CHAIRMAN'S STATEMENT AND MANAGEMENT DISCUSSION AND ANALYSIS

PROSPECT

The US Federal Reserve had increased the interest rate again in December 2017, March 2018 and June 2018. As Hong Kong dollar is pegged to the US dollar, Hong Kong may follow to increase its interest rate in the future. These may exert pressure on price on equity investments held by the Group, particular in high-yield equity investments. Besides, the slowdown in growth of Chinese economy may have a significant impact on Hong Kong's rental market.

The investment properties (particularly the small-sized residential units) in Hong Kong had recorded increase in market value in the first half year of 2018. However, officials from Hong Kong government stated that control measures on properties markets would not be withdrawn in the near term. Facing the new government policy proposals including a plan to make government-subsidised housing cheaper and impose vacancy tax on newly built but unsold homes and with the conditions for potential interest rate increase, investment properties in Hong Kong held by the Group might record decrease in market value as compared to the increase in previous years.

Under the uncertainties associated with the US-China trade war, and the devaluation of Renminbi, retreat of foreign investments from China and intensive competition in rental business in China, these may exert pressure on the revenue from provision of hotel-serviced villas, apartments and property management services in China. Despite of China's possible slower than expected economic growth, inflationary pressure on salaries, utilities expenses, properties renovation and quality enhancement expenses remains a key challenge to the Group.

The worldwide economy (especially Chinese and Hong Kong's economy) is performing more and more volatile, with regard to uncertainties brought by policy-driven markets. The Group will adopt its usual prudent capital and funding management to meet the challenges ahead, while strengthening the rental and property development business, and seizing further investment opportunities.
