Forward Looking Statements:

These materials include forward looking statements. Forward looking statements inherently involve subjective judgment & analysis & are subject to significant uncertainties, risks & contingencies, many of which are outside of the control of, & may be unknown to, the company.

Actual results and developments may vary materially from that expressed in these materials. The types of uncertainties which are relevant to the company may include, but are not limited to, commodity prices, political uncertainty, changes to the regulatory framework which applies to the business of the company & general economic conditions. Given these uncertainties, readers are cautioned not to place undue reliance on such forward looking statements.

Forward looking statements in these materials speak only at the date of issue. Subject to any continuing obligations under applicable law or any relevant stock exchange listing rules, the company undertakes any obligation to publicly update or revise any of the forward looking statements, changes in events, conditions or circumstances on which any such statement is based.

Some statements in this presentation regarding estimates or future events are forward looking statements. They involve risk and uncertainties that could cause actual results to differ from estimated results. Forward looking statements include estimates of future production, cash and total costs per ounce of production, reserve and mineralized material estimates, capital costs, and other estimates or prediction of future activities. They include statements preceded by words such as “believe,” “estimate,” “expect,” “intend,” “will,” and similar expressions. Actual results could differ materially depending on such things as political events, labour relations, currency fluctuations and other general economic conditions, market prices for Dominion Mining Limited and/or Kingsgate Consolidated Limited products, timing of permits and other government approvals and requirements, changes in operating conditions, lower than expected ore grades, unexpected ground and mining conditions, availability and cost of materials and equipment, and risks generally inherent in the ownership and operation of mining properties and investment in foreign countries.

General Disclaimer:

The information contained in this presentation is for informational purposes only and does not constitute an offer to issue, or arrange to issue securities or other financial products. The information contained in this presentation is not investment or financial product advice and has been prepared without taking into account the investment objectives, financial situation or particular needs of any person. To the maximum extent permitted by law, none of Dominion Mining Limited, Kingsgate Consolidated Limited, their respective directors, employees or agents, nor any other person accepts any liability including without limitation any liability arising out of fault or negligence for any loss caused from the use of the information contained in this presentation. No representation or warranty, express or implied, is given as to the accuracy, completeness or correctness, likelihood of achievement or reasonableness of any forecasts or other forward looking statements.

Competent Persons Statements:

Information in this presentation that relates to Kingsgate's Exploration Results, Mineral Resource and Ore Reserve estimates, geology, drilling and mineralisation, is based on information compiled by Ron James, who is an employee of the Kingsgate Group and is a member of The Australasian Institute of Mining and Metallurgy. Ron James is a Competent Person under the meaning of the JORC Code with respect to Exploration Results, Mineral Resource and Ore Reserve estimates, geology, drilling and mineralisation being presented. He has given his consent to the Public Reporting of these statements concerning Exploration Results, Mineral Resource and Ore Reserve estimates, geology, drilling and mineralisation, and is in agreement with the contents and format of this presentation.

The information in this presentation that relates to Dominion's Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Peter Bamford, Tony Poustie and Paul Androvic who are full-time employees of the Company, members of the Australasian Institute of Mining and Metallurgy. Peter Bamford, Tony Poustie and Paul Androvic have sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activity, which they are undertaking to qualify as Competent Persons as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Peter Bamford, Tony Poustie and Paul Androvic, consent to the inclusion in the report of the matters based on their information in the form and context in which it appears.

Delivering Shareholder Value

Dominion Transaction Summary

Offer

0.31 KCN shares per DOM share
Unanimously recommended by both Boards
Implemented by Scheme of Arrangement

Impact

Offer valued Dominion at A\$376M
Premium of 33% over pre bid price
Ownership ~76% KCN, ~24% DOM

Indicative timetable

Scheme documentation late Dec 2010
DOM shareholder meeting late Jan 2011
Transaction completion early Feb 2011

Overview of Dominion

- Challenger underground mine in South Australia
 - Gold production rate ~100,000 ounces pa
- Exploration targets to increase reserve and resource position
- Ungearing balance sheet and healthy cash balance
- Prospective portfolio of regional exploration tenements and applications in Western Australia, South Australia and Laos

Dominion's Challenger Gold Mine

- Reserves of 421,650 ounces (as at June 30, 2010)
- Resources of 950,220 ounces (as at June 30, 2010)
- 2010 production 81,000oz @ cash cost of \$697/oz
- Strong reserve increase since commencement and further reserve growth anticipated

Dominion Transaction Highlights

Production and exploration upside

**Robust production outlook
Potential 300,000oz pa gold production
Substantial prospective exploration**

Strong combined financial platform

**Enhanced cashflow from strong margins
No debt and A\$47M net cash
Ability to pursue further growth**

Geographic and operational diversity

**Two operating mines
Geographic diversification
Improved access to capital**

Combines strong complementary teams

**Significant open cut & u/ground expertise
Highly skilled exploration team**

Overview of Laguna Resources

- ASX listed (ASX:LRC)
- Offer of 1 KCN share for every 520 LRC shares
- Equivalent to approx. A\$0.02 per share or A\$22m
- Unanimously recommended by LRC Board
- Management team in Santiago and Copiapo
- Main asset is the Arqueros advanced project in the world-class Maricunga Belt of Northern Chile.
- Portfolio of gold exploration projects in the region

ARQUEROS ●

Santiago ●

Arqueros Project Well Located

- Arqueros located in the world-class Maricunga Gold-Silver Belt
- Maricunga Belt
 - Host to over 70Moz gold resources
 - Produced over 10Moz gold
 - Currently producing ~500Kozpa
- Available infrastructure with access to power and water

Arqueros – Fast Track to Production

- 1.1 Million ounces gold equivalent (JORC Indicated + Inferred)
- Average grade of 1.5g/t gold equivalent (cut-off: 0.7 g/t)
- Target production of 100,000oz pa gold equivalent by open cut mine
- Plan to fast-track Arqueros through feasibility study into production
- Four additional high quality exploration gold projects in the Maricunga Belt

Growing gold producer

**Chatree Reserves
Increasing**

Drilling extensions to open pits
High grade veins beneath pits

**Production
Expanding**

Plant expansion on time and on budget
Commissioning expected Sept Qtr 2011

**Discovery
Potential**

Thailand: over 1300km² tenements
Stand alone prospects e.g. Chokdee
Extensive exploration program

**Diversified
Growth**

Australia: Dominion's Challenger gold mine
in South Aust and exploration
Chile: Laguna's Arqueros project and
exploration in Maricunga belt

Outlook for 2011

Production

Chatree steady at 120,000 – 130,000 ounces
Expansion expected to commission in
September Quarter 2011

Costs

Steady at the operational level but under
pressure from weakening US\$

Corporate

DOM scheme implemented in early Feb 2011
LRC takeover expected to be completed in
early - mid January 2011
