Income Statement

Profit after tax for the quarter stood at US\$16.5 million, an increase of 0.6% as compared to US\$16.4 million in the previous corresponding quarter. The following review sets out the factors that affected profit after tax for the quarter:

Revenue

Revenue decreased by 6.3% to US\$101.0 million quarter-on-quarter due mainly to lower revenue generated from both gaming and property development segments. The volatility in the gaming sector will continue to affect overall revenue performance. Hotel revenue was remain stable as compared to previous corresponding quarter.

Bass Strait oil and gas royalty

Income from the Bass Strait oil and gas royalty in Australia increased by 12.1% principally due to higher royalties received as a result of higher average crude oil and gas prices in the current quarter as compared to the same period a year ago.

Gain on disposal of investments/assets

The decrease in gain on disposal of investments/assets was mainly due to sale of a casino licence by Clermont Leisure UK in the previous corresponding quarter.

Direct costs of raw materials, consumables and services

The decrease in direct costs of raw materials, consumables and services by 4.9% for the quarter was due mainly to lower gaming duty in tandem with the decrease in revenue from gaming operations in the current quarter.

Personnel expenses

The decrease in personnel expenses for the quarter was mainly due to the saving on streamlining of hotel central support function as part of the on-going transformation and rebranding exercises in the UK.

Other operating expenses

The decrease in other operating expenses for the quarter reflecting overall cost disciplines for the Group and transformation cost incurred during the start-up stage in the previous corresponding quarter.

Net financing costs

Higher financing costs for the quarter were attributable to the translation effect of higher GBP/USD as compared to the previous corresponding quarter.

Income tax expense

The decrease in income tax expense was mainly due to higher tax provision on property development segment in the previous corresponding quarter.

Statement of Comprehensive Income

Total comprehensive loss for the quarter was US\$33.3 million. This included a net foreign exchange translation loss of US\$49.8 million as a result of translating the books of the Group's UK subsidiaries and the Bass Strait oil and gas royalty rights which are denominated in GBP and AUD respectively into the Group's reporting currency, which is USD. The GBP and AUD as at 30 September 2014 depreciated against the USD by 4.6% and 7.1% respectively as compared to 30 June 2014.

Statement of Financial Position

The Group's net assets before non-controlling interests decreased by 3.0% from US\$1,217.3 million as at 30 June 2014 to US\$1,180.1 million as at 30 September 2014. This is mainly attributable to net foreign exchange translation loss referred to above.

Excluding the effects of currency translation, other significant factors that affected the Group's net assets as at 30 September 2014 were as follows:

- a) Trade and other receivables – decrease was primarily due to lower outstanding debts and prepayments for the hotel segment during the quarter.
- b) Cash and cash equivalents – increase was mainly due to receipt of royalty distribution offset by the purchase of shares of the Company for ESOS 2008 during the quarter.
- c) Short term loans and borrowings – decrease was due to partial repayment during the quarter given higher liquidity.
- d) Trade and other payables – decrease was mainly due to scheduled settlement of creditor liabilities.
- e) Corporate tax payable – increase was mainly due to tax provision on higher royalty income received during the quarter.
- f) Provisions – decrease was due to actual pension payments made during the quarter.

Statement of Cash Flows

A positive net cash flow of US\$12.3 million was recorded for the quarter as compared with US\$15.4 million in the previous corresponding quarter. This was mainly due to lower cash flow from gaming operations in the current quarter.

9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results

The Group has not previously released any forecast or prospect statements.

10. A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months

The refurbishment programme for our hotels is in progress and is expected to continue over the next 12 months. The impact of rooms not available for sale due to the refurbishment will continue to be felt over this period. The London hotel market is expected to continue to grow over the next year albeit at a slower pace, with most, if not all, of the growth likely coming through rising average daily rate as occupancy levels have peaked across the city. The soft launch of group's first hotel under its new "Amba" brand will take place in the final quarter of 2014. The group is on track to complete the refurbishment and expects to open the first hotel under its new "every" brand in the first quarter of 2015.
