The Group is developing to be a leading next generation mobile multimedia service provider. It addresses the rapidly growing demand for mobile and wireless video and internet content downloads with a very low cost and efficient solution based on the China-developed CMMB multicast technology. Consumers with untethered CMMB-enabled devices such as handsets, netbooks, MP4s, dongles, GPS, and LED panels can receive virtually unlimited and instant mobile video and Internet downloads anytime anywhere deliverable through a ubiquitous terrestrial and satellite network.

Developed by the State Administration of Radio, Film, and Television ("SARFT") of the People's Republic of China ("PRC") with collaboration from the United States of America, CMMB is one of the most advanced digital broadcasting (multicast) technologies invented in the 21 Century that enables mobile television ("TV") delivery and data delivery through Internet by the Internet Protocol ("IP data"). It is Orthogonal frequency-division multiplexing ("OFDM") based, and can readily interact with other OFDM technologies such as third generation mobile technology 3G, fourth generation mobile technology ("4G") based on Institute of Electrical and Electronics Engineers standards 802.16(e) ("WiMax") and 4G Long Term Evolution ("4G LTE"). The key feature of CMMB is that it can deliver streaming live mobile video and push-IP data in a massive quantity and instant speed simultaneously to an unlimited number of mobile users anytime anywhere at very low cost. CMMB has been widely deployed over 330 Chinese cities with the support of world's largest mobile network and supply-chain ecosystem.

The Group's main business will apply the CMMB technology to address the growing bottleneck caused by video and Internet data content distribution, which can no longer be accommodated by the conventional unicast — based mobile communication technologies. In China, its goal is to become a leading CMMB service provider. With effect on 19 May 2008, Mr. Wong Chau Chi ("Mr. Wong") had been re-designated as the chairman of the Company and Mr. Wong also remains as the chief executive officer of the Company. Given Mr. Wong has had extensive experience in the business of the Group and has performed satisfactorily since his joining of the Company in year 2007, particularly in soliciting for possible new business opportunities and deducing the overall strategic plan for the future development of the Company, the Board considers that it would benefit the Group if Mr. Wong is also in charge of overseeing the Company's operations as its chairman. The Board considers that this structure will not impair the balance of power and authority between the Board and the management of the Group. The Board will regularly review the effectiveness of this arrangement.
