Dear Shareholder

GENERAL MEETING

As a result of achieving a number of significant business objectives over the last year, including listing American Depository Shares on the NASDAQ National Market and the successful completion of a Phase II cystic fibrosis clinical trial, the Company is proposing to undertake a global capital raising. This is to accelerate the commercial development of the Company's projects, to reach a strong revenue generating position sooner and to broaden the commercial opportunity for the Company's projects.

The global capital raising comprises of two parts:

- a placement of fully paid ordinary shares to institutional, sophisticated and professional investors primarily in Australia; and
- the issue of fully paid ordinary shares in the form of ADSs under a United States disclosure document to institutional, sophisticated, professional and retail investors, primarily in the United States,

(Global Capital Raising).

Wilson HTM Corporate Finance Ltd (**Wilson HTM**) and CIBC World Markets Corp. (**CIBC**) have been appointed as joint lead managers of the Global Capital Raising and will undertake a co-ordinated global bookbuild in connection with the Global Capital Raising. Pharmaxis proposes to issue up to 42.7 million shares in the Global Capital Raising, with the issue price determined by the Company following the bookbuild.

The proposed global capital raising arises from an increased interest in the Company by international markets and reflects the worldwide opportunity for the pharmaceutical products under development.

The funds raised in the Global Capital Raising will be used for the following purposes:

- to fund the final clinical development of Bronchitol for the treatment of cystic fibrosis;
- to prepare for the commercial launch of Aridol for the management of asthma;
- to broaden the commercial opportunity for Aridol by funding additional clinical studies in asthma and chronic obstructive pulmonary disease;
- to fund the clinical development of Bronchitol for the treatment of bronchiectasis and chronic bronchitis;
- to fund pre-clinical development of the Company's product pipeline; and
- to fund further expansion of our manufacturing facilities.

Shareholder approval is required in respect of the issue and allotment of the shares. A General Meeting of the Company has been convened for 10:30 am on 28 October 2005 at the Company's offices at Unit 2, 10 Rodborough Road Frenchs Forest NSW 2086 to consider the following:-

"The number of shares to be issued under the global capital raising exceeds the 15% share issue capacity limit in ASX Listing Rule 7.1. Shareholder approval is sought in order to issue and allot ordinary shares as part of the global capital raising."

I encourage you to vote on the resolutions contained in the notice of meeting either in person or by returning the enclosed proxy form.

Yours sincerely
