

ASX Announcement

28 March 2011

Corrections to Presentation of 24 March

China Yunnan Copper Australia Limited (CYU) advises of the following corrections to the presentation lodged on 24 March:

Slide 15

The third bullet point that was originally

- Intercept and follow up drilling will result in extension of Inferred JORC resource total rare earth oxides (TREOs).

Has been revised to

- Intercept and follow up drilling will aim to extend Inferred JORC resource total rare earth oxides (TREOs).

Slide 21

The second bullet point that was originally

- Target 100Mt @ 1% copper and 120g/t silver.

Has been revised to

- Corporate Target 100Mt @ 1% copper and 120g/t silver.

A copy of the revised presentation is attached.
