THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 31 DECEMBER 2007

Characteristics of the Growth Enterprise Market ("GEM") of The Stock Exchange of Hong Kong Limited (the "Stock Exchange")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this announcement, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors of Ming Kei Energy Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The directors of the Company, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this announcement is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this announcement misleading; and (3) all opinions expressed in this announcement have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

BUSINESS REVIEW AND PROSPECTS

During the nine months ended 31 December 2007, the Group recorded an increases in its turnover of approximately 4.0% as compared to the corresponding period in previous year. On 3 July 2007, the Company's indirectly wholly owned subsidiary – Star Fortune International Investment Company Limited entered into the sales and purchases agreement to acquire the entire issued share capital of Ming Kei Kai Yuan Investment Company Limited with a consideration of HK\$1 billion which satisfied as HK\$70,000,000 by cash, HK\$360,000,000 by shares, HK\$288,000,000 by convertible bonds and balance of HK\$282,000,000 by promissory note.

Considering the competitive and challenging business environment in the logistics industry, the logistics business do not expect to have significant future growth nor contribution to the financial results of the Group. As a result, the Group decided to restrain from making further investments to the business of logistics.

SHARE OPTION SCHEME

The Company adopted a share option scheme (the "Scheme") on 26 October 2002 pursuant to a written resolution of the Company. On 21 May 2007, options to subscribe for an aggregate of 120,000,000 shares at HK\$0.45 per share had been granted by the Company under the Scheme. On 11 July 2007, all the 120,000,000 share options were exercised. On 11 October 2007, options to subscribe for an aggregate of 105,000,000 shares at HK\$0.888 per share had been granted by the Company under the Scheme and none of the 105,000,000 share options were exercised during the period under review. As at 31 December 2007, 105,000,000 share options granted under the Scheme were still outstanding. Particulars and movements of the share options granted under the Scheme were as follows:

Categories of grantees	Date of grant	Exercisable Period	Exercise Price per share HK\$	Closing Price at the date of grant HK\$	Outstanding as at 01/04/2007	Granted during the period	Exercise during the period	Outstanding as at 31/12/2007
Employees	21/05/2007	21/05/2007-22/05/2017	0.450	0.355	-	68,000,000	(68,000,000)	-
Consultants	21/05/2007	21/05/2007-22/05/2017	0.450	0.355	-	52,000,000	(52,000,000)	-
Employees	11/10/2007	11/10/2007-12/10/2017	0.888	0.870	-	35,000,000	-	35,000,000
Consultants	11/10/2007	11/10/2007-12/10/2017	0.888	0.870	-	70,000,000	-	70,000,000
					-	225,000,000	(120,000,000)	105,000,000

The directors consider that it is inappropriate to state the value of the options granted under the Scheme on the ground that certain crucial factors for such valuation are variables such as the expected volatility and interest rate, which cannot be reasonably determined at this stage. Any valuation of the share options based on speculation assumptions in respect of these variables would not be meaningful and would be misleading to the shareholders of the Company.
