising from travel business in Singapore consists of agency commission and service income (both from customers and suppliers) generated from the provision of travel related products and services, including airtickets, hotel rooms, Free Independent Traveler ("**FIT**") packages and ground transportation handling services.

Corporate customers are business travelers who require travel products and services for their travel purposes. Wholesale customers are usually travel services providers who purchase airtickets, hotel rooms, FIT packages and other travel related products. Meetings, Incentives, Conventions and Exhibitions ("**MICE**") customers refer to customers who are mainly corporate customers, convention organizers and special projects organizers who require one stop professional MICE/special project/event management services.

The revenue arising from travel agency operation in Hong Kong consists of rendering travel agency services related to air ticketing and flight/hotel packages.

For the nine months ended 30 September 2017, approximately 67.1% or HK\$23,949,000 (for the nine months ended 30 September 2016: HK\$27,412,000) of the total revenue was derived from the provision of travel related products and services of which HK\$22,157,000 (for the nine months ended 30 September 2016: HK\$26,285,000) and HK\$1,792,000 (for the nine months ended 30 September 2016: HK\$1,127,000) was generated from the market in Singapore and Hong Kong respectively.

The interest income revenue derived from the provision of money lending services amounted to HK\$10,519,000 for the nine months ended 30 September 2017 (for the nine months ended 30 September 2016: HK\$6,020,000), representing approximately 29.5% of the total revenue.

For treasury management business, net realized gain of HK\$1,219,000 was generated from securities investment (for the nine months ended 30 September 2016: net realized loss of HK\$3,671,000), representing approximately 3.4% of the total revenue for the nine months ended 30 September 2017.

For the newly developed financial services business, revenue of HK\$12,000 was generated, including brokerage commissions of HK\$9,000 and interest income from margin financing of HK\$3,000 for the nine months ended 30 September 2017.

Other income

Other income for the nine months ended 30 September 2017 amounted to HK\$7,568,000, representing an increase of 1.3 times as compared to HK\$3,241,000 for the corresponding period of last year. Such increase was mainly contributed by increase in management and administrative income and incentive income.

Expenditure

For the reporting period, staff costs amounted to HK\$41,114,000 (for the nine months ended 30 September 2016: HK\$30,448,000). Depreciation and amortization expenses amounted to HK\$6,704,000 (for the nine months ended 30 September 2016: HK\$8,104,000). Other expenses amounted to HK\$13,888,000 (for the nine months ended 30 September 2016: HK\$15,293,000).

The increase in 35.0% in staff costs was mainly attributed to the provision of share option expense of HK\$10,840,000, including HK\$4,132,000 and HK\$6,708,000 of share option expenses for the share options granted to a director, certain senior management and employees during the three months ended 30 June 2017 and 30 September 2017 respectively.

Share of loss of a joint venture

On 30 July 2013, the Group entered into an agreement with a venturer to form a joint venture which principally engages in the business of operating as tours and travel agents in Malaysia at a cash consideration of HK\$14 million and the transaction was completed on 31 August 2013. Since then, the Group has been entitled to receive a management fee which was equivalent to 90% of the profit before taxation of its Malaysia travel business.

During the nine months ended 30 September 2017, the Group shared a loss from the joint venture amounting to HK\$67,000 (for the nine months ended 30 September 2016: profit of HK\$46,000).

Impairment loss on intangible assets

The management performs regular review on the carrying values of intangible assets of the acquired business to determine any potential impairment loss.

During the six months ended 30 June 2017, the management, with the assistance of an independent professional qualified valuer not connected with the Group, reviewed the carrying amounts of the intangible assets, which were purchased as part of the acquisition of Safe2Travel Pte Ltd completed on 30 March 2011 and was recognized as their fair value at the date of acquisition, were higher than the respective recoverable amounts, an impairment loss of HK\$10,000,000 (for the six months ended 30 June 2016: HK\$8,000,000) was recognised in profit or loss during the period.

During the three months ended 30 September 2017 and 2016, the management further reviewed the carrying amounts of the intangible assets, as compared with the impairment test conducted in the second quarter of the corresponding year, which were lower than the respective recoverable amounts. No impairment loss was identified on the intangible assets during both periods.

Finance costs

The finance costs of HK\$499,000 (for the nine months ended 30 September 2016: HK\$1,816,000) was attributed to the interest on short term bank borrowings and bank overdrafts during the reporting period.

BUSINESS REVIEW

Travel business

During the period under review, the performance of the segment in travel business was still not satisfactory. Although the travel business in Hong Kong recorded a growth in revenue to HK\$1,792,000 for the nine months ended 30 September 2017 (for the nine months ended 30 September 2016: HK\$1,127,000), stringent and competitive business environment exerted pressure on the Group's travel business in Singapore led to a decrease in the revenue of travel business in Singapore to HK\$22,157,000 for the nine months ended 30 September 2017 (for the nine months ended 30 September 2016: HK\$26,285,000).

Money lending business

Discloseable transaction in relation to the provision of financial assistance

On 1 August 2017, a loan agreement was entered into between Global Mastermind Financial Services Limited ("**Global Mastermind Financial Services**"), an indirect wholly-owned subsidiary of the Company and a licensed money lender in Hong Kong, as lender and an independent third party, as borrower, pursuant to which Global Mastermind Financial Services had conditionally agreed to grant a term loan up to a principal amount of HK\$58 million to the borrower for a term of 12 months from the date of drawdown with an interest rate of 8% per annum. As all of the relevant applicable percentage ratios in respect of the grant of the term loan under the loan agreement were more than 5% but less than 25%, the grant of the term loan under the loan agreement constituted a discloseable transaction of the Company and was only subject to the announcement requirement under Chapter 19 of the GEM Listing Rules. Details of the loan agreement were set out in the Company's announcement dated 1 August 2017.

During the reporting period, the Group's money lending business generated interest income on loans of HK\$10,519,000 (for the nine months ended 30 September 2016: HK\$6,020,000). The increase was attributable to the increase in the average monthly balance of loan receivables. The average monthly balance of loan receivables increased from HK\$113,571,000 in the nine months ended 30 September 2016 to HK\$152,633,000 in the nine months ended 30 September 2017. During the period under review, the Group granted new loans in the aggregate principal amount of HK\$122,126,000 to its customers and received prepayment and repayment of HK\$96,803,000 from its customers. At the end of the reporting period, the directors assessed the collectability of loans receivables. As there was no objective evidence that the Group would not be able to collect all amounts due, no impairment loss on loans receivables was recognised.

Treasury management business

During the period under review, the Group acquired five Hong Kong equities with the aggregate market value of HK\$11,578,000 (for the nine months ended 30 September 2016: HK\$35,431,000). In addition, the Group disposed Hong Kong equities with market value of HK\$31,710,000 (for the nine months ended 30 September 2016: HK\$31,461,000) with a carrying amount of financial assets at fair value through profit or loss plus transaction costs of HK\$30,689,000 (for the nine months ended 30 September 2016: HK\$35,530,000). Adding the dividend income from securities investment of HK\$198,000 (for the nine months ended 30 September 2016: HK\$398,000), the Group's trading of financial assets at fair value through profit or loss recorded a net realised gain of HK\$1,219,000 (for the nine months ended 30 September 2016: a net realised loss of HK\$3,671,000). At 30 September 2017, the Group remeasured its equity portfolio at market prices and recorded an unrealised loss of HK\$452,000 (for the nine months ended 30 September 2016: an unrealised gain of HK\$428,000) arising on change in fair value of financial assets at fair value through profit or loss.

Financial services business

In mid-September 2017, the Group's financial services business commenced in full operation for the provision of securities brokerage, securities margin financing, advising on securities business and asset management services. The revenue generated from the financial services business after its commencement till 30 September 2017, was HK\$12,000, including brokerage commissions of HK\$9,000 and interest income from margin financing of HK\$3,000.

Completion of placing of new shares under general mandate

On 13 June 2017, the Company and Kingston Securities Limited (the "**Placing Agent**") entered into a placing agreement (the "**Placing Agreement**"), pursuant to which the Company had conditionally agreed to place through the Placing Agent, on a best effort basis, of up to 710,450,000 new shares of the Company (the "**Placing Share(s)**"), to not less than six placees (the "**Placees**") at the price of HK\$0.1 (the "**Placing Price**") per Placing Share (the "**Placing**"). The gross proceeds from the Placing was amounted to approximately HK\$71.1 million and the net proceeds from the Placing was amounted to approximately HK\$68.3 million (the "**Net Proceeds**"). The Group intended to apply the Net Proceeds in the manner that (i) HK\$67.0 million from the Placing to provide a subordinated loan facility to Global Mastermind Securities Limited (the "**Subordinated Loan Facility**"), in particular, to further expand its securities margin financing business; and (ii) HK\$1.3 million from the Placing as general working capital for the Securities Business and/or the Advising on Securities Business. Details of the Placing were set out in the Company's announcement dated 13 June 2017. The Placing was completed on 3 July 2017.

OUTLOOK

In the coming quarters, the travel business environment is continuing to be challenging. The Group's profitability in travel business is facing pressure from the rising costs of operations, stiff price driven competition and stringent business environment. Our management team will cautiously monitor the market, adopt appropriate measures and business strategies in response to changing market conditions.

The Group will adopt a conservative investment approach towards its treasury management business in the coming quarters. The management will cautiously monitor Hong Kong equity, change the Group's equity portfolio mix from time to time and realise the equities held by the Group into cash as and when appropriate.

For the money lending business, the management will adopt a more cautious approach during its assessment and approval of new loans in order to mitigate its credit risk.

The management expects that the new financial services business will generate a new and stable income stream to and broaden the revenue base of the Group, so as to improve the Group's profitability over the long term.

EVENTS AFTER THE REPORTING PERIOD

On 25 October 2017, the Company announced that in order to provide more comprehensive services to its customers and create synergistic effects with the existing Securities Business, Advising on Securities Business and Asset Management Business of the Group, the Company, through Global Mastermind Futures Limited, its indirect wholly-owned subsidiary, had resolved to lodge application to the Securities Futures Commission for conducting Type 2 (dealing in futures contracts) regulated activity under the SFO. In this regard, the Company therefore intended to reallocate HK\$7.0 million of the Net Proceeds originally allocated for the Subordinated Loan Facility to pay part of the proposed paid-up share capital of Global Mastermind Futures Limited. As at the date of this report, HK\$7.0 million was utilised to pay part of the paid-up share capital of Global Mastermind Futures Limited.

7. IMPAIRMENT LOSS ON AVAILABLE-FOR-SALE ("AFS") INVESTMENTS

The Group's AFS investments are stated at fair value which were determined based on the quoted market bid prices available on The Stock Exchange of Hong Kong Limited.

In September 2016, the Group disposed of all of its AFS investments. During the three months ended 31 March 2016, a loss on fair value of AFS investments amounting to HK\$11,400,000 was reclassified to profit or loss from investment revaluation reserve. The fair value change of the AFS investments during the three months ended 30 June 2016 accumulated in the investment revaluation reserve amounting to HK\$5,400,000 together with a further loss on fair value upon disposal of HK\$7,886,000 resulted in a reclassification of HK\$2,486,000 from investment revaluation reserve to profit or loss during the three months ended 30 September 2016. Accordingly, the aggregate loss on the fair value of AFS investment recognised in profit or loss during the nine months ended 30 September 2016 was HK\$13,886,000.

8. IMPAIRMENT LOSS ON INTANGIBLE ASSETS

For the impairment testing, trade name and the customer relationship are allocated to the Group's cash generating units ("CGUs") identified according to business segment which is the travel business segment.

As of 30 June 2017, the management carried out the impairment assessment on the recoverable amount of the travel business's CGUs that was based on its value in use and was determined with the assistance of Ascent Partners Valuation Service Limited, an independent professional qualified valuer not connected with the Group. The calculation uses cash flow projections based on financial budgets approved by management covering a five-year period, and at a discount rate of 16.01% (30 June 2016: 15.30%). Cash flows after the five-year period were extrapolated using a 1.75% (30 June 2016: 2.58%) growth rate in considering the economic condition of the market. The growth rates used to extrapolate cash flow projections beyond the five-year period do not exceed the long-term average growth rate for the industry. Other key assumptions for the value in use calculations relate to the estimation of cash inflows which include budgeted sales and gross margin. Such estimation is based on the unit's past performance and management's expectations for the market development including the fluctuation in the travel business in the current economic environment. Both actual sales and profit generated from the travel business segment in Singapore have fallen below expectation, and therefore the management has revised the cash flow projections. In this regard, the management reviewed the current and expected performance of the travel business indicated that the carrying amounts of the CGUs were above the respective recoverable amounts. On this basis, the directors of the Company concluded that an impairment loss of HK\$10,000,000 (for the nine months ended 30 September 2016: HK\$8,000,000) was recognised in profit or loss in relation to trade name (for the nine months ended 30 September 2016: trade name and the customer relationship).

During the three months ended 30 September 2017 and 2016, the management of the Group further reviewed on the current and expected performance of travel business indicated that the recoverable amount, while reduced as compared with the impairment test conducted in the second quarter as described above, was above the respective carrying amount. On this basis, the directors of the Company concluded that there was no material impairment loss identified on the intangible assets in this regard.
