The figures have not been audited or reviewed by the Company's auditors.

**3. Where the figures have been audited, or reviewed, the auditors' report (including any qualifications or emphasis of a matter).**

Not applicable.

**4. Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

Except as disclosed in note 5, the Group has applied the same accounting policies and methods of computation in the financial statements for the current financial year compared with the audited financial statements for the financial year ended 31 December 2016.

5. **If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

The Group adopted the new and revised International Financial Reporting Standards (“IFRS”) and Interpretations of IFRS (“INT IFRS”) that are effective for annual periods beginning on or after 1 January 2017. The adoption of the above IFRS and INT IFRS did not have any significant impact on the financial statements of the Group.

### **Overview**

As one of the leading environmental protection companies in China focusing on water environment management, the Company is principally engaged in sponge city construction, river-basin ecological restoration, waste water treatment, water supply, reusable water, waste water source heat pump, sludge treatment and disposal, research and development of water environment technologies and engineering construction, etc.

As at 31 December 2017, the Group held 94 projects in total, with a total water treatment capacity of 5.34 million m<sup>3</sup>/day, including: 68 projects in operation, 5 projects completing construction, 4 projects under construction and 2 projects in preparatory stage in the area of waste water treatment; 4 water environment management projects under construction, which involve sponge city construction and a series of ecological restoration works; 1 water supply project under construction; 5 reusable water projects in operation; 2 waste water source heat pump projects and 2 sludge treatment and disposal projects in operation; in addition to a total of 87 kilometers of pipeline network and 10 pump stations. During FY2017, the Group treated an aggregate of 1,187,615,000 m<sup>3</sup> of waste water (FY2016: 1,148,279,000 m<sup>3</sup>).

In FY2017, the revenue of the Group increased by 44% to HKD3.59 billion compared with the revenue of HKD2.49 billion in FY2016. Gross profit of the Group increased from HKD905.65 million in FY2016 to HKD1.23 billion in FY2017, representing an increase of 36%. The profit of the Group increased from HKD372.62 million in FY2016 to HKD580.79 million in FY2017, representing a rise of 56%. The profit attributable to shareholders of the Company in FY2017 amounted to HKD513.36 million, which increased by 47% over FY2016. The increase was mainly due to the significant growth in revenue driven by continual expansion of the business. Thus, earnings per share increased by 46% to HKD0.196 in FY2017.

## **Consolidated Statement of Comprehensive Income**

### *Revenue*

Revenue increased by 44% from HKD2.49 billion in FY2016 to HKD3.59 billion in FY2017. The increase was attributable to the increase of HKD978.04 million in construction revenue, HKD62.43 million in operation service income and HKD57.12 million in finance income. The increase in construction revenue was mainly attributable to construction of several water environment management projects including the sponge city construction project and the river-basin ecological restoration project in addition to the expansion and upgrading of several waste water treatment plants which were under construction during FY2017. The increase in operation service income was the result of (i) commencement of operation of new projects; and (ii) tariff hikes for several projects during FY2017.

### *Cost of sales*

Cost of sales increased by 49% from HKD1.59 billion in FY2016 to HKD2.36 billion in FY2017. The increase was mainly due to the increase in construction cost arising from the increased construction services, which contributed to a construction revenue of HKD2.11 billion in FY2017 as compared to HKD1.13 billion in FY2016.

### *Gross profit margin*

Overall gross profit margin in FY2017 decreased to 34% (FY2016: 36%), which was mainly due to a larger portion of construction revenue recognised in the mix of the total revenue in FY2017 as compared with FY2016. Construction revenue comprised approximately 59% of total revenue in FY2017 (FY2016: 45%). In general, construction services have lower gross profit margin than operation services, and thus, a larger portion of construction revenue will dilute the overall gross profit margin. However, due to the tariff hikes for several projects during FY2017, the gross profit margin for operation services increased, and thus offset part of the impact of the larger portion of construction revenue.

### *Other income*

Other income increased by 2% to HKD129.81 million in FY2017 as compared with HKD127.67 million in FY2016. Other income mainly consisted of value-added tax (“VAT”) refund, government grants and other sundry income. The increase in other income was mainly due to the rise in VAT refund and government grants.

### *Administrative and other operating expenses*

Administrative and other operating expenses mainly consisted of staff costs, rental expenses, foreign exchange differences, legal and professional fees, research and development expenses and other taxes.

Administrative and other operating expenses slightly decreased by 4% from HKD298.25 million in FY2016 to HKD287.02 million in FY2017. The decrease was a combined effect of the following factors: (a) non-occurrence of foreign exchange losses arising from borrowings pegged to USD which were incurred in FY2016, (b) increase in business development expenses, research and development expenses and other operating expenses arising from business expansion of the Group in FY2017 and (c) increase in other taxes following the changes in tax interpretations by some local tax bureaus. The foregoing borrowings pegged to USD had been fully repaid by the end of July 2016, and no further foreign exchange losses related to such borrowings were recognised since then.

### *Finance costs*

Finance costs increased from HKD205.22 million in FY2016 to HKD241.39 million in FY2017. The increase was mainly due to the increase of the average balance of borrowings in FY2017 as compared to FY2016.

### *Income tax expense*

Income tax expense in FY2017 increased by 60% from HKD164.86 million in FY2016 to HKD263.81 million in FY2017. The increase in income tax expense was in line with the increase in profit before tax in FY2017.

## **Consolidated Statement of Financial Position**

### *Assets*

The total assets of the Group increased from HKD14.08 billion as at 31 December 2016 to HKD18.05 billion as at 31 December 2017, representing a growth of 28%. The increase in total assets was mainly attributable to the increase of service concession financial receivables, trade and other receivables and cash and cash equivalents.

Service concession financial receivables (including both current and non-current) increased from HKD8.97 billion as at 31 December 2016 to HKD11.51 billion as at 31 December 2017. The increase of HKD2.54 billion in service concession financial receivables was mainly attributable to the recognition of construction revenue for expansion and upgrading projects for several water plants, the sponge city construction project, the river-basin ecological restoration project and several water environment management projects during FY2017.

Trade and other receivables (including both current and non-current) of the Group increased from HKD598.60 million as at 31 December 2016 to HKD816.37 million as at 31 December 2017. The increase is primarily due to increase in other receivables (including both current and non-current) by HKD233.59 million during FY2017, which was driven by the increase in prepayments for construction works, VAT refund receivables, and pending deduct VAT on purchase\*.

### *Liabilities*

Total borrowings (including both current and non-current) increased by HKD1.74 billion. The increase was mainly due to the receipt of proceeds from borrowings amounting to approximately HKD3.10 billion, offset by repayment made for borrowings amounting to HKD1.59 billion in FY2017. Foreign exchange differences also had some impacts on the balance of the total borrowings.

Increase of HKD616.33 million in trade and other payables was mainly due to the increase in construction payables.

The Group was in a net current asset position of HKD1.31 billion as at 31 December 2017, representing an increase of HKD487.65 million from HKD825.67 million as at 31 December 2016.

### *Equity*

The Group's total equity amounted to HKD8.54 billion as at 31 December 2017 (31 December 2016: HKD7.19 billion). The increase was mainly due to the followings: (a) recognition of profit amounting to HKD580.79 million in FY2017; (b) recognition of foreign currency translation gains of HKD587.89 million arising from the appreciation of RMB against HKD in FY2017; (c) the decrease of HKD11.93 million in equity due to declaration and payment of 2016 final dividend in FY2017; (d) capital contribution of HKD214.80 million from non-controlling shareholders of subsidiaries in People's Republic of China (the "PRC") during FY2017; and (e) the decrease of HKD21.45 million due to distribution of dividends to a non-controlling shareholder of a subsidiary in the PRC during FY2017.

\* *Pending deduct VAT on purchase represents the excess amount of input VAT over output VAT available for future deduction in the calculation of VAT payment.*

## Consolidated Statement of Cash Flows

Cash and cash equivalents increased from HKD1.36 billion as at 31 December 2016 to HKD2.07 billion as at 31 December 2017. Cash and cash equivalents included in the consolidated statement of cash flows is reconciled as follows:

	<b>31 December 2017 HKD'000</b>	31 December 2016 HKD'000
Cash and cash equivalents per consolidated statement of financial position	<b>2,716,692</b>	1,902,741
Less: Restricted bank balances	<b>(547,278)</b>	(543,340)
Balances in financial institutions	<b>(95,000)</b>	–
	<hr/>	<hr/>
Cash and cash equivalents per consolidated statement of cash flows	<b><u>2,074,414</u></b>	<b><u>1,359,401</u></b>

### *Cash flows from operating activities*

The Group had cash inflow of HKD1.19 billion before working capital changes during FY2017 (FY2016: HKD795.65 million). Changes in working capital and payment of income tax resulted in cash outflow of HKD1.38 billion and HKD73.86 million respectively. As a result, the Group recorded a net cash outflow of HKD264.26 million from operating activities. The changes in working capital arose mainly from:

- (a) increase in service concession financial receivables by HKD1.92 billion;
- (b) decrease in inventories by HKD0.86 million;
- (c) increase in trade and other receivables by HKD173.25 million; and
- (d) increase in trade and other payables by HKD712.16 million.

### *Cash flows from investing activities*

In FY2017, the Group recorded a net cash outflow of HKD390.86 million from investing activities. The cash outflow mainly arose from payments for purchase of property, plant and equipment of HKD9.74 million, payments for purchase of intangible assets of HKD221.41 million during FY2017 and increase in fixed deposit with maturity period over three months and balances in financial institutions by HKD172.76 million. This was partially offset by receipt of interest of HKD12.46 million and proceeds from disposals of property, plant and equipment of HKD0.58 million during the year.

### *Cash flows from financing activities*

The Group recorded a net cash inflow from financing activities of HKD1.28 billion in FY2017. The net cash inflow was caused by:

- (a) expenses of HKD0.17 million paid in connection with the issue of shares pursuant to scrip dividend scheme;
- (b) receipt of net proceeds from borrowings of HKD1.51 billion;
- (c) net decrease in amounts due to related parties of HKD233.96 million;
- (d) dividend paid of HKD12.35 million;
- (e) payment of interest of HKD198.75 million; and
- (f) capital contributions from non-controlling shareholders of HKD214.80 million.

### **Subsequent events**

On 23 February 2018, the Company announced that it had incorporated a subsidiary known as E+B Umwelttechnik GmbH in Germany to carry out technology research and development and provide engineering, procurement and construction services.

- 9. Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**

None.

- 10. A commentary at the date of the announcement of the competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting year and the next 12 months.**

The Group kept a “high efficiency, high quality” development momentum in FY2017, with new projects expanding and all construction works progressing smoothly. It set foot in new businesses like water supply and standalone pipeline network projects, and expanded geographical footprint to Hubei Province and Guangxi Zhuang Autonomous Region. As a result, the Group secured 14 new projects in the year, which involved a total investment of RMB6.081 billion, with the numbers of projects that commenced and completed construction both reaching a record high. Under the ethos of “technology leads development”, the Group boosted investment in research and development (“R&D”), and actively optimised its organisation structure, talent pool and technology system. It achieved remarkable progress in a number of R&D topics, and its industrial-academic collaboration model greatly facilitated efforts in solving R&D challenges and commercialising R&D results. Furthermore, in FY2017, the Company received approvals from the regulatory authorities of the PRC to issue RMB-denominated corporate bonds of up to RMB2.5 billion in aggregate principal amount, and successfully completed the issuance of the initial tranche of the bonds with a principal amount of RMB1 billion. This signified the Group’s substantial progress in exploring new investment and financing modes.

In FY2017, the Chinese government accelerated the ecological conservation progress and paid unprecedented attention to water environment management. Major national policies, including “Water Pollution Prevention and Control Plan for Major River Basins (2016-2020)”, followed the directions of the “Water Pollution Prevention and Control Plan”, and further clarified the major directions of water environment management and defined responsibilities of authorities at all levels for the sector. The newly amended “Water Pollution Prevention and Control Law of the PRC” came into force on 1 January 2018, providing a strong foundation to standardize and regulate the sector. In addition, the PRC stressed the importance of creating an environmental governance system in which the government takes the lead, enterprises assume main responsibility, and social organisations and the public also participate. This provides a resolute guidance for environmental protection enterprises to explore opportunities and set their positions.

The Group believes that, under the guidance of the “sustainable development strategies” for the country’s ecological conservation, the water environment management sector will continue its golden era and keep the strong development momentum. The Group will continue paying close attention to the country’s water environment management policies at all levels, exploring new development models in the sector, strengthening R&D capability, enhancing corporate management proficiency with intelligent and information systems, promoting talent development strategies, optimising financing channels and financial structure, and striving to maintain its momentum of “making steady progress and forging ahead for the future”, in order to work its way through opportunities and challenges.
