– Turnover

Turnover of the Group for the six months ended 30th September 2010 was HK\$115,786,000, a decrease of 13.9% as compared with the turnover of HK\$134,420,000 for the six months ended 30th September 2009. The decrease was mainly due to the following reasons:

- (a) 北京鴻聯九五信息產業有限公司 (Beijing Honglian 95 Information Industries Company Limited ("HL95")). a 49%-owned jointly controlled entity of the Group, is engaged in telecommunications/information valueadded services. The Group's share of the turnover of HL95 for the six months ended 30th September 2010 decreased by 12.5% to HK\$113,145,000 from HK\$129,263,000 for the six months ended 30th September 2009. The Group's share of the turnover of HL95 comprised HK\$60,321,000 (2009: HK\$59,640,000) from short messaging services ("SMS"), HK\$32,669,000 (2009: HK\$24,134,000) from call centres, HK\$7,229,000 (2009: HK\$15,746,000) from fixed-line interactive voice response system ("IVRS"), HK\$5,115,000 (2009: HK\$14,119,000) from mobile IVRS, HK\$5,715,000 (2009: HK\$10,163,000) from Internet-protocol ("IP") phone, and HK\$2,096,000 (2009: HK\$5,461,000) from other value-added services. The decrease in turnover was mainly due to the decrease in fixed-line IVRS revenue, mobile IVRS revenue and IP phone revenue, despite the increase in revenue from SMS revenue and call centre revenue. SMS revenue, which had been accounted for around half of HL95's turnover, exhibited a slight growth during the period. Increase in call centre revenue by 35.4% or HK\$8,535,000 was mainly due to the continuous expansion of call centre capacity from Beijing, Shenzhen and Foshan to other parts of China. HL95's call centre customer base has been extended to various industries of bank, telecom, insurance and utility. HL95 has become one of the largest reputable operators in the call centre industry in China. Fixed-line IVRS revenue decreased by 54.1% or HK\$8,517,000 due to aggressive marketing tactics and keen competition from HL95's main fixed-line IVRS competitors, China Telecom and China Unicom. The fixed-line IVRS business was also affected by the change in consumer habits to use less fixed line as main communication tool at home. Decrease in mobile IVRS revenue by 63.8% or HK\$9,004,000 was due to the regulatory measures imposed by the relevant authorities to restrict on the interactive programmes on the media during the period. Due to the keen competition from other IP phone providers, IP phone revenue decreased by 43.8% or HK\$4,448,000 during the period. Decrease in other value-added service revenue was mainly due to the decrease in revenue generated from the sales of calling cards for telecom operators.
- (b) 中信國檢信息技術有限公司 (China Credit Information Technology Company Limited ("CCIT")) (a 50%-owned jointly controlled entity of the Group) and 中信21世紀(中國)科技有限公司 (CITIC 21CN (China) Technology Company Limited ("CITIC 21CN Technology")) (a wholly-owned subsidiary of the Group), are engaged in the Product Identification, Authentication and Tracking System ("PIATS") business. The Group's share of the revenue of PIATS business for the six months ended 30th September 2010 decreased by 70.4% to HK\$1,501,000 from HK\$5,079,000 for the six months ended 30th September 2009. The decrease in revenue during this period was due to the consolidation of PIATS existing business and the reduction of the annual service subscription fee income during the period.
- (c) 廣東天圖科技有限公司 (Guangdong Grand Cycle Technology Company Limited ("Grand Cycle")), a whollyowned subsidiary of the Group, is engaged in software development and system integration services and its turnover for the six months ended 30th September 2010 was HK\$1,140,000 as compared with the turnover of HK\$78,000 for the six months ended 30th September 2009. The operations of Grand Cycle have been scaling down and the turnover for the current period represents those revenue generated from the outstanding system integration service contracts to the telecom industry.

FINANCIAL REVIEW (continued)

Results (continued)

Gross profit percentage

The Group reported a gross profit percentage of 23.2% during the six months ended 30th September 2010 as compared with the gross profit percentage of 27.5% during the six months ended 30th September 2009 because of the decrease in gross profit margin for both HL95 and PIATS businesses.

HL95's gross profit percentage decreased principally because both the revenue of fixed-line IVRS and mobile IVRS businesses, which were of higher average margin, were reduced during the period.

In the current period, CCIT and CITIC 21CN Technology continued to build the infrastructure for PIATS. With the reduction of the annual service subscription fee income, the gross loss of PIATS business was increased when compared with last corresponding period as most of its direct operating costs such as depreciation were fixed in nature.

- Other gains and losses

During the six months ended 30th September 2010, other gains and losses were HK\$761,000 as compared with HK\$17,608,000 for the six months ended 30th September 2009. Such obvious decrease was mainly attributable to the loss on change in fair value of held for trading investments of HK\$653,000 as contrasted with the gain of HK\$16,007,000 for the six months ended 30th September 2009. The investment market during the current period was relatively steady, unlike the strong rebound occurred in the last corresponding period after the financial crisis in 2008.

Administrative expenses

Administrative expenses for the six months ended 30th September 2010 was HK\$46,646,000, representing a decrease of 27.8% over HK\$64,566,000 for the six months ended 30th September 2009. Such decrease was principally due to the decrease in staff costs included in administrative expenses after the staff re-structuring of HL95 and PIATS businesses and that of staff cost re-arranging of HL95 on its call centre business during the period. Moreover, the whole Group had implemented stringent administrative cost control measures to improve efficiency.

- Share of profit of an associate

Share of profit of an associate represented the share of profit of a 30%-owned associate, 東方口岸科技有限公司 (Dongfang Customs Technology Company Limited ("Dongfang Customs")), which was engaged in electronic customs processing and other electronic government services. The share of profit of Dongfang Customs was HK\$4,035,000 for the six months ended 30th September 2010, a decrease of 47.4% as compared with HK\$7,664,000 for the six months ended 30th September 2009. Dongfang Customs has been upgrading its existing system by introducing more new and enhanced features to attract users using their services.

Net loss attributable to owners

Net loss attributable to owners for the six months ended 30th September 2010 was HK\$15,510,000, representing an increase of 357.1% over HK\$3,393,000 for the same period last year, mainly because of the decrease in turnover and gross profit percentage, and the obvious decrease in other gains and losses despite the substantial reduction in administrative expenses as explained above.

Loss per share

Basic and diluted loss per share was HK0.42 cents for the six months ended 30th September 2010, representing an increase of 357.1% over HK0.09 cents for the six months ended 30th September 2009.

FINANCIAL RESOURCES, LIQUIDITY AND FOREIGN EXCHANGE EXPOSURES

The financial positions of the Group as at 30th September 2010 and the corresponding comparative figures as at 31st March 2010 are summarised as follows:

	30th September 2010 <i>HK\$'000</i>	31st March 2010 <i>HK</i> \$'000
Current assets Including	291,712	296,899
 bank balances and cash (mainly denominated in Hong Kong dollar, United States dollar and Renminbi) debtors 	173,501 64,133	188,834 53,921
Current liabilities – including short-term bank loans	150,347 11,270	146,608 11,074
Current ratio (current asset/current liabilities)	1.94	2.03
Quick ratio (bank balances and cash and debtors/current liabilities)	1.58	1.66
Shareholders' equity	407,949	420,442
Gearing ratio (bank loans/shareholders' equity)	2.76%	2.63%

Bank balances and cash decreased by 8.1% from HK\$188,834,000 as at 31st March 2010 to HK\$173,501,000 as at 30th September 2010. The decrease in bank balances and cash was in line with the net cash used in operating activities resulted from the net loss of the Group incurred during the six months ended 30th September 2010.

As at 30th September 2010, trade debtors aged over 12 months were HK\$6,716,000 (31st March 2010: HK\$8,295,000), most of which were related to system integration and software development business.

Bank loans on the consolidated statement of financial position as at 30th September 2010 and 31st March 2010 were the Group's share of HL95's bank loans, which were short-term in nature, denominated in Renminbi and repayable within one year, and carried interest at prevailing market rates.

As at 30th September 2010, the Group reported relatively steady current and quick ratios. The current ratio was 1.94 (31st March 2010: 2.03), and the quick ratio was 1.58 (31st March 2010: 1.66).

FINANCIAL RESOURCES, LIQUIDITY AND FOREIGN EXCHANGE EXPOSURES (continued)

Shareholders' equity decreased from HK\$420,442,000 as at 31st March 2010 to HK\$407,949,000 as at 30th September 2010, mainly because of the net loss of the Group incurred during the six months ended 30th September 2010.

The Group's gearing ratio increased from 2.63% as at 31st March 2010 to 2.76% as at 30th September 2010, mainly because of the reduction in shareholders' equity resulting from the net loss of the Group incurred during the six months ended 30th September 2010.

The Group's operations and transactions are principally located in the PRC. Other than the bank balances and cash most of which are placed in fixed deposits and liquid investments denominated in US dollars or Hong Kong dollars, other assets and liabilities are mainly denominated in either Hong Kong dollars or Renminbi. The Directors believe that there will not be material fluctuation in the exchange rate of US dollars against Hong Kong dollars, the reporting currency, in the foreseeable future, and the gradual and slight increase in the exchange rate of Renmimbi against Hong Kong dollars would result in exchange gain for the Group as the net assets of the Group's operating subsidiaries and jointly controlled entities in PRC are denominated in Renmimbi. Therefore, the operations of the Group are not subject to significant exchange rate risk.

BUSINESS REVIEW

The Group is an integrated information and content service provider, emphasising on innovation as well as seeking ways to apply the latest information technology to provide unique information service to the PRC governmental departments, manufacturers, the pharmaceutical industry and consumers. The Group's major clients are sizable and prestigious PRC manufacturers. Our information service will also expedite the development of small to medium sized manufacturers. As a result, the Group has received strong support from the PRC government.

PIATS Business

CCIT and CITIC 21CN Technology, a jointly-controlled entity and a subsidiary of the Group respectively, are principally engaged in the provision of product tracking, recall and enforcement information services to relevant authorities in the PRC through the operation of PIATS; the provision of product tracking and logistics information services to manufacturers; and the provision of services to consumers for verifying product information and origins. With the support from the relevant authorities of the PRC since its launch, the application of PIATS has been broadly extended countrywide to various products such as food and beverage, agricultural resources, household appliances and drugs, through which staging achievement has been reached, enterprise product brand name and orderly market has been effectively maintained, and helping the market set up a product credit system that has been recognized by consumers, government and enterprises.

As to the area of electronic monitoring of drugs, the relevant authorities in the PRC have expressly stipulated the implementation scope and the work objectives of electronic monitoring of basic drugs under Basic Medicine Catalogue, and have since July 2010, organized enterprises throughout the country to undertake all necessary preparation work required for the implementation of the electronic monitoring project of drugs. The company is operating in coordination with the relevant authorities on both the state and local levels in providing training, consultation services and formulating plans for manufacturers, distributors and the relevant authorities, as well as safeguarding the smooth operation of network system of the electronic monitoring project. So as to ensure the smooth implementation of such project, the company has established a multi-channel service system that covers the whole country and consists of network system, call center and SMS etc.

BUSINESS REVIEW (continued)

PIATS Business (continued)

During the last year, the company also made plentiful attempts on the electronic monitoring of other products, such as agricultural resources and food, and gained certain achievements and experience. However, the company is unable to carry out full promotion in these areas as the relevant authorities in the PRC have not further issued supplemental work rules.

Future prospect

The advancement of electronic monitoring in the drugs under the Basic Medicine Catalogue implies that, the government will make electronic monitoring an important tool for the management of high-risk commodities. Pinpointing the various issues of dairy products under food category, the relevant authorities in the PRC is attempting to establish an information tracking system through the application of similar informationalized measures. The company will leverage on the successful and accumulated experience on PIATS and promote to further its cooperation with the relevant authorities in the PRC, so as to strive for the expansion of the scope and coverage of the application of PIATS. The management has confidence that PIATS can combat counterfeit and poor-quality commodities, improve commodity safety, and protect the interests of consumers and enterprises. Given that there are no other companies that can provide service similar to PIATS at the moment, the directors believe that is great potential for PIATS.

• HL95

HL95 is a nationwide telecommunications/information value-added services ("VAS") company in the PRC and is licensed by the Ministry of Industries and Information on the provision of SMS, IVRS and other telecom services in the PRC. HL95 provides IVRS services through both fixed telephone line network and mobile phone network, and SMS services through the mobile phone network (both in collaboration with the telecom operators) which covers the whole country. HL95 offers governmental, commercial and entertainment information through its SMS and IVRS services. HL95 also provides other telecommunication/information VAS such as IP phone service and customer care call centres services.

Future prospect

The rapid development of 3G and mobile internet will continuously create immense business opportunities for HL95. With many years of good long-term relationship with telecom operators and content providers, HL95 will work closely with them so as to provide the latest 3G contents. The traditional IVRS and IP Phone services will continue to be under challenge, with regulatory measures from time to time imposed by the telecom operators or the relevant authorities, and with fierce competition arisen from inherent competitive advantages possessed by telecom operators. In the coming years, HL95 will focus its resources on the expansion of call centre business, for which HL95 has accumulated successful experience and has earned good reputation in the PRC. In late 2009, HL95 received several industry awards for its good achievement in call centre management and outsourcing contact. The management considers that the call centre revenue will continue to grow rapidly. HL95 is an important platform for the Group since it enables the Group to promote the information services of PIATS. For example, CCIT and CITIC 21CN Technology, in providing the PIATS service, uses HL95's platform to enable consumers anywhere in the PRC to enquire product information by HL95's IVRS and SMS systems and call centres. The Directors believe that HL95 has good potential in the call centre industry and at the same time can provide valuable support to PIATS.

Dongfang Customs, a joint venture with the PRC Customs Department and China Telecom, is engaged in electronic customs processing and other electronic government services. Given that China is the manufacturing base for the world and the network platform of Dongfang Customs has been upgrading with more new and enhanced features to attract its established user base, such as technical support and database management services. 1. GENERAL

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The address of its registered office is at Canon's Court, 22 Victoria Street, Hamilton HM12, Bermuda.

The condensed consolidated financial statements are presented in Hong Kong dollars while the functional currency of the Company is Renminbi. The reason for selecting Hong Kong dollars as its presentation currency is because the Company is a public company in Hong Kong with the shares listed on the Stock Exchange.

The Company is an investment holding company. The Group is an integrated information and content service provider. The principal activities of the Group comprise telecommunication and information value-added services, the provision of Product Identification, Authentication and Tracking System ("PIATS"), system integration and software development.

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES

The condensed consolidated financial statements for the six months ended 30th September 2010 have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on the Stock Exchange and with Hong Kong Accounting Standard 34 "Interim Financial Reporting".

The condensed consolidated financial statements for the six months ended 30th September 2010 are unaudited and have been reviewed by the audit committee of the Company.

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values, as appropriate.

The condensed consolidated financial statements should be read in conjunction with the Group's annual financial statements for the year ended 31st March 2010. The accounting policies used in the preparation of these condensed consolidated financial statements are consistent with those used in the preparation of the Group's annual financial statements for the year ended 31st March 2010, except as described below.

In the current interim period, the Group has applied, for the first time, the following new and revised standards, amendments and interpretations ("new and revised HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

HKFRSs (Amendments)	Amendment to HKFRS 5 as part of Improvements to HKFRSs 2008
HKFRSs (Amendments)	Improvements to HKFRSs 2009
HKAS 27 (Revised)	Consolidated and separate financial statements
HKAS 39 (Amendment)	Eligible hedged items
HKFRS 1 (Amendment)	Additional exemptions for first-time adopters
HKFRS 2 (Amendment)	Group cash-settled share-based payment transactions
HKFRS 3 (Revised)	Business combinations
HK(IFRIC)-Int 17	Distributions of non-cash assets to owners

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES (continued)

The Group applies HKFRS 3 (Revised) Business Combinations prospectively to business combinations for which the acquisition date is on or after 1st January 2010. The requirements in HKAS 27 (Revised) Consolidated and Separate Financial Statements in relation to accounting for changes in ownership interests in a subsidiary after control is obtained and for loss of control of a subsidiary are also applied prospectively by the Group on or after 1st January 2010.

As there was no transaction during the current interim period in which HKFRS 3 (Revised) and HKAS 27 (Revised) are applicable, the application of HKFRS 3 (Revised), HKAS 27 (Revised) and the consequential amendments to other HKFRSs had no effect on the condensed consolidated financial statements of the Group for the current or prior accounting periods.

Results of the Group in future periods may be affected by future transactions for which HKFRS 3 (Revised), HKAS 27 (Revised) and the consequential amendments to the other HKFRSs are applicable.

The application of the other new and revised HKFRSs had no effect on the condensed consolidated financial statements of the Group for the current or prior accounting periods.

The Group has not early applied the following new and revised standards, amendments or interpretations that have been issued but are not yet effective:

HKFRS (Amendments)	Improvements to HKFRS issued in 2010 ¹
HKAS 24 (Revised)	Related party disclosures ⁴
HKAS 32 (Amendments)	Classification of rights issues ²

HKFRS 9	Financial instruments ⁶
HK(IFRIC)-Int 14 (Amendment)	Prepayments of a Minimum Funding Requirement ⁴
HK(IFRIC)-Int 19	Extinguishing Financial Liabilities with Equity Instruments ³

¹ Effective for annual periods beginning on or after 1st July 2010 or 1st January 2011, as appropriate

- ² Effective for annual periods beginning on or after 1st February 2010
- ³ Effective for annual periods beginning on or after 1st July 2010

- ⁵ Effective for annual periods beginning on or after 1st July 2011
- ⁶ Effective for annual periods beginning on or after 1st January 2013

2. BASIS OF PREPARATION AND PRINCIPAL ACCOUNTING POLICIES (continued)

HKFRS 9 Financial Instruments introduces new requirements for the classification and measurement of financial assets and will be effective from 1st January 2013, with earlier application permitted. The standard requires all recognised financial assets that are within the scope of HKAS 39 Financial Instruments: Recognition and Measurement to be measured at either amortised cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost. All other debt investments and equity investments are measured at fair value. The application of HKAS 9 might affect the classification and measurement of the Group's financial assets.

The directors of the Company anticipate that the application of other new or revised standards, amendments or interpretations will have no material impact on the results and the financial position of the Group.

In the opinion of the directors, the loan is not expected to repay within twelve months after the reporting period. Accordingly, it is classified as non-current.

The Group has assessed CCIT's credit quality and considered to be of a good credit quality in view of the good prospect of the PIATS business despite of making loss at the development stage and the balance is not past due in accordance with the extension agreement at the reporting date. As at 30th September 2010, the HK\$26,438,000 (31st March 2010: HK\$26,137,000) loan receivable would otherwise be past due if the loan was not renegotiated. Accordingly, no impairment loss is required to recognise in the condensed consolidated financial statements.

16. ARBITRATION

On 29th October 2009, the Company received the Arbitration Notice issued by China International Economic and Trade Arbitration Commission ("CIETAC"). According to the Arbitration Notice, Oracle (China) Software Systems Co., Ltd (formerly known as Beijing Oracle Software Systems Co., Ltd.) ("Oracle Beijing") submitted an application in relation to an arbitration (the "Arbitration") on the dispute arising from the Payment Agreement signed by Oracle Beijing, CITIC 21CN (China) Technology Co., Ltd., the Company and Oracle Systems Hong Kong Limited on 30th May 2006. The Payment Agreement provided, among others, the settlement arrangement of license fee and service fee in relation to the Oracle License and Services Agreement in an aggregate amount of approximately RMB116 million against which approximately US\$11 million (approximately RMB88 million) deposit has been paid by the Group. The reason for the dispute over the Payment Agreement was that the parties to the agreements could not reach a consensus on the execution of the agreements.

On 23rd June 2010, the Company received the Arbitral Award ("Arbitral Award") handed down by CIETAC. The Arbitral Award resulted in the interest expenses for the period starting from the date on which the payment was due up to 1st October 2009 at 0.02% daily rate of RMB23,730,000 (equivalent to HK\$27,290,000) (31st March 2010: HK\$26,815,000) and legal and related costs of RMB1,300,000 (equivalent to HK\$1,495,000) (31st March 2010: HK\$1,480,000) to be borne by the Company. Accordingly, full provision of the aforesaid amounts has been made in the condensed consolidated financial statements for the year ended 31st March 2010.

On 19th October 2010, the Company made a written application ("Application") to set aside the Arbitral Award to the Beijing First Intermediate People's Court, which then notified to the Company by a written notice dated 21st October 2010 that it had decided to entertain the Application and the Application will be heard on 26th November 2010.

On 10th November 2010, the Company made an application to the High Court of the HKSAR by way of a Summons for the Order to be set aside and the hearing of the said Summons will be on 9th December 2010.
