INTERNAL CONTROL AND PRICING POLICY

In order to ensure that the terms for the supply of the Products and Services by the Company to HSH are not less favorable than those available to and from independent third parties and protect the interests of the Company and the Shareholders as a whole, the Company has adopted a set of internal control policies to supervise the Group's continuing connected transactions, including:

- (a) the prices for the Products and Services to be supplied by the Company to HSH will be negotiated on arm's length basis which are determined with reference to (i) the Group's standard pricing guideline (applicable to transactions with independent customers as well as connected persons of the Company) taken into account various factors including the supply and demand for such Products and Services, the costs of providing such Products and Services, their prevailing market prices and estimated inflation; and (ii) plus a certain percentage mark-up added to the standard price which will depend on factors such as carpet type, size of order, product specifications (material mix, design requirements and production complexity), production and delivery lead-time, in the range of 40% to 80%, subject to review by the Company on an annual basis. In addition, the gross profit from the supply of the Products to HSH will be similar to and within the range of the gross profit from supply of Products to other independent third parties;
- (b) the final prices for the Products and Services will be subject to the approval of the head of the Sales department. The relevant personnel of the Sales department of the Company will conduct regular checks to review and assess whether the transaction contemplated under the relevant continuing connected transaction are conducted in accordance with the terms of its respective agreements and will also update the abovementioned pricing policies on an annual basis for the purpose of considering if the price charged for a specific transaction is fair and reasonable;
- (c) the Company's auditors will conduct an annual review on the pricing and the annual caps of the continuing connected transactions. They will review the actual gross margins of all transactions and compare them with the third party customers' orders with reference to the size of orders and the products specification (arm's length justification); and
- (d) the independent non-executive Directors will conduct an annual review of the implementation and enforcement of the continuing connected transactions.

REASONS FOR AND BENEFITS OF THE NEW PRODUCTS AND SERVICES SUPPLY AGREEMENT
