The Group's profit attributable to equity holders of the Company for the three months ended 31 March 2016 amounted to approximately RMB53.1 million, representing an increase of approximately RMB34.2 million or approximately 181.5%, when compared with the corresponding period of approximately RMB18.8 million in 2015.

On 5 May 2016, the Company issued a positive profit alert to inform the shareholders (the "Shareholders") and potential investors of the Company that, based on the preliminary review of the unaudited consolidated management accounts of the Group for the three months ended 31 March 2016, it is anticipated that the Group will record profit attributable to the Shareholders of not less than RMB52.0 million (the "Expected Profits") for the three months ended 31 March 2016. The Expected Profits already exceeded the Group's profit attributable to the Shareholders of approximately RMB50.6 million for year ended 31 December 2015 and signal a significant improvement in the Group's financial performance when compared with the corresponding figures of approximately RMB18.8 million for the three months ended 31 March 2015.

The Directors believe that the incurrence of the expected improvement in financial performance is primarily attributable to (i) the continuous increase in sale of the Group's own-branded dairy products; and (ii) the turnaround in the financial performance of the operations in the Netherlands after the facilities upgrading plan in the Netherlands was completed in 2015.
