

## EVERBRIGHT INTERNATIONAL SECURES LANKAO WASTE-TO-ENERGY PROJECT IN HENAN PROVINCE

**4 November 2015, Hong Kong** – China Everbright International Limited ("Everbright International" or the "Group") (HKSE: 00257) is pleased to announce that the Group has signed a concession agreement for a household waste-to-energy project with the People's Government of Lankao County in Henan Province. The Group will invest in the construction of the Lankao Waste-to-energy Project ("Lankao Project").

The Lankao Project will be constructed on a BOO (Build-Operate-Own) basis with a concession period of 30 years. It has a designed daily household waste processing capacity of 800 tonnes, and will be constructed in two phases. Phase I of the project has a daily household waste processing capacity of 500 tonnes, with a total investment of approximately RMB280 million. Gas emissions will fully comply with the Euro 2000 Standard and it is expected to generate approximately 52,000,000 kWh of green electricity annually.

In addition, Everbright International has also signed an investment cooperation framework agreement for an environmental protection veinous industrial park with the People's Government of Lankao County. The Group is expected to invest approximately RMB3 billion in the construction of a number of environmental protection projects, including the aforementioned household waste-to-energy project, water restoration projects, biomass integrated utilisation projects and hazardous waste integrated treatment projects etc. over the next three to five years. These projects will provide one-stop comprehensive integrated services to facilitate the environmental management of Lankao County.

**Mr. Chen Xiaoping, CEO of Everbright International**, said, "As the environmental protection market evolves, Everbright International has implemented the strategy of growing its business from coastal cities to inland areas based on its insights on market trends. Last year, the Group secured waste-to-energy projects in several inland provinces including Anhui, Hunan, Henan, and Sichuan. These landmark projects demonstrate the Group's expansion from coastal cities – its traditional development area – to inland areas. The agreement for the Lankao environmental protection veinous industrial park not only reflects the trust and recognition of the People's

Government of Lankao County in Everbright International, but also shows the Group has further strengthened its regional planning. Adhering to the principle of Implementing Projects with One Success Followed by Another, Everbright International aims to build first-class quality pilot projects of the highest standards to contribute to the environmental restoration of Lankao County.”

**-End-**

About China Everbright International Limited

China Everbright International Limited focuses on its core businesses in environmental energy, environmental water and greentech. These mainly include waste-to-energy, hazardous waste integrated treatment, biomass integrated utilisation, solar photovoltaic energy, wind power, methane-to-energy, water restoration, environmental protection engineering, technological research and development, environmental protection equipment manufacturing as well as the planning and construction of environmental protection industrial parks.
