INFORMATION OF ALLIANCE INVESTMENT AND VAST KING

Alliance Investment is a company incorporated in the British Virgin Islands and owned as to 40% by Novel Alliance, a wholly-owned subsidiary of the Company, and 60% by Vast King. As such, Alliance Investment is an affiliated company of the Company. Alliance Investment is the holding company of several operating subsidiaries which are principally engaged in manufacturing footwear in central Vietnam.

Vast King belongs to the Evervan Group, which is one of the leading international footwear manufacturers and principally engaged in the manufacturing and distribution of footwear products which covers internationally-recognised branded sports shoes, basketball shoes, tennis shoes, baseball shoes and other products.

To the best of the Directors' knowledge, information and belief, having made all reasonable enquiries, Vast King and its ultimate beneficial owners are Independent Third Parties to the Company.

REASONS FOR THE 2019 FINANCIAL ASSISTANCE

The Group is principally engaged in the business of manufacturing and trading of footwear. The Directors anticipate that with the strong background of Evervan Group in production of international top-of-the-line sports shoes, synergies can be achieved through the joint venture. The Alliance Group seeks to broaden its customers base and product range, particularly to penetrate into the manufacturing of more high-end footwear products. The Directors believe that the Alliance Group will help lead the Group's foray into more complicated and innovative footwear products.

Owing to the business plan of the Alliance Group being lagged behind the original schedule, the Alliance Group recorded losses for the year ended 31 March 2018. Nonetheless, as disclosed in the interim report of the Company for the six months ended 30 September 2018, Alliance Group's orders were expected to increase in fiscal year 2019/20 in view of the positive feedback from customers. As such, to facilitate such business development, the Group had further invested approximately US\$800,000 (equivalent to HK\$6,240,000) in Alliance Investment in the second half of the financial year ended 31 March 2019. For the year ended 31 March 2019, the Alliance Group made further progress in adapting its manufacturing business to an ever-changing market environment. It focused more on enhancing its lean manufacturing and efficiency, upgrading its equipment and machineries, and improving its technological innovation and process automation to improve efficiency in line with customer demand. As such, it is expected that the overall financial performance of the Alliance Group for the year ended 31 March 2019 has improved when compared to the year ended 31 March 2018. In line with a new customer's demand, the 2019 Financial Assistance to Alliance Investment will mainly be used for building a new factory building and ancillary facilities, purchase of machineries and modification of additional production lines to suit the production requirements for the new customer and general working capital of the Alliance Group. Having considered the improving performance and in line with the customers' demand of the Alliance Group, the Directors are of the view that the provision of 2019 Financial Assistance to Alliance Investment is fair and reasonable and in the interests of the Group and the Shareholders as a whole.
