**UNAUDITED KEY OPERATIONAL DATA  
FOR THE FOUR MONTHS ENDED 30 APRIL 2011**

[**Hong Kong, 26 May 2011**] Shougang Fushan Resources Group Limited is pleased to announce our unaudited key operational data of our three operating mines, namely Xingwu Coal Mine, Jinjiazhuang Coal Mine and Zhaiyadi Coal Mine for the four months ended 30 April 2011.

Raw coking coal production in the first 4 months 2011 increased by 19% y-o-y to 2.37 million tons compared with the corresponding period of 2010 at 2 million tons, reached 38% of total annual raw coking coal production of 6.23 million tons in 2010. Our clean coking coal production in the first 4 months 2011 increased by 67% y-o-y to 0.72 million tons compared with the corresponding period of 2010 at 0.43 million tons.

The average selling price (inclusive VAT) of raw coking coal in the first 4 months 2011 was RMB 1,021/ton and the average selling price (inclusive VAT) of clean coking coal in the first 4 months 2011 was RMB 1,804/ton.

In the view of our three operating mines in smooth operation with satisfactory result, the stable surge coking coal price and the continuous strict cost control implemented by the management in the first 4 months 2011, we believe the year of 2011 would be promising and contributed remarkable return to our shareholders and investors.

In addition, we take advantage of such favourable environment to further expand and strengthen our long-term strategic cooperation with major steel producers and make extensive efforts to develop our clean coal business. With strong financial strengths and solid liquidity position, the whole management team actively seeks business expansion through organic growth and acquisition of suitable targets in the PRC and overseas, whereby generating greater operating efficiency and delivering better returns to shareholders and investors in response to their continual support to us.
