RIGHTS ISSUE

Issue Statistics

Basis of Rights Issue	: Nine (9) Rights Shares for every Share held by the Qualifying Shareholders at the close of business on the Record Date
Number of Shares in issue as at the Latest Practicable Date	: 12,360,000 Shares
Number of Rights Shares	: 111,240,000 Rights Shares
Subscription price	: HK\$0.1 per Rights Share

The nil-paid Rights Shares proposed to be provisionally allotted pursuant to the terms of the Rights Issue represent 900% of the existing issued share capital of the Company and 90% of the issued share capital of the Company as enlarged by the Rights Shares.

As at the Latest Practicable Date, the Company had no derivative, option, warrant and conversion right or other similar right which is convertible into Shares. Pursuant to the Underwriting Agreement, the Company has agreed that it shall not issue any Share or issue any option or other security which carries rights to acquire or convert into Shares (other than the Rights Shares) or repurchase its own Shares from the date of the Underwriting Agreement until after the Latest Time for Acceptance.

Qualifying Shareholders will be assured of receiving the number of Rights Shares accepted if acceptance is made for a number of Rights Shares equals to or less than the number of nil-paid Rights Shares provisionally allotted to them. The Rights Issue is permissible under the Bye-laws.

The Rights Issue is conditional on the Underwriting Agreement becoming unconditional, details of which are set out in the section headed “Conditions of the Underwriting Agreement” below. Accordingly, the Rights Issue may or may not proceed.

Qualifying Shareholders

The Company will send the Prospectus Documents only to the Qualifying Shareholders (but not the Excluded Shareholders). To qualify for the Rights Issue, a Shareholder must be registered as a member of the Company as at the close of business on the Record Date and not be an Excluded Shareholder.

In order to be registered as a member of the Company on the Record Date, all transfers of Shares (together with the relevant share certificates) must have been lodged with the Company’s registrar and its transfer office, Tengis Limited of 26th Floor, Tesbury Centre, 28 Queen’s Road East, Wanchai, Hong Kong not later than 4:00 p.m. on Friday, 16 March 2007.

LETTER FROM THE BOARD

Rights of Excluded Shareholders

If, at the close of business on the Record Date, a Shareholder's address on the register of members of the Company is in a place outside Hong Kong, such Shareholder may not be eligible to take part in the Rights Issue as the Prospectus Documents are not expected to be registered under the applicable securities legislation of any jurisdiction other than Hong Kong and Bermuda.

If at any time on or before the Record Date, there is any Overseas Shareholder, the Directors will make enquiries regarding the legal restrictions under the laws of the relevant place or the requirements of the relevant regulatory body or stock exchange for extending the Rights Issue to such Overseas Shareholder. The Directors will only exclude such Overseas Shareholder from the Rights Issue if it would be necessary or expedient to do so in accordance with Rule 13.36(2)(a) of the Listing Rules. If the Directors, after making enquiries, find it necessary or expedient to exclude such Overseas Shareholder from the Rights Issue, the Company will not make provisional allotment of the nil-paid Rights Shares or allotment of the fully-paid Rights Shares to such Overseas Shareholder. The Company will send copies of this prospectus to the Excluded Shareholders for their information only, but will not send any PAL to them.

The Company will arrange for the sale of the nil-paid Rights Shares which would otherwise have been provisionally allotted to the Excluded Shareholders as soon as practicable after dealings in nil-paid Rights Shares commence, if a premium, net of expenses, can be obtained therefor. The net proceeds of such sale (less expenses) will be paid to the relevant Excluded Shareholders in Hong Kong dollars pro rata to their shareholdings as soon as practicable after the relevant sale, except that the Company will keep individual amounts of less than HK\$100 for its own benefit.

Based on the register of members of the Company as at the Latest Practicable Date, the Directors noted that none of the Shareholders has maintained an address outside Hong Kong. Accordingly, there was no Excluded Shareholder for the Rights Issue.

Closure of register of members

The register of members of the Company had been closed from Monday, 19 March 2007 to Friday, 23 March 2007, both dates inclusive, to determine entitlements to participate in the Rights Issue. No transfer of Shares has been registered during this period.

No application for excess Rights Shares

After arm's length negotiation with the Underwriter, the Company has decided that no Qualifying Shareholder would be entitled to apply for any Rights Share which is in excess to its assured entitlements.

Any Rights Share not taken up by the Qualifying Shareholders or the transferees of the nil-paid Rights Shares and any unsold entitlements of the Excluded Shareholders will be taken up by the Underwriter.

LETTER FROM THE BOARD

Fractions of Rights Shares

Given the Rights Issue is on the basis of nine (9) Rights Shares for every Share held by the Qualifying Shareholders on the Record Date, there will be no fraction of Rights Shares.

Subscription price for the Rights Shares

The Subscription Price of HK\$0.1 per Rights Share will be payable in full when a Qualifying Shareholder accepts the Rights Shares or when a transferee of nil-paid Rights Shares subscribes for the Rights Shares, which price represents:

- (a) a discount of 97.50% to the equivalent closing price of HK\$4.0 per Share based on the closing price of HK\$0.40 per share of the Company (before the Capital Reorganisation) as quoted on the Stock Exchange on the Last Trading Day;
- (b) a discount of approximately 97.47% to the equivalent average closing price of HK\$3.95 per Share based on the average closing price per share of the Company (before the Capital Reorganisation) of approximately HK\$0.395 as quoted on the Stock Exchange for the last five trading days up to and including the Last Trading Day;
- (c) a discount of approximately 97.43% to the equivalent average closing price of HK\$3.89 per Share based on the average closing price per share of the Company (before the Capital Reorganisation) of approximately HK\$0.389 as quoted on the Stock Exchange for the last ten trading days up to and including the Last Trading Day;
- (d) a discount of approximately 79.59% to the theoretical ex-rights price of HK\$0.49 per Share based on the closing price of HK\$0.40 per share of the Company (before the Capital Reorganisation) as quoted on the Stock Exchange on the Last Trading Day;
- (e) a discount of approximately 97.34% to the equivalent audited net asset value of HK\$3.76 per Share based on the audited net asset value of approximately HK\$0.376 per share of the Company (before the Capital Reorganisation) as at 31 December 2005;
- (f) a discount of approximately 97.99% to the equivalent unaudited net asset value of HK\$4.97 per Share based on the unaudited net asset value of approximately HK\$0.497 per share of the Company (before the Capital Reorganisation) as at 30 June 2006; and
- (g) a discount of 97.50% to the closing price of HK\$4.0 per Share as quoted on the Stock Exchange on the Latest Practicable Date.

LETTER FROM THE BOARD

The Subscription Price was determined after arm's length negotiations between the Company and the Underwriter, with reference to the prevailing market price of the Shares, the unaudited net asset value per share of the Company (before the Capital Reorganisation) of approximately HK\$0.497 as at 30 June 2006, the financial position, performance and prospects of the Company.

As disclosed in the Company's 2004 and 2005 annual reports, the Company has recorded a loss of approximately HK\$0.6 million for the year ended 31 December 2004 and a loss of approximately HK\$0.9 million for the year ended 31 December 2005. However, according to the Company's unaudited interim report for the 6 months ended 30 June 2006, the Company has a profit of approximately HK\$14.9 million. It is due to the improvement of the Company's certain investments, in particular, its investment in a company whose principal activities are development of solar photovoltaic energy and production of energy related products. Given the accelerating demand for energy and related products worldwide, the Directors expect that the environmental and energy related business will have good prospects and plan to expand the Company's investment in environmental and energy business. Taking this together, the Directors consider the offer of the Rights Shares to Shareholders at the Subscription Price, which represents a significant discount to the market price and the net asset value per Share, would encourage the Shareholders to participate in the Rights Issue and would enhance the Company's improving performance and future growth.

Status of the Rights Shares

The fully-paid Rights Shares, when issued and allotted, will rank *pari passu* in all respects with the issued Shares. Holders of the fully-paid Rights Shares will be entitled to receive all future dividends and distributions declared, made or paid on or after the date of allotment and issue of the Rights Shares in their fully-paid form.

Share certificates

Subject to the fulfillment of the conditions of the Rights Issue, certificates for all the fully-paid Rights Shares are expected to be posted on or before Thursday, 19 April 2007 to those who have accepted and paid in full for the Rights Shares at their risk.

Application for listing and dealings

The Company has applied to the Listing Committee of the Stock Exchange for the listing of, and permission to deal in, the Rights Shares in both their nil-paid and fully-paid forms. It is expected that dealing in the Rights Shares in their nil-paid form will take place from Wednesday, 28 March 2007 to Wednesday, 4 April 2007 (both dates inclusive).

Subject to the granting of the listing of, and permission to deal in, the Rights Shares in both their nil-paid and fully-paid forms on the Stock Exchange as well as compliance with the stock admission requirements of HKSCC, the Rights Shares in their nil-paid and fully-paid forms will be accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the respective commencement dates of dealings in the Rights Shares in their nil-paid and fully-paid forms on the Stock Exchange or such other dates as determined by HKSCC. Settlement of transactions between participants of

LETTER FROM THE BOARD

the Stock Exchange on any trading day is required to take place in CCASS on the second trading day thereafter. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

Dealings in the Rights Shares in both their nil-paid and fully-paid forms will be subject to the payment of stamp duty and any other applicable fees and charges in Hong Kong.

Undertaking from Mr. Li

Mr. Li, who is beneficially interested in 1,810,000 Shares, representing approximately 14.64% of the total issued share capital of the Company as at the Latest Practicable Date, has given an irrevocable undertaking to accept or procure acceptance for all the 16,290,000 Rights Shares to be provisionally allotted to him pursuant to the Rights Issue. Assuming all the Rights Shares subject to the above undertaking have been fully allotted and issued to Mr. Li, Mr. Li's total shareholdings after the Rights Issue would amount to 18,100,000 Shares representing approximately 14.64% of the total issued share capital of the Company as enlarged by the Rights Issue.

UNDERWRITING ARRANGEMENT

As at the Latest Practicable Date, the Underwriter did not hold any Share and was not a connected person of the Company. - Assuming that no Qualifying Shareholder (except Mr. Li) or transferee of nil-paid Rights Shares will take up its provisional entitlements under the Rights Issue and all the Underwritten Shares will be taken up by the Underwriter (see also note 5 below).
- Assuming that all Qualifying Shareholders and transferees of the nil-paid Rights Shares will take up their provisional entitlements under the Rights Issue.
- Mr. Li has given an irrevocable undertaking to accept or procure acceptance for all the Rights Shares to be provisionally allotted to him pursuant to the Rights Issue.
- Pursuant to the Underwriting Agreement, the Underwriter undertook to the Company that it shall use its reasonable endeavours to ensure that the subscribers procured by it for the Shortfall Underwritten Shares shall be third parties who (i) are not connected persons of the Company; and (ii) are not acting in concert with any connected persons of the Company and their respective associates.
- Pursuant to the Underwriting Agreement, the Underwriter shall, in fulfilment of the Underwriting obligations to subscribe for (or procure subscribers to subscribe for) any Underwritten Share, take appropriate steps to ensure that any of the sub-underwriters, placees, subscribers or itself, together with parties acting in concert with any of them (if any) will not become a substantial Shareholder (i.e. having or owning more than 12,360,000 Shares, which represent 10% of the then entire issued share capital of the Company as enlarged by the Rights Issue) immediately after completion of the Rights Issue. The Underwriter will request each of the sub-underwriters to undertake that each of the subscribers procured by them will not be beneficially having or owning more than 12,360,000 Shares as a result of the placing under the sub-underwriting.

LETTER FROM THE BOARD

To the best knowledge of the Directors having made all reasonable enquiry, the Underwriter will use its best endeavours to procure that it will enter into sub-underwriting agreements with the sub-underwriters soon after the signing of the Underwriting Agreement to the effect that each of the Underwriter, sub-underwriters and its placees and parties acting in concert with any of them will not own 10% or more of the enlarged issued share capital of the Company immediately after completion of the Rights Issue. In the event that there are not sufficient subscribers and there arises any new substantial shareholder (as defined in the Listing Rules) of the Company after the completion of the Rights Issue, the Company may consider to accept such new substantial Shareholders(s), provided that such subscriber(s) undertake(s) to the Company that he/she/it/they will not nominate or procure others to nominate any new director to the Company so that the continuance of the management of the Company will be maintained. However, if there are not sufficient subscribers and thus, the Underwriter, any sub-underwriter or subscribers together with their respective concert parties may own 30% or more of the issued share capital of the Company after completion of the Rights Issue, the Rights Issue will not proceed due to Rule 21.04(4) of the Listing Rules.

WARNING OF THE RISKS OF DEALING IN SHARES

Shareholders should note that trading of Shares on ex-rights basis has commenced on Thursday, 15 March 2007, and dealing in the Rights Shares in their nil-paid form is expected to take place from Wednesday, 28 March 2007 to Wednesday, 4 April 2007 (both dates inclusive). Any person contemplating buying or selling the Shares from now up to the date on which all conditions of the Rights Issue are fulfilled and dealing in the Rights Shares in their nil-paid form between Wednesday, 28 March 2007 and Wednesday, 4 April 2007 (both dates inclusive) will bear the risk that the Rights Issue may not become unconditional and may not proceed. Investors should seek professional advice regarding dealings in Shares and nil-paid Rights Shares if they are in any doubt.

REASONS FOR THE RIGHTS ISSUE

The Company had not conducted any fund raising activity in the 12 months immediately before the date of the Announcement. The Directors consider that the Rights Issue represents an opportunity to raise equity capital for the Company for furthering its investment objectives and to make timely investment when investment opportunities arise.

In view of the current improving market conditions with numerous sizeable equity fund raising activities in the past two years, the Directors consider that it is prudent and more desirable to finance the Company's investment and long term growth by way of equity rather than debt.

Given that the Rights Issue would enable the existing Shareholders (save for the Excluded Shareholders) to maintain their relative percentage interests in the Company among themselves, which is in contrast with a private placement of Shares which will result in dilution of existing Shareholders' interests in the Company, the Directors have decided to proceed with the Rights Issue.

In addition, the Rights Issue allows the Qualifying Shareholders to participate in the future growth and development of the Company including the Company's diversified investments in environmental and energy related business and would at the same time enlarge the capital base of the Company.

LETTER FROM THE BOARD

USE OF PROCEEDS

The estimated net proceeds of the Rights Issue will be approximately HK\$10 million, all of which will be used for future investments. The Board proposes to use the proceeds of the Rights Issue for investment in listed or private companies whose principal activities are environmental and energy related activities. At present, there is no specified investment or potential investment identified by the Company.

BUSINESS REVIEW AND PROSPECTS

The Company is an investment company whose shares are listed on the Stock Exchange pursuant to Chapter 21 of the Listing Rules. The Company is principally engaged in the investments in listed and unlisted companies established in the People's Republic of China, Hong Kong, Taiwan, Australia and the United States.

The Company recorded a net profit of approximately HK\$14.9 million for the six months ended 30 June 2006 (2005: approximately HK\$2.7 million), representing an increase of approximately 4.5 times over the same period in 2005. This is mainly attributable to fair value gains from the Company's listed investments during the financial period.

During the six months ended 30 June 2006, the Company continued to invest in certain listed securities in Hong Kong, Australia and the United States, some of which are designed for short to medium term investments.

The Company followed its solid investment philosophy, acquiring securities that fit its portfolio objectives and disposing those that may have reached their respective target prices. During the six months ended 30 June 2006, the Company realised handsome gains from the disposal of certain listed investments. As at 30 June 2006, the Company continued to hold solid investment portfolio with exposure in high growth areas.

The favorable results of the Company for the first half of the fiscal year 2006 have outpaced the overall growth of the Hong Kong economy. The Company would likely maintain its current investment composition, with an overweight position in listed investments. Despite slightly favoring listed investments, the Company is always on the lookout for unlisted investments in high growth areas that could offer attractive return. Furthermore, the Company would seek direct investment opportunities in environmental and energy related business in the Greater China region. The Company remains confident of its investment philosophy and comfortable with its investment decisions and going forward, the Company remains prudent in its investment selection process and will continue to identify promising projects to invest in.

Significant effects on current, prior or future periods arising from the first-time application of the standards listed above in respect to presentation, recognition and measurement of accounts are described in the following notes:

In accordance with the transitional provisions of HKAS 39, it does not permit the recognition, derecognition and measurement of financial assets and liabilities in accordance with the standard on a retrospective basis. Accordingly, the reclassification is made on 1 January 2005 and the comparative figures have not been restated.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**(a) Basis of preparation**

The financial statements have been prepared on the historical cost basis as modified for revaluation of certain financial assets and financial liabilities as set out in notes 3(e) and 3(f) below.

It should be noted that accounting estimates and assumptions are used in the preparation of the financial statements. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

The significant accounting policies adopted in the preparation of these financial statements are set out below.

(b) Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Company and when the revenue can be measured reliably, on the following bases:

- (i) interest income is recognised on a time-proportion basis using the effective interest method; and
- (ii) Dividend income is recognised when the right to receive payment is established.

(c) Foreign currencies

The financial statements are presented in Hong Kong Dollars ("HK\$"), which is also the Company's functional currency.

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year-end exchange rates are recognised in the income statement.

(d) Impairment of assets

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). As a result, some assets are tested individually for impairment and some are tested at cash-generating unit level.

All individual assets or cash-generating units are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An impairment loss is recognised as an expense immediately for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of fair value, reflecting market conditions less costs to sell, and value in use based on an internal discounted cash flow evaluation.

An impairment loss is reversed if there has been a change in the estimates used to determine the asset's recoverable amount and only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(e) Financial assets

The Company's financial assets include financial assets at fair value through profit or loss, available-for-sale financial assets and other receivables.

The accounting policies adopted in respect of each category of financial assets are set out below:

In previous years, the Company recognised its investments in securities at fair value on a trade-date basis. At each balance sheet date, the net unrealised gains or losses arising from the changes in fair value of investments in securities were recognised in the income statement. Gains or losses on disposal of investments in securities, representing the difference between the net sales proceeds and the carrying amounts, were recognised in the income statement as they arose.

From 1 January 2005 onwards, the Company classified its financial assets as financial assets at fair value through profit or loss, available-for-sale financial assets, loans and receivables and held-to-maturity investments. Management determines the classification of its financial assets at initial recognition depending on the purpose for which the financial assets were acquired and where allowed and appropriate, re-evaluates this designation at every reporting date.

All financial assets are recognised on their trade date. When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

Derecognition of financial assets occurs when the rights to receive cash flows from the financial assets expire or are transferred and substantially all of the risks and rewards of ownership have been transferred. An assessment for impairment is undertaken at least at each balance sheet date whether or not there is objective evidence that a financial asset or a group of financial assets is impaired.

(i) Financial assets at fair value through profit or loss

This category comprises financial assets that are either held for trading or are designated by the Company to be carried at fair value through profit or loss on initial recognition.

Subsequent to initial recognition, financial assets at fair value through profit or loss are measured at fair value with changes in fair value recognised in the income statement. Financial assets originally designated as financial assets at fair value through profit or loss may not subsequently be re-classified.

(ii) Available-for-sale financial assets

Available-for-sale financial assets include non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets. All financial assets within this category are subsequently measured at fair value, with changes in value recognised in equity. Upon disposal, the cumulative gain or loss previously recognised in equity is transferred to the income statement. When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the asset is impaired, the cumulative loss that had been recognised directly in equity is removed from equity and recognised in the income statement even though the financial asset has not been derecognised. Impairment losses previously recognised in the income statement on equity instruments will not reverse through the income statement in subsequent periods. Impairment losses previously recognised in the income statement on debt securities are subsequently reversed through the income statement if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses at each balance sheet date subsequent to initial recognition. An impairment loss is recognised in income statement when there is objective evidence that the asset is impaired. The amount of the impairment loss is measured as the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not reverse in subsequent periods.

(iii) *Receivables*

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any impairment losses. Any changes in their value are recognised in income statement.

Receivables are provided against when objective evidence is received that the Company will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the write-down is determined as the difference between the asset's carrying amount and the present value of estimated future cash flows.

(f) Financial liabilities

The Company's financial liabilities include other payable and accrued charges. Financial liabilities are recognised when the Company becomes a party to the contractual agreements of the instrument. All interest related charges are recognised as an expense in finance costs in the income statement.

Payables are recognised initially at their fair value and subsequently measured at amortised cost, using the effective interest rate method.

(g) Income tax

Income tax comprises current and deferred tax.

Current income tax assets and/or liabilities comprise those obligations to, or claims from, fiscal authorities relating to the current or prior reporting period, that are unpaid at the balance sheet date. They are calculated according to the tax rates and tax laws applicable to the fiscal periods to which they relate, based on the taxable profit for the year. All changes to current tax assets or liabilities are recognised as a component of tax expense in the income statement.

Deferred tax is calculated using the liability method on temporary differences at the balance sheet date between the carrying amounts of assets and liabilities in the financial statements and their respective tax bases. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised for all deductible temporary differences, tax losses available to be carried forward as well as other unused tax credits, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses and unused tax credits can be utilised.

Deferred tax is calculated, without discounting, at tax rates that are expected to apply in the period the liability is settled or the asset realised, provided they are enacted or substantively enacted at the balance sheet date.

Changes in deferred tax assets or liabilities are recognised in the income statement, or in equity if they relate to items that are charged or credited directly to equity.

(h) Employee benefits

(i) Employee entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the balance sheet date.

Non-accumulating compensated absences are not recognised until the time of leave.

(ii) Pension obligations

The Company operates a defined contribution Mandatory Provident Fund retirement benefits scheme (the “MPF Scheme”) under the Mandatory Provident Fund Schemes Ordinance, for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees’ relevant income and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Company in an independently administered fund. The Company’s employer contributions vest fully with the employees when contributed into the MPF Scheme.

(i) Cash and cash equivalents

Cash and cash equivalents include cash at bank and in hand and form an integral part of the Company’s cash management.

(j) Equity

Share capital is determined using the nominal value of shares that have been issued.

Share premium includes any premiums received on the initial issuing of the share capital. Any transaction costs associated with the issuing of shares are deducted from share premium, net of any related income tax benefits.

(k) Operating leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Annual rentals applicable to such operating leases are charged to the income statement on the straight-line basis over the lease terms.

(l) Related parties

A party is considered to be related to the Company if:

- (i) directly, or indirectly through one or more intermediaries, the party:
 - controls, is controlled by, or is under common control with, the Company;
 - has an interest in the Company that gives it significant influence over the Company; or
 - has joint control over the Company;
- (ii) the party is an associate;

- (iii) the party is a jointly-controlled entity;
- (iv) the party is a member of the key management personnel of the Company;
- (v) the party is a close member of the family of any individual referred to in (iv); or
- (vi) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individuals referred to in (iv) or (v); or
- (vii) the party is a post-employment benefit plan for the benefit of employees of the Company, or of any entity that is a related party of the Company.

19. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company does not have written risk management policies and guidelines. However, the board of directors meets periodically to analyse and formulate measures to manage the Company's exposure to market risk, including principally changes in interest rates and currency exchange rates. Generally, the Company employs a conservative strategy regarding its risk management. As the Company's exposure to market risk is kept at a minimum level, the Company has not used any derivatives or other instruments for hedging purposes. The Company does not hold or issue derivative financial instruments for trading purposes.

As at 31 December 2005, the Company's financial assets and liabilities mainly consisted of bank balances and cash, financial assets at fair value through profit or loss, other receivables and deposits and other payables and accrued charges.

(i) Interest rate risk

The Company has no significant exposure to interest rate risks as the Company has sufficient surplus working capital, and no interest-bearing borrowings are required.

(ii) Foreign currency risk

The Company has no significant foreign currency risk due to limited foreign currency transactions.

(iii) Credit risks

The Company's bank balances are all deposited with banks in Hong Kong.

The carrying amounts of financial assets at fair value through profit or loss, other receivables and deposits in the balance sheet represent the Company's maximum exposure to credit risk in relation to the Company's financial assets. No other financial assets carry a significant exposure to credit risk.

(iv) Fair values

The fair value of the Company's financial assets and liabilities are not materially different from their carrying amounts because of the immediate or short term maturity of these financial instruments.

NOTES TO THE INTERIM FINANCIAL STATEMENTS

For the six months ended 30 June 2006

1. BASIS OF PREPARATION

The unaudited interim financial statements have been prepared in accordance with Hong Kong Accounting Standards ("HKAS") 34 "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and with applicable disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules"). They do not include all of the information required for full annual financial statements, and should be read in conjunction with the financial statements of the Company as at and for the year ended 31 December 2005.

The interim financial statements have not been audited, but have been reviewed by the Company's audit committee.

2. SUMMARY OF PRINCIPAL ACCOUNTING POLICIES

The accounting policies and basis of preparation adopted in these unaudited interim financial statements are consistent with those adopted in the annual report for the year ended 31 December 2005.

The available-for-sale financial assets are non-derivative financial assets which are recognised initially at fair value, plus, directly attributable transaction costs. Subsequent to initial recognition, the financial assets within this category are measured at fair value, with changes in value recognised in equity. For available for sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, they are measured at cost less any identified impairment losses at each balance sheet date subsequent to initial recognition. An impairment loss is recognised in income statement when there is objective evidence that the asset is impaired. Such impairment loss will not reverse in subsequent periods.

The Company has not early adopted the following standards or interpretations that have been issued but are not yet effective. The directors of the Company anticipate that the application of these standards or interpretations will have no material impact on the interim financial statements of the Company.
